

Single Feasible Source Purchase

Title: Alert System for Care Coordination for Children in Emergency and Inpatient Hospital Care

Description: The Department of Social Services, Children's Division is seeking to purchase "admit, discharge and transfer" (ADT) alerts and data from Hospital Industry Data Institute (HIDI) obtainable only through HIDI and its participating hospital members through an ADT solutions program that was developed by HIDI. To use the ADT data it acquires from HIDI to provide effective care coordination for foster children who need emergency room and/or inpatient hospital care.
