

# ICD-10 UPDATE

Jay Ludlam, MHD Deputy Division Director

October 2015

# What is ICD-10

2

- Replaces ICD-9 code sets used to report medical diagnoses and inpatient procedures
- Affects diagnosis and inpatient procedure coding, depending on date of service (DOS):
  - Claims for services provided on or after 10/1/15 to be submitted with ICD-10 diagnosis codes.
  - Claims for services provided prior to 10/1/15 to be submitted with ICD-9 diagnosis codes.

# Technical Impact

3

- Claims/encounter processing systems
- Prior authorization processing systems
- Databases
- Interfaces and data transfers between systems

# Business & Work Flow Impact

4

- Claim and authorization policies reviewed
- Business rules reviewed and updated
- Reporting – logic to generate & usage
