

# FFY 2022 VOCA Award

## **VOCA Award Methodology**

### **Current Providers (Had contracts from November 1, 2019 through March 30, 2022):**

Award (contract amount) is based on the lesser of the average of the previous award from November 1, 2019 through September 30, 2021, and the bid.

### **Regional Providers:**

For bidders who were previously not in regions, but now are, there is not a previous award for each region. The previous award amount is calculated for the region based on the amount requested for the region as a percentage of the total for all regions.

### **New Providers:**

Award (contract amount) is lesser of the bid amount and the average award amount for the region.

### **All Providers:**

No award (contract) if the score is under 20.

# Technical Proposal Score Sheet

**TECHNICAL PROPOSAL NFO VOCA FY22-FY25 EVALUATION**  
**AGENCY: 15th Judicial Circuit**

**Evaluation of Technical Proposal** - The Technical Proposal should present a proposed methodology, approach, and work plan that demonstrates the method or manner in which the agency proposes to satisfy the Scope of Work requirements. The following represents the evaluation committee's ratings and points assigned to each element of each of the contractor's proposed methodology, approach and work plan (29 Pages).

Element	Rating	Points Assigned	Points Possible	Findings
<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Satisfactory	10	15	Met requirements, there is a history of Services , however did lacked some clarity. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding.
Brief summary of the proposed project				
<b>Total Points for Section A/Summary/Agency Information</b>		<b>10</b>	<b>15</b>	
<b>Section B/Issue Statement/Type of Victim/Data - 5 pts - 5 pages</b>				
Stated the issue funding requested through the NFO.	Satisfactory	3	5	The proposal contains relevant data from official sources to support the need for services in the area. The response provides a finite and reasonable estimate of the number of each victim type that will be served. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding.
Described the problem, citing current, relevant data from an official source or sources to demonstrate the need for the victim type(s) (spousal abuse/domestic violence, sexual assault, child abuse, underserved) that funding requested through this NFO will serve. Provide an estimate of the number of each victim type that will be served using these funds.				
<b>5 Total Points for Section B/Issue Statement/Type of Victim/Data</b>		<b>3</b>	<b>5</b>	
<b>Section C/Services - 25 pts - 5 pages</b>				
Included a description of the services every victim will be offered that will be paid for in whole or in part from funding through the proposed project	Satisfactory	15	25	The proposal clearly describes the services every victim will be offered. The proposal describes a variety of additional services that are available if a victim has additional needs beyond the minimum services. The services proposed are reasonable in scope and delivery and offer benefit to victims beyond the stated requirements. The proposal clearly states the current capacity and provides at least one solution to handle situations when the facility is at full capacity. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding.
Identified any additional services the agency makes available to some victims.				
Described how the agency determines which of the additional services will be offered to the victim.				
Clearly identified if the agency is proposing to offer a service it does not currently provide utilizing any portion of this funding.				
<b>Total Points for Section C/Services</b>		<b>15</b>	<b>25</b>	
<b>Section D/Performance Metrics - 5 pts - 4 pages</b>				
Provided the performance metrics the agency will use to determine if the program is successful. Included an example of the metrics the agency intends to report.	Limited Points	1	5	The performance metrics are limited in scope with some direct relationship to the proposal. The performance metrics provide a baseline of data, but the metrics are not relevant. Data variations or anomalies were not explained, and the explanation is unclear. Performance targets are incomplete. The example provided has little relevance to the metrics described. The outcomes emphasized qualitative data cannot be clearly measured rather than quantitative data. The proposal meets some of the requirements but offers few benefits beyond the minimal requirements. Little confidence in response. Unclear where information was obtained.
<b>Total Points for Section D/Performance Metrics</b>		<b>1</b>	<b>5</b>	
<b>Section E/Public Awareness/Victim Access to Services/Outreach - 5 points - 4 pages</b>				

Described how victims will access the services described in the agency's proposal.	Satisfactory	3	5	The proposal includes a description for how victims access the services described in the proposal and includes more than one access point. The proposal describes a strategy to advertise its services that is broad in scope and includes some variety in the types of medium. The proposal describes a variety of outreach methods to make the public aware of the services. The proposal includes a description of specific population groups and includes some information about tailored advertisement and outreach methods applied to reach special population groups. The proposal contains relevant data from official sources to inform the advertisement and outreach strategy. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding.
Described the type of medium (ie social media, display ads, print, broadcast, outdoor, direct (paper) mail, email etc) and included specific information about how the medium is used (ie the agency provided one direct mail to all households in the service area 1x per year).				
Described outreach methods used by the agency to ensure the public is aware of the services the agency offers (in-person presentations, board member engagement, faith based community activities, partner events, collaborations, etc.)				
Included a description of any specific populations and specialized, tailored outreach methods the agency utilizes to reach these populations.				
Described the data used to inform the advertisement and outreach strategy.				
<b>Total Points for Section E/Public Awareness/Victim Access to Services/Outreach</b>		<b>3</b>	<b>5</b>	
<b>Section F /Community Coordination- 5 pts - 3 pages</b>				
Provided a summary of the partners the agency utilizes. Included name of organization, type of organization (ie for profit/faith based, etc) the agency utilizes to maximize the services it provides.	Satisfactory	3	5	The proposal clearly describes the partners the agency works with. The proposal includes a coordination of effort with some variety of partners to deliver the services described in the proposal and wrap-around services the client needs to attain socio-economical independence. The proposal provides an example of the partners and a project of medium or large scope. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding.
Described how the agency will coordinate the activities of the project with other organizations within the community.				
Provided one (1) example of an effective agency/partnership arrangement the agency has used in the past twelve (12) months.

AGENCY: AD HOC GROUP**

**Evaluation of Technical Proposal** - The Technical Proposal should present a proposed methodology, approach, and work plan that demonstrates the method or manner in which the agency proposes to satisfy the Scope of Work requirements. The following represents the evaluation committee's ratings and points assigned to each element of each of the contractor's proposed methodology, approach and work plan (29 Pages).

Element	Rating	Points Assigned	Points Possible	Findings
<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Distinctive	15	15	The summary is very clear and concise. Background information includes a brief history of the agency, current programs, the demographic served, and where services are provided. The proposal clearly describes at least three (3) years of effective, direct service. Aspects of the proposed project are unique and services do not overlap with other similar services provided in close proximity. The project exceeds the overall goals of the program/funding. Very high confidence in the response.

<b>Section B/Issue Statement/Type of Victim/Data - 5 pts - 5 pages</b>				
Stated the issue funding requested through the NFO.	Satisfactory	3	5	The issue statement is clear. Information about the problem is clear and concise. The proposal contains some relevant data from official sources to support the need for services in the area. The response provides a finite and reasonable estimate of the number of each victim type that will be served. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described the problem, citing current, relevant data from an official source or sources to demonstrate the need for the victim type(s) (spousal abuse/domestic violence, sexual assault, child abuse, underserved) that funding requested through this NFO will serve. Provide an estimate of the number of each victim type that will be served using these funds.

<b>Section C/Services - 25 pts - 5 pages</b>				
Included a description of the services every victim will be offered that will be paid for in whole or in part from funding through the proposed project	Distinctive	25	25	The proposal clearly describes the services every victim will be offered. The proposal describes a wide variety of additional services that are available if a victim has additional needs beyond the minimum services. Services address a comprehensive array of needs for victims of all ages, backgrounds and lifestyles. The proposal clearly defines how and to whom additional services will be provided. The proposal clearly identifies existing services and any services that will be new. The services proposed are reasonable in scope and delivery and offer significant benefit to victims beyond the stated requirements. The proposal clearly states the current capacity and provides several solutions to handle situations when the facility is at full capacity. Very high confidence in the response.
Identified any additional services the agency makes available to some victims.				
Described how the agency determines which of the additional services will be offered to the victim.				
Clearly identified if the agency is proposing to offer a service it does not currently provide utilizing any portion of this funding.

<b>Section D/Performance Metrics - 5 pts - 4 pages</b>				
Provided the performance metrics the agency will use to determine if the program is successful. Included an example of the metrics the agency intends to report.	Satisfactory	3	5	The performance metrics are clear, agency wide in scope or relate directly to the proposal. The performance metrics provide a baseline of relevant data from the past one (1) to three (3) years. Data variations or anomalies are explained. The performance targets are included. The example provided has relevance to the metrics described. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.

<b>Section E/Public Awareness/Victim Access to Services/Outreach - 5 points - 4 pages</b>				
Described how victims will access the services described in the agency's proposal.				

Described the type of medium (ie social media, display ads, print, broadcast, outdoor, direct (paper) mail, email etc) and included specific information about how the medium is used (ie the agency provided one direct mail to all households in the service area 1x per year).	Satisfactory	3	5	The proposal includes a description for how victims access the services described in the proposal and includes more than one access point. The proposal describes a strategy to advertise its services that is broad in scope and includes some variety in the types of medium. The proposal describes a variety of outreach methods to make the public aware of the services. The proposal includes a description of specific population groups and includes some information about tailored advertisement and outreach methods applied to reach special population groups. The proposal contains relevant data from official sources to inform the advertisement and outreach strategy. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described outreach methods used by the agency to ensure the public is aware of the services the agency offers (in-person presentations, board member engagement, faith based community activities, partner events, collaborations, etc.)				
Included a description of any specific populations and specialized, tailored outreach methods the agency utilizes to reach these populations.

The proposal describes a strategy to advertise its services that is narrow in scope or includes limited variety in the types of medium. The proposal describes limited outreach methods to make the public aware of the services. The proposal includes a description of specific population groups but includes little information about tailored advertisement or outreach methods applied to reach special population groups. The proposal contains data to support the need for services in the area, though some of the information is dated, irrelevant or comes from unofficial sources. The proposal meets some of the requirements but offers few benefits beyond the minimal requirements for the program/funding. Little confidence in response. Unclear information about tailored outreach and how they obtained data that informs outreach
Described the type of medium (ie social media, display ads, print, broadcast, outdoor, direct (paper) mail, email etc) and included specific information about how the medium is used (ie the agency provided one direct mail to all households in the service area 1x per year).				
Described outreach methods used by the agency to ensure the public is aware of the services the agency offers (in-person presentations, board member engagement, faith based community activities, partner events, collaborations, etc.)				
Included a description of any specific populations and specialized, tailored outreach methods the agency utilizes to reach these populations.				
Described the data used to inform the advertisement and outreach strategy.

# TECHNICAL PROPOSAL NFO VOCA FY22-FY25 EVALUATION

## AGENCY: CASA Southwest

**Evaluation of Technical Proposal** - The Technical Proposal should present a proposed methodology, approach, and work plan that demonstrates the method or manner in which the agency proposes to satisfy the Scope of Work requirements. The following represents the evaluation committee's ratings and points assigned to each element of each of the contractor's proposed methodology, approach and work plan (29 Pages).

Element	Rating	Points Assigned	Points Possible	Findings
<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Distinctive	15	15	The summary is very clear and concise. Background information includes a brief history of the agency, current programs, the demographic served, and where services are provided. The proposal clearly describes at least three (3) years of effective, direct service. Aspects of the proposed project are unique and services do not overlap with other similar services provided in close proximity. The project exceeds the overall goals of the program/funding. Very high confidence in the response. Good sited information, discussed standards, discussed what ot tales to be a volunteer.

<b>Section B/Issue Statement/Type of Victim/Data - 5 pts - 5 pages</b>				
Stated the issue funding requested through the NFO.	Distinctive	5	5	The issue statement is clear. Information about the problem is clear and concise. The proposal contains recent, relevant data from official sources to support the need for services in the area. The response provides a finite and reasonable estimate of the number of each victim type that will be served. The estimate of numbers served is reasonable and is clearly tied to relevant data and has a clear tie to the problem stated in the proposal. Very high confidence in the response. Great use of Data and assessments.
Described the problem, citing current, relevant data from an official source or sources to demonstrate the need for the victim type(s) (spousal abuse/domestic violence, sexual assault, child abuse, underserved) that funding requested through this NFO will serve. ## TECHNICAL PROPOSAL NFO VOCA FY22-FY25 EVALUATION

### AGENCY: Child Protection center

**Evaluation of Technical Proposal** - The Technical Proposal should present a proposed methodology, approach, and work plan that demonstrates the method or manner in which the agency proposes to satisfy the Scope of Work requirements. The following represents the evaluation committee's ratings and points assigned to each element of each of the contractor's proposed methodology, approach and work plan (29 Pages).

Element	Rating	Points Assigned	Points Possible	Findings
<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Satisfactory	10	15	The summary is clear and concise. Background information includes a history of the agency, current programs, the demographic served, and where services are provided. The proposal clearly describes at least (1) year of effective, direct service. Aspects of the proposed project are unique and services do not overlap with other similar services provided in close proximity. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.

# TECHNICAL PROPOSAL NFO VOCA FY22-FY25 EVALUATION

## AGENCY: Child Safe Northwest

**Evaluation of Technical Proposal** - The Technical Proposal should present a proposed methodology, approach, and work plan that demonstrates the method or manner in which the agency proposes to satisfy the Scope of Work requirements. The following represents the evaluation committee's ratings and points assigned to each element of each of the contractor's proposed methodology, approach and work plan (29 Pages).

Element	Rating	Points Assigned	Points Possible	Findings
<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Satisfactory	10	15	The summary is clear and concise. Background information includes a history of the agency, current programs, the demographic served, and where services are provided. The proposal clearly describes at least (1) year of effective, direct service. Aspects of the proposed project are unique and services do not overlap with other similar services provided in close proximity. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Brief summary of the proposed project				
<b>Total Points for Section A/Summary/Agency Information</b>		<b>10</b>	<b>15</b>	
<b>Section B/Issue Statement/Type of Victim/Data - 5 pts - 5 pages</b>				
Stated the issue funding requested through the NFO.	Satisfactory	3	5	The issue statement is clear. Information about the problem is clear and concise. The proposal contains relevant data from official sources to support the need for services in the area, though some the information is dated. The response provides a finite and reasonable estimate of the number of each victim type that will be served. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described the problem, citing current, relevant data from an official source or sources to demonstrate the need for the victim type(s) (spousal abuse/domestic violence, sexual assault, child abuse, underserved) that funding requested through this NFO will serve. Provide an estimate of the number of each victim type that will be served using these funds.				
<b>5 Total Points for Section B/Issue Statement/Type of Victim/Data</b>		<b>3</b>	<b>5</b>	
<b>Section C/Services - 25 pts - 5 pages</b>				
Included a description of the services every victim will be offered that will be paid for in whole or in part from funding through the proposed project	Satisfactory	15	25	The proposal clearly describes the services every victim will be offered. The proposal describes a variety of additional services that are available if a victim has additional needs beyond the minimum services. Services address an array of needs for victims of any age, background and lifestyle. The proposal clearly defines how and to whom additional services will be provided. The proposal clearly identifies existing services and any services that will be new. The services proposed are reasonable in scope and delivery and offer benefit to victims beyond the stated requirements. The proposal clearly states the current capacity and provides at least one solution to handle situations when the facility is at full capacity. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Identified any additional services the agency makes available to some victims.				
Described how the agency determines which of the additional services will be offered to the victim.				
Clearly identified if the agency is proposing to offer a service it does not currently provide utilizing any portion of this funding.				
<b>Total Points for Section C/Services</b>		<b>15</b>	<b>25</b>	
<b>Section D/Performance Metrics - 5 pts - 4 pages</b>				
Provided the performance metrics the agency will use to determine if the program is successful. Included an example of the metrics the agency intends to report.	Limited	1	5	The performance metrics are limited in scope with some direct relationship to the proposal. The performance metrics provide a baseline of data, but the metrics are not relevant. Data variations or anomalies are explained, but the explanation is unclear. Performance targets are incomplete. The example provided has little relevance to the metrics described. The proposal meets some of the requirements but offers few benefits beyond the minimal requirements. Little confidence in response. Missing target metrics.
<b>Total Points for Section D/Performance Metrics</b>		<b>1</b>	<b>5</b>	
<b>Section E/Public Awareness/Victim Access to Services/Outreach - 5 points - 4 pages</b>				

Described how victims will access the services described in the agency's proposal.	Limited	1	5	The proposal includes a limited description for how victims access the services described in the proposal and includes one access point. The proposal describes a strategy to advertise its services that is narrow in scope or includes limited variety in the types of medium. The proposal describes limited outreach methods to make the public aware of the services. The proposal includes a description of specific population groups but includes little information about tailored advertisement or outreach methods applied to reach special population groups. The proposal contains data to support the need for services in the area, though some of the information is dated, irrelevant or comes from unofficial sources. The proposal meets some of the requirements but offers few benefits beyond the minimal requirements for the program/funding. Little confidence in response. Did not clearly describe tailored outreach or data.
Described the type of medium (ie social media, display ads, print, broadcast, outdoor, direct (paper) mail, email etc) and included specific information about how the medium is used (ie the agency provided one direct mail to all households in the service area 1x per year).				
Described outreach methods used by the agency to ensure the public is aware of the services the agency offers (in-person presentations, board member engagement, faith based community activities, partner events, collaborations, etc.)				
Included a description of any specific populations and specialized, tailored outreach methods the agency utilizes to reach these populations.				
Described the data used to inform the advertisement and outreach strategy.				
<b>Total Points for Section E/Public Awareness/Victim Access to Services/Outreach</b>		<b>1</b>	<b>5</b>	
<b>Section F /Community Coordination- 5 pts - 3 pages</b>				
Provided a summary of the partners the agency utilizes. Included name of organization, type of organization (ie for profit/faith based, etc) the agency utilizes to maximize the services it provides.	Satisfactory	3	5	The proposal clearly describes the partners the agency works with. The proposal includes a coordination of effort with some variety of partners to deliver the services described in the proposal and wrap-around services the client needs to attain socio-economical independence. The proposal provides an example including multiple partners and a project of medium or large scope. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described how the agency will coordinate the activities of the project with other organizations within the community.				
Provided one (1) example of an effective agency/partnership arrangement the agency has used in the past twelve (12) months.

## TECHNICAL PROPOSAL NFO VOCA FY22-FY25 EVALUATION

### AGENCY: Christos House Southwest

**Evaluation of Technical Proposal** - The Technical Proposal should present a proposed methodology, approach, and work plan that demonstrates the method or manner in which the agency proposes to satisfy the Scope of Work requirements. The following represents the evaluation committee's ratings and points assigned to each element of each of the contractor's proposed methodology, approach and work plan (29 Pages).

Element	Rating	Points Assigned	Points Possible	Findings
<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Satisfactory	10	15	The summary is clear and concise. Background information includes a history of the agency, current programs, the demographic served, and where services are provided. The proposal clearly describes at least (1) year of effective, direct service. Aspects of the proposed project are unique and services do not overlap with other similar services provided in close proximity. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Brief summary of the proposed project

<b>Section B/Issue Statement/Type of Victim/Data - 5 pts - 5 pages</b>				
Stated the issue funding requested through the NFO.	Satisfactory	3	5	The issue statement is clear. Information about the problem is clear and concise. The proposal contains relevant data from official sources to support the need for services in the area, though some the information is dated. The response provides a finite and reasonable estimate of the number of each victim type that will be served. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described the problem, citing current, relevant data from an official source or sources to demonstrate the need for the victim type(s) (spousal abuse/domestic violence, sexual assault, child abuse, underserved) that funding requested through this NFO will serve. <b>Section C/Services - 25 pts - 5 pages</b>				
Included a description of the services every victim will be offered that will be paid for in whole or in part from funding through the proposed project	Satisfactory	15	25	The proposal clearly describes the services every victim will be offered. The proposal describes a variety of additional services that are available if a victim has additional needs beyond the minimum services. Services address an array of needs for victims of any age, background and lifestyle. The proposal clearly defines how and to whom additional services will be provided. The proposal clearly identifies existing services and any services that will be new. The services proposed are reasonable in scope and delivery and offer benefit to victims beyond the stated requirements. The proposal clearly states the current capacity and provides at least one solution to handle situations when the facility is at full capacity. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.

<b>Section E/Public Awareness/Victim Access to Services/Outreach - 5 points - 4 pages</b>				

Described how victims will access the services described in the agency's proposal.	Satisfactory	3	5	The proposal includes a description for how victims access the services described in the proposal and includes more than one access point. The proposal describes a strategy to advertise its services that is broad in scope and includes some variety in the types of medium. The proposal describes a variety of outreach methods to make the public aware of the services. The proposal includes a description of specific population groups and includes some information about tailored advertisement and outreach methods applied to reach special population groups. The proposal contains relevant data from official sources to inform the advertisement and outreach strategy. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described the type of medium (ie social media, display ads, print, broadcast, outdoor, direct (paper) mail, email etc) and included specific information about how the medium is used (ie the agency provided one direct mail to all households in the service area 1x per year).				
Described outreach methods used by the agency to ensure the public is aware of the services the agency offers (in-person presentations, board member engagement, faith based community activities, partner events, collaborations, etc.)				
Included a description of any specific populations and specialized, tailored outreach methods the agency utilizes to reach these populations.				
Described the data used to inform the advertisement and outreach strategy.

Stated the issue funding requested through the NFO.	Satisfactory	3	5	The issue statement is clear. Information about the problem is clear and concise. The proposal contains relevant data from official sources to support the need for services in the area, though some the information is dated. The response provides a finite and reasonable estimate of the number of each victim type that will be served. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described the problem, citing current, relevant data from an official source or sources to demonstrate the need for the victim type(s) (spousal abuse/domestic violence, sexual assault, child abuse, underserved) that funding requested through this NFO will serve. Provide an estimate of the number of each victim type that will be served using these funds.

<b>Section C/Services - 25 pts - 5 pages</b>				
Included a description of the services every victim will be offered that will be paid for in whole or in part from funding through the proposed project	Satisfactory	15	25	The proposal clearly describes the services every victim will be offered. The proposal describes a variety of additional services that are available if a victim has additional needs beyond the minimum services. Services address an array of needs for victims of any age, background and lifestyle. The proposal clearly defines how and to whom additional services will be provided. The proposal clearly identifies existing services and any services that will be new. The services proposed are reasonable in scope and delivery and offer benefit to victims beyond the stated requirements. The proposal clearly states the current capacity and provides at least one solution to handle situations when the facility is at full capacity. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.

Described how victims will access the services described in the agency's proposal.	Limited	1	5	The proposal includes a limited description for how victims access the services described in the proposal and includes one access point. The proposal describes a strategy to advertise its services that is narrow in scope or includes limited variety in the types of medium. The proposal describes limited outreach methods to make the public aware of the services. The proposal includes a description of specific population groups but includes little information about tailored advertisement or outreach methods applied to reach special population groups. The proposal contains data to support the need for services in the area, though some of the information is dated, irrelevant or comes from unofficial sources. The proposal meets some of the requirements but offers few benefits beyond the minimal requirements for the program/funding. Little confidence in response. Did not describe data.
Described the type of medium (ie social media, display ads, print, broadcast, outdoor, direct (paper) mail, email etc) and included specific information about how the medium is used (ie the agency provided one direct mail to all households in the service area 1x per year).				
Described outreach methods used by the agency to ensure the public is aware of the services the agency offers (in-person presentations, board member engagement, faith based community activities, partner events, collaborations, etc.)				
Included a description of any specific populations and specialized, tailored outreach methods the agency utilizes to reach these populations.

**TECHNICAL PROPOSAL NFO VOCA FY22-FY25 EVALUATION**  
**AGENCY: Council on Families in Crisis**

**Evaluation of Technical Proposal** - The Technical Proposal should present a proposed methodology, approach, and work plan that demonstrates the method or manner in which the agency proposes to satisfy the Scope of Work requirements. The following represents the evaluation committee's ratings and points assigned to each element of each of the contractor's proposed methodology, approach and work plan (29 Pages).

Element	Rating	Points Assigned	Points Possible	Findings
<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Satisfactory	10	15	The summary is clear and concise. Background information includes a history of the agency, current programs, the demographic served, and where services are provided. The proposal clearly describes at least (1) year of effective, direct service. Aspects of the proposed project are unique and services do not overlap with other similar services provided in close proximity. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Brief summary of the proposed project				
<b>Total Points for Section A/Summary/Agency Information</b>		<b>10</b>	<b>15</b>	
<b>Section B/Issue Statement/Type of Victim/Data - 5 pts - 5 pages</b>				
Stated the issue funding requested through the NFO.	Satisfactory	3	5	The issue statement is clear. Information about the problem is clear and concise. The proposal contains relevant data from official sources to support the need for services in the area, though some the information is dated. The response provides a finite and reasonable estimate of the number of each victim type that will be served. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described the problem, citing current, relevant data from an official source or sources to demonstrate the need for the victim type(s) (spousal abuse/domestic violence, sexual assault, child abuse, underserved) that funding requested through this NFO will serve. Provide an estimate of the number of each victim type that will be served using these funds.

<b>Section C/Services - 25 pts - 5 pages</b>				
Included a description of the services every victim will be offered that will be paid for in whole or in part from funding through the proposed project	Distinctive	25	25	The proposal clearly describes the services every victim will be offered. The proposal describes a wide variety of additional services that are available if a victim has additional needs beyond the minimum services. Services address a comprehensive array of needs for victims of all ages, backgrounds and lifestyles. The proposal clearly defines how and to whom additional services will be provided. The proposal clearly identifies existing services and any services that will be new. The services proposed are reasonable in scope and delivery and offer significant benefit to victims beyond the stated requirements. The proposal clearly states the current capacity and provides several solutions to handle situations when the facility is at full capacity. Very high confidence in the response. Very descriptive and creative services.
Identified any additional services the agency makes available to some victims.				
Described how the agency determines which of the additional services will be offered to the victim.				
Clearly identified if the agency is proposing to offer a service it does not currently provide utilizing any portion of this funding.

<b>Section E/Public Awareness/Victim Access to Services/Outreach - 5 points - 4 pages</b>				

Described how victims will access the services described in the agency's proposal.	Satisfactory	3	5	The proposal includes a description for how victims access the services described in the proposal and includes more than one access point. The proposal describes a strategy to advertise its services that is broad in scope and includes some variety in the types of medium. The proposal describes a variety of outreach methods to make the public aware of the services. The proposal includes a description of specific population groups and includes some information about tailored advertisement and outreach methods applied to reach special population groups. The proposal contains relevant data from official sources to inform the advertisement and outreach strategy. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described the type of medium (ie social media, display ads, print, broadcast, outdoor, direct (paper) mail, email etc) and included specific information about how the medium is used (ie the agency provided one direct mail to all households in the service area 1x per year).				
Described outreach methods used by the agency to ensure the public is aware of the services the agency offers (in-person presentations, board member engagement, faith based community activities, partner events, collaborations, etc.)				
Included a description of any specific populations and specialized, tailored outreach methods the agency utilizes to reach these populations.

**TECHNICAL PROPOSAL NFO VOCA FY22-FY25 EVALUATION**  
**AGENCY: County of Reynolds**

**Evaluation of Technical Proposal** - The Technical Proposal should present a proposed methodology, approach, and work plan that demonstrates the method or manner in which the agency proposes to satisfy the Scope of Work requirements. The following represents the evaluation committee's ratings and points assigned to each element of each of the contractor's proposed methodology, approach and work plan (29 Pages).

Element	Rating	Points Assigned	Points Possible	Findings
<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Satisfactory	10	15	. Background information includes a history of the agency, current programs, the demographic served, and where services are provided. The proposal clearly describes at least (1) year of effective, direct service. Aspects of the proposed project are unique and services do not overlap with other similar services provided in close proximity. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.

<b>Section B/Issue Statement/Type of Victim/Data - 5 pts - 5 pages</b>				
Stated the issue funding requested through the NFO.	Satisfactory	3	5	The issue statement is clear. Information about the problem is clear and concise. The proposal contains relevant data from official sources to support the need for services in the area, though some the information is dated. The response provides a finite and reasonable estimate of the number of each victim type that will be served. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described the problem, citing current, relevant data from an official source or sources to demonstrate the need for the victim type(s) (spousal abuse/domestic violence, sexual assault, child abuse, underserved) that funding requested through this NFO will serve. Provide an estimate of the number of each victim type that will be served using these funds.

Described how victims will access the services described in the agency's proposal.				

Described the type of medium (ie social media, display ads, print, broadcast, outdoor, direct (paper) mail, email etc) and included specific information about how the medium is used (ie the agency provided one direct mail to all households in the service area 1x per year).	Limited	1	5	The proposal includes a limited description for how victims access the services described in the proposal and includes one access point. The proposal describes a strategy to advertise its services that is narrow in scope or includes limited variety in the types of medium. The proposal describes limited outreach methods to make the public aware of the services. The proposal includes a description of specific population groups but includes little information about tailored advertisement or outreach methods applied to reach special population groups. The proposal contains data to support the need for services in the area, though some of the information is dated, irrelevant or comes from unofficial sources. The proposal meets some of the requirements but offers few benefits beyond the minimal requirements for the program/funding. Little confidence in response. Limited information regarding data.
Described outreach methods used by the agency to ensure the public is aware of the services the agency offers (in-person presentations, board member engagement, faith based community activities, partner events, collaborations, etc.)				
Included a description of any specific populations and specialized, tailored outreach methods the agency utilizes to reach these populations.

Stated the issue funding requested through the NFO.	Satisfactory	3	5	The issue statement is clear. Information about the problem is clear and concise. The proposal contains relevant data from official sources to support the need for services in the area, though some the information is dated. The response provides a finite and reasonable estimate of the number of each victim type that will be served. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described the problem, citing current, relevant data from an official source or sources to demonstrate the need for the victim type(s) (spousal abuse/domestic violence, sexual assault, child abuse, underserved) that funding requested through this NFO will serve. Provide an estimate of the number of each victim type that will be served using these funds.

Included a description of the services every victim will be offered that will be paid for in whole or in part from funding through the proposed project	Limited	5	25	The proposal is somewhat unclear in the description of the services every victim will be offered. The proposal describes few additional services that are available if a victim has additional needs beyond the minimum services, but the additional services are limited in scope. The proposal provides little information about how and to whom additional services will be provided. The proposal provides little information about whether the services are existing or new. The proposal provides limited information about the capacity and offers little information about how the agency handles situations when the facility is at full capacity. The proposal meets some of the requirements but offers few benefits beyond the minimal requirements. Little confidence in response. Limited information regarding additional services and eligibility. Limited information if services offered are new.

Described how victims will access the services described in the agency's proposal.	Limited	1	5	The proposal includes a limited description for how victims access the services described in the proposal and includes one access point. The proposal describes a strategy to advertise its services that is narrow in scope or includes limited variety in the types of medium. The proposal describes limited outreach methods to make the public aware of the services. The proposal includes a description of specific population groups but includes little information about tailored advertisement or outreach methods applied to reach special population groups. The proposal contains data to support the need for services in the area, though some of the information is dated, irrelevant or comes from unofficial sources. The proposal meets some of the requirements but offers few benefits beyond the minimal requirements for the program/funding. Little confidence in response. Missing data.
Described the type of medium (ie social media, display ads, print, broadcast, outdoor, direct (paper) mail, email etc) and included specific information about how the medium is used (ie the agency provided one direct mail to all households in the service area 1x per year).				
Described outreach methods used by the agency to ensure the public is aware of the services the agency offers (in-person presentations, board member engagement, faith based community activities, partner events, collaborations, etc.)				
Included a description of any specific populations and specialized, tailored outreach methods the agency utilizes to reach these populations.				
Described the data used to inform the advertisement and outreach strategy.

<b>Section E/Public Awareness/Victim Access to Services/Outreach - 5 points - 4 pages</b>				

Described how victims will access the services described in the agency's proposal.	Limited	1	5	The proposal includes a limited description for how victims access the services described in the proposal and includes one access point. The proposal describes a strategy to advertise its services that is narrow in scope or includes limited variety in the types of medium. The proposal describes limited outreach methods to make the public aware of the services. The proposal includes a description of specific population groups but includes little information about tailored advertisement or outreach methods applied to reach special population groups. The proposal contains data to support the need for services in the area, though some of the information is dated, irrelevant or comes from unofficial sources. The proposal meets some of the requirements but offers few benefits beyond the minimal requirements for the program/funding. Little confidence in response. Did not describe tailored outreach or data.
Described the type of medium (ie social media, display ads, print, broadcast, outdoor, direct (paper) mail, email etc) and included specific information about how the medium is used (ie the agency provided one direct mail to all households in the service area 1x per year).				
Described outreach methods used by the agency to ensure the public is aware of the services the agency offers (in-person presentations, board member engagement, faith based community activities, partner events, collaborations, etc.)				
Included a description of any specific populations and specialized, tailored outreach methods the agency utilizes to reach these populations.

## TECHNICAL PROPOSAL NFO VOCA FY22-FY25 EVALUATION

### AGENCY:

**Evaluation of Technical Proposal** - The Technical Proposal should present a proposed methodology, approach, and work plan that demonstrates the method or manner in which the agency proposes to satisfy the Scope of Work requirements. The following represents the evaluation committee's ratings and points assigned to each element of each of the contractor's proposed methodology, approach and work plan (29 Pages).

Element	Rating	Points Assigned	Points Possible	Findings
<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Satisfactory	10	15	The proposal describes the partners the agency works with. The proposal includes a coordination of effort with little variety of partners to deliver the services described in the proposal and wrap-around services the client needs to attain socio-economical independence. The proposal provides an example including a limited number of partners and a small scope. The proposal meets some of the requirements but offers few benefits beyond the minimal requirements. Little confidence in response.
Brief summary of the proposed project				
<b>Total Points for Section A/Summary/Agency Information</b>		<b>10</b>	<b>15</b>	
<b>Section B/Issue Statement/Type of Victim/Data - 5 pts - 5 pages</b>				
Stated the issue funding requested through the NFO.	Satisfactory	3	5	The issue statement is clear. Information about the problem is clear and concise. The proposal contains relevant data from official sources to support the need for services in the area, though some the information is dated. The response provides a finite and reasonable estimate of the number of each victim type that will be served. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described the problem, citing current, relevant data from an official source or sources to demonstrate the need for the victim type(s) (spousal abuse/domestic violence, sexual assault, child abuse, underserved) that funding requested through this NFO will serve. Provide an estimate of the number of each victim type that will be served using these funds.				
<b>5 Total Points for Section B/Issue Statement/Type of Victim/Data</b>		<b>3</b>	<b>5</b>	
<b>Section C/Services - 25 pts - 5 pages</b>				
Included a description of the services every victim will be offered that will be paid for in whole or in part from funding through the proposed project	Limited	5	25	The issue statement is clear. Information about the problem is clear and concise. The proposal contains relevant data from official sources to support the need for services in the area, though some the information is dated. The response provides a finite and reasonable estimate of the number of each victim type that will be served. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response. Limited information regarding additional services, eligibility, or if anything would be new.
Identified any additional services the agency makes available to some victims.				
Described how the agency determines which of the additional services will be offered to the victim.				
Clearly identified if the agency is proposing to offer a service it does not currently provide utilizing any portion of this funding.				
<b>Total Points for Section C/Services</b>		<b>5</b>	<b>25</b>	
<b>Section D/Performance Metrics - 5 pts - 4 pages</b>				
Provided the performance metrics the agency will use to determine if the program is successful. Included an example of the metrics the agency intends to report.	Satisfactory	3	5	The performance metrics are clear, agency wide in scope or relate directly to the proposal. The performance metrics provide a baseline of relevant data from the past one (1) to three (3) years. Data variations or anomalies are explained. The performance targets are included. The example provided has relevance to the metrics described. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.
<b>Total Points for Section D/Performance Metrics</b>		<b>3</b>	<b>5</b>	
<b>Section E/Public Awareness/Victim Access to Services/Outreach - 5 points - 4 pages</b>				

Described how victims will access the services described in the agency's proposal.	Limited	1	5	The proposal includes a limited description for how victims access the services described in the proposal and includes one access point. The proposal describes a strategy to advertise its services that is narrow in scope or includes limited variety in the types of medium. The proposal describes limited outreach methods to make the public aware of the services. The proposal includes a description of specific population groups but includes little information about tailored advertisement or outreach methods applied to reach special population groups. The proposal contains data to support the need for services in the area, though some of the information is dated, irrelevant or comes from unofficial sources. The proposal meets some of the requirements but offers few benefits beyond the minimal requirements for the program/funding. Little confidence in response. Missing data and limited outreach information.
Described the type of medium (ie social media, display ads, print, broadcast, outdoor, direct (paper) mail, email etc) and included specific information about how the medium is used (ie the agency provided one direct mail to all households in the service area 1x per year).				
Described outreach methods used by the agency to ensure the public is aware of the services the agency offers (in-person presentations, board member engagement, faith based community activities, partner events, collaborations, etc.)				
Included a description of any specific populations and specialized, tailored outreach methods the agency utilizes to reach these populations.				
Described the data used to inform the advertisement and outreach strategy.				
<b>Total Points for Section E/Public Awareness/Victim Access to Services/Outreach</b>		<b>1</b>	<b>5</b>	
<b>Section F /Community Coordination- 5 pts - 3 pages</b>				
Provided a summary of the partners the agency utilizes. Included name of organization, type of organization (ie for profit/faith based, etc) the agency utilizes to maximize the services it provides. Described how victims will access the services described in the agency's proposal.	Limited	1	5	The proposal includes a limited description for how victims access the services described in the proposal and includes one access point. The proposal describes a strategy to advertise its services that is narrow in scope or includes limited variety in the types of medium. The proposal describes limited outreach methods to make the public aware of the services. The proposal includes a description of specific population groups but includes little information about tailored advertisement or outreach methods applied to reach special population groups. The proposal contains data to support the need for services in the area, though some of the information is dated, irrelevant or comes from unofficial sources. The proposal meets some of the requirements but offers few benefits beyond the minimal requirements for the program/funding. Little confidence in response. Missing Information and data. Little information on advertising and no data.
Described the type of medium (ie social media, display ads, print, broadcast, outdoor, direct (paper) mail, email etc) and included specific information about how the medium is used (ie the agency provided one direct mail to all households in the service area 1x per year).				
Described outreach methods used by the agency to ensure the public is aware of the services the agency offers (in-person presentations, board member engagement, faith based community activities, partner events, collaborations, etc.)				
Included a description of any specific populations and specialized, tailored outreach methods the agency utilizes to reach these populations.

The proposal contains relevant data from official sources to support the need for services in the area, though some the information is dated. The response provides a finite and reasonable estimate of the number of each victim type that will be served. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described the problem, citing current, relevant data from an official source or sources to demonstrate the need for the victim type(s) (spousal abuse/domestic violence, sexual assault, child abuse, underserved) that funding requested through this NFO will serve. Provide an estimate of the number of each victim type that will be served using these funds.

<b>Section C/Services - 25 pts - 5 pages</b>				
Included a description of the services every victim will be offered that will be paid for in whole or in part from funding through the proposed project	Satisfactory	15	25	The proposal clearly describes the services every victim will be offered. The proposal describes a variety of additional services that are available if a victim has additional needs beyond the minimum services. Services address an array of needs for victims of any age, background and lifestyle. The proposal clearly defines how and to whom additional services will be provided. The proposal clearly identifies existing services and any services that will be new. The services proposed are reasonable in scope and delivery and offer benefit to victims beyond the stated requirements. The proposal clearly states the current capacity and provides at least one solution to handle situations when the facility is at full capacity. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.

**Evaluation of Technical Proposal** - The Technical Proposal should present a proposed methodology, approach, and work plan that demonstrates the method or manner in which the agency proposes to satisfy the Scope of Work requirements. The following represents the evaluation committee's ratings and points assigned to each element of each of the contractor's proposed methodology, approach and work plan (29 Pages).

Element	Rating	Points Assigned	Points Possible	Findings
<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Satisfactory	10	15	The summary is clear and concise. Background information includes a history of the agency, current programs, the demographic served, and where services are provided. The proposal clearly describes at least (1) year of effective, direct service. Aspects of the proposed project are unique and services do not overlap with other similar services provided in close proximity. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.

Described how victims will access the services described in the agency's proposal.	Limited	1	5	The proposal includes a limited description for how victims access the services described in the proposal and includes one access point. The proposal describes a strategy to advertise its services that is narrow in scope or includes limited variety in the types of medium. The proposal describes limited outreach methods to make the public aware of the services. The proposal includes a description of specific population groups but includes little information about tailored advertisement or outreach methods applied to reach special population groups. The proposal contains data to support the need for services in the area, though some of the information is dated, irrelevant or comes from unofficial sources. The proposal meets some of the requirements but offers few benefits beyond the minimal requirements for the program/funding. Little confidence in response. Missing tailored outreach.
Described the type of medium (ie social media, display ads, print, broadcast, outdoor, direct (paper) mail, email etc) and included specific information about how the medium is used (ie the agency provided one direct mail to all households in the service area 1x per year).				
Described outreach methods used by the agency to ensure the public is aware of the services the agency offers (in-person presentations, board member engagement, faith based community activities, partner events, collaborations, etc.)				
Included a description of any specific populations and specialized, tailored outreach methods the agency utilizes to reach these populations.				
Described the data used to inform the advertisement and outreach strategy.

<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Satisfactory	10	15	The summary is clear and concise. Background information includes a history of the agency, current programs, the demographic served, and where services are provided. The proposal clearly describes at least (1) year of effective, direct service. Aspects of the proposed project are unique and services do not overlap with other similar services provided in close proximity. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.

Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Satisfactory	10	15	The summary is clear and concise. Background information includes a history of the agency, current programs, the demographic served, and where services are provided. The proposal clearly describes at least (1) year of effective, direct service. Aspects of the proposed project are unique and services do not overlap with other similar services provided in close proximity. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.

<b>Section B/Issue Statement/Type of Victim/Data - 5 pts - 5 pages</b>				
Stated the issue funding requested through the NFO.	Satisfactory	3	5	The issue statement is clear. Information about the problem is clear and concise. The proposal contains relevant data from official sources to support the need for services in the area, though some the information is dated. The response provides a finite and reasonable estimate of the number of each victim type that will be served. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described the problem, citing current, relevant data from an official source or sources to demonstrate the need for the victim type(s) (spousal abuse/domestic violence, sexual assault, child abuse, underserved) that funding requested through this NFO will serve. Provide an estimate of the number of each victim type that will be served using these funds.

<b>Section C/Services - 25 pts - 5 pages</b>				
Included a description of the services every victim will be offered that will be paid for in whole or in part from funding through the proposed project	Satisfactory	15	25	The proposal clearly describes the services every victim will be offered. The proposal describes a variety of additional services that are available if a victim has additional needs beyond the minimum services. Services address an array of needs for victims of any age, background and lifestyle. The proposal clearly defines how and to whom additional services will be provided. The proposal clearly identifies existing services and any services that will be new. The services proposed are reasonable in scope and delivery and offer benefit to victims beyond the stated requirements. The proposal clearly states the current capacity and provides at least one solution to handle situations when the facility is at full capacity. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.

## TECHNICAL PROPOSAL NFO VOCA FY22-FY25 EVALUATION

### AGENCY: Rainbow House

**Evaluation of Technical Proposal** - The Technical Proposal should present a proposed methodology, approach, and work plan that demonstrates the method or manner in which the agency proposes to satisfy the Scope of Work requirements. The following represents the evaluation committee's ratings and points assigned to each element of each of the contractor's proposed methodology, approach and work plan (29 Pages).

Element	Rating	Points Assigned	Points Possible	Findings
<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Satisfactory	10	15	The summary is clear and concise. Background information includes a history of the agency, current programs, the demographic served, and where services are provided. The proposal clearly describes at least (1) year of effective, direct service. Aspects of the proposed project are unique and services do not overlap with other similar services provided in close proximity. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.

Described how victims will access the services described in the agency's proposal.	Satisfactory	3	5	The proposal includes a description for how victims access the services described in the proposal and includes more than one access point. The proposal describes a strategy to advertise its services that is broad in scope and includes some variety in the types of medium. The proposal describes a variety of outreach methods to make the public aware of the services. The proposal includes a description of specific population groups and includes some information about tailored advertisement and outreach methods applied to reach special population groups. The proposal contains relevant data from official sources to inform the advertisement and outreach strategy. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described the type of medium (ie social media, display ads, print, broadcast, outdoor, direct (paper) mail, email etc) and included specific information about how the medium is used (ie the agency provided one direct mail to all households in the service area 1x per year).				
Described outreach methods used by the agency to ensure the public is aware of the services the agency offers (in-person presentations, board member engagement, faith based community activities, partner events, collaborations, etc.)				
Included a description of any specific populations and specialized, tailored outreach methods the agency utilizes to reach these populations.

## TECHNICAL PROPOSAL NFO VOCA FY22-FY25 EVALUATION

### AGENCY: Safe Passage

**Evaluation of Technical Proposal** - The Technical Proposal should present a proposed methodology, approach, and work plan that demonstrates the method or manner in which the agency proposes to satisfy the Scope of Work requirements. The following represents the evaluation committee's ratings and points assigned to each element of each of the contractor's proposed methodology, approach and work plan (29 Pages).

Element	Rating	Points Assigned	Points Possible	Findings
<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Limited	5	15	The summary is unclear. Background information is included, but lacks detail on history of the agency, current programs, the demographic served, and where services are provided. Some of the proposed project is unique while some services overlap with other similar services provided in close proximity. The response meets some of the requirements but offers few benefits beyond the minimal requirements. Little confidence in response. Limited information regarding proposed project.
Brief summary of the proposed project

<b>Section B/Issue Statement/Type of Victim/Data - 5 pts - 5 pages</b>				
Stated the issue funding requested through the NFO.	Satisfactory	3	5	The issue statement is clear. Information about the problem is clear and concise. The proposal contains relevant data from official sources to support the need for services in the area, though some of the information is dated. The response provides a finite and reasonable estimate of the number of each victim type that will be served. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described the problem, citing current, relevant data from an official source or sources to demonstrate the need for the victim type(s) (spousal abuse/domestic violence, sexual assault, child abuse, underserved) that funding requested through this NFO will serve. Provide an estimate of the number of each victim type that will be served using these funds.

<b>Section C/Services - 25 pts - 5 pages</b>				
Included a description of the services every victim will be offered that will be paid for in whole or in part from funding through the proposed project	Satisfactory	15	25	The proposal clearly describes the services every victim will be offered. The proposal describes a variety of additional services that are available if a victim has additional needs beyond the minimum services. Services address an array of needs for victims of any age, background and lifestyle. The proposal clearly defines how and to whom additional services will be provided. The proposal clearly identifies existing services and any services that will be new. The services proposed are reasonable in scope and delivery and offer benefit to victims beyond the stated requirements. The proposal clearly states the current capacity and provides at least one solution to handle situations when the facility is at full capacity. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Identified any additional services the agency makes available to some victims.				
Described how the agency determines which of the additional services will be offered to the victim.

<b>Section D/Performance Metrics - 5 pts - 4 pages</b>				
Provided the performance metrics the agency will use to determine if the program is successful. Included an example of the metrics the agency intends to report.	Satisfactory	3	5	The performance metrics are clear, agency wide in scope or relate directly to the proposal. The performance metrics provide a baseline of relevant data from the past one (1) to three (3) years. Data variations or anomalies are explained. The performance targets are included. The example provided has relevance to the metrics described. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.

**Evaluation of Technical Proposal** - The Technical Proposal should present a proposed methodology, approach, and work plan that demonstrates the method or manner in which the agency proposes to satisfy the Scope of Work requirements. The following represents the evaluation committee's ratings and points assigned to each element of each of the contractor's proposed methodology, approach and work plan (29 Pages).

Element	Rating	Points Assigned	Points Possible	Findings
<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Satisfactory	10	15	The summary is clear and concise. Background information includes a history of the agency, current programs, the demographic served, and where services are provided. The proposal clearly describes at least (1) year of effective, direct service. Aspects of the proposed project are unique and services do not overlap with other similar services provided in close proximity. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.

## TECHNICAL PROPOSAL NFO VOCA FY22-FY25 EVALUATION

### AGENCY: Susanna Wesley Family Learning Center

**Evaluation of Technical Proposal** - The Technical Proposal should present a proposed methodology, approach, and work plan that demonstrates the method or manner in which the agency proposes to satisfy the Scope of Work requirements. The following represents the evaluation committee's ratings and points assigned to each element of each of the contractor's proposed methodology, approach and work plan (29 Pages).

Element	Rating	Points Assigned	Points Possible	Findings
<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Satisfactory	10	15	The summary is clear and concise. Background information includes a history of the agency, current programs, the demographic served, and where services are provided. The proposal clearly describes at least (1) year of effective, direct service. Aspects of the proposed project are unique and services do not overlap with other similar services provided in close proximity. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Brief summary of the proposed project				
<b>Total Points for Section A/Summary/Agency Information</b>		<b>10</b>	<b>15</b>	
<b>Section B/Issue Statement/Type of Victim/Data - 5 pts - 5 pages</b>				
Stated the issue funding requested through the NFO.	Satisfactory	3	5	The issue statement is clear. Information about the problem is clear and concise. The proposal contains relevant data from official sources to support the need for services in the area, though some the information is dated. The response provides a finite and reasonable estimate of the number of each victim type that will be served. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described the problem, citing current, relevant data from an official source or sources to demonstrate the need for the victim type(s) (spousal abuse/domestic violence, sexual assault, child abuse, underserved) that funding requested through this NFO will serve. Provide an estimate of the number of each victim type that will be served using these funds.				
<b>5 Total Points for Section B/Issue Statement/Type of Victim/Data</b>		<b>3</b>	<b>5</b>	
<b>Section C/Services - 25 pts - 5 pages</b>				
Included a description of the services every victim will be offered that will be paid for in whole or in part from funding through the proposed project	Satisfactory	15	25	The proposal clearly describes the services every victim will be offered. The proposal describes a variety of additional services that are available if a victim has additional needs beyond the minimum services. Services address an array of needs for victims of any age, background and lifestyle. The proposal clearly defines how and to whom additional services will be provided. The proposal clearly identifies existing services and any services that will be new. The services proposed are reasonable in scope and delivery and offer benefit to victims beyond the stated requirements. The proposal clearly states the current capacity and provides at least one solution to handle situations when the facility is at full capacity. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Identified any additional services the agency makes available to some victims.				
Described how the agency determines which of the additional services will be offered to the victim.				
Clearly identified if the agency is proposing to offer a service it does not currently provide utilizing any portion of this funding.				
<b>Total Points for Section C/Services</b>		<b>15</b>	<b>25</b>	
<b>Section D/Performance Metrics - 5 pts - 4 pages</b>				
Provided the performance metrics the agency will use to determine if the program is successful. Included an example of the metrics the agency intends to report.	Limited	1	5	The performance metrics are limited in scope with some direct relationship to the proposal. The performance metrics provide a baseline of data, but the metrics are not relevant. Data variations or anomalies are explained, but the explanation is unclear. Performance targets are incomplete. The example provided has little relevance to the metrics described. The proposal meets some of the requirements but offers few benefits beyond the minimal requirements. Little confidence in response. Lacked clarity in data collection.
<b>Total Points for Section D/Performance Metrics</b>		<b>1</b>	<b>5</b>	
<b>Section E/Public Awareness/Victim Access to Services/Outreach - 5 points - 4 pages</b>				

Described how victims will access the services described in the agency's proposal.	Satisfactory	3	5	The proposal includes a description for how victims access the services described in the proposal and includes more than one access point. The proposal describes a strategy to advertise its services that is broad in scope and includes some variety in the types of medium. The proposal describes a variety of outreach methods to make the public aware of the services. The proposal includes a description of specific population groups and includes some information about tailored advertisement and outreach methods applied to reach special population groups. The proposal contains relevant data from official sources to inform the advertisement and outreach strategy. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described the type of medium (ie social media, display ads, print, broadcast, outdoor, direct (paper) mail, email etc) and included specific information about how the medium is used (ie the agency provided one direct mail to all households in the service area 1x per year).				
Described outreach methods used by the agency to ensure the public is aware of the services the agency offers (in-person presentations, board member engagement, faith based community activities, partner events, collaborations, etc.)				
Included a description of any specific populations and specialized, tailored outreach methods the agency utilizes to reach these populations.				
Described the data used to inform the advertisement and outreach strategy.				
<b>Total Points for Section E/Public Awareness/Victim Access to Services/Outreach</b>		<b>3</b>	<b>5</b>	
<b>Section F /Community Coordination- 5 pts - 3 pages</b>				
Provided a summary of the partners the agency utilizes. Included name of organization, type of organization (ie for profit/faith based, etc) the agency utilizes to maximize the services it provides.	Satisfactory	3	5	The proposal clearly describes the partners the agency works with. The proposal includes a coordination of effort with some variety of partners to deliver the services described in the proposal and wrap-around services the client needs to attain socio-economical independence. The proposal provides an example including multiple partners and a project of medium or large scope. The response meets all requirements but offers few benefits beyond the minimal requirements for the program/funding. Confidence in the response.
Described how the agency will coordinate the activities of the project with other organizations within the community.				
Provided one (1) example of an effective agency/partnership arrangement the agency has used in the past twelve (12) months.

## TECHNICAL PROPOSAL NFO VOCA FY22-FY25 EVALUATION

### AGENCY: TFI Family

**Evaluation of Technical Proposal** - The Technical Proposal should present a proposed methodology, approach, and work plan that demonstrates the method or manner in which the agency proposes to satisfy the Scope of Work requirements. The following represents the evaluation committee's ratings and points assigned to each element of each of the contractor's proposed methodology, approach and work plan (29 Pages).

Element	Rating	Points Assigned	Points Possible	Findings
<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Unsatisfactory	0	15	The summary is neither clear nor concise. Background information is limited or not included. The proposed project is unclear and duplication of most services is present. The response lacks detail in most, if not all areas. No confidence in response. While this appears to be a needed service in your catchment area, this does not appear to be a Missouri victim related service. Unclear information about proposed project.
Brief summary of the proposed project

**Evaluation of Technical Proposal** - The Technical Proposal should present a proposed methodology, approach, and work plan that demonstrates the method or manner in which the agency proposes to satisfy the Scope of Work requirements. The following represents the evaluation committee's ratings and points assigned to each element of each of the contractor's proposed methodology, approach and work plan (29 Pages).

Element	Rating	Points Assigned	Points Possible	Findings
<b>Section A/Summary/Agency Information - 15 pts - 8 pages</b>				
Background Information about the agency's history and experience and Facility(ies) (include information about general location and victim amenities).	Satisfactory	10	15	The summary is clear and concise. Background information includes a history of the agency, current programs, the demographic served, and where services are provided. The proposal clearly describes at least (1) year of effective, direct service. Aspects of the proposed project are unique and services do not overlap with other similar services provided in close proximity. The response meets all requirements but offers few significant benefits beyond the minimal requirements for the program/funding. Confidence in the response.

<b>Personnel - 10 pts - 3 pages</b>				
Identified total staffing (total number of staff, names, job titles, full time/part time and if the position will be funded using VOCA dollars) at the facility(ies) during the contract period. You must identify whether these are existing staff or if funding will be used to hire new positions.	Distinctive	10	10	All personnel have experience, qualifications, and/or demonstrated expertise working with VOCA or related services; possess qualifications in a way that promises significant benefits; staff has track record of delivering significant impact in complex and demanding situations, and/or recognized as leaders or emerging leaders among relevant peer groups; very high confidence with the stated qualifications. Staff has many years of experience specialized field.
Use the attached "Expertise of Key Personnel" form (one per employee) to describe the experience of no more than ten (10) key personnel. Key personnel may include the project managers or other integral members of the agency or project staff. Element	Rating	Points Assigned	Points Possible	Findings
<b>Personnel - 10 pts - 3 pages</b>				
Identified total staffing (total number of staff, names, job titles, full time/part time and if the position will be funded using VOCA dollars) at the facility(ies) during the contract period. You must identify whether these are existing staff or if funding will be used to hire new positions.	Limited	4	10	Staff names and tenure was missing. It was unclear if all personnel had VOCA or related experience; there are several significant weaknesses in relevant expertise; which present significant risks to project delivery; very little or no confidence with stated qualifications.
Use the attached "Expertise of Key Personnel" form (one per employee) to describe the experience of no more than ten (10) key personnel. Key personnel may include the project managers or other integral members of the agency or project staff. Element	Rating	Points Assigned	Points Possible	Findings
<b>Personnel - 10 pts - 3 pages</b>				
Identified total staffing (total number of staff, names, job titles, full time/part time and if the position will be funded using VOCA dollars) at the facility(ies) during the contract period. You must identify whether these are existing staff or if funding will be used to hire new positions.	Distinctive	10	10	Each position is described in detail. All personnel have lengthy experience, qualifications, and/or demonstrated expertise working with VOCA or related services; possess qualifications in a way that promises significant benefits; staff has track record of delivering significant impact in complex and demanding situations, and/or recognized as leaders or emerging leaders among relevant peer groups; very high confidence with the stated qualifications.
Use the attached "Expertise of Key Personnel" form (one per employee) to describe the experience of no more than ten (10) key personnel. Key personnel may include the project managers or other integral members of the agency or project staff. This is not a request for every résumé, Curriculum Vitae, or similar document for every member of the project/agency, but rather an opportunity for the agency to highlight the people, skills, and leadership that will contribute to the project.

<b>Volunteers - 10 pts - 2 pages</b>				
Identified the number of volunteers (unduplicated) the agency utilizes and the types of activities the volunteers perform at the agency.	Unsatisfactory	0	10	The agency's volunteer program practices are not comprehensive. The agency lacks recruitment strategies, provides little to no training or offers very few or no recognition activities. The training and retention plan lacks most, if not all, significant benefits, has not been tested, and has little potential for success. The proposal meets few, if any of the requirements. Appears that volunteers have not been used and there are no plan to in the future. The Parent Advisory Board is not explained and why it was created instead of recruiting volunteers. Questions were not answered. No confidence in response.
Described the agency's volunteer program practices including recruitment, training, supervision and recognition activities.
