CBEC Mission

To ensure that Missouri's early childhood programs and services are comprehensive, coordinated, accessible, adequately funded and of the highest quality to meet the needs and to promote the well-being of all young children and their families. This can be accomplished by (a) developing key partnerships, (b) building collaborative strategies and (c) ensuring equal access to necessary resources, resulting in the implementation of an effective and sustainable early childhood system.

MINUTES

- **MEDICAL HOME:** One of main objectives of strategic plan is the medical home model; the group discussed appropriate role for CBEC The Initiative started in Jan 2012 for persons of chronic illness and serious mental illness, but this initiative was written with adults in mind, though it covers children—the group suggested the possibility of focusing more on expansion of medical home model through Medicaid and Medicare, looking at a % that have had EPSDT screen, etc.
- **WORK GROUP MEMBERSHIP:** the group acknowledged more members and wider representation needed, and it was suggested that maybe someone from MOHealthNet should join the wk group. Mayme will try to set a call for after Thanksgiving when someone from MoHealth Net could join.
- **LAUNCH:** Patsy reminded the group that DMH received the LAUNCH grant and we would be discussing possible ideas and partnerships.
