Dr. Timothy Kling will try to join the meeting today to represent MHN. Patsy also reported that Daryl has taken another position with National PAT and is no longer ED for the CBEC. CBEC will be hiring a half time CBEC coordinator to assist in Board management.

MH Consultation Definition

The workgroup continued discussion and development of the definition for mental health consultation. The group is putting this in the context of the public health pyramid, moving from universal to young children with significant mental health needs/diagnosis. At each level discussion revolved around service components, qualifications of providers and site of consultation (family, home based child care, center based child care, health practitioners). Patsy will provide a document for review for November phone meeting for continued review and discussion.

MH Professional Curriculum

Shelley, Suzie and Judy continue to work on development of training content for initial training. Will present most recent version in either November or December. Discussed logistics of training including development of the learning collaborative. Also discussed this training's relationship to other early childhood mental health trainings with health practitioners and early childhood care providers.

EPSDT Screening Follow Up

Patsy provided a draft recommendation for the workgroup to review regarding use of CDC's "Learn the Signs. Act Early" campaign for s/e indicators for EPSDT/HCY screening. Recommendation was finalized and Patsy will submit to the CBEC for review and approval at the November or January meeting.
