Announcements:

I made updates to the website. I am gathering all previous meeting minutes and agendas for workgroups that met before I joined the board. If meeting minutes and agendas are not updated under each workgroup, let me know so I can have that information entered onto the webpage.

The calendar on the CBEC website has changed. It will show current month with meetings occurring that month. The current month will eventually disappear, allowing the next month to be the top of the screen. The calendar shows the workgroups dates, meeting places, and phone numbers.
