

LEAVE FOSTER CARE TOO SOON?

If you left foster care after you turned 17, you can come back into care if you're under 21 and were in care within the last two years.

Why re-enter foster care?

When you re-enter care, services will be provided by your previous case manager when possible, unless you request otherwise. You will get the same support and services you had before, such as:

- Housing
- Health care
- Clothing allowances
- Adult support

How do I apply?

Complete the Chafee Aftercare Support Application at: tinyurl.com/fostercareentry and submit it to your local Children's Division office. A juvenile officer or Children's Division team member can help you file your petition with the court.

Are there any requirements?

When coming back into care, you will be expected to:

- Participate in your case plan
- Meet with your worker, juvenile officer, and Chafee provider
- Go to school or work to help you become independent
