Mission Statement

OUR MISSION, in cooperation with Missouri Rehabilitation Services for the Blind, is to provide the blind and visually impaired citizens of Missouri with quality, low-cost Braille, Large Print and Narrated materials that meet their educational, occupational, and recreational needs; at the same time providing meaningful employment for qualified individuals of the Jefferson City Correctional Center.

About Us

The highly trained and dedicated professionals at CBNP not only take great pride in their commitment to providing low-cost, high-quality resources to the citizens of our communities, but they also take great pride in their determination to explore and utilize the latest technologies and mediums available—merging modern technologies and time-honored presentation to produce up-to-date, convenient, and efficient resources that open doors to opportunity and enrich the lives of visually impaired citizens they serve .

At the Center for Braille and Narration Production we convert printed material into alternative formats that are available on mediums from print to embossed to digital and audio formats.

Alternative formats available include Braille in hard copy & electronic via .brf* files: Literary and Textbook Format produced to Braille Association of North America standards, Nemeth Code: produced to National Braille Association: The Nemeth Braille Code for Mathematics and Scientific Notation standards, and Music Braille: produced to Braille Association of North America: Music Braille Code standards; Large Print in hard copy & electronic via .docx files—20-point Arial—and up to tabloid size pages (11x17); Text File: an electronic format provided on CD, flash drive, or SD card as a .txt file to be used with PCs via screen reading software, and other electronic devices; Narration: your textbooks, magazines, cookbooks, etc., narrated in CD/Audio format on CD; and MP3 format on CD, flash drive, or SD card.

Concerned you may have a book or manual that we can't handle? We convert magazines, periodicals, cookbooks, textbooks, technical materials, instruction manuals, programming guides, and yes, we can even convert that new computer, smart phone, or tablet user's guide.

* Only for literary and music Braille; does NOT include Nemeth Code.

https://dss.mo.gov/fsd/rsb/files/alternative-format-material-catalog.pdf

Braille — Minimum Charge: $10.00

Formats available for braille materials include:

Standard Braille: $.50 per transcribed (hard copy or .brf) page

Nemeth Code: $.50 per coded page

Copies from in-stock Braille transcriptions: $.50 per transcribed (.brf or coded) page

CBNP Narration FAQs

CBNP Audio Engineers...

…answer the most common questions asked about media types & available formats, and which of them fits a particular need.

How do I choose what's best for me?

What is the definition of the term format?

Format is defined as the type of digital files (MP3, CD Audio, etc.) contained on the media (CD, Flash drive, SD card).

How many format types does CBNP offer?

CBNP offers CD Audio or MP3 digital formats.

What is the definition of the term media?

Media is the type of device that contains the audio files (Example: CD, Flash Drive, SD card).

How many media types does CBNP offer?

CBNP offers three media options:

1. CD : For both CD Audio and MP3 formats.
2. Flash drive : A USB storage device for any PC, Tablet, Smart Phone, MP3 player or any device with a USB port.
3. SD card: for PC's, Tablets, Smart Phones, MP3 players and any device with an SD card slot.

What is CD Audio?

CD Audio is the standard format found on any commercial music CD. It is compatible in all home and car CD players including PC's.

What is an MP3?

An MP3 is a compressed version of the audio file, requiring less space on the media due to the smaller file size. MP3's may be placed on a CD; all digital formats may be placed on Flash drive or SD card. The following media has a capacity of:

CD MP3 10 to 12 hours of narration, or 5 to 6 hours of stereo Enhanced Audio tracks. All digital files can be played on a PC, Tablet, Smart Phone, portable MP3 player, etc. Some newer CD players will recognize both CD-Audio and CD-MP3 formats. Consult your user guide.

What media do I need to order?

If you want to...

1. ...listen to narration on a home or car CD player only, choose CD Audio.
2. ...listen to narration on a PC, Smart Phone, Tablet, MP3 player etc., you may choose from Flash drive or SD card (see above for capacity).

If you are still unsure about our narration products, please do not hesitate to call.
