June 16, 2003

Physician Bulletin

Due to budget constraints, paper copies of bulletins will no longer be distributed by DMS. Bulletins are now available only at the DMS Website.

Bulletins will remain on this site only until incorporated into the provider manuals as appropriate, then deleted.

Table of Contents

Table with 2 columns: Content and Page. Includes MC+ MANAGED CARE, 2003 CPT AND HCPCS UPDATE, FQHC/RHC INJECTION CODE UPDATE, CRITICAL CARE SERVICES CLARIFICATION, and Attachments A, B, and C.

MC+ MANAGED CARE

The information contained in this bulletin applies to coverage by the MC+ fee-for-service and Medicaid fee-for-service programs. The MC+ fee-for-service and Medicaid fee-for-service programs also provide coverage for those services carved out of the MC+ Managed Care benefit for MC+ Managed Care enrollees.

2003 CPT AND HCPCS UPDATE

July 1, 2003, Missouri Medicaid will begin accepting the 2003 versions of the Current Procedural Terminology (CPT) and the Health Care Procedure Coding System (HCPCS). The 2003 procedure codes have an effective date of July 1, 2003.

Providers may begin billing the 2003 CPT or HCPCS codes with appropriate modifier(s) for dates of service July 1, 2003 and after. A transition period will be given to allow time to make necessary changes. Providers may bill the old code through September 30, 2003.

Changes which occurred as a result of the update include additions (Attachment A) and discontinued (Attachment B).

Copies of the 2003 versions of the *Current Procedural Terminology* (CPT) and the *Health Care Procedure Coding System* (HCPCS) may be purchased from your local medical book store.

FQHC/RHC INJECTION CODE UPDATE

Federally Qualified Health Centers (FQHCs) and provider-based Rural Health Clinics (RHCs) must bill CPT or HCPCS Level II codes for injections and immunizations. Attachment C lists injection codes that have been added for FQHC/RHC providers as a result of the 2003 CPT/HCPCS updates.

CRITICAL CARE SERVICES CLARIFICATION

The 2003 CPT indicates 99291-99292 should be reported for the physician's attendance during the transport of critically ill or critically injured patients over 24 months of age to or from a facility or hospital. Reimbursement for physician's attendance during transport is not covered by Missouri Medicaid.

When services are provided to a critically ill neonate or young child in an intensive care unit that does not provide 24 hour direct physician supervision (not a PICU or NICU) procedure codes 99291-99292 should be used to report the actual minutes spent in direct care.

Procedure codes 99293-99294 are used to report physicians services provided in a Pediatric Intensive Care Unit (PICU) by a physician directing the care of a critically ill infant or young child from 31 days of postnatal age up through 24 months of age. Codes 99295 - 99296 report services provided by a physician directing the care of a neonate in a Neonatal Intensive Care Unit (NICU). 99298 - 99299 are used to report services subsequent to the day of admission provided by a physician directing the continuing intensive care of the low birth weight or very low birth weight infant who no longer meets the definition of critically ill. Procedure codes 99293-99299 are used when the health care team is under 24 hour direct physician supervision and may only be reported once a day.
