

## **May 12, 2009 Meeting Cancelation**

DAC Members:

Based on the recommendations given from the January 22, 2009 meeting, we are continuing to research alveoloplasties (D7310), occlusal guards (D9940) and the coverage of the Monodont Bridge (D6205). At this time, there are no additional questions and no final decisions related to coverage.

Bulletins related to Mandibular/Maxillary Partial Flexible Denture and Orthodontia Policy have been posted to the website. You may reference them at this link:

<http://www.dss.mo.gov/mhd/providers/pages/bulletins.htm>.

We are continuing to evaluate the procedure codes we should consider for reimbursement and the reimbursement levels within the Dental program. At this time there are no additional updates in this area.

We appreciate your willingness to take time out of your busy practices to travel to Jefferson City and participate in the meeting; however, we feel the limited agenda items listed above could be handled via e-mail this time, instead of holding a meeting. As we close out this fiscal year and legislative session, we should have a much fuller agenda for the August meeting. If you have any additional items to discuss please let us know. As always, please feel free to contact us should you have any questions.

**The next DAC meeting will be held August 13, 2009 and we will look forward to seeing you then.**
