

# SmartPA Criteria Proposal

<b>Drug/Drug Class:</b>	Antivirals, Herpes Oral PDL Edit
<b>First Implementation Date:</b>	May 23, 2007
<b>Proposed Date:</b>	March 18, 2021
<b>Prepared For:</b>	MO HealthNet
<b>Prepared By:</b>	MO HealthNet/Conduent
<b>Criteria Status:</b>	<input checked="" type="checkbox"/> Existing Criteria <input type="checkbox"/> Revision of Existing Criteria <input type="checkbox"/> New Criteria

## Executive Summary

**Purpose:** The MO HealthNet Pharmacy Program will implement a state-specific preferred drug list.

**Why Issue Selected:** Herpes simplex virus infections are the most common cause of genital ulceration in the United States, affecting at least 45 million people. There are two types of herpes simplex virus, HSV-1 and HSV-2. HSV-1 usually establishes latency in the trigeminal ganglion and produces lesions on the lip or face. HSV-2 resides in the sacral ganglion at the base of the spine and produces lesions and/or viral shedding in the genital area. HSV infections are chronic, life-long infections. Management of genital herpes includes counseling and methods to reduce transmission such as use of condoms, avoidance of sexual activity during infection recurrences, and suppressive antiviral therapy. Antivirals do not eradicate the infections, but rather partially control the signs and symptoms associated with the disease. These drugs are used for treatment of initial and recurrent episodes and as daily suppressive therapy to reduce the frequency of episodes.

Total program savings for the PDL classes will be regularly reviewed.

Program-Specific Information:	Preferred Agents	Non-Preferred Agents
	<ul style="list-style-type: none"> <li>Acyclovir Caps/Susp/Tab</li> <li>Valacyclovir</li> </ul>	<ul style="list-style-type: none"> <li>Famciclovir</li> <li>Valtrex®</li> <li>Zovirax® Caps/Susp/Tab</li> </ul>

**Type of Criteria:**  Increased risk of ADE  Preferred Drug List  
 Appropriate Indications  Clinical Edit

**Data Sources:**  Only Administrative Databases  Databases + Prescriber-Supplied

## Setting & Population

- Drug class for review: Antivirals – Herpes Oral
- Age range: All appropriate MO HealthNet participants

## Approval Criteria

- Failure to achieve desired therapeutic outcomes with trial on 2 or more preferred agents
  - Documented trial period for preferred agents
  - Documented ADE/ADR to preferred agents

## Denial Criteria

- Lack of adequate trial on required preferred agents
- Therapy will be denied if all approval criteria are not met

## Required Documentation

Laboratory Results:   
MedWatch Form:

Progress Notes:   
Other:

## Disposition of Edit

Denial: Exception Code "0160" (Preferred Drug List)  
Rule Type: PDL

## Default Approval Period

1 year
