

SmartPA Criteria Proposal

Drug/Drug Class:	Calcium Channel Blockers, Non-Dihydropyridine PDL Edit				
First Implementation Date:	September 1, 2004				
Proposed Date:	September 16, 2021				
Prepared For:	MO HealthNet				
Prepared By:	MO HealthNet/Conduent				
Criteria Status:	⊠Existing Criteria □Revision of Existing Criteria				
	□New Criteria				

Executive Summary

Purpose: The MO HealthNet Pharmacy Program will implement a state-specific preferred drug list.

Why Issue Selected: Calcium channel blocking agents slow the movement of calcium across the cell membrane resulting in the reduction of contraction of both smooth and cardiac muscle and cells within the heart and blood vessels. These agents are generally classified into two groups, according to their chemical structure: dihydropyridines (amlodipine, felodipine, isradipine, nicardipine, nifedipine, and nisoldipine), and nondihydropyridines (diltiazem and verapamil). Dihydropyridines (DHPs) have greater selectivity for vascular smooth muscle with little direct effect on the myocardium; nondihydropyridines (non-DHPs) have less selective vasodilator activity and have a direct effect on the myocardium.

Total program savings for the PDL classes will be regularly reviewed.

Program-Specific	Preferred Agents	Non-Preferred Agents			
Information:	 Cartia XT® Dilt XR Diltiazem CD Diltiazem HCI Diltiazem XR Taztia XT® Verapamil HCI Verapamil SR 	 Calan[®] Calan SR[®] Cardizem Cardizem CD[®] Cardizem LA[®] Diltiazem LA Tabs Matzim LA[®] Tiadylt[®] ER Tiazac[®] Verapamil ER PM Verelan[®] 			
Type of Criteria: Data Sources:	 □ Increased risk of ADE □ Appropriate Indications ⊠ Only Administrative Databases 	 Verelan PM[®] Preferred Drug List Clinical Edit Databases + Prescriber-Supplied 			

Setting & Population

- Drug class for review: Calcium Channel Blockers, Non-Dihydropyridine
- Age range: All appropriate MO HealthNet participants

Approval Criteria

- Failure to achieve desired therapeutic outcomes with trial on 2 or more preferred agents:
 - Documented trial period for preferred agents OR
 - Documented ADE/ADR to preferred agents

Denial Criteria

- Lack of adequate trial on required preferred agents
- Therapy will be denied if all approval criteria are not met

Laboratory Results: MedWatch Form: Progress Notes: Other:

Disposition of Edit

Denial: Exception Code "0160" (Preferred Drug List) Rule Type: PDL

Default Approval Period

1 year
