SmartPA Criteria Proposal

**Drug/Drug Class:** BiDil® Clinical Edit

**First Implementation Date:** August 24, 2006

**Revised Date:** February 13, 2020

**Prepared for:** MO HealthNet

**Prepared by:** MO HealthNet/Conduent

**Criteria Status:** ☒ Revision of Existing Criteria

---

**Executive Summary**

**Purpose:** Ensure appropriate utilization and control of BiDil® (isosorbide dinitrate and hydralazine hydrochloride)

**Why was this Issue Selected:** BiDil® (isosorbide dinitrate and hydralazine hydrochloride) is a combination of isosorbide dinitrate, a nitrate vasodilator, and hydralazine hydrochloride, an arteriolar vasodilator, initially FDA approved in 2005. It is still only available in a brand name formulation. BiDil is indicated for the treatment of heart failure as an adjunct therapy to standard therapy in self-identified black patients to improve survival, to prolong time to hospitalization for heart failure, and to improve patient-reported functional status. There are 5.7 million people living with heart failure in the United States, with about 670,000 people diagnosed each year. By 2030, the prevalence is expected to exceed 8 million. BiDil contains 20mg of isosorbide dinitrate and 37.5mg hydralazine hydrochloride; generic forms of each are individually available in oral tablets at significant lower costs of therapy.

**Type of Criteria:** ☒ Appropriate Indications  ☒ Clinical Edit

**Data Sources:** ☒ Only Administrative Databases  ☐ Databases + Prescriber-Supplied
Setting & Population

- Drug class for review: BiDil® (isosorbide dinitrate and hydralazine hydrochloride)
- Age range: All appropriate MO HealthNet participants aged 18 years and older

Approval Criteria

- Aged 18 years or older AND
- Documented diagnosis of heart failure in the past 2 years AND
- Documented compliance to previous BiDil therapy (defined as 90 days in the past 120 days) OR
- Documented trial of generic isosorbide dinitrate tablets and hydralazine tablets (defined as 60 days in the past 90 days)

Denial Criteria

- Therapy will be denied if no approval criteria are met

Disposition of Edit

Denial: Exception code “682” (Clinical Edit)
Rule Type: CE

Default Approval Period

1 year
