

DRUGS WITH COVERAGE LIMITATIONS AND NEW DRUG REVIEW

Please Note:

- Date Review Completed and Conclusion columns are blank for those products currently undergoing review. Details will be updated as efficiently as possible following initial review.
- Conclusions are based upon decisions made at the time reviews are completed; historical information is not updated. Product management is subject to change based on new clinical evidence, provider/public feedback, advisory committee recommendations, financial considerations, etc.
- This document contains approximately one year of New Drug details.
- Advisory Meeting Month = the month this recommendation will be presented at the quarterly [Drug Prior Authorization Committee \(DPAC\)](#) and [Drug Utilization Review \(DUR\) Board](#) meetings. For more information on each public advisory meeting, please utilize the Featured Links section for the meeting. For meeting dates, please see the MO HealthNet [Calendar of Events](#). Certain agents may also be discussed at the quarterly [Rare Disease Advisory Council](#) meeting immediately prior to their presentation at their designated DPAC/DUR meeting.
