<b>Drug/Drug Class:</b>	Prior Authorization Required Fiscal Edit
<b>First Implementation Date:</b>	May 14, 2020
<b>Revised Date:</b>	October 5, 2023
<b>Prepared for:</b>	MO HealthNet
<b>Prepared by:</b>	MO HealthNet/Conduent
<b>Criteria Status:</b>	<input type="checkbox"/> Existing Criteria <input checked="" type="checkbox"/> Revision of Existing Criteria <input type="checkbox"/> New Criteria

## Executive Summary

**Purpose:** Ensure appropriate control and utilization of high cost medications and prior authorization required items.

**Why Issue Selected:** Initiation of certain drug therapies can be costly to a prescription drug benefit program, especially when comparable agents are available with similar ingredients at a much lower cost. The use of excessively high cost medications solely for the convenience of either provider or participant is considered not medically necessary. Agents concluded to continue under prior authorization after the New Drug Review process due to clinical criteria or high cost will also be reviewed in this edit.

**Type of Criteria:**  Increased risk of ADE  Preferred Drug List  
 Appropriate Indications  Fiscal Edit

**Data Sources:**  Only Administrative Databases  Databases + Prescriber-Supplied

## Setting & Population

- Drug class for review: Prior Authorization Required Agents
- Age range: All appropriate MO HealthNet participants

## Approval Criteria

- Therapy will be approved if all denial criteria are not met

## Denial Criteria

- Claim is for an agent screened by this edit – see Appendix A

## Required Documentation
