METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES

The definition and determination of reasonable charge as administered by the MO HealthNet Division in establishing rates of payment for medical services will be that charge which most nearly reflects the provider's usual and customary charge to the general public for the service, as qualified by application of available prevailing charge resources and the upper and lower limitations of payment stipulated or optionally provided in Federal regulation.

If the funds at the disposal or which may be obtained by the MO HealthNet Division for the payment of medical assistance benefits on behalf of any person under one or more of the following specific medical services reimbursement methods, shall at any time become insufficient to pay the full amount thereof, then, pursuant to state law, the amount of any payment on behalf of each of such persons shall be reduced to pro rata in proportion to such deficiency in the total amount available or to become available for such purpose. In accordance with requirements of Title 42, Code of Federal Regulations, 447.204, the agency's payments will not be reduced beyond the point at which they become insufficient to enlist enough providers so services under the plan are available to recipients at least to the extent that those services are available to the general population.
