

SmartPA Criteria Proposal

Drug/Drug Class:	Ulcerative Colitis Agents – Oral PDL Edit
First Implementation Date:	June 19, 2012
Proposed Date:	March 19, 2020
Prepared For:	MO HealthNet
Prepared By:	MO HealthNet/Conduent
Criteria Status:	<input type="checkbox"/> Existing Criteria <input checked="" type="checkbox"/> Revision of Existing Criteria <input type="checkbox"/> New Criteria

Executive Summary

Purpose: The MO HealthNet Pharmacy Program will implement a state-specific preferred drug list.

Why Issue Selected: Ulcerative colitis (UC) is a chronic, inflammatory bowel disease that affects roughly one million people in the United States. There is currently no cure for this disease state but the 2018 American Gastroenterological Association guidelines on the management of mild-to-moderate UC offer recommendations on providing symptom relief and improving quality of life through long-term remission. The treatment recommendations include the 5-aminoosalicylic class of medication which consists of balsalazide, mesalamine, olsalazine and sulfasalazine which are generally indicated for the treatment of active mild-to-moderate UC and/or induction or maintenance of remission. Oral budesonide is indicated only for the induction of remission in patients with active mild-to-moderate UC as there is limited efficacy or safety data for the use of budesonide for maintenance of remission.

Total program savings for the PDL classes will be regularly reviewed.

Program-Specific Information:

Preferred Agents	Non-Preferred Agents
<ul style="list-style-type: none"> Balsalazide Lialda® Pentasa® Sulfasalazine DR & IR 	<ul style="list-style-type: none"> Apriso® Asacol HD® Azulfidine® Azulfidine EN-tabs® Budesonide (gen Uceris®) Colazal® Delzicol® Dipentum® Mesalamine (gen Apriso®) Mesalamine (gen Asacol HD®) Mesalamine (gen Delzicol®) Mesalamine (gen Lialda®) Uceris®

Type of Criteria: Increased risk of ADE
 Appropriate Indications

Preferred Drug List

Setting & Population

- Drug class for review: Ulcerative Colitis Agents – Oral
- Age range: 2 years of age or older: sulfasalazine IR, sulfasalazine DR, Azulfidine®, Azulfidine EN®
- Age range: 5 years of age or older: balsalazide, Colazal®, **Delzicol®**, **mesalamine (gen Delzicol®)**
- Age range: 18 years of age or older: Apriso®, Asacol HD®, budesonide (gen Uceris®) Dipentum®, Lialda®, mesalamine (**gen Apriso®**, gen Asacol HD®, gen Lialda®), Pentasa®, Uceris®

Approval Criteria

- Participant is of appropriate age per agent (see above) **AND**
- Failure to achieve desired therapeutic outcomes with trial on 3 preferred agents
 - Documented trial period of preferred agents
 - Documented ADE/ADR to preferred agents

Denial Criteria

- Lack of adequate trial on required preferred agents
- Therapy will be denied if no approval criteria are met
