

E. Rachel Mutrux Biographical Sketch

E. Rachel Mutrux is the Director of the Missouri Telehealth Network and Operations Director for the Missouri HIT Assistance Center, Missouri's Regional Extension Center for Health Information Technology. The Missouri Telehealth Network provides services to many different types of health care providers in the state and is federally funded as a regional telehealth resource center with Kansas and Oklahoma, the Heartland Telehealth Resource Center. Rachel is an expert in telehealth and worked with Missouri Department of Social Services to provide telehealth reimbursement in 2006. She oversees a statewide backbone dedicated to electronic transfer of health information. Rachel also works with Missouri Health Connection on Health Information Exchange. In her role as Operations Director of the Missouri HIT Assistance Center, Rachel manages relationships with Assistance Center partners and directs a team dedicated to helping primary care providers reach Meaningful Use.
