

**Public Notice**  
**July 14, 2023**

Pursuant to the provisions of Title 42 Section 441.304(f), Code of Federal Regulations, public notice is given regarding the submission of amendments for the Comprehensive, Community Support, Partnership for Hope, and Missouri Children with Developmental Disabilities Waiver amendments. The purpose of these waiver amendments is to update waiver service rate methodology language and increase the Community Transition service maximum limit to address workforce challenges, ensure efficiency, economy, quality of care and access. The amendments will clarify the remote supports implementation process and increase the projected unduplicated number of participants served for the Comprehensive and Community Support waivers, pending Centers for Medicare and Medicaid Services (CMS) approval. Current waiver participants will not lose eligibility or waiver participation with this amendment.

Total annual fiscal impact for the rate methodology changes is estimated as \$401,140 as a result of this change.

The Centers for Medicare and Medicaid Services (CMS) requires states to obtain public input during the development of a waiver (or a waiver renewal or a waiver amendment with substantive changes). Stakeholders are being asked to provide public input and comment in order to allow Missouri to submit these waiver amendment applications. Please see complete draft of the waiver amendment applications on the MO HealthNet website at [MO HealthNet Alerts & Public Notices](#).
