Healthy Blue

Our philosophy for behavioral health

- Health is not the absence of illness.
- Behavioral health is essential to overall health and is not separate from physical health.
- Acceptance, empowerment, responsibility and hope are essential components of health.
- Our role is to support, enhance and collaborate — not impede — the work of the caregiver/clinician.
- Each member is the CEO of his or her care.

Healthy Blue

Enrollment

Enrollment is managed by the state and updated in our system daily. Once determined eligible to participate in the MO HealthNet program, members may choose Healthy Blue as their healthcare plan.

Once enrolled, MO HealthNet managed care-eligible members must choose a PCP or one will be assigned by their designated health plan. Members have two identification numbers. They have a DCN number, assigned by MO HealthNet, and a subscriber ID number, assigned by Healthy Blue. Both of these numbers are listed on the member's ID card.

Healthy Blue

Eligibility verification

Eligibility and benefits associated with a member and/or their dependents can be determined by:

- Submitting a 270/271 electronic data interchange (EDI) transaction through using your EDI software or through your clearinghouse.
- Submitting an eligibility and benefits inquiry through the Availity Portal.*
 - Go to <https://www.availity.com>. Select **Patient Registration** > Eligibility and Benefits. Select **Healthy Blue** from the drop-down box.
 - Complete required fields and submit.

You will continue to be able to verify member eligibility information through the state. Eligibility can be verified by calling MO HealthNet's Interactive Voice Response unit at **1-573-635-8908** or through MO HealthNet's online system, eMOMED, available at www.emomed.com.

Healthy Blue

Eligibility verification (cont.)

- As a contracted Healthy Blue provider, you can see any Healthy Blue member, even if you are not the PCP of record. Healthy Blue will accept claims billed with either the member ID number or the MO HealthNet DCN.
- Please note: A member's eligibility status can change at any time. Therefore, providers are encouraged to check eligibility on the date of service (DOS), and to request a copy of the member's ID card, along with additional proof of ID, such as photo identification, and file these in the patient's medical record.
- Providers should access Healthy Blue's secure provider website at <https://www.availity.com> to obtain the member's current assigned PCP.

eMOMED

- Below is a screen capture of a member's eligibility information on MO HealthNet's website, eMOMED.
- Insurance Type MC indicates the member is enrolled in a managed care plan.
- The lock-in information indicates which managed care health plan the member is enrolled in.
- Eligibility may change daily.
- As a result, it is important to check eligibility on the date of service.
- Behavioral health providers are encouraged to check eligibility using eMOMED since this is the only place you can find the member's ME code.

Credentialing process

- Healthy Blue follows the specific credentialing process set forth by NCQA.
- Once the CAQH application has been attested to and Healthy Blue has been given access, Healthy Blue's credentialing team will conduct primary source verification as appropriate and prepare the provider's file for review by the Credentials Committee.
- Clean credentialing files are reviewed daily by our Medical Director and approved accordingly. We are contractually obligated to complete processing of all clean credentialing applications within 60 days.
- Chaired by our Medical Director, the Credentials Committee meets monthly to review files based on the credentialing criteria.
- Healthy Blue recredentials every three years, and providers are asked to keep their CAQH applications current and available.

Our goal for access and availability

The goals of the Behavioral Health program are to achieve the following:

- Ensure adequacy of service availability and accessibility to eligible members
- Assist members and providers to utilize the most appropriate, least restrictive medical and behavioral healthcare in the right place at the right time
- Promote integration of the management and delivery of physical and behavioral health services to members
- Achieve Healthy Blue quality initiatives, including those related to HEDIS®, the National Committee for Quality Assurance (NCQA) performance requirements
- Work with members, providers and community supports to provide tools and an environment that supports members towards their recovery goals

HEDIS® is a registered trademark of the National Committee for Quality Assurance (NCQA).

Healthy Blue

Appointment availability fails

What if a requirement isn't met?

- If the requirement is not met during the survey call, the provider will receive a letter advising of the requirement(s) not met.
- It is up to the provider's office to educate their staff and ensure that the requirements are being met.
- A future follow-up call will be made to determine if the provider's office will meet all requirements.

Healthy Blue

Advance directives

We adhere to the *Patient Self-Determination Act* and recognize and support the following advance directives:

- Durable power of attorney
- Living will

A durable power of attorney lets a member name a patient advocate to act on his or her behalf. A living will lets a member state his or her wishes on medical treatment in writing. We encourage members ages 18 and older to ask you for an advance directive form and education at their first appointment.

Please document their forms in your medical records. We understand a facility or physician may conscientiously object to an advance directive. However, we also recognize the member's right to determine his or her own care. Please note, a Healthy Blue associate cannot act as a witness to an advance directive, nor serve as a member's advocate or representative.

Cultural competency

We are committed to fostering cultural competency within our company and provider networks.

Cultural competency can enable you to:

- Acknowledge the importance of culture and linguistic differences.
- Recognize the cultural factors that shape personal and professional behavior.
- Enhance support of diverse patients by incorporating cultural insights into practice where appropriate.
- Strive to expand cultural knowledge.

Cultural barriers between provider and patient can:

- Impact the patient's level of comfort and fear of what you might find upon examination.
- Result in differences in understanding of our healthcare system.
- Cause a fear of rejection of the patient's personal health beliefs.
- Impact your patient's expectation of you and of treatment.

Healthy Blue

Cultural Competency program

Please use an interpreter, when necessary, to ensure your patient understands all of his or her options and is able to make an informed decision. Free interpreter services are available to Healthy Blue members 24/7, with over 170 languages.

Call Healthy Blue Provider Services at **1-833-405-9086 (TTY 711)** for:

- Interpreter services for provider services.
- Telephonic interpreter services.
- In-person interpreter services for care management.

Provider cultural competency resources

Patient panels are growing more diverse and needs are becoming more complex; more support may be necessary to help address these needs.

Healthy Blue offers support by ensuring resources are available to providers on the provider website. Resources include:

Cultural Competency Training (cultural competency and patient engagement), which includes but is not limited to:

- The impact of culture and cultural competency on healthcare.
- A cultural competency continuum that can help providers assess their level of cultural competency.
- Disability sensitivity and awareness.

Healthy Blue

Provider cultural competency resources (cont.)

Caring for Diverse Populations Toolkit, which includes but is not limited to:

- Comprehensive information, tools, and resources to support enhanced care for diverse patients and mitigate barriers.
- Materials that can be printed and made available for patients in provider offices.
- Regulations and standards for cultural and linguistic services.

My Diverse Patients:

- Online resource offering comprehensive information to increase awareness of the needs of diverse patients, disparities that are present, and ways to enhance care and address those gaps.
- Includes courses offering **free** continuing medical education credit through American Academy of Family Physicians.
- Site access is free; no account or login required; site is accessible from any device (desktop computer, laptop, phone, tablet). These resources are available at state-specific provider portal and pathway to resources.

- Members may self-refer or may be referred for services to a participating Healthy Blue behavioral health provider. No referral form or approval is necessary.
- Participating behavioral health providers may provide routine outpatient behavioral health services without a prior authorization as long as the visits rendered do not exceed the maximum number indicated on the PA authorization Grid available on the Healthy Blue website <https://provider.healthybluemo.com>. A prior authorization is required prior to rendering services should the services exceed the maximum visit limitation outlined on the grid.
- Behavioral health claims for some Healthy Blue members (Group 4) should be billed to MO HealthNet instead of Healthy Blue and are subject to MO HealthNet (MHD) policies.
- Providers are required to adhere to the maximum daily and monthly limitations. Units billed over the daily, monthly, yearly limits represent a violation of MHD policy and are not reimbursed.
- Please refer to Section 13 in the MO HealthNet Behavioral Health Provider Manual for limitations.

Rejected versus denied claims

There are two types of notices you may get in response to your claim submission: rejected or denied.

Rejected claims

do not enter the adjudication system because they have missing or incorrect information.

Denied claims

go through the adjudication process but are denied for payment.

You can find claims status information on the Availity Portal at <https://www.availity.com> or by calling Healthy Blue Provider Services at **1-833-405-9086** Monday through Friday, from 7 a.m. to 8 p.m. CT.

- If you need to appeal a claim decision, submit a copy of the *Explanation of Payment (EOP)*, letter of explanation and supporting documentation.
- If your claim is administratively denied, you may file an appeal. As part of the appeal, you must demonstrate that you notified or attempted to notify us within the established time frame and that the services are medically necessary.

Healthy Blue

Corrected claims

A corrected claim is a claim that has already been processed, whether paid or denied, and is resubmitted with additional charges, different procedure or diagnosis codes, or any information that would change the way the claim originally processed.

When to submit a corrected claim:

- Original claim was filed with an incorrect procedure code or diagnosis code, etc.
- Original claim was filed with an incorrect billed charge amount.
- Original claim filed with incorrect units.
- Original claim filed with the incorrect primary insurance payment information.
- Original claim was filed in error.
- Original claim was filed under an incorrect patient.
- A duplicate claim was billed in error for the same services.
- Original claim filed as primary instead of secondary.

Healthy Blue

Provider claim payment disputes

The simplest way to define a claim payment dispute is: a claim has been finalized, but you disagree with the outcome. If a provider disagrees with the outcome of a claim, you may begin the claim payment dispute process. We must receive your dispute within 365 calendar days from the date of the *EOP*.

The claim payment dispute process consists of two steps. Providers will not be penalized for filing a claim payment dispute, and no action is required by the member:

- **Claim payment reconsideration:** This is the first step in the claim payment dispute process. The reconsideration represents the initial request for an investigation into the outcome of the claim. Most issues are resolved at the claim payment reconsideration step.
- **Claim payment appeal:** This is the second step in the claim payment dispute process. If a provider disagrees with the outcome of the reconsideration, the provider may request an additional review as a claim payment appeal.

Healthy Blue

Provider claim payment disputes (cont.)

Claim payment disputes do not include:

- Medical necessity/authorization denials: A claim may deny for a denied authorization, not medically necessary or something similar. In these instances, the claim payment was denied due to a denial of the authorization/service. These should be managed through the grievance and appeals process.
- No authorization denials: When a service requires an authorization, but authorization was not requested, a claim will deny for no authorization. If you would like to have the service considered, submit the medical record for review through the correspondence process.

Clear Claim Connection

Use Clear Claim Connection™ for guidance when you submit a claim:

- It is available on the Availity Portal and can help you determine whether procedure codes and modifiers will likely pay for your patient's diagnosis.
- It contains editing features that will determine the validity of items like diagnosis codes or revenue codes. If the codes are not valid, it will produce an edit showing such.

The screenshot shows the Clear Claim Connection web application. At the top, there is a blue header with the title "Clear Claim Connection™" and a red navigation bar with links: "McKesson Edit Development", "Glossary", "About", "Help", and "Logoff". Below the navigation bar, the main content area is white. It starts with "Gender: ☐ Male ☐ Female" and "Date of Birth: / / (mm/dd/yyyy)". Below this is a link "Click Grid to enter information:". A table is displayed with the following headers: "Procedure", "Mod 1", "Mod 2", "Mod 3", "Mod 4", and "Date of Service". The table has several rows, some of which are filled with checkmarks. Below the table is a link "Add More Procedures >>". At the bottom, there are two buttons: "Review Claim Audit Results" and "Clear".

Note: Clear Claim Connection does not guarantee coverage under a member's benefit plan. Member benefit plans vary in coverage, and some plans may not provide coverage for certain services.

Healthy Blue

Cost avoid versus pay and chase

- If there is a third-party payer indicated on the eligibility file for the member, Healthy Blue will cost avoid the claim and require that the provider file the claim first with the primary insurance carrier.
- If there is not a third-party payer indicated on the eligibility file for the member, Healthy Blue will pay the claim.
- If, after paying a claim, Healthy Blue determines there is a third-party payer, we will seek to recover payment from the primary insurance carrier.

Healthy Blue

Billing members

Healthy Blue members should not be billed or reported to a collection agency for any **covered services** your office provides.

Missouri Code of State Regulations Title 13 CSR 70-4.030 states, in part, “When an enrolled Medicaid provider provides an item or service to a Medicaid recipient eligible for the item or service on the date provided, there shall be a presumption that the provider accepts the recipient’s Medicaid benefits and seeks reimbursement from the Medicaid agency in accordance with all the applicable Medicaid rules.”

- If a member receives a bill and contacts our office, a Healthy Blue staff member may contact your office as well to confirm the member will no longer be charged for the service.
- The provider’s office can file a claims dispute or an appeal if the service was paid incorrectly or denied. The provider must submit the claims dispute or appeal within the appropriate time frames.

Fraud, waste and abuse

CMS defines fraud, waste and abuse as:

Fraud

Intentionally falsifying information and knowing that deception will result in improper payment and/or unauthorized benefit.

Waste

Overusing services or other practices that directly or indirectly result in unnecessary costs; generally not considered driven by intentional actions, but from misusing resources.

Abuse

When healthcare providers or suppliers do not follow good medical practices resulting in unnecessary or excessive costs, incorrect payment, misuse of codes, or services that are not medically necessary.

Healthy Blue

Fraud, waste and abuse (cont.)

- If you suspect a provider (for example, provider group, hospital, doctor, dentist, counselor, medical supply company, etc.) or any member (a person who receives benefits) has committed fraud, waste or abuse, you have the right to report it.
- No individual who reports violations or suspected fraud and abuse will be retaliated against for doing so. The name of the person reporting the incident and their callback number will be kept in strict confidence by investigators.

You can report your concerns by:

- Visiting the Healthy Blue provider website at <https://provider.healthybluemo.com> and completing the *Report Waste, Fraud and Abuse* form.
- Calling Healthy Blue Provider Services at **1-833-405-9086** Monday through Friday, from 7 a.m. to 8 p.m. CT.

Health services

Healthy Blue

Avoidable ER utilization

Inappropriate ER utilization is costly and inefficient. Healthy Blue encourages providers to help reduce avoidable ER utilization by educating their patients on when it is appropriate to go to the ER.

Consider the following:

- During new patient consultations, talk to your new patients about when to use the ER.
- Give them your 24-hour phone number and make sure they know where the nearest urgent care center is located.
- Offer same day appointments and walk-ins, if possible.
- Provide clear instructions on your website for patients who need care outside of office hours. Be sure to list your after-hours phone number, as well as nearby urgent care centers that may provide services, if needed.

Healthy Blue

Avoidable ER utilization (cont.)

- Offer extended hours (before or after regular work hours) or weekend hours to keep working patients and/or parents out of the ER.
- Use CPT code 99050 for services provided in the office at times other than regularly scheduled office hours or days when the office is closed (for example, holidays, Saturday or Sunday), in addition to your evaluation and management code for additional reimbursement.
- Follow up with your patients that visit the ER for nonemergent conditions to reinforce appropriate use of the ER.
- If you have a patient who is a frequent ER user, please make a referral to our Case Management team.
