DISCLAIMER:

These CPT codes have been updated with the 2019 Physician Fee Increases as of July 1, 2019.

Consult the MO HealthNet on-line Fee Schedule for current allowed amounts.

Chiropractic Credentials

A MO HealthNet enrolled Physician who is licensed to provide Chiropractic services, [2 separate licenses] can enroll under two provider types; provider type 20 for physician **and** provider type 23 for chiropractor.

Should provider choose to use the same NPI they would supply a separate taxonomy code for each provider type or they obtain a separate NPI for each in which case taxonomy codes are not required.

Chiropractic Credentials (cont.)

Chiropractors currently can enroll as a Qualified Medicare Beneficiary (QMB) provider type 75 and specialty 35. However, should they wish to enroll under the 23 provider type they will need to do one of the following:

- Dis-enroll their currently enrolled 75 number or;
- Enroll with a new National Provider Identifier (NPI) for their 23 provider # or;
- If the provider is enrolling under the same NPI as the QMB enrollment, a different taxonomy code is required for each.

Provider Enrollment

If a qualified provider is not already enrolled with the MHD as a provider, an enrollment application must be submitted. The link to complete the electronic application is:
