On-Site Treatment, No Transport Ambulance Manual Section 13.3.X(1)

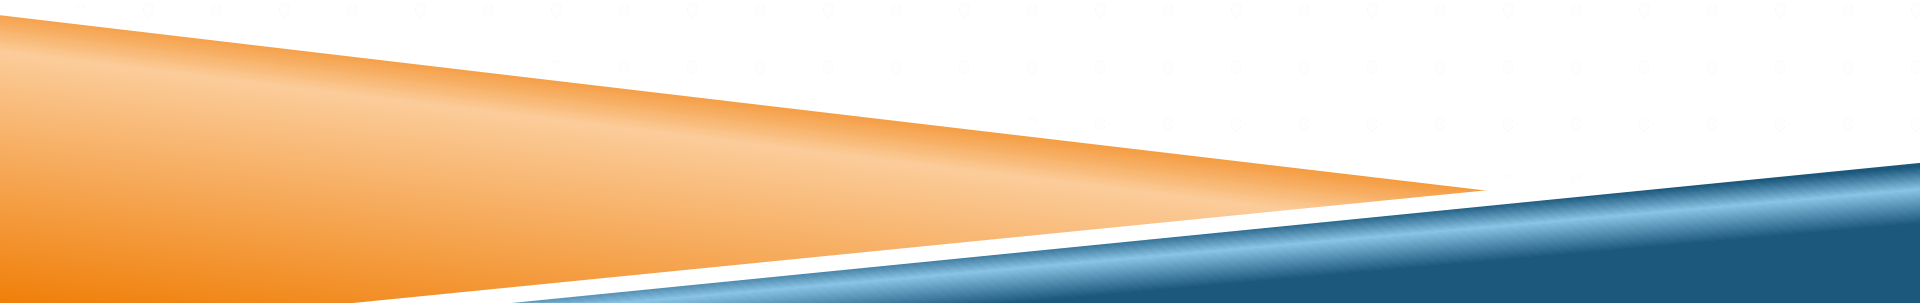

On-site treatment provided by a emergency medical technician or paramedic is covered if the service meets the following criteria:

1. Is the result of an emergent or immediate response made by a licensed ambulance service;
 2. The ambulance provider performs a medically necessary assessment;
 3. Treatment is provided to the participant; and
 4. The participant is *not* transported by the responding service provider to an emergency department.
- 

On-Site Treatment, No Transport

Ambulance Manual Section 13.3.X(2)

When an on-site referral for further treatment is provided to the participant, the service is covered if it meets the following criteria:

1. Is the result of an emergency or immediate response made by a licensed ambulance service;
 2. The EMS crew provides a medically necessary assessment;
 3. A referral for further treatment is provided to the participant; and
 4. The participant is *not* transported by the responding service provider to an emergency department.
