

Dear Personal Care Services (PCS) Provider,

The Electronic Visit Verification (EVV) Aggregator Solution (EAS) training is now available for Missouri's PCS providers through Sandata's Learning Management System (LMS). Log in information will not be issued until the PCS provider completes EAS training.

The EAS training is free of charge, self-paced, and takes about 30 minutes to complete. The training provides instructions on how to access and navigate EAS as well as how to verify that your data is being transmitted by your EVV vendor to EAS.

Once you have completed training and printed the certificate of completion for your records, Sandata will issue your EAS log in information. Your log in information will not be activated until November 8, 2021.

For more information about training, refer to the [LMS Registration Quick Reference Guide](#). If you have any questions or concerns, contact Sandata Customer Support at [MOAltEVV@sandata.com](mailto:MOAltEVV@sandata.com) or by phone at 1-833-350-5844.

Thank you,

Sandata Technologies
