UPDATE

Effective for dates of service on and after January 1, 2013, the MO HealthNet Division (MHD) will accept the 2013 versions of the Current Procedural Terminology (CPT) and the Health Care Procedure Coding System (HCPCS) medical code sets. For dates of service prior to January 1, 2013, claims must be billed with the 2012 version of CPT and HCPCS codes and modifiers.

Please watch for the 2013 Health Care Procedure Coding System (HCPCS) Provider Bulletin to be posted for the date when MHD will accept billing of the new codes. This should be posted sometime in January 2013. Providers will not be able to bill the 2013 versions of these codes until the date that will be posted in the HCPCS bulletin due to time requirements to complete system updates.

For 2013, there have been major changes in the Psychiatry section of the CPT. Services impacted consist of Assessment, Individual Therapy, Individual Interactive Therapy, Individual Therapy with Evaluation and Management, and Crisis Intervention. The 2012 codes currently used by MHD for these services are being replaced with new codes.

DIAGNOSTIC ASSESSMENT

MHD will recognize two codes for Diagnostic Assessment, Diagnostic Evaluation – no medical (90791) and Diagnostic Evaluation – with medical (90792). MHD will not recognize the interactive complexity add-on code; however, this will not limit your ability to perform interactive services as you deem appropriate. When providing the interactive assessment, providers will bill the appropriate Diagnostic Evaluation code. The patient's file must document that the interactive assessment was appropriate. Interactive assessment will no longer require a Prior Authorization.

PSYCHOTHERAPY

MHD will recognize Individual Psychotherapy codes for 30 minutes (90832) and 45 minutes (90834). MHD will not recognize any of the add-on Psychotherapy codes.

Psychiatrists and/or nurses should utilize *either* the appropriate Evaluation and Management (E & M) code *or* the appropriate psychotherapy code listed above. The billing of a combination of Psychotherapy and E & M code will not be allowed.

INTERACTIVE PSYCHOTHERAPY

MHD will eliminate any codes labeled interactive. Providers will be required to use the appropriate E & M, evaluation, or psychotherapy codes. This approach is not meant to limit the professional practice of providers as they will still be able to provide interactive services as they see necessary. The documentation in the patient's file must clearly document that interactive therapy techniques were utilized for the session.

Currently individual therapy for children age 3, not in state custody and not residing in a Residential Care Facility, is not authorized with the exception of individual interactive therapy. In 2013, individual therapy will be authorized only with appropriate documentation to support the utilization of interactive services. This does not include play therapy.

CRISIS INTERVENTION

MHD will utilize the Psychotherapy for Crisis code (90839); however, add-on codes will not be recognized. MHD will use the 90839 code for units of services, even those that go beyond the first 60 minutes. Crisis Intervention is limited to 6, 60 minute units per participant, per provider, per calendar year. In order to be reimbursed by MHD, the services must be provided in full 60 minute units.

PHARMACOLOGIC MANAGEMENT

MHD will allow the utilization of the appropriate E & M code when pharmacologic management is provided. Providers will have to include all components associated with the appropriate E & M code including documentation that supports the service.

TIME-BASED SERVICE LIMITATIONS

Psychotherapy times, as defined in the CPT, are for face-to-face services with patient and/or family member. The patient must be present for all or some of the service. In reporting, choose the code closest to the actual time (ie, 16-37 minutes for 90832 and 38-52 minutes for 90834). Do not report psychotherapy of less than 16 minutes duration.

ADDITIONAL INFORMATION

Current practices regarding age restrictions, modifiers, unit/hour limitations, documentation requirements, and prior authorization requirements will remain the same. For example, when the 2012 code had restrictions or required a prior authorization, the new 2013 crosswalk code will require the same elements.

2013 CPT codes for Psychiatrists, Psychiatric Clinical Nurse Specialists (PCNS), and Psychiatric Mental Health Nurse Practitioners (PMHNP)

Provider Bulletins are available on the MO HealthNet Division (MHD) (Formerly the Division of Medical Services) Web site at <http://dss.mo.gov/mhd/providers/pages/bulletins.htm>. Bulletins will remain on the Provider Bulletins page only until incorporated into the [provider manuals](#) as appropriate, then moved to the Archived Bulletin page.

MO HealthNet News: Providers and other interested parties are urged to go to the MHD Web site at <http://dss.mo.gov/mhd/global/pages/mednewssubscribe.htm> to subscribe to the electronic mailing list to receive automatic notifications of provider bulletins, provider manual updates, and other official MO HealthNet communications via E-mail.

MO HealthNet Managed Care: The information contained in this bulletin applies to coverage for:

- MO HealthNet Fee-for-Service
- Services not included in MO HealthNet Managed Care

Questions regarding MO HealthNet Managed Care benefits should be directed to the patient's MO HealthNet Managed Care health plan. Before delivering a service, please check the patient's eligibility status by swiping the red MO HealthNet card or by calling the Interactive Voice Response (IVR) System at 573-751-2896 and using Option One for the red or white card.
