**LARC DEVICES INSERTED POST-PARTUM DURING AN INPATIENT HOSPITAL STAY**

---

**CONTENTS**

- **Separate reimbursement for LARC devices inserted post-partum**
- 

The MO HealthNet Division (MHD) will allow separate reimbursement for long-acting reversible contraception (LARC) devices inserted during an inpatient hospital stay for a delivery.

LARC devices, including intrauterine devices (IUDs) and birth control implants, are defined as implantable devices that remain effective for several years to prevent pregnancies. Separate reimbursement applies to the LARC device only. **Reimbursement for all other related services, procedures, supplies, and devices continue to be included in the inpatient hospital per diem rate.**

To receive separate reimbursement for LARC devices inserted during inpatient hospital stays for delivery, providers can submit an outpatient or pharmacy claim with the most appropriate National Drug Code (NDC). Providers will receive their inpatient per diem rate in addition to being reimbursed separately for the LARC device.

MHD currently has a [Fiscal Edit](#) in place to prevent duplicate billing of non-oral contraceptive products. Providers are responsible for checking criteria to confirm their patient's eligibility for a LARC device prior to billing MHD. The criteria for non-oral contraceptive products are available at: <http://dss.mo.gov/mhd/cs/pharmacy/pdf/non-oral-contraceptives.pdf>. Login to [CyberAccess](#) to check the patient's history or contact the MHD helpdesk at 800-392-8030 for confirmation. Claims for separate reimbursement of the LARC device are subject to post-payment review.

The outpatient reimbursement methodology for covered LARC implantations remains unchanged.
