COMPLEX REHABILITATION DME SERVICES

Effective for dates of service on or after July 1, 2016, the MO HealthNet Division (MHD) fee-for-service program maximum allowable rates for complex rehabilitation DME services are increased by two percent (2%). Complex rehabilitation DME services provide items individually configured to meet the specific and unique medical, physical, and functional capacities of the patient. MHD will continue to reimburse the lesser of either the provider's usual and customary charge or the maximum allowable amount per unit of service. Providers may not bill MHD at a higher rate than they charge their private pay patients.

The current online fee schedule does not yet reflect the fee increases; however, claims are currently being reimbursed at these new rates. The online fee schedule is expected to be updated by the end of August 2016. Providers will be notified when the update is completed.

Provider Bulletins are available on the MO HealthNet Division (MHD) (Formerly the Division of Medical Services) Web site at <http://dss.mo.gov/mhd/providers/pages/bulletins.htm>. Bulletins will remain on the Provider Bulletins page only until incorporated into the [provider manuals](#) as appropriate, then moved to the Archived Bulletin page.

MO HealthNet News: Providers and other interested parties are urged to go to the MHD Web site at <http://dss.mo.gov/mhd/> to subscribe to the electronic mailing list to receive automatic notifications of provider bulletins, provider manual updates, and other official MO HealthNet communications via E-mail.
