Maximum Allowable Rate Increase

Pending Centers for Medicare & Medicaid Services (CMS) approval, effective for dates of service on and after July 1, 2022, MO HealthNet (MHD) will increase the fee-for-service maximum allowable rates for optical services listed in Attachment A. Upon approval of the State Plan amendment by CMS, MHD will update the claims processing system with the indicated maximum allowable reimbursement rates and reprocess claims paid for dates of service on or after July 1, 2022.

Attachment A lists the affected procedure codes and the new rates.

Applicability

The information in this bulletin applies to the MHD fee-for-service program and may apply to the MHD managed care program, as well. MHD's fee-for-service policies set the basic coverage policies for benefits and limitations in the managed care program. The managed care health plans have additional flexibilities in operating their respective programs, such as determining which services require prior authorization, and details required for claims submission. Certain services, such as pharmacy, are "carved out" of managed care and will be paid through the fee-for-service program. To ensure your understanding of this bulletin's applicability to each managed care health plan, please contact your health plan directly, or contact MHD.MCCommunications@dss.mo.gov.
