

Application for a §1915(c) Home and Community-Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a State to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waiver's target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the State, service delivery system structure, State goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

Request for a Renewal to a §1915(c) Home and Community-Based Services Waiver

1. Major Changes

Describe any significant changes to the approved waiver that are being made in this renewal application:

A new medical component is being added under the Personal Assistant service, called Medical Personal Assistant. Independent Living Skills Development has been changed to Day Habilitation with more specific criteria in the service definition to highlight fundamental skills necessary to reside in the community. Criteria for Day Habilitation one on one services has been included as a Medical or Behavior Exception. Community Integration has been moved from the umbrella of Independent Living Skills Development to a separate stand-alone service, and provides clarification on the activities and skills allowed in order to support community integration and independence. Home Skills Development service has been replaced with Individual Skill Development as a stand-alone service, and provides clarification on the activities and skills allowed in order to support community integration and independence. Applied Behavior Analysis replaces Behavior Analysis Service to reflect recently approved MO HealthNet services and procedure codes in state plan. Job Preparation was renamed to Prevocational services to match CMS definition. The language was strengthened to be aligned with HCBS Community Settings Rule and to better individualize the service. Community Employment was renamed to Supported Employment services to match CMS definition. The language was strengthened to be aligned with HCBS Community Settings Rule and to better individualize the service. Co-Worker Supports was renamed to Job Development as it was previously embedded within the Community Employment definition. The language was strengthened to be aligned with HCBS Community Settings Rule and to better individualize the service. Job Discovery was renamed to Career Planning to match CMS definition. The language was strengthened to be aligned with HCBS Community Setting Rule and to better individualize the service. Communication Skills Instruction service was removed since it has not been used.

Application for a §1915(c) Home and Community-Based Services Waiver

1. Request Information (1 of 3)

- A. The **State of Missouri** requests approval for a Medicaid home and community-based services (HCBS) waiver under the authority of §1915(c) of the Social Security Act (the Act).
- B. **Program Title** *(optional - this title will be used to locate this waiver in the finder):*
Division of DD Community Support Waiver
- C. **Type of Request:** renewal

Requested Approval Period: *(For new waivers requesting five year approval periods, the waiver must serve individuals who are dually eligible for Medicaid and Medicare.)*

☐ 3 years ☒ 5 years

Original Base Waiver Number: MO.0404

Waiver Number: MO.0404.R03.00

Draft ID: MO.011.03.00

- D. **Type of Waiver** *(select only one):*

Regular Waiver ▼

- E. **Proposed Effective Date:** *(mm/dd/yy)*

07/01/16

Approved Effective Date: 07/01/16

1. Request Information (2 of 3)

- F. Level(s) of Care.** This waiver is requested in order to provide home and community-based waiver services to individuals who, but for the provision of such services, would require the following level(s) of care, the costs of which would be reimbursed under the approved Medicaid State plan (*check each that applies*):

☐ **Hospital**

Select applicable level of care

☐ **Hospital as defined in 42 CFR §440.10**

If applicable, specify whether the State additionally limits the waiver to subcategories of the hospital level of care:

☐ **Inpatient psychiatric facility for individuals age 21 and under as provided in 42 CFR §440.160**

☐ **Nursing Facility**

Select applicable level of care

☐ **Nursing Facility as defined in 42 CFR §§440.40 and 42 CFR §§440.155**

If applicable, specify whether the State additionally limits the waiver to subcategories of the nursing facility level of care:

☐ **Institution for Mental Disease for persons with mental illnesses aged 65 and older as provided in 42 CFR §440.140**

☒ **Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) (as defined in 42 CFR §440.150)**

If applicable, specify whether the State additionally limits the waiver to subcategories of the ICF/IID level of care:

1. Request Information (3 of 3)

- G. Concurrent Operation with Other Programs.** This waiver operates concurrently with another program (or programs) approved under the following authorities

Select one:

☒ **Not applicable**

☐ **Applicable**

Check the applicable authority or authorities:

☐ **Services furnished under the provisions of §1915(a)(1)(a) of the Act and described in Appendix I**

☐ **Waiver(s) authorized under §1915(b) of the Act.**

Specify the §1915(b) waiver program and indicate whether a §1915(b) waiver application has been submitted or previously approved:

Specify the §1915(b) authorities under which this program operates (*check each that applies*):

☐ **§1915(b)(1) (mandated enrollment to managed care)**

☐ **§1915(b)(2) (central broker)**

☐ **§1915(b)(3) (employ cost savings to furnish additional services)**

☐ **§1915(b)(4) (selective contracting/limit number of providers)**

☐ **A program operated under §1932(a) of the Act.**

Specify the nature of the State Plan benefit and indicate whether the State Plan Amendment has been submitted or previously approved:

☐ **A program authorized under §1915(i) of the Act.**

☐ **A program authorized under §1915(j) of the Act.**

☐ **A program authorized under §1115 of the Act.**

Specify the program:

Dual Eligibility for Medicaid and Medicare.

Check if applicable:

- ☒ **This waiver provides services for individuals who are eligible for both Medicare and Medicaid.**

2. Brief Waiver Description

Brief Waiver Description. *In one page or less*, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.

Goal: Establish and maintain a community based system of care for individuals who have intellectual and developmental disabilities that includes an array of services that meets the individualized support needs of individuals who have a place to live in the community (usually with family), but require other support services in order to remain in that living arrangement.

Objectives: 1) provide individuals choice between ICF/ID institutional care and comprehensive community based care in a cost effective manner; 2) maintain and improve a community based system of care that diverts individuals from institutional care and residential care; 3) maintain and improve community based care so it is sufficient to support individuals living with family members; and 4) provide individuals choice and flexibility within a community based system of care.

Participants in this waiver have a place to live, but require supports so family members can continue employment and to give primary caregivers relief.

The waiver is administered by the Division of Developmental Disabilities (DD) through an interagency agreement with the Single State Medicaid Agency, Department of Social Services, MO HealthNet Division. Division of DD has 6 Regional Offices with 5 satellite offices (herein referred to as Regional Offices) that are the gatekeepers for the waiver. The Regional Offices determine eligibility, provide case management, and other administrative functions including quality enhancement, person centered planning, and operation of prior authorization and utilization review processes. Through contracts administered by the Department of Mental health, SB-40 Boards (public entities) and other TCM entities provide limited waiver administration functions (case management) in coordination with Regional Offices and oversight from the Division DD.

Service delivery methods in this waiver include provider-managed (for all waiver services); and there is a self-directed option for personal assistant and community specialist.

Each waiver provider has a contract with the Division of DD. Division of DD Regional Offices authorize services to the providers. Providers must bill through the Division of DDs prior authorization system. The Division of DD submits the qualified bills to the Medicaid claim processing fiscal agent. The Medicaid MMIS pays the providers directly for services provided.

3. Components of the Waiver Request

The waiver application consists of the following components. *Note: Item 3-E must be completed.*

- A. Waiver Administration and Operation.** Appendix A specifies the administrative and operational structure of this waiver.
- B. Participant Access and Eligibility.** Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the State expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.
- C. Participant Services.** Appendix C specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.
- D. Participant-Centered Service Planning and Delivery.** Appendix D specifies the procedures and methods that the State uses to develop, implement and monitor the participant-centered service plan (of care).
- E. Participant-Direction of Services.** When the State provides for participant direction of services, **Appendix E** specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (*Select one*):

☒ **Yes. This waiver provides participant direction opportunities.** *Appendix E is required.*

☐ **No. This waiver does not provide participant direction opportunities.** *Appendix E is not required.*
- F. Participant Rights.** Appendix F specifies how the State informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.
- G. Participant Safeguards.** Appendix G describes the safeguards that the State has established to assure the health and welfare of waiver participants in specified areas.

- H. Quality Improvement Strategy.** **Appendix H** contains the Quality Improvement Strategy for this waiver.
- I. Financial Accountability.** **Appendix I** describes the methods by which the State makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.
- J. Cost-Neutrality Demonstration.** **Appendix J** contains the State's demonstration that the waiver is cost-neutral.

4. Waiver(s) Requested

- A. Comparability.** The State requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in **Appendix C** that are not otherwise available under the approved Medicaid State plan to individuals who: (a) require the level (s) of care specified in Item 1.F and (b) meet the target group criteria specified in **Appendix B**.
- B. Income and Resources for the Medically Needy.** Indicate whether the State requests a waiver of §1902(a)(10)(C)(i)(III) of the Act in order to use institutional income and resource rules for the medically needy (*select one*):
- ☐ Not Applicable
- ☒ No
- ☐ Yes
- C. Statewide.** Indicate whether the State requests a waiver of the statewide requirements in §1902(a)(1) of the Act (*select one*):
- ☒ No
- ☐ Yes

If yes, specify the waiver of statewide requirements that is requested (*check each that applies*):

- ☐ **Geographic Limitation.** A waiver of statewide requirements is requested in order to furnish services under this waiver only to individuals who reside in the following geographic areas or political subdivisions of the State.
Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:

- ☐ **Limited Implementation of Participant-Direction.** A waiver of statewide requirements is requested in order to make *participant-direction of services* as specified in **Appendix E** available only to individuals who reside in the following geographic areas or political subdivisions of the State. Participants who reside in these areas may elect to direct their services as provided by the State or receive comparable services through the service delivery methods that are in effect elsewhere in the State.
Specify the areas of the State affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:

5. Assurances

In accordance with 42 CFR §441.302, the State provides the following assurances to CMS:

- A. Health & Welfare:** The State assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:
- As specified in **Appendix C**, adequate standards for all types of providers that provide services under this waiver;
 - Assurance that the standards of any State licensure or certification requirements specified in **Appendix C** are met for services or for individuals furnishing services that are provided under the waiver. The State assures that these requirements are met on the date that the services are furnished; and,
 - Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable State standards for board and care facilities as specified in **Appendix C**.
- B. Financial Accountability.** The State assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in **Appendix I**.
- C. Evaluation of Need:** The State assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation

and reevaluation of level of care are specified in **Appendix B**.

- D. Choice of Alternatives:** The State assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in **Appendix B**, the individual (or, legal representative, if applicable) is:
1. Informed of any feasible alternatives under the waiver; and,
 2. Given the choice of either institutional or home and community-based waiver services. **Appendix B** specifies the procedures that the State employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.
- E. Average Per Capita Expenditures:** The State assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid State plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in **Appendix J**.
- F. Actual Total Expenditures:** The State assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the State's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.
- G. Institutionalization Absent Waiver:** The State assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.
- H. Reporting:** The State assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid State plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.
- I. Habilitation Services.** The State assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.
- J. Services for Individuals with Chronic Mental Illness.** The State assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the State has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the State has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

6. Additional Requirements

Note: Item 6-I must be completed.

- A. Service Plan.** In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in **Appendix D**. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including State plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.
- B. Inpatients.** In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are in-patients of a hospital, nursing facility or ICF/IID.
- C. Room and Board.** In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the State that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in **Appendix I**.
- D. Access to Services.** The State does not limit or restrict participant access to waiver services except as provided in **Appendix C**.
- E. Free Choice of Provider.** In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish

waiver services included in the service plan unless the State has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.

- F. FFP Limitation.** In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.
- G. Fair Hearing:** The State provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. **Appendix F** specifies the State's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.
- H. Quality Improvement.** The State operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the State assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The State further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the State will implement the Quality Improvement Strategy specified in **Appendix H**.
- I. Public Input.** Describe how the State secures public input into the development of the waiver:
The Division's Quality Council, which was established in 2006, is comprised of self-advocates and family members. The Council meets quarterly and provides input regarding quality enhancement. The division director and staff from the division's executive management team meet several times each year with the Missouri Planning Council, the Missouri Association of County Developmental Disability services, the Missouri Association of Rehabilitation Facilities, and the Missouri ARC. During these meetings, open discussions about the waivers take place. The division periodically assembles ad hoc workgroups to discuss and provide input on specific issues emerging from these discussions. All formal policies and guidelines are developed with stakeholder input, and drafts are posted for comment on the website before finalized and implemented.
- The division hosted public meetings during the summer of 2015 soliciting input from self-advocates, family members, providers and other stakeholders regarding the waiver reapplication. These meetings were facilitated by Division staff. Ongoing workgroups with representation from providers, self-advocates and family members meet to assist in the enhancements of the waiver service delivery system. A stakeholder meeting took place in early October to discuss proposed waiver renewal changes. Drafts were posted on the division's website and public input sought. Providers, stakeholders, families, and self-advocates could make public comments by emailing the division or MO HealthNet, mailing in written comments, commenting at the public forums, and by calling in to the division.
- Please refer to Section Main B. Optional - Additional Needed Information (Optional) for full details regarding public input.
- J. Notice to Tribal Governments.** The State assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.
- K. Limited English Proficient Persons.** The State assures that it provides meaningful access to waiver services by Limited English Proficient persons in accordance with: (a) Presidential Executive Order 13166 of August 11, 2000 (65 FR 50121) and (b) Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003). **Appendix B** describes how the State assures meaningful access to waiver services by Limited English Proficient persons.

7. Contact Person(s)

- A.** The Medicaid agency representative with whom CMS should communicate regarding the waiver is:

Last Name:

Kremer

First Name:

Glenda

Title:

Assistant Deputy Director, Program Operations

Agency:

Address: Missouri Department of Social Services, MO HealthNet Division
Address: 615 Howerton Court
Address 2: PO Box 6500
City: Jefferson City
State: Missouri
Zip: 65102-6500
Phone: (573) 751-6962 **Ext:** ☐ TTY
Fax: (573) 526-4651
E-mail: Glenda.a.kremer@dss.mo.gov

B. If applicable, the State operating agency representative with whom CMS should communicate regarding the waiver is:

Last Name: Angela
First Name: Brenner
Title: Director of Federal Programs
Agency: Missouri Department of Mental Health, Division of Developmental Disabilities
Address: 1706 E Elm
Address 2: PO Box 687
City: Jefferson City
State: Missouri
Zip: 65101
Phone: (573) 526-1853 **Ext:** ☐ TTY
Fax: (573) 751-9207
E-mail: angela.brenner@dmh.mo.gov

8. Authorizing Signature

This document, together with Appendices A through J, constitutes the State's request for a waiver under §1915(c) of the Social Security Act. The State assures that all materials referenced in this waiver application (including standards, licensure and certification requirements) are **readily** available in print or electronic form upon request to CMS through the Medicaid agency or, if applicable, from the operating agency specified in Appendix A. Any proposed changes to the waiver will be submitted by the Medicaid agency to CMS in the form of waiver amendments. Upon approval by CMS, the waiver application serves as the State's authority to provide home and community-based waiver services to the specified target groups. The State attests that it will abide by all provisions of the approved waiver and will continuously operate the waiver in accordance with the assurances specified in Section 5 and the additional requirements specified in Section 6 of the request.

Signature: Debbie Meller
State Medicaid Director or Designee
Submission Date: Jun 20, 2016

Note: The Signature and Submission Date fields will be automatically completed when the State Medicaid Director submits the application.

Attachments

Attachment #1: Transition Plan

Check the box next to any of the following changes from the current approved waiver. Check all boxes that apply.

- ☐ **Replacing an approved waiver with this waiver.**
- ☐ **Combining waivers.**
- ☐ **Splitting one waiver into two waivers.**
- ☒ **Eliminating a service.**
- ☐ **Adding or decreasing an individual cost limit pertaining to eligibility.**
- ☒ **Adding or decreasing limits to a service or a set of services, as specified in Appendix C.**
- ☐ **Reducing the unduplicated count of participants (Factor C).**
- ☐ **Adding new, or decreasing, a limitation on the number of participants served at any point in time.**
- ☐ **Making any changes that could result in some participants losing eligibility or being transferred to another waiver under 1915(c) or another Medicaid authority.**
- ☐ **Making any changes that could result in reduced services to participants.**

Specify the transition plan for the waiver:

Communication Skills Instruction service was removed from the waiver services. No individuals will be affected by this change, because this was not utilized.

Independent Living Skills Development previously included 3 types of services: Day Service, Community Integration, and Home Skills Development. These services were authorized separately. The renewal changes these services to separate stand-alone services with modifications to the definitions and name of service. The changes are described as follows:

Day Service is now changed to Day Habilitation to be consistent with CMS terminology. Previously, Day Service was authorized as individual or group, on-site only. In the renewal, Day Habilitation will now allow for services to include on and off-site, group and individual. However, to qualify for individual Day Habilitation, a waiver participant must meet the medical or behavioral exception. Other individualized services will be authorized under Community Integration or Individualized Skill Development. Authorizations of services will change to be in alignment with each individual's support plan over the next 18 months. Individuals' health and welfare will not be affected by this change, because services have been enhanced to be more flexible and appropriate to meet an individual's needs.

In the current waiver, Community Integration is the off-site component of Day Service. In the waiver renewal, Community Integration has been removed as the off-site component of Day Habilitation, because Day Habilitation includes both on and off-site. Community Integration is

a separate stand-alone service that assists and/or teaches individual's participation in community activities in order to become a participating member of their community. This can occur by individual or by group, limited to no more than 4 in a group in order to enhance each individual's opportunities and experiences in their community. Authorizations of services will change to be in alignment with each individual's support plan over the next 18 months. Individuals' health and welfare will not be affected by this change, because services have been enhanced to be more flexible and appropriate to meet an individual's needs.

In the current waiver application, Home Skills Development assists the participant to acquire, improve and retain the self-help, socialization, adaptive, and life skills necessary at home. Home Skills development takes place in the participant's residence. In the waiver renewal, Individualized Skill Development replaces and expands Home Skills Development. It focuses on complex skill acquisition/development, to assist the individual in achieving maximum independence in home and community-based settings. This should be completed in the community, but may occur in the home as applicable. Authorizations of services will change to be in alignment with each individual's support plan over the next 18 months. Individuals' health and welfare will not be affected by this change, because services have been enhanced to be more flexible and appropriate to meet an individual's needs.

In the current waiver application, Behavior Analysis Service includes 3 service components: functional behavior assessment, behavior intervention specialist, and senior behavior consultant. In the waiver renewal, Behavior Analysis name has changed to Applied Behavior Analysis (ABA) and has expanded to include 8 services to align with state plan services. Authorizations of services will change to be in alignment with each individual's support plan over the next 18 months. Individuals' health and welfare will not be affected by this change, because services have been enhanced to be more flexible and appropriate to meet an individual's needs.

In the current waiver, Job Development is included in the following employment services: Job Discover, Job Preparation, and Community Employment. In the waiver renewal, Job Development is a separate stand-alone service. Employment service titles have been changed to reflect national terminology identified by CMS: Job Discovery to Career Planning, Job Preparation to Pre-Vocational Services, and Community Employment to Supported Employment. Additionally, Co-Worker Supports was removed in the waiver renewal as it was never utilized by waiver participants. Employment service changes in the waiver renewal are based on national standards and best practices to encourage movement toward gainful competitive employment for waiver participants. Authorizations of services will change to be in alignment with each individual's support plan over the next 18 months. Individuals' health and welfare will not be affected by this change, because services have been enhanced to be more flexible and appropriate to meet an individual's needs.

In the current waiver application, Personal Assistance Service also includes a separate authorization for Medical/Behavioral. In the waiver renewal, the medical component remains within the Personal Assistant service. The Behavioral component has been eliminated due to the new ABA services included in the waiver application. The ABA services include a component for Registered Behavior Technician (RBT) that will cover the behavioral needs in conjunction with personal assistance. Authorizations of services will change to be in alignment with each individual's support plan over the next 18 months. Individuals' health and welfare will not be affected by this change, because services have been enhanced to be more flexible and appropriate to meet an individual's needs.

In addition, the following boxes have been marked: eliminating a service, Adding or decreasing limits to a service or a set of services, as specified in Appendix C.

Attachment #2: Home and Community-Based Settings Waiver Transition Plan

Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301(c)(6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required.

Note that Appendix C-5 HCB Settings describes settings that do not require transition; the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here.

Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state's HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter "Completed" in this field, and include in Section C-5 the information on all HCB settings in the waiver.

The state assures that the settings transition plan included with this waiver renewal will be subject to any provisions or requirements included in the State's approved Statewide Transition Plan. The State will implement any required changes upon approval of the Statewide Transition Plan and will make conforming changes to its waiver when it submits the next amendment or renewal.

The public comment period for this waiver renewal was November 25, 2015 through December 25, 2015. There were no comments concerning the transition plan during the public comment period for this waiver renewal. The following is a summary of the public comments received regarding the Home and Community-Based Service Settings Transition Plan received during the public comment period of December 30, 2014 through January 30, 2015.

Public Comments

This document contains a summary of the public comments collected in response to the Missouri Statewide Transition Plan for the Home and Community Based Services (HCBS) Final Rule. Public comment was taken from December 30, 2014 through January 30, 2015. A notice regarding the Statewide Transition Plan was posted in The Columbia Tribune, Independence Examiner, Kansas City Star, Springfield News-Leader and The St. Louis Post Dispatch on December 29 and 30, 2014. The Missouri Statewide Transition Plan was available to the public on December 29, 2014. There were two public forums held. In accordance with Centers for Medicare and Medicaid Services (CMS) guidance, the Transition Plan was made available for public comment for 30 days after December 30, 2014 to allow all consumers, providers and stakeholders an opportunity to provide input to the plan. Paper copies of the State's HCBS Settings Transition Plan were distributed to Missouri Regional Offices and at the public forms. Additionally, Braille copies and American Sign Language (ASL) interpreters were available at the public forums.

Three hundred and twelve (312) letters were received from Emmaus Homes supporters including:

- Parents and Guardians
- State of Missouri Senator
- Local professionals
- Local business owners
- Community members
- Providers of services
- Educators
- Non-profit organizations
- Medicaid providers to Emmaus Homes residents
- Clergy and church members
- Washington, MO Chamber of Commerce
- City of Washington
- Friends and Family

None of the comments from the Emmaus Home supporters were adopted because they were regarding the property staying open and being fully funded, and did not pertain to the statewide transition plan.

Eleven (11) letters were received in support of United Cerebral Palsy of Northwest Missouri including:

- Employees
- Parents and Guardians
- Friends and family

None of the comments from the United Cerebral Palsy of Northwest Missouri supporters were adopted because they were describing how their current living situations allows for community integration.

The following addresses the questions, comments and letters received during the two public forums and public comment period.

I. Individual Initiative, Autonomy, and Independence in Making Life Choices - This section centered on requirements in the HCBS rule that seek to ensure individuals receiving Medicaid funded HCBS have full opportunity to make choices and exercise optimal control over all aspects of their daily living. One comment was received and did not specifically address the Missouri transition plan, but rather was seeking clarification or expressing concern with the HCBS rule. No changes were made to the Statewide Transition Plan as the result of this comment.

II. Provider Owned or Controlled Settings – No comments were received.

III. Community Integration versus Settings with the Effect of Isolating Individuals from the Broader Community – This section centered on the requirements in the HCBS rule that seek to ensure that HCBS is provided in settings integrated in the greater community and supports full access to the greater community to the same degree as individuals not receiving Medicaid funded HCBS. Fifteen comments were received and did not specifically address the Missouri transition plan itself, but were seeking clarification or expressing concern with the HCBS rule. No changes were made to the Statewide Transition Plan as a result of these comments.

IV. Transition Plan: Settings Analysis - No comments were received.

V. Transition Plan: Assessment – This section centered on the assessment portion of the draft transition plan, excluding the settings analysis which is addressed in the previous section of this document. Fourteen comments were received and did not specifically address the Missouri transition plan itself but were seeking clarification regarding the process of the assessment. No changes were made to the Statewide Transition Plan as the result of these comments.

VI. Transition Plan: Remediation Strategies and Public Comment Period - This section centered on the remediation strategies and public comment period portions of the draft transition plan. Two comments were received and did not specifically address the Missouri transition plan itself but were seeking clarification regarding the different remediation process for DMH and DHSS. No changes were made to the Statewide Transition Plan as the result of these comments.

VII. Transition Plan: General Questions and Comments - Comments in this section are centered on the draft transition plan or the assessment

and remediation process. Twenty-nine comments were received, but no changes were made to the Statewide Transition Plan as the result of the comments.

VIII. Disability System Issues – No comments were received.

Missouri Home and Community Based Services (HCBS) 1915(c) Waiver Settings Statewide Transition Plan

Missouri administers Home and Community Based Waivers through Department of Social Services, MO HealthNet Division (MHD), which is the single State Medicaid agency. The day-to-day operation of the waivers is through a formal cooperative agreement with the Missouri Department of Mental Health (DMH). The Department of Mental Health is the operational entity for the waiver.

The formal cooperative agreement outlines specific duties related to the administration, operation and oversight functions of the waiver. The Medicaid Agency has ultimate administrative authority and oversight responsibility for the waivers. All official correspondence including this transition plan, waiver submissions and waiver amendments are developed by, jointly developed, or reviewed by the Medicaid Agency prior to submission to the Centers for Medicare and Medicaid Services. Any changes to a waiver program must be approved by the State Medicaid Agency. Oversight meetings are held quarterly to discuss waiver functions. The CMS Final Rule, including the activities listed in the transition plan, will be discussed quarterly during the oversight meetings. In addition to the quarterly oversight meetings, staff meets when situations arise that warrant discussion between agencies.

This transition plan is specific to the Community Support Waiver (MO.0404) and is consistent with the statewide transition plan submitted to CMS on March 13, 2015. The transition plan has been jointly developed by the Department of Social Services/MO HealthNet Division and the Department of Mental Health.

Section 1: Assessment

Missouri (MO) proposes a multi-faceted approach to assessment. This will include the completion of a Settings Analysis, which will be a high-level assessment of settings within the state to identify general categories (not specific providers or locations) that are likely to be in compliance; not in compliance; presumed to be Non-Home and Community-Based Waiver Services (HCBS Waiver) or those that are not yet, but could become compliant. Other avenues for assessment will include identifying HCBS Waiver settings during provider enrollment and re-enrollment; evaluating settings through the existing HCBS Waiver quality assurance on-site review process and the provider self-assessment process; and monitoring of survey results for member experiences. Assessment activities will be incorporated into current quality assurance processes to the extent possible.

Action Item: Initial Settings Provider Self- Assessment Survey

Description: Incorporated HCBS Waiver setting questions into an initial provider survey. DMH will validate all of the initial DMH provider survey results with individualized provider information and initial on-site assessments.

Proposed Start Date: 6/23/14

Proposed End Date: 9/10/14

Sources/Documents: 2014 Settings Provider Self-Assessment Survey

Action Item: Settings Analysis

Description: State Identified HCBS Waiver settings as they potentially conform to HCBS characteristics and ability to comply in the future. General settings are classified into the following categories: Yes - Settings fully compliant; Not Yet - settings that will comply with changes; Not Yet - setting is presumed non-HCBS compliant but evidence may be presented for heightened scrutiny review; and No - setting does not comply. The Missouri HCBS Waiver Settings Analysis is being submitted as one component of the transition plan.

Proposed Start Date: 9/23/14

Proposed End Date: 2/02/15

Sources/Documents: Missouri Modified "Template for State Setting Analysis" herein referred to as Missouri HCBS Settings Analysis

Action Item: Geographic Information System (GIS) Evaluation of HCBS Service Settings and Addresses

Description: State: Use GIS to analyze locations of individuals' service settings and addresses to identify potential areas with high concentration of settings that are subject to heightened scrutiny.

Proposed Start Date: 12/16/14

Proposed End Date: 3/30/15

Sources/Documents: Addresses on MMIS Provider File - Provider Types 85, 26, 28, and 29, 58, 62, 94); Addresses on MMIS Participant File for individuals in 1915c waivers; The DMH will utilize the participant and provider agency addresses from current Licensure and Certification LCARS database.

Action Item: Initial Settings Assessment Tool Development

Description: State: Develop an initial settings assessment tool to be used by designated State staff for on-site reviews; Formal training on administering the tool prior to conducting on-site reviews.

Proposed Start Date: 2/01/14

Proposed End Date: 12/15/14

Sources/Documents: Final HCBS Regulations; Missouri Modified "Exploratory Questions to Assist States in Assessment of Residential Settings" herein referred to as Missouri Exploratory Questions for Assessment of HCBS Residential Settings; Missouri Modified "Settings That Isolate" herein referred to as Missouri - Settings with the Potential Effect of Isolating Individuals Receiving HCBS Waiver from the broader community; Initial Settings Assessment Tool; Training.

Action Item: Systemic Initial On-site Assessment

Description: State: Identify service settings that have the characteristics of HCBS Waivers or the qualities of an institution. Each service setting assessment will not exceed six months in duration.

As assessments are completed for individuals served, summary of findings (including requirements for remediation) will be distributed to the individuals and service providers within 45 calendar days of the completed on-site assessment. A statistically valid sample size of settings (based on 95% confidence level) will be utilized for assessment. This sample will include information from the "Sources/Documents" Column. Settings found to need state consideration of a state request to CMS for Heightened Scrutiny will be given priority of review by DMH.

Proposed Start Date: 12/16/14

Proposed End Date: 4/1/16

Sources/Documents: Provider Relations Heightened Scrutiny Settings Analysis; 2014 Settings Provider Self-Assessment Survey; On-site assessment tool; GIS mapping; RAOSoft program for statistically valid sample size.

Action Item: Provider Enrollment Processes

Description: State will operationalize mechanisms to incorporate assessment of settings into existing processes for provider pre-enrollment screening, provider credentialing, and provider certification by the MO Department of Mental Health (DMH)

Proposed Start Date: 11/14/14

Proposed End Date: 3/2/15

Sources/Documents: Operational Procedures; Provider Pre-Enrollment Screening Assessment Tool; HCBS Certification Review Tools.

Action Item: On-going On-site assessment

Description: State will incorporate reviews of settings into existing quality integrated functions.

As assessments are completed for individuals served, summaries of findings (including requirements for remediation) will be distributed to the individuals and service providers within 45 calendar days.

Proposed Start Date: 4/2/16

Proposed End Date: 4/02/17 and on an Annual basis thereafter

Sources/Documents: Provider Relations Reviews; Quality Enhancement Reviews to include National Core Indicators Surveys; TCM Technical Assistance Coordinator Reviews; Service Monitoring by Support Coordinators; Licensure and Certification Reviews; CIMOR EMT Contacts Process that includes anonymous input from individuals served and their advocates

Action Item: Enrolled HCBS Waiver settings providers self-assessment development

Description: Develop the Provider Self-Assessment to identify HCBS sites and to gather additional information from providers to assess sites of service that have characteristics of HCBS or the qualities of an institution. Providers will be required to submit the self-assessment annually.

Proposed Start Date: 10/1/14

Proposed End Date: 2/01/15 and annually thereafter

Sources/Documents: 2014 Settings Provider Self-Assessment; Missouri Modified "Exploratory Questions to Assist States in Assessment of Residential Settings" herein referred to as Missouri Exploratory Questions for Assessment of HCBS Residential Settings; Missouri Modified "Settings That Isolate" herein referred to as Missouri - Settings with the Potential Effect of Isolating Individuals Receiving HCBS Waiver from the broader community.

Action Item: Enrolled HCBS Waiver settings providers self-assessment distribution

Description: The self-assessment will be released to providers on January 1 and due to the State by April 1, with results compiled by May 15. Results will be shared with the public.

Proposed Start Date: 1/1/16

Proposed End Date: 05/15/16 and annually thereafter

Sources/Documents: Missouri Modified "Exploratory Questions to Assist States in Assessment of Residential Settings" herein referred to as Missouri Exploratory Questions for Assessment of HCBS Residential Settings; Missouri Modified "Settings That Isolate" herein referred to as Missouri - Settings with the Potential Effect of Isolating Individuals Receiving HCBS Waiver from the broader community.

Action Item: Enrolled HCBS Waiver settings -Missouri Exploratory Questions distribution

Description: Release the "Missouri Exploratory Questions for Assessment of HCBS Waiver Settings" document to assist providers in identifying if services are integrated in and have access to supports in the community, including opportunities to seek employment, work in competitive integrated settings, engage in community life, and control personal resources when completing the provider self-assessment.

Proposed Start Date: 1/1/15

Proposed End Date: 1/1/15

Sources/Documents: Missouri Modified "Exploratory Questions to Assist States in Assessment of Residential Settings" herein referred to as Missouri Exploratory Questions for Assessment of HCBS Residential Settings; Missouri Modified "Settings That Isolate" herein referred to as Missouri - Settings with the Potential Effect of Isolating Individuals Receiving HCBS Waiver from the broader community

Action Item: Missouri HCBS Waiver Participant Survey Development

Description: Develop an on-line participant survey to collect individual experiences to determine if service settings are in compliance with HCBS Waiver settings rule. The survey will include identification of the service setting, so the state can utilize this information in a follow up to the setting. The survey will provide the option for anonymity or to include contact information if they would like the state to discuss with them. If the participant discloses contact information, the state will do an on-site assessment.

Proposed Start Date: 11/1/14

Proposed End Date: 12/31/14
Sources/Documents: Missouri HCBS Waiver Participant Survey

Action Item: Missouri HCBS Waiver Participant Survey

Description: The survey will be released annually January 1 through December 31 with results compiled and report issued by March 1st. Results will be shared with the public.

Proposed Start Date: 1/1/15

Proposed End Date: 12/31/15 and annually thereafter

Sources/Documents: Missouri HCBS Waiver Participant Survey

Action Item: Assessment Results Report

Description: State compiles and analyzes findings of assessments and surveys. Findings will be presented to CMS, Missouri leadership and stakeholders beginning with initial assessment and annually thereafter.

Proposed Start Date: 4/30/16

Proposed End Date: 6/1/16 and Annually Thereafter

Sources/Documents: Assessments and surveys

Section 2: Remediation Strategies

Missouri proposes a remediation process that will capitalize on existing HCBS Waiver quality assurance processes including provider identification of remediation strategies for each identified issue, and on-going review of remediation status and compliance. The state may also prescribe certain requirements to become compliant. Missouri will also provide guidance and technical assistance to providers to assist in the assessment and remediation process. Providers that fail to remediate non-compliant settings timely may be subject to sanctions in accordance with 13 CSR 70-3.030 and/or 9 CSR 45-5.060.

Action Item: Informational Letters

Description: Draft and finalize informational letters describing proposed transition, appropriate HCBS Waiver settings, deadlines for compliance, and technical assistance availability. This includes all of the letters that the state will be sharing with stakeholders throughout the process over the next few years.

Proposed Start Date: 6/23/14

Proposed End Date: 4/1/17

Sources/Documents: CMS Guidance; Proposed Transition Plan; CFR.

Action Item: Missouri Code of State Regulations (CSR) Review

Description: Review administrative rules to determine if revisions are needed to reflect federal regulations on HCBS settings.

Proposed Start Date: 10/1/14

Proposed End Date: 3/1/15

Sources/Documents: CMS Guidance; Proposed Transition Plan; CFR; Missouri 13 CSR 70; Missouri 9 CSR 45; Missouri 19 CSR 15; Missouri 19 CSR 30-90.

Action Item: Missouri Code of State Regulations (CSR) Filing

Description: File changes to administrative rules to as needed to reflect federal regulations on HCBS settings.

Proposed Start Date: 3/1/15

Proposed End Date: 10/1/16

Sources/Documents: CMS Guidance; Proposed Transition Plan; CFR; Missouri 13 CSR 70; Missouri 9 CSR 45; Missouri 19 CSR 15; Missouri 19 CSR 30-90.

Action Item: Provider Manual Revisions

Description: Revise HCBS provider manuals to incorporate HCBS final rule requirements. Manuals will be reviewed to determine if revisions needed to include HCBS Waivers setting thresholds and will prohibit new sites from being accepted or enrolled that have an institutional or isolating quality while presenting deadlines for enrolled providers to come into compliance. Rules will clarify expectations of member control of their environment and access to community.

Proposed Start Date: 1/1/15

Proposed End Date: 12/31/15

Sources/Documents: CMS Guidance; Proposed Transition Plan; CFR; Provider Manuals.

Action Item: Incorporate Education and HCBS Waiver Compliance Understanding into Provider Enrollment

Description: Make adjustments to ensure that HCBS Waiver settings are evaluated when appropriate. Process will include - When agencies enroll to provide HCBS Waiver services, they will be provided information on HCBS setting requirements and be required to certify that they have received, understand, and comply with these setting requirements. Thereafter, ongoing monitoring by division quality integrated functions (to include Provider Relations Reviews and Licensure and Certification Reviews) will be conducted to ensure compliance with the HCBS requirements.

Proposed Start Date: 11/16/14

Proposed End Date: 2/1/15 and annually thereafter

Sources/Documents: Missouri HCBS Waiver Settings Analysis; Missouri Exploratory Questions for Assessment of HCBS Residential Waiver Settings; Missouri - Settings with the Potential Effect of Isolating Individuals Receiving HCBS from the Broader Community; Provider Enrollment Tools; Provider Agreements/Contracts.

Action Item: Provider Update Meetings and Trainings

Description: Provide information to HCBS providers via webinars and during quarterly provider meetings (new information updates provided) - in each region. Webinars will be posted on the DMH website and providers informed by email when webinars have been posted.

Proposed Start Date: 6/23/14

Proposed End Date: 4/1/17 and quarterly thereafter

Sources/Documents: Missouri HCBS Waiver Settings Analysis; Missouri Exploratory Questions for Assessment of HCBS Residential Waiver Settings; Missouri - Settings with the Potential Effect of Isolating Individuals Receiving HCBS from the Broader Community; Provider Enrollment Tools; Provider Agreement.

Action Item: HCBS Waiver Settings Assessment Findings

Description: DMH will present individuals and service providers with the results of the assessment. The summary of findings (including requirements for remediation) will be distributed to the individuals and service providers within 45 calendar days of each on-site setting assessment.

Proposed Start Date: 12/16/14

Proposed End Date: 5/15/16 and annually thereafter

Sources/Documents: Assessment and surveys listed in this document.

Action Item: Provider Individual Remediation

Description: HCBS Waiver providers will submit a remediation plan within 45 calendar days from the issuance of the summary of assessment findings for any settings that require remediation. This plan will provide detail about the steps to be taken to remediate issues and the expected timelines for compliance. State review of remediation plans will consider the scope of the transition to be achieved and the unique circumstances related to the setting in question. The state will allow reasonable timeframes for large infrastructure changes with the condition that the Waiver providers receive department approval and provide timely progress reports on a regular basis.

Proposed Start Date: 3/2/15

Proposed End Date: 3/17/17

Sources/Documents: Missouri HCBS Settings Analysis; Missouri Exploratory Questions for Assessment of HCBS Residential Settings; Missouri – Waiver Settings with the Potential Effect of Isolating Individuals Receiving HCBS from the Broader Community.

Action Item: Periodic Provider Remediation Status Updates

Description: Providers will be required to submit periodic status updates on remediation progress.

Proposed Start Date: 3/2/15

Proposed End Date: 3/17/18

Sources/Documents: Missouri HCBS Settings Analysis; Missouri Exploratory Questions for Assessment of HCBS Residential Settings; Missouri – Waiver Settings with the Potential Effect of Isolating Individuals Receiving HCBS from the Broader Community.

Action Item: State Response to Provider Individual Remediation

Description: Accept the plan or may ask for changes to the plan. The state may pre-set remediation requirements for each organization's HCBS Waiver settings.

Proposed Start Date: 3/2/15

Proposed End Date: 3/17/18

Sources/Documents: Missouri HCBS Settings Analysis; Missouri Exploratory Questions for Assessment of HCBS Residential Settings; Missouri – Waiver Settings with the Potential Effect of Isolating Individuals Receiving HCBS from the Broader Community; Provider Remediation plans.

Action Item: Assessment Results Report – State level Remediation

Description: After findings from settings assessments and provider and individual surveys have been presented to CMS, Missouri leadership and stakeholders, the State will work with stakeholders to develop Remediation strategies for systems processes changes. Global systems enhancement might include revisions to existing integrated quality monitoring processes and enhanced HCBS provider and support coordination trainings

Proposed Start Date: 06/01/16

Proposed End Date: 03/17/17 and Annually thereafter

Sources/Documents: Assessments and Surveys

Action Item: Data Collection

Description: State will collect data from reviews, technical assistance, updates, etc. to track status of remediation efforts.

Proposed Start Date: 09/10/14

Proposed End Date: 04/02/17 and Annually thereafter

Sources/Documents: Electronic tools developed to capture data

Action Item: Departmental Management Report

Description: Data will be reported on a regular basis to Missouri departmental management and CMS

Proposed Start Date: 09/10/14

Proposed End Date: 04/02/17 and Annually thereafter

Sources/Documents:

Action Item: On-going Compliance Reviews

Description: State will conduct on-going reviews to establish and monitor levels of compliance reached by providers with non-HCBS settings following completion of their remediation schedule.

Proposed Start Date: 04/02/15

Proposed End Date: 04/02/16 and Annually thereafter

Sources/Documents: Provider Relations Reviews, Quality Enhancement Reviews to include National Core Indicators Survey, TCM Technical Assistance Coordinator Reviews, Service Monitoring by Support Coordinators, Licensure and Certification Reviews, CIMOR EMT Contacts Process that includes anonymous input from individuals served and their advocates

Action Item: Provider Sanctions

Description: State will sanction providers in accordance with 13 CSR 70-3.030 and/or 9 CSR 45-5.060 (add DHSS CSR) that have failed to meet remediation standards and failed to cooperate with the HCBS Settings Transition.

Proposed Start Date: 02/03/15

Proposed End Date: 3/16/15 and ongoing on an individual provider basis

Sources/Documents: Sanction Template Letter

Action Item: Individuals Transition to settings that align with HCBS requirements

Description: If relocation of individuals is necessary, the state will work with the individuals to ensure that individuals are transitioned to settings meeting HCBS Setting requirements. Individuals will be given timely notice and due process, and will have a choice of alternative settings through a person-centered planning process. Transition of individuals will be comprehensively tracked to ensure successful placement and continuity of Waiver service.

Proposed Start Date: 03/16/15

Proposed End Date: 05/01/15 and ongoing on an individual basis

Sources/Documents: Sanction Template Letter, Notice of Decision (including appeal rights)

Data warehouse query of members affected and corresponding support coordinators, service workers, and care coordinators

Section 3: Public Comment

Missouri proposes to collect public comments on the transition plan in-person during two public forums. Missouri will also offer a conference line during the public forums. Missouri will provide an address for the public to mail in public comments as well. Through a series of stakeholder forums conducted throughout the state, Missouri will receive comments from our stakeholders. In addition to posting the transition plan and related materials on the Missouri MO HealthNet website, numerous stakeholders were contacted directly and provided with transition plan documents and information on the stakeholder forums. Stakeholders contacted include Missouri Association of County Developmental Disabilities Services (MACDDS), Missouri Association of Rehabilitation Facilities (MARF), Developmental Disabilities (DD) Council, People First, and The Arc.

Additionally for DHSS waivers: Adult Day Care Association, Leading Age.

Action Item: Announcement of Public Comment Period

Description: State released a Summary document, the Draft Transition Plan, and Draft Settings Analysis on the state website. A newspaper and an email blast will be released and the stakeholders will be contacted directly to inform them of the opportunity to provide public comment.

Proposed Start Date: 12/29/14

Proposed End Date: 03/07/15

Sources/Documents: Draft Transition Plan, Draft Settings Analysis, HCBS Settings Summary document, Newspaper release on 12/30/2014, Email blast on 12/30/2014

Action Item: Public Comment Period and Meetings - Proposed Transition Plan

Description: State commenced stakeholder forums, shared proposed transition plan with public, collected comments, developed state responses to public comments, and incorporated appropriate suggestions into transition plan. The state will continue to document all iterations of the transition plan. The Response to Public Comments document is included in the Transition Plan.

Proposed Start Date: 12/29/14

Proposed End Date: 03/07/15

Sources/Documents: Draft Transition Plan, State Response to Public Comments Document

Action Item: Public Comment Retention

Description: State will safely store public comments and state responses for CMS and public consumption.

Proposed Start Date: 12/29/14

Proposed End Date: 03/17/19

Sources/Documents: Public Comment and State Response Document

Action Item: Posting of Transition Plan Iterations

Description: State will post each approved iteration of the transition plan to its website.

Proposed Start Date: 12/29/14

Proposed End Date: 03/17/15

Sources/Documents: Transition Plan, Rationale for Changes Made

Action Item: Assessment Findings Report

Description: State posts the findings of the on-site assessments and remedial strategies annually by August 1.

Proposed Start Date: 07/01/16

Proposed End Date: 08/01/16 and annually thereafter

Sources/Documents: Data compiled from documents, Remedial strategies included at aggregate level

Additional Needed Information (Optional)

Provide additional needed information for the waiver (optional):

Public comments collected in response to the Comprehensive and Community Support Waiver Renewal Applications.

A notice regarding the Comprehensive and Community Support Waiver Renewal Applications was posted in The Columbia Tribune, Independence Examiner, Kansas City Star, Springfield News-Leader and The St. Louis Post Dispatch on November 25, 2015. The Comprehensive and Community Support Waiver Renewal Applications were available to the public on November 25, 2015. There were five public forums held across the state (St. Louis, Jefferson City, Kansas City, Sikeston, and Springfield). In accordance with CMS guidance, the Comprehensive and Community Support Waiver Renewal Applications were made available for public comment for 30 days after November 25, 2015 to allow all self-advocates, providers and stakeholders an opportunity to provide input to the applications. Paper copies of the State's Comprehensive and Community Support Waiver Renewal Applications were distributed to Missouri Regional Offices and at the public forms. During the public comment period, MO HealthNet Division (MHD) and Department of Mental Health (DMH) received comments from: County Connections, Alternative Community Training, Community Opportunities, Jefferson County Developmental Disabilities Resource Board, Concerned Care, Inc., Connections Case Management/JCSFB, Boone County Family Resources, Empowering Individuals through Advocacy and Support, Center for Developmentally Disabled, ICAN Missouri Foundation, Randolph County Developmental Disability Services, Bridges Community Support Services, Inc., Osage County Community Living/Osage County Special Services, Chariton Valley Association, St. Louis Arc, United Cerebral Palsy of Northwest Missouri, Perry County Services, Inc., Mississippi County Senate Bill 40 Board, Developing Potential, Inc., Center for Human Services, Community Support Services of Missouri, Licensed Behavior Analysts (over 25 individual comments), Missouri Developmental Disabilities Council, Missouri Association of County Developmental Disabilities Services (MACDDS), Missouri Association of Rehabilitation Facilities (MARF), and Family Members.

Appendix A, F, G and H – No Comments

Appendix B – One comment was received regarding the requirement that individuals must need at least one waiver service and that the waiver service must be provided at least monthly. The waiver application specifies that individuals need at least one waiver service, that is documented in the plan, and that we do monthly monitoring if the need is less than monthly for that service. No changes were made based upon this comment.

Appendix C

APPLIED BEHAVIOR ANALYSIS SERVICES-The increased training and qualification requirement would reduce access to behavior analysis services and to the service provided currently by behavioral personal assistants. The Division has included a 5% collateral authorization to address the requirement for supervision and the associated increased associated cost. The Division is recommending a rate that is \$4 above state plan. The recommended rate and provision for associated costs for supervision should incentivize providers to recruit qualified personnel and ensure access to appropriate services that reflect best practice.

The rate would not support the cost of maintaining personnel with these qualifications and providers would choose to discontinue or not initiate providing the service. The unit rate for this waiver service is \$4 above the rate for the proposed state plan service. The new Adaptive Behavior Treatment by Protocol by Technician service definition includes a 5% collateral authorization to address the requirement for supervision and the associated increased cost of supervision. No changes were made as a result of this comment.

Behavior analysis services costs would be increased for agencies providing them due to the extra training and supervision requirements, and the supervision requirement for the registered behavior technician would be difficult to meet in rural areas, therefore decreasing access to services in rural areas. The requirement for supervision for the previous service (behavioral personal assistance) was unspecified. However, the expectation was that the service was implementing behavior strategies and therefore under the direction of a behavioral service provider. Supervision for the RBT will require licensed behavior analysts time, but the amount of supervision is at the minimal necessary level. The supervision required for a less qualified staff would likely have been higher. No changes were made as a result of this comment. There was a comment that the elimination of the behavioral personal assistance service through the establishment of the Adaptive Behavior Treatment by Protocol by Technician service did not include provision to address the assistance with Activities of Daily Living (ADLs) or Instrumental Activities of Daily Living (IADLs) for people with challenging behaviors. The waiver renewal application does not limit an individual from receiving personal assistance with Adaptive Behavior Treatment by Protocol by Technician services concurrently. The proposed service and elimination of the behavioral component of the previous service will allow for more accurate monitoring and ensuring that needs of the individual are being met. The expectation will continue that personal assistants will be trained to implement the behavioral support strategies and that these behavioral supports will be modified and adjusted to less intensive strategies of support as the behavioral outcomes improve. No changes were made as a result of this comment.

The new definitions for Medical and Behavioral Personal Assistant service took away from the planning team the ability and responsibility to define need for oversight and protective supervision provided by the personal assistant service. The elimination of Behavioral Personal Assistance and introduction of the Adaptive Behavior Treatment by Protocol by Technician requires the planning team to identify the need for the service. In addition, behavioral personal assistance was not to be utilized solely for the purpose of protective supervision. The proposed service, which more clearly defines the service requirements and mandates behavioral oversight, will ensure the utilization is appropriate. If necessary, personal assistance can be concurrently authorized. No changes were made as a result of this comment.

The lack of an indirect service code that would allow for treatment planning and data analysis, and the need for this as the state licensure act that established the requirement for licensure for the practice of applied behavior analysis includes in the definition of applied behavior analysis

the design, implementation, and evaluation of environmental modifications. Treatment planning typically takes about 20% of Board Certified Behavior Analyst (BCBA) time. The comments suggested a limitation in the code/definition that authorization shall not exceed this number of hours. The service Adaptive Behavior Treatment by Protocol Modification includes in the service description the modification by Qualified Health Care Provider (QHCP) of the treatment protocol. While the majority of the service would take place face-to-face, a reasonable proportion of the service units could be utilized for protocol modification. This would include revision of the treatment plan procedures and data analysis to determine if modification were necessary. The definition will be revised to include that up to 10% of units authorized in a plan year for this service would be appropriately utilized for protocol modification and data analysis. This would require documentation as with all other units in addition to the written modified protocol and geographic display with current data and progress report describing the analysis and effects of intervention strategies related to the analysis. Observational Behavioral Follow-Up Assessment will also be revised to include units for the development of initial treatment protocol.

An objection to including the stipulation that behavioral services are to be short term in nature stating that by definition a developmental disability is generally a lifelong disability and that some individuals will need ABA services over several years and then may need periodic follow-up. All services under the Medicaid waiver must meet the requirement of being medically necessary and are, therefore, short term and not life-long in nature. Behavioral services do not treat the disability diagnosis, which is life-long in nature, but rather the learned and established behaviors that are placing the person at risk for health and safety and membership in the community. The premise and principles of behavioral treatment stand on the assumption and empirical validation that behaviors can be acquired, refined, and eliminated through the consistent application of the strategies; that these learned behaviors are generalizable to other situations; and that intensive strategies can be faded. No changes were made as a result of this comment.

There were several comments regarding the difficulty for the system that would result from the changes in the services because of an initial and ongoing need for training to understand the new services. To ensure that individual's needs are being met and gaps in services are not created, language will be added to state: "Upon waiver approval, individuals and support coordinators will revise the individual support plan (ISP) during the annual plan development meeting to be reflective of the new service definitions. ISP will fully implement the revised service definitions within 18 months of waiver approval."

There was also a comment that the change of behavior analysis services to align with state plan services would result in a costly systems problem, since the qualifications for various definitions of services are not consistent with the services needed by people with DD. Waiver services are intended to be non-duplicative with state plan services. If an individual can receive state plan services, they should access this, and not have waiver services. The Behavior Analysis Services needed by people who have developmental disabilities are different from what is needed by the general population and require specialized knowledge and adaptations to specific disabilities, stage of life, and living situation. The behavioral services categories, principles, and strategies within the waiver application are generalizable to all populations. While a child with Autism Spectrum Disorder (ASD) might require some specialized strategies that are different from those required by an adult with intellectual disabilities having significant behavioral issues, the strategies can all be categorized under the proposed service definitions. Having consistent service definitions and codes allows for consistent planning as children with ASD transition to adult services. In addition, consistent service categories between systems, including private insurance, results in easier navigation by service providers. No changes were made as a result of this comment.

There were comments that the designation of qualified health care professional which includes licensed psychologists, licensed professional counselor, and licensed social worker as possible service providers of behavior analysis services created a discrepancy as the definition allows a counselor or social worker to provide supervision of ABA treatment, however they cannot supervise RBTs. Only board certified behavior analysts or assistant analysts can do so. THE QHCP is defined by Missouri statutes for licensure in the professions identified. The scope and practice in the licensure codes for licensed psychologists, licensed professional counselors, licensed social workers and licensed behavior analysts all specify the use of applied behavior analysis. The service definitions for RBT related service specifies that supervision must be done by a licensed behavior analyst to accommodate the national credential requirements. No changes were made as a result of this comment. Person Centered Strategies Consultation-Previously, this consultative service has been authorized concurrent with other services. It is recommended that this provision be stated in the definition, as the service could include an observation of a person in a setting in which another waiver service is being provided. Person Centered Strategies Consultation services may be concurrently authorized with other services. No changes were made as a result of this comment.

Community Transition–Service definition revisions clarifying that the service covers expenses to transport furnishings and personal possessions to the new living arrangements is fantastic. Additionally, adding this service definition to the Community Support waiver will be a valuable service to waiver participants.

Employment Services-One comment was regarding Prevocational Services preserving a group option as it is conducive to developing cooperative teamwork skills, communication and social skills as well as other portable job skills. Even though the service is time-limited to six months, the provision to exceed six months if warranted by a person's needs is appreciated.

Three comments were regarding the reducing the maximum size of group supported employment from an allowance of 8 individuals to 4 individuals. Reducing group sizes promotes individualized services to the highest possible degree in accordance with HCBS. No changes were made as a result of this comment.

Six comments requested further clarification on the following terms contained within the service definitions: Annual review, fading, job development, measurable outcomes, integrated and workplace. This is industry standard language that will be further clarified in upcoming training. No changes were made as a result of this comment.

Six comments were related to the current rate structure and further evaluation on rate methodology. They noted the Rate Method Evaluation for Supported Employment, Prevocational, and Career Planning services are in line with what should be paid given the professional development required to be successful with these services. However, in reviewing the rate reflected for Prevocational Services, Group and Group Supported Employment under Appendix J-2 is a decrease as the reduction in group size, combined with the reduction in rate for providers whose services occur predominantly in off-site settings will lead to providers experiencing a cut in funding. We recognize the comment noting that the Rate Method Evaluation for Supported Employment, Prevocational, and Career Planning services are in line with what should be paid given the professional development required to be successful with these services. The adjustment of group sizes and the elimination of on/off site will promote independence and autonomy in integrated competitive employment in accordance with HCBS. No changes were made as a result of this comment.

Three comments were related to clarification in the waiver application on employment support provider qualifications. The waiver application indicates employment support provider qualifications are contained in the DMH provider contract. No changes were made as a result of this comment.

Six comments expressed concern on the ability to have services approved through the utilization review process when requesting individualized services which exceed standard service limits and with services which have service limits which are of shorter duration than the standard ISP. The state understands the need for a seamless transition to the understanding of the amended service definitions and will update the waiver renewal to allow time for the individuals, support coordinators, and providers to make this transition at the individual's next annual person centered plan development meeting. Language will be added to state: "Upon waiver approval, individuals and support coordinators will revise the individual support plan (ISP) during the annual plan development meeting to be reflective of the new service definitions. ISP will fully implement the revised service definitions within 18 months of waiver approval." Additionally, during this transition, tools and resources will be developed for training for the utilization review committees, providers and support coordinators to support smooth seamless services for individuals. The tools and trainings will include appropriate use of services and when Vocational Rehabilitation is considered a comparable benefit.

A comment requested further information on how to assess individual need related to the provision of employment services. Division staff, Employment First Specialists, are located in the Division's regional offices who can provide technical assistance on assessing individual need related to the provision of employment services. Additionally, during this transition, tools and resources will be developed for training for the utilization review committees, providers and support coordinators to support smooth seamless services for individuals. The tools and trainings will include appropriate use of services and when Vocational Rehabilitation is considered a comparable benefit. No changes were made as a result of this comment.

Five comments were submitted expressing acceptance of service limits for prevocational services; however, concerns were expressed with the extent of the reduction. Suggestions varied from increasing service limits from 60 units/week, as currently written in the waiver, to either 80 units/week or 100 units/week within a 6 month period. There were four comments requesting supports be authorized for 1 year instead of 6 months. Although there are standard service limits, the prevocational service definition allows for an exception review should additional time or units be needed. Based upon the feedback from stakeholders, the waiver application will be amended to set new service limits of 80 units/week not to exceed six months. Requests exceeding these thresholds would need to complete the exception review.

One comment requested retaining previous service definition of co-worker supports. Based on analysis of historical utilization Co-workers supports service has not been utilized and therefore not needed as a waiver service. No changes were made as a result of this comment.

Two comments requested clarification on billing of Career Planning and Job Development services authorized at same time (residential) and day services (specific to the provision services where the individual need not be present). In order for this to occur without billing difficulty they recommended adding clarification. The definition will be revised to state: "Providers of this service may coordinate, evaluate and communicate not only with the individual but, also with their caregivers, their support team, employers and others who can assist with discovering an individual's skills, abilities, interests, preferences, conditions and needs. This support and evaluation should be provided in the presence of the individual to the maximum extent possible and should be conducted in the community to the maximum extent possible but completion of activities in the home or without the presence of the individual should not be precluded."

Two comments were related to evidence based practices in providing Career Planning in accordance with national best case practices which support evaluating an individual in their natural setting, with other individuals meaningful to the individual (family, residential staff, guardians, teachers, previous employers, etc.) and the completion of Benefits Planning. It was noted the current service definition does not provide allowance to service being provided in the home nor the allowance for the individual to not be present when conducting Benefits Planning or interviewing other meaningful individuals. The definition will be revised to state: "Providers of this service may coordinate, evaluate and communicate not only with the individual but, also with their caregivers, their support team, employers and others who can assist with discovering an individual's skills, abilities, interests, preferences, conditions and needs. This support and evaluation should be provided in the presence of the individual to the maximum extent possible and should be conducted in the community to the maximum extent possible but completion of activities in the home or without the presence of the individual should not be precluded."

One comment was regarding "Assigning to the Division the role of routinely inspecting private employment sites is not appropriate and potentially stigmatizing to the employees being supported. Monitoring the adjustment/success of the worker and offering guidance to the employer should be the role of the Supported Employment provider, not state employees. Monitoring the job site is a step backward as it relates to the values and philosophies of "normalization and integration." Employers are already inspected by many entities, including fire departments, health agencies, emergency responders, OSHA, and insurance companies, to name just a few. There is no statutory or regulatory basis for the Division to impose a monitoring requirement on a private business, and the impact is likely to be a disincentive for employers to hire a person with a developmental disability. The waiver does not address DMH inspecting private employment sites. However, DMH is required by CMS to assess waiver services being provided to ensure the setting is compliant with the HCBS rule through ongoing monitoring, such as support coordinator monitoring, quality reviews, and provider relation reviews. No changes were made as a result of this comment.

Two comments requested further clarification on circumstances when the use of Vocational Rehabilitation would be viewed as a comparable service as a component of service coordination and utilization review. Tools and resources will be developed for training support coordinators, utilization review committees, and providers to support smooth seamless services for individuals. No changes were made as a result of this comment.

One comment requested the provision of Benefits Planning as a component of Career Planning service definition. Benefits Planning on the impact of earned income on Social Security and Medicaid funded services is an allowable activity in Career Planning as detailed in the service definition. No changes were made as a result of this comment.

Two comments were received on rate setting for employment services being varied throughout the state and providers with lower rates having to evaluate the ability to continue to provide services given the implementation of service limits. Employment support services outlined in the waiver applications will be established as flat rates for all providers delivering employment support services (i.e. Career Planning, Prevocational Services, Job Development and Supported Employment). No changes were made as a result of this comment.

One comment noted the change to career planning to match CMS as understandable. However, the term "discovery" is important philosophically to this service. Including "discovery" as part of the definition would promote "employment first" through an actual discovery process that is composed of getting to know an individual in a new way, rooting out unknown interests, desires and experiences, intentional

involvement by the multi-disciplinary team, etc. This is opposed to not being person-centered and targeting involvement in typical service and maintenance jobs. As the term “discovery” is an industry specific term related to career planning, this concept will be added to the service definition for Career Planning.

One comment indicated the new definition for prevocational services indicates volunteering being an allowed component with time limitation but no definition of what that limitation is. Volunteering is an industry specific term with specific rules and regulations governed through the US Department of Labor (DOL) Fair Labor Standards Act and Wage and Hour Laws. Any limitations on location or duration of volunteer work are established through DOL. No changes were made as a result of this comment.

One comment noted the definition for supported employment states that "Individual Supported Employment Services are the ongoing supports to individuals and their employers." In the next section, it lists services that may be provided under the waiver, but there is no reference to education and support provided to co-workers and supervisors. Recommend adding language that allows for this to occur and allowing for this portion of Supported Employment Services to be billable without the individual present. In the delivery of supported employment services it is an industry standard expectation that training and support are provided to the individual performing the job, co-workers and the employer. This support and training should be provided in the presence of the individual, as per individual need and is not an activity which would be provided or billed when the individual is not present. No changes were made as a result of this comment.

Two comments note the waiver fails to encourage employment. The waiver application contains a variety of service definitions which are intended to meet the support needs of individuals. Service definitions have been developed to assist individuals with developing career plans, conducting benefits planning, exploring social security work incentives, developing skills which promote community employment, assistance with securing employment and assistance with retaining employment. The service definitions affirm individuals' rights to pursue competitive, integrated employment and contain assurances that support does not exceed individualized assessed need. No changes were made as a result of this comment.

Job Development services have been removed from the current Community Employment definition and have been placed in a standalone Job Development definition. Many of the points in the Supported Employment definition, as related to self-employment, share common ideas for supports now held in the Job Development services definition. What is the benefit of separating Job Development, but leaving them for self-employment? Job Development is the service definition which supports an individual with completing applications, job interviews and locating potential employers. When a person is receiving supported employment services, employment supports are provided to the individual to assist with completing the essential functions in the performance of their job and in the development of natural supports in the work environment. For those self-employed, supported employment supports would be delivered for these same needs. No changes were made as a result of this comment.

One entity submitted multiple questions which sought guidance on the effective implementation of service definitions. The state understands the need for a seamless transition to the understanding of the amended services definitions and will update the waiver renewal to allow time for the individuals, support coordinators, and providers to make this transition at the individual's next annual person centered plan development meeting. Language will be added to state: "Upon waiver approval, individual and support coordinators will revise the individual service plan (ISP) during the annual plan development meeting to be reflective of the new service definitions. ISP will fully implement the revised service definitions within 18 months of waiver approval." During this transition, tools and resources will be developed for training for the utilization review committees, providers and support coordinators to support smooth seamless services for individuals.

Personal Assistance-13 comments were related to the current rate for the personal assistant service. A rate increase for the personal assistant service will need legislative appropriation. No changes were made as a result of this comment.

Three comments requested clarification regarding the following statement contained in the personal assistant service definition: "Duties of the Personal Assistant will not require skills to be attained from the training requirement." This sentence will be deleted from the service definition.

There was one comment requesting clarification about the definition not being habilitative and requested an example of when it is appropriate to use the service personal assistant. Personal care services under the state plan differ in service definition, in limitations of amount and scope, and in provider type and requirements from personal assistant services under the waiver. When an individual's need for personal assistance is strictly related to ADLs and can be met through the MO HealthNet state plan personal care program administered by the Division of Senior and Disability Services (DSDS), he or she will not be eligible for personal assistant services under the waiver, in accordance with the requirement that state plan services must be exhausted before waiver services can be provided. No changes were made as a result of this comment.

One comment recommended that the service definition include "the state plan service of personal care must be exhausted first if and/or when the assistance required by the individual is consistent with what the state plan service can provide." This is addressed in the waiver application; not accessing state plan personal care services has been a concern in the past and so the following information has always been included in the service definition:

Personal care services under the state plan differ in service definition, in limitations of amount and scope, and in provider type and requirements from personal assistant services under the waiver. When an individual's need for personal assistance is strictly related to ADLs and can be met through the MO HealthNet state plan personal care program administered by the Division of Senior and Disability Services (DSDS), he or she will not be eligible for personal assistant services under the waiver, in accordance with the requirement that state plan services must be exhausted before waiver services can be provided. No changes were made as a result of this comment.

Three comments requested clarification about the following staff training requirement: "Crisis intervention training, due to challenging behavior by the Individual, the assistant will also be trained in behavioral intervention techniques such as NCI (Nonviolent Crisis Intervention), MANDT, or others approved by the Division of DD. This sentence will be revised to read "Crisis intervention training as needed due to challenging behavior by the Individual, the assistant will also be trained in crisis intervention techniques such as NCI (Nonviolent Crisis Intervention), MANDT, or others approved by the Division of DD."

One comment stated there is no subcategory for Specialized Behavioral Personal Assistance. DMH-DD had indicated in prior drafts this would be covered under the ABA. However, under the ABA Technician there is no provision to address the assistance with ADLs or IADLs. People with challenging behaviors may certainly need this level of assistance in conjunction with assistance in reducing abhorrent/intrusive behaviors. The service to address these individual needs is "Adaptive Behavior Treatment by protocol by technician" which is done by the Registered Behavior Technician (RBT). Individuals receive this service in addition to Personal Assistance. No changes were made as a result of this comment.

Two comments included clarification needed for the personal assistance definition because it contains similar and ambiguous statements which are also addressed in other proposed waiver services including Day Habilitation and Community Integration. The duplicate or similar wording creates confusion and inconsistency in the appropriate application and authorization of the services. If the waiver personal assistance definition mirrors the state plan personal care definition then there would be no need for personal assistance services in the waiver. Waiver services do not supplant state plan services, they are services above and beyond what state plan services provide. No changes were made as a result of this comment.

The Division received four comments regarding concerns that discontinuing Behavioral Personal Assistance would cause individuals and families that self-directed services to lose staff because of rate decreases. The Division will not be decreasing any individual allocation because of the change. No changes were made as a result of this comment.

One comment was about PA/Med behavior (funded by the Lopez Waiver for 16 year old) being provided by the grandmother who is certified CNA. According to the proposed waiver definition changes it is my understanding he will not be able to continue to receive this support unless he is over the age of 21yrs. His parents both work outside of the home these services keep my consumer in his home placement with his family. Is that correct? The Division will not be decreasing any individual allocation because of the change. No changes were made as a result of this comment.

There was one comment requesting additional guidance regarding the CNA and Level I Medication Aid performing delegated complex nursing tasks under the medical personal assistance definition. Any staff who are paid to conduct a nursing task including medication administration or other nursing tasks determined appropriate to delegate to an unlicensed person by the supervising nurse, must maintain evidence of training for that task/skill by a medical professional, of competency for that task or skill, of assignment or delegation for that task or skill to that staff, and evidence of periodic supervision by the delegating supervising nurse for that task/skill. No changes were made as a result of this comment.

Assistive Technology-Raising the limit from \$3,000 to \$9,000 is very positive.

Three comments requested clarification regarding the Assistive Technology service definition requiring written approval for remote monitoring by the due process committee which is in conflict with the Due Process Directive. The definition will be modified and changed in the waiver application.

Three comments requested to clarify if Level I Med Aides are qualified to set up medication reminder systems. Currently a certified DMH Med Aid is not prohibited from setting up a Medication Reminder System (MRS) for use by the individual/consumer as long as they follow their training. There would still need to be documentation for accountability as to who filled the MRS, when, and with what; therefore, some type of medication administration record (MAR) should still be utilized as required with medication administration training, reflecting the doses administered by who into the MRS using a key code on the MAR. The staff overseeing self-administration must be certified med aide therefore they must document as trained. A Medication Aide may never set up medications for another med aide or staff to administer to an individual / consumer. No changes were made as a result of this comment.

Day Habilitation-There were seven comments addressing clarification and concern of the service being available as group only and not as individual and where the service can be provided. Day Habilitation is a facility based service that can be provided both on and off site. For individuals with medical, mobility, etc. issues, a medical exception may be sought in order to provide them with the individual assistance that they require. A behavioral exception is available for those individuals who have challenging behaviors that require additional assistance to reduce health and safety risks. No changes were made as a result of this comment.

One comment asked for clarification about individuals receiving residential services and day habilitation and how to document that there is no duplication. Day Habilitation services would be available for individuals that receive Group Home, Individualized Supported Living (ISL), and Shared Living services if the need for this service is identified in the Individual's support plan and these services are not duplicative in the Group Home rate, ISL budget, or Shared Living budget. No changes were made as a result of this comment.

There were eight comments regarding the rate being too low for the Day Habilitation service. Additional legislative authority is needed to increase overall payments to providers. No changes were made as a result of this comment.

There were seven comments regarding concerns about what is the medical exception and is a physician's order required. For individuals with medical, mobility, etc issues, a medical exception may be sought in order to provide them with the assistance that they require. A specific physician order for the day habilitation medical exception is not required. Language in the definition has been revised as follows to provide further clarity: Exceptional medical supports funding shall be utilized to provide enhanced services as "prescribed to meet medical needs which require the following: services from a Certified Nursing Assistance (CNA), services from a licensed practical nurse, or registered nurse within their scope of practice as prescribed by the state." A separate rate and code modifier is available for this service. This is to promote individuals ability to access community based services and integration to the fullest extent of their capabilities.

Requests for Exceptional medical supports shall be submitted to the Utilization Review Committee and include the following documentation:

- Written Support Plan which includes clinical outcome data with criteria for reduction of supports as relevant to the identified medical condition(s).

- Written documentation noting the individual's assessed need for services by the individual's medical practitioner.

There were two comments requesting clarification if providers are to bill personal assistance when assisting someone in the restroom during day habilitation. The day habilitation service and rate includes assisting individuals with ADL's. No changes were made as a result of this comment.

There were six comments expressing concern of the requirement and cost regarding the need for a CNA for the medical exception day habilitation service. Based on comments received regarding the CNA requirement, the day habilitation medical exception will be revised in the waiver application to provide more clarity as follows, "Exceptional medical supports funding shall be utilized to provide enhanced services as prescribed to meet medical needs which require the following: services from a Certified Nursing Assistance (CNA), services from a licensed practical nurse, or registered nurse within their scope of practice as prescribed by the state." Additionally, the increased rate for the medical exception day habilitation service considers the hourly rate for LPN, fringe, taxes, leave, and CNA certification expenses.

Community Integration-There was a comment regarding the stand-alone service placing emphasis on building social capital, accessing natural supports, and full participation in community life is appreciated.

There were three comments regarding the service being time limited and requesting clarification regarding wording directed at the number of hours authorized or the duration of the service. The limit is for the number of hours authorized. The service is limited to 25 hours per week.

The service should be to focus on becoming a fully participating member of the community; it is more than just going into the community. No

changes were made as a result of this comment.

There were ten comments expressing concern regarding examples of activities of daily living that are not included in community integration: grocery/clothing shopping, haircut, etc. Often these activities are integral to community inclusion and concern about what is community integration and the intent of the service. Personal assistance provides a service that assists an individual to go shopping, get a haircut or walk at the mall. Community integration is a service to assist the person in becoming a fully participating member of society in order to reduce barriers to community inclusion. For example, “mall walking” allows for someone to be there without being included versus participating in a community walking group that utilizes the mall as their walking track, which is community integration. Community integration should be based on the area that the individual lives and focuses on increasing individuals’ participation in becoming fully participating members of their community. No changes were made as a result of this comment.

One comment asked for clarification with Community Integration definition. Recommendation was to add language such as, “Personal assistance may be a component of Community Integration services, but may not comprise the entirety of the service.” It would ensure that activities of daily living wouldn’t become the focus of Community Integration, but would safeguard participants currently using those supports from having their access to the service being cut off because they receive residential services. The division agrees and will add this sentence to the Community Integration definition.

One comment expressed concern that the Community Integration Service Definition includes the following statement-“The following are examples of activities of daily living that are not included in Community integration: grocery/clothing shopping, haircut, etc. “does not match CMS guidelines. CMS technical guidance indicates that the “States’ implementation of the HCBS final rule will contribute to the quality and experience of participants in the waiver programs and will further expand their opportunities for meaningful community integration in support of the goals of the Americans with Disabilities Act and the Supreme Court’s decision in *Olmstead v. L.C.*” The Personal Assistance service definition in the waiver includes activities of daily living (ADL) and Instrumental Activities of Daily Living (IADL). IADLs include shopping, banking, budgeting, using public transportation, social interaction, recreation, and leisure activities, which is consistent with CMS technical guidance personal assistant definition. Including these IADLs in Community Integration would be a duplication of services, which is not allowable. Community integration is a service to further expand opportunities for the person in becoming a fully participating member of society in order to reduce barriers to community inclusion. No changes were made as a result of this comment.

There were two comments about Community Integration being provided in a group and that the change from allowing groups of six participants to groups of four to one staff will increase provider staff costs. Reducing group sizes promotes individualized services to the highest possible degree in accordance with HCBS. Additionally, Community Integration can be billed individually or in a group. No changes were made as a result of this comment.

There were six comments related to the proposed service definition for Community Integration Provider Type as Day Habilitation only. Concerns were that only Day Habilitation providers could provide Community Integration, thus limiting providers and individual choice. The Division agrees and will add CARF accredited in "Community Integration" as provider type, as well as CQL or The Joint Commission.

There was one comment that stated Community Integration activities may appear much different in rural areas versus urban areas and defining the allowed activities so narrowly does not allow for the natural differences between communities. Community integration should be based on the area that the individual lives and focuses on increasing individuals’ participation in becoming fully participating members of their community. No changes were made as a result of this comment.

One comment asked if transportation was rolled in the cost of the community integration service and what formula was used to calculate transport cost and does this include transport to and from a person's home or is that billed under transportation code. Transportation is included in community integration services. Each provider’s rate is set based on reported costs with the condition the rate must not exceed the Medicaid maximum allowable. The rate methodology is described in Appendix I. No changes were made as a result of this comment.

Individual Skill Development-The group option included in the definition of this service delivery was appreciated.

Three comments requested clarification regarding the time-limit and if it is time limit by objective or can it be continuous. There is a limit of 20 hours per week. Individual skill development focuses on the development of an identified skill, with a task analysis and data required to determine progression being made to accomplish the individual’s goal. If additional time is needed to accomplish this set goal, it can be reauthorized. Once the skill is mastered to the independence level of that person, the need for the service would end for that goal. No changes were made as a result of this comment.

There were three comments related to ISPs including outcomes and action steps individualized to what the individual wishes to accomplish, learn and/or change, which includes a task analysis of the identified learning objective—including all steps of a Task Analysis. This requirement will make plans long and cumbersome and recommendation is to have them as an attachment. We agree that the Task Analysis would make the ISP document long and should be included as an attachment. The provider would do the Task Analysis and determine the action steps based on the Task Analysis. The Task Analysis would be available for monitoring. The waiver does not specify where the Task Analysis is kept. No changes were made as a result of this comment.

Three comments requested clarification if Individuals who receive Group Home, Individualized Supported Living, or Shared Living can receive Individual Skill Development because the language has that a person who receives these services may receive Day Habilitation, but may not receive Individualized Skill Development at the Day Habilitation location. Individuals that receive Group Home, ISL, or Shared Living may not receive Individualized Skill Development service because it is encapsulated within these aforementioned services and would cause duplication. Individuals that receive day habilitation services may receive Individualized Skill Development if needed just not at the Day Habilitation location, because it should be taught in the home or community. No changes were made as a result of this comment.

There were ten comments regarding concern about the requirement of “a national/state credentialed staff trained in skill development and requested clarification about the credentialing system and how to obtain it and will this requirement need to be completed by July 1. Both the national and state certification is a portfolio process that staff will complete to ensure training and experience in providing the service. This requirement will not be expected to be completed by July 1, 2016. The state will train providers on this credentialing system upon approval of the waiver application and allow time for completion of this requirement. Language will be added in the service definition to state: “Upon waiver approval, individual and support coordinators will revise the individual service plan (ISP) during the annual plan development meeting to be reflective of the new service definitions. ISP will fully implement the revised service definitions within 18 months of waiver approval.”

Four comments were related to the proposed service definition for Individualized Skill Development Provider Type as Day Habilitation only. Concerns were that only Day Habilitation providers could provide Community Integration, thus limiting providers and individual choice.

The Division agrees and will add CARF accredited in "Community Integration" as provider type as well as CQL or The Joint Commission. Two comments requested clarification if transportation was rolled in the cost of the Individualized Skill Development service and what formula was used to calculate transport cost and does this include transport to and from a person's home or is that billed under transportation code. Transportation is included in Individualized Skill Development services. Each provider's rate is set based on reported costs with the condition the rate must not exceed the Medicaid maximum allowable. The rate methodology is described in Appendix I. No changes were made as a result of this comment.

There was one comment requesting if there are any activities related to Independent Living (other than employment related services) that are expressly excluded from Individualized Skill Development. In general, waiver services provided may not be duplicative. Specific limits on services are identified in the service limitation section of the definition. No changes were made as a result of this comment.

One comment stated that the Community Integration or Individualized Skill Development workers could support the individual to learn how to access a barber shop or hair salon independently in order to get a haircut is an activity that could lead to increased independence and/or fuller participation in the community. Learning to access a community activity such as using public transportation, completing the process for going to the hair salon, from scheduling an appointment, to salon etiquette, etc. may fall under individual skill development for the person. No changes were made as a result of this comment.

There was one comment stating that by changing the definitions of Individualized Skill Development and Community Integration limiting or identifying specific tasks that can be performed within the definitions, it is essentially converting these services to PA. Individual skill development focuses on the development of an identified skill, with a task analysis and data required to determine progression being made to accomplish the individual's goal. Personal assistance provides a service that assists an individual go shopping, get a haircut or walk at the mall. Community integration is a service to assist the person in becoming a fully participating member of society in order to reduce barriers to community inclusion. For example, "mall walking" allows for someone to be there without being included versus participating in a community walking group that utilizes the mall as their walking track, is community integration. No changes were made as a result of this comment.

Individualized Supported Living-Two comments regarding Provider owned or leased facilities where residential habilitation services are furnished must be compliant with the Americans with Disabilities Act. There are no ADA standards for private residences. The standard has always been that the dwelling is accessible to the individuals residing in it. Not all individuals who receive residential services need an accessible environment, not to mention there is a lack of accessible housing in most (if not all) communities. This would significantly inhibit choice. This language is consistent with the CMS technical guidance. The Division would expect compliance with this requirement only when applicable. No changes were made as a result of this comment.

There was one comment asking for clarification about the room and board for unrelated live-in personal caretaker is not in the waiver renewal and is it still allowable. Yes it is still allowable. This information is in Appendix I-6 of the waiver.

Environmental Accessibility Adaptations-Two comments asked if air conditioning could be provided under this definition if the need was due to a significant health condition or if there was an exception for this. The waiver is not to be used to supplant the responsibility of the home owner to maintain the property, or to improve the property's value. No changes were made as a result of this comment.

There was one comment with a concern that most home modification projects cannot be completed within the limit of \$7,500. There is an exceptions process that can be accessed. No changes were made as a result of this comment.

Community Specialist-One comment requested an individual contractor be included as a provider type for this service. There is currently an Individual provider category in the Community Specialist definition with the provider type being Qualified Community Professional.

Two comments requested that a Community Integration Provider be included as a provider type for this service. The Division currently has State Plan Personal Care providers, ISL, and Day Habilitation as a qualified provider types. Based on provider comments the Division will also add a qualification which allows CARF accredited or other approved accrediting entity.

Two comments recommended a group option be considered for Community Specialist services. The Division will research this service as a group option and follow-up with stakeholders for comments with the next waiver amendment or renewal. No changes were made as a result of this comment.

One comment recommended that this waiver definition list the other applicable waiver services that the Community Specialist service could be used in conjunction with so there is no ambiguity in its interpretation (ie. can be used in conjunction with Prevocational Services, ISL's, Group Homes, etc.; or stated that it can be utilized in conjunction with all waiver services). In general, waiver services provided may not be duplicative. Specific limits on services are identified in the service limitation section of the definition. No changes were made as a result of this comment.

One comment referenced that some participants are allowed to use Community Specialist for driver's education supports because of their disabilities. Other participants are denied Community Specialist to assist them in obtaining their driver's license. A community specialist is used when specialized supports are needed to assist the individual in achieving outcomes in the service plan. Community specialist services include professional observation and assessment, individualized program design and implementation and consultation with caregivers. This service may also, at the choice of the individual designated representative, include advocating for the individual, and assisting the individual in locating and accessing services and supports within their field of expertise. No changes were made as a result of this comment.

Out-of-Home Respite-Why can't a home in the community be licensed to provide this service – similar to the license and certification for Individualized Supported Living—but temporary use per individual as authorized/needed? The current provider types include Community Residential Facility and State-operated ICF/ID. Based on comments received, the division will add Family Living Arrangement to the provider types for this service.

In-Home Respite-Recommended that In-Home Respite be included in all waivers including Partnership for Hope Waiver. The Partnership for Hope Waiver contains the service "Temporary Residential Services." The service was included in that waiver based on the wants and needs from the county partners. This can be addressed with the next waiver renewal or amendment process. No changes were made as a result of this comment.

Physical Therapy-Certified physical therapy assistant (COTA) (COTA) is a certified occupational therapy assistant–this is the wrong acronym. This was corrected in the application.

Transportation-May this service be used to purchase accessible vehicles for designated person(s) living in a supported living arrangement? No

this service may not be used to purchase vehicles and is reimbursed based upon mileage. No changes were made as a result of this comment.

Appendix D—Four comments regarding conflict-free case management. Three were in support of the language in the proposed waiver renewals and one recommended changes.

The Division will modify the language to read as follows: Effective July 1, 2017, the Targeted Case Management (TCM) entity may provide waiver services, but NOT to an individual for whom the agency provides support coordination, unless that service is transportation or specialized medical equipment. Any TCM entity that is also providing a waiver service to the same individual shall notify that individual during the annual plan development meeting, that the individual can no longer receive support coordination and waiver services from the same entity. The individual shall also be presented with the names of eligible TCM entities, along with alternative waiver service providers, to offer the individual a choice of either another TCM entity or waiver service provider.

The Division of Developmental Disabilities will be responsible for identifying future support coordination options for individuals who chose to continue to receive waiver services from a TCM entity. If the individual does not make a selection within six months, then the TCM entity shall make a referral to another TCM entity that agrees to accept the referral of individuals for TCM services. Full transition to a new provider of either waiver services or support coordination should be completed within one year of the annual plan development.

The existing case management provider shall notify DMH of the individual's choice and DMH shall affect the transfer. This system will be fully implemented by December 31, 2018.

Appendix E—Comments were receiving regarding Support Broker and individual contractors being included as a provider type. This service will only be available through agency. The Division has worked over the last two years to increase the number of agency providers including having an agency in each region. State Plan Personal Care providers have been added as a qualified provider type. Based on provider comments the Division will also add a qualification which allows CARF accredited or other approved accrediting entity.

Appendix I—One comment received regarding a request for a provider that has a higher rate and a new budget being prepared. The language of this section should clearly show that participants in the waiver may freely choose their provider without fear of losing or even decreasing the amount of their necessary services because one provider has a higher rate. Changes were made as a result of this comment.

Appendix J—One comment regarding the rate reflected for Prevocational Services, Group under Appendix J-2, the Prevocational Group rate listed is a decrease from the current Job Preparation Group Off-Site rate. Appendix J-2 is an estimated cost based on historical expenditures. The current Appendix J-2 has the average rate per unit for Job-Prep Off-site group as \$3.52. This figure was derived from the average rate per unit billed by providers. Appendix J-2 in the waiver renewal for Prevocational Services Group (previously known as Job-Prep Off-Site Group) has the average rate per unit listed as \$4.66, which will be a flat rate under the waiver renewal. No changes made as a result of this comment.

Appendix A: Waiver Administration and Operation

1. State Line of Authority for Waiver Operation. Specify the state line of authority for the operation of the waiver (*select one*):

- ☐ The waiver is operated by the State Medicaid agency.

Specify the Medicaid agency division/unit that has line authority for the operation of the waiver program (*select one*):

- ☐ The Medical Assistance Unit.

Specify the unit name:

(Do not complete item A-2)

- ☐ Another division/unit within the State Medicaid agency that is separate from the Medical Assistance Unit.

Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency.

(Complete item A-2-a).

- ☒ The waiver is operated by a separate agency of the State that is not a division/unit of the Medicaid agency.

Specify the division/unit name:

Missouri Department of Mental Health, Division of Developmental Disabilities

In accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this policy is available through the Medicaid agency to CMS upon request. *(Complete item A-2-b).*

Appendix A: Waiver Administration and Operation

2. Oversight of Performance.

- a. **Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency.** When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities:

As indicated in section 1 of this appendix, the waiver is not operated by another division/unit within the State Medicaid agency. Thus this section does not need to be completed.

- b. **Medicaid Agency Oversight of Operating Agency Performance.** When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:
The Missouri Department of Social Services, MO HealthNet Division (MHD), has developed a HCBS waiver quality management strategy that is used to ensure that the operating agency, the Division of Developmental Disabilities (DD), is performing its assigned waiver operational functions and administrative functions in accordance with the waiver requirements during the period that the waiver is in effect. MHD and Division of DD meet quarterly to discuss administrative/operational components of the Community Support Waiver. This time is also used to discuss the quality assurances as outlined in Appendix H. Through a Memorandum of Understanding that exists between the two (2) agencies, communication remains open and additional discussions occur on an as needed basis.

MHD conducts an analysis of quarterly and annual reports submitted by Division of DD to ensure that the operational functions as outlined in A-7 are being implemented in a quality manner. MHD reviews the information to ensure the following assurances are meeting the established outcomes: 1) Level of Care, 2) Plan of Care, 3) Qualified Providers, 4) Health and Welfare, 5) Administrative Authority, and 6) Financial Accountability. A formal report is provided to Division of DD outlining the results of the analysis and listing any areas for improvement. Division of DD in turn provides a written corrective action plan for any areas of deficiency, outlining the steps to be taken to ensure the assurances are being met. Goals and timelines are included. MHD works closely with DMH to monitor areas of deficiencies, to set goals and establish timeframes for compliance.

In addition to Division of DD's ongoing record reviews throughout the year, MHD performs a statistically valid, statewide, annual record review, targeting problem areas identified through the reporting listed above. Problem areas are discussed with Division of DD who provides a corrective action plan to MHD outlining the steps being taken to address the problem. MHD continues to monitor for compliance to ensure that the action steps have been taken in a timely manner.

The MHD monitors that Division of DD is providing oversight for disseminating information concerning the waiver to potential enrollees, assisting individuals in waiver enrollment, and conducting level of care evaluation activities through the quarterly meetings, review of statistical reports and the annual record review.

Appendix A: Waiver Administration and Operation

3. **Use of Contracted Entities.** Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (*select one*):

- ☒ **Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).**

Specify the types of contracted entities and briefly describe the functions that they perform. *Complete Items A-5 and A-6.:*
Division of DD has a statewide contract for Fiscal Management Services that provide administrative functions to support individuals who self-direct services. This is the only contract entity that provides administrative services to waiver participants. The contractor's responsibilities are specifically related to processing payroll and reporting and paying related taxes and is not responsible for any functions listed in A-7.

- ☐ **No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).**

Appendix A: Waiver Administration and Operation

4. **Role of Local/Regional Non-State Entities.** Indicate whether local or regional non-state entities perform waiver operational and administrative functions and, if so, specify the type of entity (*Select One*):

☐ Not applicable

☒ **Applicable** - Local/regional non-state agencies perform waiver operational and administrative functions.

Check each that applies:

- ☒ **Local/Regional non-state public agencies** perform waiver operational and administrative functions at the local or regional level. There is an **interagency agreement or memorandum of understanding** between the State and these agencies that sets forth responsibilities and performance requirements for these agencies that is available through the Medicaid agency.

Specify the nature of these agencies and complete items A-5 and A-6:

Local non-state entities (counties), referred to as Missouri County SB-40 Boards that are approved to provide Targeted Case Management for persons who have Developmental Disabilities, perform waiver operational and administrative functions at the local level with oversight from the operating agency, Division of Developmental Disabilities. There is an contract between the Division of Developmental Disabilities and these entities that sets out the responsibilities and performance requirements. The contract between the State operating agency and these entities is available through the MO HealthNet, the Medicaid agency. Participation in administrative/operational functions include: Participant waiver enrollment; waiver enrollment managed against approved limits; waiver expenditures managed against approved limits; level of care evaluation; review of participants' service plans; utilization management; quality assurance and quality improvement activities.

- ☒ **Local/Regional non-governmental non-state entities** conduct waiver operational and administrative functions at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The **contract(s)** under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Specify the nature of these entities and complete items A-5 and A-6:

Local non-governmental non-state entities, referred to as other not for profit entities that contract with the Division of Developmental Disabilities to provide Targeted Case Management services perform waiver operational and administrative functions at the local level with oversight from the operating agency, Division of Developmental Disabilities. There is a contract between the State and these entities that sets out the responsibilities and performance requirements for these entities. The memorandum of understanding between the State operating agency and these entities is available through the MO HealthNet, the Medicaid agency. Participation in administrative/operational functions include: Participant waiver enrollment; waiver enrollment managed against approved limits; waiver expenditures managed against approved limits; level of care evaluation; review of participants' service plans; utilization management; quality assurance and quality improvement activities.

Appendix A: Waiver Administration and Operation

5. **Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities.** Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:

The Operating Agency, Division of Developmental Disabilities, is responsible for assessing the performance of entities approved as Targeted Case Management providers for persons who have developmental disabilities and that also have responsibility for limited waiver administrative functions. In addition, the sample records of waiver participants that the MO HealthNet Division reviews, includes records of individuals for whom local SB-40 County Boards provide administrative functions.

Division of DD is also responsible for monitoring the fiscal management services contractor to ensure participants are promptly enrolled, workers are accurately paid, and associated payroll taxes for the employers are deposited.

Appendix A: Waiver Administration and Operation

6. **Assessment Methods and Frequency.** Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:

1) Support coordinators employed by regional offices and other approved TCM entities conduct the initial and annual level of care evaluation. The Division of DD Regional Offices provide final approval of eligibility decisions, all support plans, and prior authorizations.

Each Regional Office has a Utilization Review Committee that meets at least monthly. The committees review all new service plans and budgets and also any service plans and associated budget when an increase in spending is requested. All decisions are subject to the approval of the MO HealthNet Division.

2) Division of DD Regional Office Technical Assistance Coordinators (TAC) conduct quarterly reviews with TCM entities (both local public entities and local non-public entities) that have been delegated waiver administrative functions in the following areas:

a. Participant waiver enrollment

Qualifications of staff;
Evidence the annual support plan was prepared according to guidelines;
Evidence due process and appeals processes are followed;
Accuracy of information entered in the Division's Consumer Information Management system;
Evidence records are maintained for each consumer receiving service coordination; and
Evidence participant was provided choice of waiver service or ICF-ID service.

b. Participant waiver enrollment managed against approved limits

c. Level of care evaluation

Qualifications of staff;
Evidence the ICF/ID Level of Care Form was completed following the procedures;
Evidence the participant was accurately found eligible or ineligible; and
Evidence participants were reevaluated annually by qualified staff, who followed the process; and
Evidence determinations were accurate

d. Review of participant support plans

e. Utilization management

Support plan must have waiver services that are prior authorized;
Support coordinator case notes indicate monitoring was conducted of participants to prevent occurrences of abuse, neglect, and exploitation using risk assessment & planning;
Service authorizations accurately reflect the budget and support plan;
Support plans are updated/reviewed at least annually, or when warranted by changes in the participant's needs;
Evidence that provider monthly reviews were done and documented in log notes;
Evidence that quarterly reviews were prepared;
Evidence services were delivered in accordance with the support plan including the type, scope, amount, duration, and frequency as specified in the support plan.

f. Quality assurance and quality improvement activities

3) Annually, MO HealthNet Division reviews case records for a randomly selected group of waiver participants. This is a comprehensive compliance review of all waiver administrative responsibilities. All determinations and decisions by Division of DD and county entities in operating the waiver are subject to approval of the MO HealthNet Division.

Appendix A: Waiver Administration and Operation

7. **Distribution of Waiver Operational and Administrative Functions.** In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (*check each that applies*):
In accordance with 42 CFR §431.10, when the Medicaid agency does not directly conduct a function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency. *Note: More than one box may be checked per item. Ensure that Medicaid is checked when the Single State Medicaid Agency (1) conducts the function directly; (2) supervises the delegated function; and/or (3) establishes and/or approves policies related to the function.*

Appendix A: Waiver Administration and Operation

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

i. Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

**Number and percent of waiver service claims paid that did not exceed the maximum allowable rate.
(Number of paid waiver service claims by procedure code that did not exceed the maximum reimbursement allowance/total number of paid waiver service claims by procedure code.)**

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

↑
↓

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

MO HealthNet has a Memorandum of Understanding with the Division of Developmental Disabilities (Division of DD) delegating administrative duties. MO HealthNet receives quarterly reports from the Division of DD in advance of a quarterly meeting with administrative and quality enhancement leadership team of Division of DD. Findings in the report are discussed and trends noted. MO HealthNet requests additional information and corrective action based on a review of data reported and discussed. Meeting minutes record discussions and follow-up/remediation required of Division of DD by MO HealthNet. MO HealthNet also has samples individual remediations reported by the Division of DD to ensure findings were properly resolved around level of care, service plan, health and safety, and qualified provider.

Performance measures related to policy and procedure review: A review of waiver policies and procedures will ensure that no Waiver policy/procedure is implemented by Division of DD prior to approval by MO HealthNet. These reviews will be documented in the MO HealthNet Waiver Review Log.

In addition, MO HealthNet will, through ongoing review of service plans, utilization review/quality review processes provided by Division of DD, and data obtained through the MMIS monitor to ensure compliance with all assurances and sub-assurances. If MO HealthNet discovers that a policy/procedure was implemented by Division of DD without MO HealthNet's approval, MO HealthNet will immediately notify Division of DD in writing that such policy or policy modification is not effective pending the review and approval of MO HealthNet. MO HealthNet will perform an expedited review of the applicable policy or policy modification, and will provide a written response regarding the disposition of the policy or policy modification. If revisions to the policy are needed, MO HealthNet will advise the Division of DD regarding required revisions, with subsequent review and approval by MO HealthNet prior to implementation of the policy or policy modification. If approved, the effective date of such policy or policy modification will be no earlier than the date of approval by MO HealthNet.

Remaining performance measures: Issues which require individual remediation may come to MO HealthNet's attention through quarterly review of the Division of DD Quality Management Reports, as well as through day-to-day activities of the MO HealthNet Division, e.g., review/approval of provider agreements, utilization review and Quality Review processes, complaints from MO HealthNet participants related to waiver participation/operation by phone or letter, etc. Remediation activities will be reported to MO HealthNet by the Division of DD as follow-up to these activities, and will also be aggregated in the Division of DD Quality Management Reports.

MO HealthNet requires that all individual issues are appropriately and timely remediated by Division of DD. If MO HealthNet discovers that any issue was not appropriately remediated, MO HealthNet will notify Division of DD and provide 10 days to identify an effective remediation strategy and 30 days to provide documentation to MO HealthNet that the strategy was implemented and was effective. All such issues will be included on the agenda for discussion at quarterly Quality Management Strategy Meetings. Inadequate remediation strategies identified by MO HealthNet, as well as alternative remediation strategies implemented by the Division of DD and dates of completion will be included in the MO HealthNet Waiver Review Log. The Waiver Review Log will identify MO HealthNet findings related to each performance measure, MO HealthNet and/or Division of DD remediation actions as appropriate, and timeframes required for remediation. On a quarterly basis, the MO HealthNet Waiver Review Log will include an analysis of data received from the Division of DD and data generated by MO HealthNet for the purpose of identifying the number and percentage of MO HealthNet and Division of DD findings appropriately remediated in accordance with specified timeframes.

- ii. **Remediation Data Aggregation**

Remediation-related Data Aggregation and Analysis (including trend identification)

Responsible Party <i>(check each that applies):</i>	Frequency of data aggregation and analysis <i>(check each that applies):</i>

☒ State Medicaid Agency	☐ Weekly
☒ Operating Agency	☐ Monthly
☐ Sub-State Entity	☒ Quarterly
☐ Other Specify: 	☒ Annually
	☐ Continuously and Ongoing
	☐ Other Specify:

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Administrative Authority that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Administrative Authority, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-1: Specification of the Waiver Target Group(s)

- a. Target Group(s).** Under the waiver of Section 1902(a)(10)(B) of the Act, the State limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. *In accordance with 42 CFR §441.301(b) (6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:*

Target Group	Included	Target SubGroup	Minimum Age	Maximum Age	
				Maximum Age Limit	No Maximum Age Limit
☐ Aged or Disabled, or Both - General					
	☐	Aged			☐
	☐	Disabled (Physical)			
	☐	Disabled (Other)			
☐ Aged or Disabled, or Both - Specific Recognized Subgroups					
	☐	Brain Injury			☐
	☐	HIV/AIDS			☐
	☐	Medically Fragile			☐
	☐	Technology Dependent			☐
☒ Intellectual Disability or Developmental Disability, or Both					
	☐	Autism			☐
	☒	Developmental Disability	0		☒
	☒	Intellectual Disability	0		☒
☐ Mental Illness					
	☐	Mental Illness			

b. Additional Criteria. The State further specifies its target group(s) as follows:

An eligible individual has a place to live in the community, typically with family. Unpaid caregivers/family will provide a substantial amount of care. However, the individual requires services and supports in scope or intensity beyond what the primary caregiver(s) is able to provide 24-hours in a day and/or every day of the year. The caregiver's inability to meet all service and support needs puts the individual at risk of out of home placement in an ICF/ID. The individual's must have assessed needs estimated to cost less than \$28,000 per year.

Through person centered planning, assessment of need is ongoing. When additional needs may arise that exceed the cost limits of a particular Division of DD waiver (e.g. Partnership of Hope Waiver) the planning team will support the individual to obtain additional waiver resources to meet the need. This may involve transitioning to a different waiver that offers these services.

c. Transition of Individuals Affected by Maximum Age Limitation. When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit (*select one*):

- ☒ **Not applicable. There is no maximum age limit**
- ☐ **The following transition planning procedures are employed for participants who will reach the waiver's maximum age limit.**

Specify:

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (1 of 2)

a. Individual Cost Limit. The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (*select one*). Please note that a State may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:

- ☐ **No Cost Limit.** The State does not apply an individual cost limit. *Do not complete Item B-2-b or item B-2-c.*
- ☐ **Cost Limit in Excess of Institutional Costs.** The State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the State. *Complete Items B-2-b and B-2-c.*

The limit specified by the State is (*select one*)

- ☐ **A level higher than 100% of the institutional average.**

Specify the percentage:

- ☐ **Other**

Specify:

- ☐ **Institutional Cost Limit.** Pursuant to 42 CFR 441.301(a)(3), the State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. *Complete Items B-2-b and B-2-c.*
- ☒ **Cost Limit Lower Than Institutional Costs.** The State refuses entrance to the waiver to any otherwise qualified individual when the State reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the State that is less than the cost of a level of care specified for the waiver.

Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants.

Complete Items B-2-b and B-2-c.

The basis for the limit is that individuals participating in this waiver live with family members or have funding from other public programs that in combination with waiver services ensures the individuals have sufficient services and supports to assure their health and safety.

Individuals are assessed prior to entering this waiver and annually to identify their needs and estimate the cost of waiver services necessary to meet the needs. If the estimated cost of waiver services exceeds the limit initially or after entering the waiver, the individual is considered for participation in another DD waiver that that can meet their need that does not have a cap.

The regional offices of the operating agency report to the operating agency's central office if the cap becomes too low to meet the needs of a significant number of current participants and/or prospective participants. The cap will be adjusted by amendment if it is determined the cap is not sufficient to meet the needs of a growing number of participants or as a result of system changes such as a statewide provider rate increase.

The cost limit specified by the State is (select one):

☒ **The following dollar amount:**

Specify dollar amount:

The dollar amount (select one)

☒ **Is adjusted each year that the waiver is in effect by applying the following formula:**

Specify the formula:

The cost limit will be adjusted annually by the Consumer Price Index (CPI)

☐ **May be adjusted during the period the waiver is in effect. The State will submit a waiver amendment to CMS to adjust the dollar amount.**

☐ **The following percentage that is less than 100% of the institutional average:**

Specify percent:

☐ **Other:**

Specify:

⬆
⬇
⬆

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (2 of 2)

- b. Method of Implementation of the Individual Cost Limit.** When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

In advance of enrollment in the waiver, the needs of the individual and how best to meet the needs are identified. From this assessment, a plan of care is developed that specifies the amount, frequency, and duration of all services that are needed to assure health and safety. All potential sources for meeting the needs will be explored such as private insurance, other federal programs, State Plan Medicaid, other state and local programs as well as non-paid support provided by family and friends. The plan/budget is sent through the Utilization Review Committee which reviews the request and proposed costs. The committee makes a recommendation to approve, change or deny all or some services proposed in the budget based on statewide Utilization Review Committee criteria(9 CSR 45-2.017) If the individual's needs cannot be met within the cost limit, the Comprehensive Waiver will be considered.

If enrollment to the waiver is denied the applicant is notified in writing that they have an opportunity to request a fair hearing.

- c. Participant Safeguards.** When the State specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in

order to assure the participant's health and welfare, the State has established the following safeguards to avoid an adverse impact on the participant (*check each that applies*):

- ☐ **The participant is referred to another waiver that can accommodate the individual's needs.**
- ☒ **Additional services in excess of the individual cost limit may be authorized.**

Specify the procedures for authorizing additional services, including the amount that may be authorized:

If there is a change in the participant's condition or circumstances which result in increased needs and services to assure the participant's health and welfare, the case manager will propose a change to the plan. The changed plan will be subject to utilization review. The utilization review committee may approve or deny the changes, or may recommend alternative solutions. If increased services are denied, the person will be advised in writing, and will be provided information on appeal rights.

If a proposed plan or proposed change to a plan will cause the annual cap to be exceeded but the service(s) is deemed necessary to protect the person's health and safety and/or prevent the person from entering an institution, an exception can be requested. Exceptions may be approved by the Division of DD Director, or a designee, for a one time expense, during a crisis or a transition period, or other circumstances supported by a recommendation from the regional office's utilization review committee.

Individuals participating in the waiver will not lose eligibility for service due to an increased need for a covered service that causes the total need to exceed maximum amounts established by the state.

Examples of action the planning team may take to assist the person in accessing additional services that are required for health and safety and to avoid institutionalization are:

- Seek additional natural supports;
- Consider accessing non-waiver State or County (local) funds;
- Request approval for an exception from the Division of DD Director or designee, to exceed a maximum limitation for a one-time expense, or during a crisis or transition period; and/or
- Provide the person information regarding other Missouri waivers such as the DD Comprehensive waiver and provide assistance with applying and transitioning as needed.

If it is determined that the individual's health and welfare cannot be assured in the community by any or a combination of the above actions, the State may find it necessary to discharge the person from the waiver and may recommend institutional services.

- ☒ **Other safeguard(s)**

Specify:

When there is a change in the participant's condition or circumstances the needs of the individual are reevaluated. In some cases, an exception to the cap may be authorized, or the individual may be referred to other services which could include the DD Comprehensive Waiver.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

- a. **Unduplicated Number of Participants.** The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The State will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

Table: B-3-a

Waiver Year	Unduplicated Number of Participants
Year 1	2854
Year 2	3254
Year 3	3654
Year 4	4054
Year 5	4454

- b. **Limitation on the Number of Participants Served at Any Point in Time.** Consistent with the unduplicated number of participants specified in Item B-3-a, the State may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the State limits the number of participants in this way: (*select one*):

- ☒ **The State does not limit the number of participants that it serves at any point in time during a waiver year.**
- ☐ **The State limits the number of participants that it serves at any point in time during a waiver year.**

The limit that applies to each year of the waiver period is specified in the following table:

Table: B-3-b

Waiver Year	Maximum Number of Participants Served At Any Point During the Year
Year 1	
Year 2	
Year 3	
Year 4	
Year 5	

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

- c. **Reserved Waiver Capacity.** The State may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (*select one*):

- ☐ Not applicable. The state does not reserve capacity.
- ☒ The State reserves capacity for the following purpose(s).

Purpose(s) the State reserves capacity for:

Purposes	
Reserved Capacity Transition	
Crisis	

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (*provide a title or short description to use for lookup*):

Reserved Capacity Transition

Purpose (*describe*):

Reserved Capacity Transition is identified for persons who transition from a state operated ICF/ID setting to home and community-based placements. Individuals who transition from state operated ICF/ID settings to HCBS settings will not be transitioned to homes on the campuses of ICF/IDs.

Describe how the amount of reserved capacity was determined:

Reserve capacity for individuals transitioning from ICF/ID settings based on data of persons entering the waiver for prior years.

The capacity that the State reserves in each waiver year is specified in the following table:

Waiver Year	Capacity Reserved
Year 1	15
Year 2	15
Year 3	15
Year 4	15
Year 5	15

Appendix B: Participant Access and Eligibility

B-3. Number of Individuals Served (2 of 4)

Purpose (provide a title or short description to use for lookup):

Crisis

Purpose (describe):

Reserve capacity for individuals in crisis is for individuals who are in emergency situations as defined by the Division of DD, 9 CSR 45-2.017 (E). Includes: 1) individuals in immediate need of life-sustaining services; 2) individuals needing immediate services to protect another person from imminent physical harm; 3) individuals transitioning from institutional services; 4) individuals still requiring significant levels of service who are no longer eligible for another program or services (another waiver, etc.); 5) individuals in care and custody of Children's Division for whom there is a formal agreement in place with Division of DD; 6) individuals under age 18 requiring coordinated services through several agencies to avoid court action; or 7) individuals subject to ongoing or pending legal action requiring immediate delivery of services.

Describe how the amount of reserved capacity was determined:

The State reserves capacity for crisis. The amount of the reserved capacity was determined by reviewing participant data for individuals entering the waiver in the past 5 years who were reported to have crisis status.

The capacity that the State reserves in each waiver year is specified in the following table:

Waiver Year	Capacity Reserved
Year 1	100
Year 2	100
Year 3	100
Year 4	100
Year 5	100

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (3 of 4)

- d. **Scheduled Phase-In or Phase-Out.** Within a waiver year, the State may make the number of participants who are served subject to a phase-in or phase-out schedule (*select one*):
- ☒ The waiver is not subject to a phase-in or a phase-out schedule.
 - ☐ The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.
- e. **Allocation of Waiver Capacity.**

Select one:

- ☒ Waiver capacity is allocated/managed on a statewide basis.
- ☐ Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

⬆
⬇
⬆

- f. **Selection of Entrants to the Waiver.** Specify the policies that apply to the selection of individuals for entrance to the waiver:

Division of DD's Utilization Review (UR) Process, conducted by regional offices, prioritizes the needs of individuals in order to identify and serve individuals with the greatest needs first. The UR process is applied to all new support plans and new/increased

budgets developed by planning teams. The UR process is standardized for use at all regional offices. Support plans and budgets developed by Targeted Case Management Entities are also subject to this review process. The process rates priority of need and assigns points with a score of 12 representing individuals who have the greatest need in the State. Individuals with scores of 12 are served first statewide before individuals with scores of 11, 10, etc. are served. Should there be any change in the person's status during this time, the Utilization Review Process will be updated in order to reflect the individuals current needs.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served - Attachment #1 (4 of 4)

Answers provided in Appendix B-3-d indicate that you do not need to complete this section.

Appendix B: Participant Access and Eligibility

B-4: Eligibility Groups Served in the Waiver

a.

1. **State Classification.** The State is a (*select one*):

- ☐ §1634 State
☐ SSI Criteria State
☒ 209(b) State

2. **Miller Trust State.**

Indicate whether the State is a Miller Trust State (*select one*):

- ☐ No
☒ Yes

b. **Medicaid Eligibility Groups Served in the Waiver.** Individuals who receive services under this waiver are eligible under the following eligibility groups contained in the State plan. The State applies all applicable federal financial participation limits under the plan. *Check all that apply:*

Eligibility Groups Served in the Waiver (excluding the special home and community-based waiver group under 42 CFR §435.217)

- ☐ Low income families with children as provided in §1931 of the Act
☐ SSI recipients
☒ Aged, blind or disabled in 209(b) states who are eligible under 42 CFR §435.121
☒ Optional State supplement recipients
☐ Optional categorically needy aged and/or disabled individuals who have income at:

Select one:

- ☐ 100% of the Federal poverty level (FPL)
☐ % of FPL, which is lower than 100% of FPL.

Specify percentage:

- ☐ Working individuals with disabilities who buy into Medicaid (BBA working disabled group as provided in §1902(a)(10)(A)(ii)(XIII) of the Act)
☒ Working individuals with disabilities who buy into Medicaid (TWWIIA Basic Coverage Group as provided in §1902(a)(10)(A)(ii)(XV) of the Act)
☒ Working individuals with disabilities who buy into Medicaid (TWWIIA Medical Improvement Coverage Group as provided in §1902(a)(10)(A)(ii)(XVI) of the Act)
☐ Disabled individuals age 18 or younger who would require an institutional level of care (TEFRA 134 eligibility group as provided in §1902(e)(3) of the Act)
☐ Medically needy in 209(b) States (42 CFR §435.330)
☐ Medically needy in 1634 States and SSI Criteria States (42 CFR §435.320, §435.322 and §435.324)
☒ Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the State plan that may receive services under this waiver)

Specify:

The state elects to serve all other mandatory and optional groups included in the State plan, except for the Special home and community group under 42 CFR 435.217.

Special home and community-based waiver group under 42 CFR §435.217) Note: When the special home and community-based waiver group under 42 CFR §435.217 is included, Appendix B-5 must be completed

- ☒ **No. The State does not furnish waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217. Appendix B-5 is not submitted.**
- ☐ **Yes. The State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217.**

Select one and complete Appendix B-5.

- ☐ **All individuals in the special home and community-based waiver group under 42 CFR §435.217**
- ☐ **Only the following groups of individuals in the special home and community-based waiver group under 42 CFR §435.217**

Check each that applies:

☐ **A special income level equal to:**

Select one:

- ☐ **300% of the SSI Federal Benefit Rate (FBR)**
- ☐ **A percentage of FBR, which is lower than 300% (42 CFR §435.236)**

Specify percentage:

- ☐ **A dollar amount which is lower than 300%.**

Specify dollar amount:

- ☐ **Aged, blind and disabled individuals who meet requirements that are more restrictive than the SSI program (42 CFR §435.121)**
- ☐ **Medically needy without spenddown in States which also provide Medicaid to recipients of SSI (42 CFR §435.320, §435.322 and §435.324)**
- ☐ **Medically needy without spend down in 209(b) States (42 CFR §435.330)**
- ☐ **Aged and disabled individuals who have income at:**

Select one:

- ☐ **100% of FPL**
- ☐ **% of FPL, which is lower than 100%.**

Specify percentage amount:

- ☐ **Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the State plan that may receive services under this waiver)**

Specify:

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (1 of 7)

In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR

- a. **Use of Spousal Impoverishment Rules.** Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:

Answers provided in Appendix B-4 indicate that you do not need to submit Appendix B-5 and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (2 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

- b. **Regular Post-Eligibility Treatment of Income: SSI State.**

Answers provided in Appendix B-4 indicate that you do not need to submit Appendix B-5 and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (3 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

- c. **Regular Post-Eligibility Treatment of Income: 209(B) State.**

Answers provided in Appendix B-4 indicate that you do not need to submit Appendix B-5 and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (4 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

- d. **Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules**

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-4 indicate that you do not need to submit Appendix B-5 and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (5 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

- e. **Regular Post-Eligibility Treatment of Income: SSI State or §1634 State - 2014 through 2018.**

Answers provided in Appendix B-4 indicate that you do not need to submit Appendix B-5 and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (6 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

- f. **Regular Post-Eligibility Treatment of Income: 209(B) State - 2014 through 2018.**

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

g. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules - 2014 through 2018.

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-4 indicate that you do not need to submit Appendix B-5 and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the State provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

- a. Reasonable Indication of Need for Services.** In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the State's policies concerning the reasonable indication of the need for services:

i. Minimum number of services.

The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is:

ii. Frequency of services. The State requires (select one):

- ☐ The provision of waiver services at least monthly
☒ Monthly monitoring of the individual when services are furnished on a less than monthly basis

If the State also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:

- b. Responsibility for Performing Evaluations and Reevaluations.** Level of care evaluations and reevaluations are performed (*select one*):

- ☐ Directly by the Medicaid agency
☐ By the operating agency specified in Appendix A
☒ By an entity under contract with the Medicaid agency.

Specify the entity:

The State Plan was amended in 2009 to add a fourth type of TCM provider: not for profit agency registered with Secretary of State and designated by the Division of DD. The Division of DD Regional Office has final approval of all Level of Care evaluations.

- ☐ Other
Specify:

- c. Qualifications of Individuals Performing Initial Evaluation:** Per 42 CFR §441.303(c)(1), specify the educational/professional

qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

Initial evaluations are conducted by a qualified Support coordinator employed by the Division of DD or Targeted Case Management Entities approved by Division of DD to provide targeted case management. All level of care determinations are approved by the Division of DD Regional Offices and are subject to the approval of the State Medicaid Agency.

Qualifications of individuals performing level of care evaluations are specified in the Medicaid state plan for Targeted Case Management for persons with developmental disabilities approved by CMS September 11, 2009. This states that case managers employed by a qualified provider shall meet the minimum experience and training qualifications for a Developmental Disability Professional (DDP). The qualifications for a DDP are the same as the minimum required for the position of Case Manager I with the Division of DD and require:

- (1) One or more years of professional experience: (a) as a Registered Nurse; (b) in social work, special education, psychology, counseling, vocational rehabilitation, physical therapy, occupational therapy, speech therapy, or a closely related area; or (c) in providing direct care to persons who have developmental disabilities; and
- (2) A bachelor's degree from an accredited college or university with a minimum of 24 semester hours or 36 quarter hours of credit in one or a combination of human service field specialties. Additional experience as a Registered Nurse may substitute on a year-for-year basis for a maximum of two years of required education.

- d. **Level of Care Criteria.** Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the State's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

The Division of Developmental Disabilities Waiver ICF/ID Level of Care Determination Form is the instrument/tool used to determine level of care in this waiver just like the other DD waivers. An assessment of the individual is conducted before the form is completed using the Missouri Critical Adaptive Behaviors Inventory (MOCABI). This is a tool specific to Missouri that identifies functional limitations and needs. The Vineland Adaptive Behavior Scale or other age appropriate tools may be used for children when more appropriate.

The Division of Developmental Disabilities Waiver ICF/ID Level of Care Determination must confirm and document the following:

- 1) The person has an intellectual disability or a related condition;
- 2) The person has a need for a continuous active treatment program, including aggressive consistent implementation of a program of specialized and generic training, treatment, health services and related services that are directed toward the improvement of functional abilities, or are necessary to avoid regression or loss of current optimal functioning status; and
- 3) there is a reasonable indication, based on observation and assessment of the person's physical, mental and environmental condition, that the only alternative services that can meet the individual's needs, if waiver services are not available, are services through an ICF/ID.

State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the Division of DD.

Evaluations of level of care are completed by qualified support coordinators employed by the Regional Office or an entity enrolled with MO HealthNet to provide targeted case management for individuals who have developmental disabilities. Regional Office administrative staff review the evaluation of level of care, the draft support plan, the priority of need recommendation and determine final eligibility for the waiver. All level of care redeterminations are approved by the Division of DD Regional Offices and are subject to the approval of the State Medicaid Agency.

- e. **Level of Care Instrument(s).** Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (*select one*):

- ☐ **The same instrument is used in determining the level of care for the waiver and for institutional care under the State Plan.**
- ☒ **A different instrument is used to determine the level of care for the waiver than for institutional care under the State plan.**

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

The State uses the same tool to determine eligibility for ICF/ID services and eligibility for nursing home services. Therefore, a different process/tool is used to determine eligibility for this waiver. The process/tool is analogous to the initial level of care assessment performed for admission to the ICF/ID and nursing home programs, but is more appropriate to the assessment of persons who have developmental disabilities.

The tool walks the evaluator through the process of determining:

- 1) if the individual has intellectual disability or a related condition based on identifying substantial functional limitations in 3 or more major life activities;
- 2) if the individual needs a continuous active treatment program, including aggressive consistent implementation of a program of specialized and generic training, treatment, health services and related services that are directed towards the acquisition of the behaviors necessary to function with as much self determination and independence as possible; and the prevention of regression or loss of current optimal functional status; and

3) if there is reasonable indication that without access to waiver services the only alternative services that will be available to meet the person's need are ICF/ID services

The Division of Developmental Disabilities Waiver ICF/ID Level of Care Determination Form is used to determine eligibility. The MOCABI or an age appropriate tool such as the Vineland is administered first to assess functioning level. The evaluator is also asked to report a summary/list of any other assessments and evaluations from the individual's record that may have been considered. Information from these assessments is used to complete the actual level of care determination form which results in a determination of eligibility.

- f. Process for Level of Care Evaluation/Reevaluation:** Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

Qualified support coordinators reevaluate each participant annually to determine if the individual continues to be eligible for Waiver. The same tool is used in the reevaluations process as is used in the initial eligibility process. The reevaluation includes reviewing and/or updating previous assessments on which the previous evaluation was based, including the Vineland, and re-documentation of conditions of eligibility as listed above.

- g. Reevaluation Schedule.** Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (*select one*):

- ☐ Every three months
- ☐ Every six months
- ☒ Every twelve months
- ☐ Other schedule

Specify the other schedule:

- h. Qualifications of Individuals Who Perform Reevaluations.** Specify the qualifications of individuals who perform reevaluations (*select one*):

- ☒ The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.
- ☐ The qualifications are different.

Specify the qualifications:

- i. Procedures to Ensure Timely Reevaluations.** Per 42 CFR §441.303(c)(4), specify the procedures that the State employs to ensure timely reevaluations of level of care (*specify*):

Support Coordinators employed by the Division of DD regional offices or Targeted Case Management Entities are responsible for reevaluating each participant as part of the annual person centered planning process regarding the individual's continued need for an ICF/ID level of care. Division of DD regional offices must approve claims of eligibility and associated documentation made by Targeted Case Management entity employees. All decisions are subject to approval of the Medicaid Agency.

The Division of DD Regional Office, in conjunction with the Targeted Case Management entity providing support coordination, is responsible for ensuring that reevaluations are completed annually. The number of annual re-determinations conducted of all current waiver participants and the number of individuals who continue to be found eligible and the number found to be ineligible are tracked electronically. On a quarterly basis, the Quality Enhancement Leadership Team pulls data to assure compliance with this process as well as implement any necessary corrective action. In addition, Regional Office staff as well as TCM entity staff have direct access to reports to monitor when Level of Care determinations and formal assessments are coming due. Support Coordinators and Support Coordinator Supervisors receive automated emails as a reminder of upcoming Level of Care determinations and formal assessments coming due. Support Coordinators enter evaluations electronically. All support coordinators and supervisors have access to centralized data systems in order to verify evaluations are conducted timely.

Quality Management Reports submitted to MO HealthNet by the operating agency and annual sample reviews conducted by MO HealthNet also ensures that a system has been designed and implemented for assuring reevaluations of the level of care need are conducted in a timely manner.

The DMH Consumer Information Management Outcomes and Reporting system (CIMOR) is a comprehensive data base that contains consumer demographics, service coordination information, waiver assignment, dates of evaluations, service plans, provider demographics, services by provider, waiver service authorizations and other information. CIMOR also has sophisticated reporting capacity, which is the process used to assure timely evaluations.

- j. Maintenance of Evaluation/Reevaluation Records.** Per 42 CFR §441.303(c)(3), the State assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Level of Care Assurance/Sub-assurances

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:

- a. *Sub-assurance: An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.*

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of completed assessments for all new enrollees indicating a need for ICF/ID LOC prior to receiving services. (Number of completed assessments of new enrollees indicating a need for ICF/ID LOC completed prior to receiving services divided by the number of all new enrollees)

Data Source (Select one):

Analyzed collected data (including surveys, focus group, interviews, etc)

If 'Other' is selected, specify:

Responsible Party for data collection/generation(check each that applies):	Frequency of data collection/generation(check each that applies):	Sampling Approach(check each that applies):

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

When an error is discovered, a quality enhancement staff notifies the designated Regional Office staff in writing within 10 days of the date of discovery. The designated Regional Office staff reviews the error, and works with support coordination staff to correct the error. The designated Regional Office staff enters the issue and remediation into the Division's electronic within thirty (30) days describing how the error was corrected and any remedial staff training that was necessary. Methods of remediation include: performing a LOC for those that were not done, re-training of staff to perform a LOC accurately, establishing an individual tracking mechanism if one was not in place at the regional/county level. Remediation reported as: completed within 30 days, 31 to 60 days, more than 61 days and not completed.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

	☐ Continuously and Ongoing
	☐ Other Specify:

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Level of Care that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Level of Care, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

Freedom of Choice. As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

- informed of any feasible alternatives under the waiver; and
- given the choice of either institutional or home and community-based services.

- a. **Procedures.** Specify the State's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Support Coordinator's employed by Division of DD Regional Offices and Targeted Case Management Entities approved to provide case management explain to individuals the choice between ICF/ID institutional services and Home and Community Based services. Support coordinators educate individuals/guardians regarding all waiver services and providers available. This will be completed by the support coordinator reviewing options with the individuals/guardians, then the individuals may meet with providers to make their selection.

Individuals, or a legally responsible party, are asked to make a choice between receiving services through the ICF/ID Program or the HCBS Waiver Program. This is documented by the individual or a legal representative signing and dating a Waiver Choice Form. The support coordinator also signs and dates the Waiver Choice form. Prior to authorization of waiver services the individual completes a form giving them the choice between ICF/ID services and waiver services. If they choose the latter only then will waiver services begin. Forms are available upon request from the operating agency.

- b. **Maintenance of Forms.** Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

Signed and dated Waiver Choice Forms are maintained in the individual's record at the regional office or the office of the Targeted Case Management entity that provides targeted case management.

Appendix B: Participant Access and Eligibility

B-8: Access to Services by Limited English Proficiency Persons

Access to Services by Limited English Proficient Persons. Specify the methods that the State uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

The Office for Deaf and Multicultural Services is an agency-wide policy and program development office for the Department of Mental Health (DMH). This office is responsible for consultation and assistance to DMH facilities and providers delivering mental health services to eligible individuals who are Deaf, hard of hearing or from cultural minority people groups. Activities for systemic development include policy development, evidence based practices and program development informed by advisory input of DMH stakeholders.

All providers of services under contract with the Department of Mental Health are required to provide free language assistance per Title II of the Americans with Disabilities Act and Section 504 of the Rehabilitation Act. The state of Missouri has a statewide services contract that is available for providing over the phone verbal language interpretation (language line) and written language translation as well as sign language interpretation. Foreign language interpretation includes interpretation of all languages. If a client requests that a volunteer, friend, family member, etc. provide interpretation services, the state agency may utilize the volunteer, friend, family member, etc. to provide interpretation services, unless otherwise indicated by the state agency. In addition, because interpreting and alternative language services are also available in the Division of DD service catalog, Division of DD may contract with a qualified individual or agency to provide these services to an individual that has language interpretation needs. Interpreting capabilities shall include, but not be limited to, interpreting medical concepts/language, medical brochures, mental health therapy, mental health testing and evaluation, mental health topics in therapeutic situations, legal topics/concepts that focus on a client's incarcerations, capacity, etc., and highly technical concepts such as data processing terms. Those interpreters with specialized skills should be the preferred interpreters for providing services.

The State Medicaid Agency (MO HealthNet) operates several informational hotlines. One is the MO HealthNet Participant Services hotline. This is available for MO HealthNet participants who have questions related to their eligibility, covered services, etc. If an individual with limited English proficiency calls, interpreting services are made available.

Appendix C: Participant Services

C-1: Summary of Services Covered (1 of 2)

- a. **Waiver Services Summary.** List the services that are furnished under the waiver in the following table. If case management is not a service under the waiver, complete items C-1-b and C-1-c:

Service Type	Service	
Statutory Service	Day Habilitation	
Statutory Service	In Home Respite	
Statutory Service	Personal Assistant	
Statutory Service	Prevocational Services	
Statutory Service	Supported Employment	
Supports for Participant Direction	Support Broker	
Other Service	Applied Behavior Analysis	
Other Service	Assistive Technology	
Other Service	Career Planning	
Other Service	Community Integration	
Other Service	Community Specialist	
Other Service	Community Transition	
Other Service	Counseling	
Other Service	Crisis Intervention	
Other Service	Environmental Accessibility Adaptations-Home/Vehicle Modification	
Other Service	Individualized Skill Development	
Other Service	Job Development	
Other Service	Occupational Therapy	
Other Service	Out of Home Respite	
Other Service	Person Centered Strategies Consultation	
Other Service	Physical Therapy	
Other Service	Professional Assessment and Monitoring	
Other Service	Specialized Medical Equipment and Supplies (Adaptive Equipment)	

Other Service	Speech Therapy
Other Service	Transportation

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Day Habilitation services focuses on fundamental skill acquisition/development, retention/maintenance to assist the individual in achieving maximum self-sufficiency. Day Habilitation Services assist the individual to acquire, improve and retain the self-help, socialization and adaptive skills necessary to reside successfully in the community. Fundamental skills are a foundation for further learning, such as etiquette in a public setting, recognition of money, proper clothing attire for the time and setting, answering phone, etc. Examples of Day Habilitation Services include, but are not limited to, utilizing etiquette skills at a restaurant, checking out a book at a library, mailing a letter, exchanging money for purchases, etc. This should not only occur in the facility, but on a regular basis in the community to use in a real life situations. Day Habilitation Service differs from the Personal Assistant service in that a personal assistant may directly perform activities or may support the individual to learn how to perform ADLS and IADLS as part of the service. Day Habilitation Services includes all personal assistance needed by the individual. Individuals who receive Group Home or Individualized Supported Living, or Shared Living may receive this service; their group home or ISL budget will clearly document no duplication in service.

This service does not provide basic child care (a.k.a. “baby sitting”). When services are provided to children the ISP must clearly document that services are medically necessary to support and promote the development of independent living skills of the child or youth, and are over and above those provided to a child without disabilities. The ISP must document how the service will be used to reinforce skills or lessons taught in school, therapy or other settings and neither duplicates or supplants the services provided in school, therapy or other settings. The ISP must also clearly document the service is not supplanting the responsibilities

of the primary caregiver. ISPs must include outcomes and action steps individualized to what the individual wishes to accomplish, learn and/or change. The Utilization Review Committee, authorized under 9 CSR 45-2.017 has the responsibility to ensure all services authorized are necessary based on the needs of the individual and ensures that Day Habilitation services is not utilized in lieu of basic child care that would be provided to children without disabilities.

Day habilitation services are provided at a stand-alone licensed or certified day program facility, which is not physically connected to the participant's residence. Costs for transporting the participant from their place of residence to the day program site are not included in the day service rate, and waiver transportation may be provided and separately billed.

Medical Exception

Exceptional medical supports funding shall be utilized to provide enhanced services as prescribed to meet medical needs which require the following: services from a Certified Nursing Assistance (CNA), services from a licensed practical nurse, or registered nurse within their scope of practice as prescribed by the state, or, for mobility, appropriately trained staff. A separate rate and code modifier is available for this service. This is to promote individuals ability to access community based services and integration to the fullest extent of their capabilities.

Requests for Exceptional medical supports shall be submitted to the Utilization Review Committee and include the following documentation:

- Written Support Plan which includes clinical outcome data with criteria for reduction of supports as relevant to the identified medical condition(s).
- Written documentation noting the individual's assessed need for medical services or mobility services by the individual's medical practitioner.

Behavior Exception

Exceptional behavioral supports funding may be utilized when an individual is accessing the ABA services for the purpose of implementing the behavioral strategies and additional supervision supports the person requires to learn necessary skills and develop behaviors that will improve their functioning in the community and day habilitation setting.

A separate rate and code modifier is available for this service. This is to promote individuals ability to access community based services and integration to the fullest extent of their capabilities. Requests for Exceptional behavior supports shall be submitted to the Utilization Review Committee and include the following documentation:

- Written Support Plan which includes clinical outcome data with criteria for reduction of supports as relevant to the identified target behavior(s).
- Written documentation noting the individual's assessed need for behavioral services by the individual's Board Certified Behavior Analyst or Qualified Health Care Professional. If this is not an initial request, documentation must include a description of the progress made in the habilitation setting
- Written documentation that Behavioral services have been authorized and secured for the individual in day habilitation setting.

Upon waiver approval, individuals and support coordinators will revise the individual support plan (ISP) during the annual plan development meeting to be reflective of the new service definitions. ISP will fully implement the revised service definitions within 18 months of waiver approval.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Individuals who receive Group Home, Individualized Support Living (ISL) and Shared Living Services may also receive day habilitation and/or community integration.

A waiver individual's ISP may include any combination of services, but service documentation according to 13 CSR 70-3.030(2) (A) 6. requiring a begin and end time for services reimbursed according to time spent in service delivery will clearly show no duplication or overlap in the time of the day the service is provided, and the place of service must match the billing code.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

In-home respite care is provided to individuals unable to care for themselves, on a short-term basis, because of the absence or need for relief of those persons normally providing the care. To be eligible for in-home respite care, the persons who normally provide care to the individual must be other than formal, paid caregivers. This service is not delivered in lieu of day care for children nor does it take the place of day habilitation programming for adults. While ordinarily provided on a one-to-one basis, in-home respite may include assisting up to three individuals at a time. The only limitation on total hours provided is that they be necessary to avoid institutionalization and remain within the overall cost effectiveness of each individual's support plan. The service is provided in the individual's place of residence or in a licensed/certified/accredited facility when service is provided in interim periods, at the discretion of the individual/guardian/family, which does not include overnight care. If the service includes overnight care, it must be provided in the individual's place of residence.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

A unit of service is 15 minutes or one day. The only limitation on total hours provided is that they be necessary to avoid institutionalization and remain within the overall cost effectiveness of each individual's plan.

Service Delivery Method (check each that applies):

- ☐ Participant-directed as specified in Appendix E
- ☒ Provider managed

Specify whether the service may be provided by (check each that applies):

- ☐ Legally Responsible Person
- ☐ Relative
- ☐ Legal Guardian

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Personal Assistant Services include assistance with any activity of daily living (ADL) or instrumental activity of daily living (IADL). Assistance for ADLs includes bathing, toileting, transfer and ambulation, skin care, grooming, dressing, extension of therapies and exercise, care of adaptive equipment, meal preparation, feeding, and incidental household cleaning and laundry. IADLs include shopping, banking, budgeting, using public transportation, social interaction, recreation, and leisure activities. Assistance with IADLs includes accompaniment, cueing and minor problem-solving necessary to achieve increased independence, productivity and inclusion in the community. While ordinarily provided on a one-to-one basis, personal assistance may include assisting up to three (3) individuals at a time. With written approval from the Regional Office Director personal assistant services may be delivered to groups of four (4) to six (6) persons when it is determined the needs of each person in the group can be safely met.

Personal assistance may also include the use of remote monitoring technology covered under the Assistive Technology service also in this waiver. The personal assistant may directly perform some activities and support the individual in learning how to perform others; the planning team determines the composition of the service and assures it does not duplicate, nor is duplicated by, any other service provided to the individual.

For self-directed supports Team Collaboration allows the individual's employees to participate in the support plan and to meet as a team to ensure consistency in its implementation. A team meeting also can be convened by the individual or their designated representative for the purposes of discussing specific needs of the individual, the individualized progress towards outcomes, and other related concerns. Team collaboration can be included in the individual budget up to 120 hours per plan year.

For agency-based personal assistant services, team collaboration is included in the unit rate.

Relatives as Providers

Personal assistant services shall not be provided by an individual's spouse, if the individual is a minor (under age 18) by a parent, or by an individual's guardian or power of attorney. Personal assistant services may otherwise be provided to a person by a member(s) of his or her family when the person is not opposed to the family member providing the service and the service to be provided does not primarily benefit the family unit, is not a household task family members expect to share or do for one another when they live in the same household, and otherwise is above and beyond typical activities family members provide for another adult family member without a disability.

In case of a paid family member the support plan must reflect:

- The individual is not opposed to the family member providing services;
- The services to be provided are solely for the individual and not task household tasks expected to be shared with people living in family unit;
- The planning team determines the paid family member providing the service best meet the individual's needs;
- A family member will only be paid for the hours authorized in the support plan and at no time can these exceed 40 hours per week. Any support provided above this amount would be considered a natural support or the unpaid care that a family member would typically provide

Family is defined as: A family member is defined as a parent, step parent; sibling; child by blood, adoption, or marriage; spouse; grandparent; or grandchild.

Family members approved to provide personal assistant services may be employed by an agency or employed by the individual/guardian or designated representative using an approved fiscal management service provider. If the person employs his/her own workers using an approved fiscal management service provider, the family member serving as a paid personal assistant shall not also be the designated representative/common law employer.

Relation to State Plan Personal Care Services

Personal care services under the state plan differ in service definition, in limitations of amount and scope, and in provider type and requirements from personal assistant services under the waiver. When an individual's need for personal assistance is strictly related to ADLs and can be met through the MO HealthNet state plan personal care program administered by the Division of Senior and Disability Services (DSDS), he or she will not be eligible for personal assistant services under the waiver, in accordance with the requirement that state plan services must be exhausted before waiver services can be provided.

DD Waiver personal assistant may be authorized when:

- State plan limits on number of units for personal care are reached and more assistance with ADLs and/or IADLs is needed;
- Person requires personal assistance at locations outside of their residence;
- The individual has behavioral or medical needs and they require a more highly trained personal assistant than is available under state plan.
- When the personal assistant worker is related to the individual;
- When the individual or family is directing the service through the FMS contractor.

When waiver personal assistant is authorized to adults also eligible for state plan personal care, the Support coordinator must consult and coordinate the waiver support plan with the DSDS service authorization system.

Personal care services are provided to children with disabilities according to the federal mandates of the Early Periodic Screening, Diagnosis and Treatment program. Personal Assistant needs for the eligible person through EPSDT, as applicable, shall be accessed and utilized, in accordance with the requirement that state plan services must be exhausted before waiver services can be provided. Personal Assistant services authorized through the waiver shall not duplicate state plan personal care services. State plan personal care services for children are coordinated through the Bureau of Special Health Care Needs (BSHCN).

When waiver personal assistant is authorized for children also eligible for state plan personal care, the Support coordinator must consult and coordinate with the BSHCN service authorization system.

Non-Duplication of Services

Personal Assistant services shall not duplicate other services. Personal assistance is not available to waiver recipients who reside in community residential facilities (Group Homes and Residential Care Centers). Persons who receive Individualized Supported Living (ISL) services shall not receive personal assistant services at their home but may receive this service outside the home - as long as not included in the ISL budget.

Personal Assistant Qualifications and Training

Training will cover, at a minimum:

- a. Training, procedures and expectations related to the personal assistant in regards to following and implementing the individual's Support Plan.
- b. The rights and responsibilities of the employee and the individual, procedures for billing and payment, reporting and documentation requirements, procedures for arranging backup when needed, and who to contact within the Regional Office or Targeted Case Management entity.
- c. Information about the specific condition and needs of the person to be served, including his or her physical, psychological or behavioral challenges, his or her capabilities, and his or her support needs and preferences related to that support.
- d. Training in abuse/neglect, event reporting, and confidentiality.
- e. Duties of the Personal Assistant will not require skills to be attained from the training requirement;
- f. CPR and first aid;
- g. Additionally staff administering medication and/or supervising self-administration of meds must have successfully met the requirements of 9 CSR 45-3.070

- h. Crisis intervention training, as needed, due to challenging behavior by the individual, the assistant will also be trained in crisis intervention techniques such as NCI (Nonviolent Crisis Intervention), MANDT, or others approved by the Division of DD;
- i. training in communications skills; in understanding and respecting Individual choice and direction; cultural and ethnic diversity, personal property and familial and social relationships; in handling conflict and complaints;
- j. Training in assisting with activities of daily living and instrumental activities of daily living, as needed by the individual to be served and identified by the team.

For SDS The planning team will specify the qualifications and training the personal assistant will need in order to carry out the support plan, where/by whom the assistant will be trained, and the source, method and degree of monitoring but not less than quarterly. To the extent they desire, the individual or designated representative will select the personal assistant and carry out training and supervision.

Individual/guardian or designated representative may exempt the following trainings if:

- a. Duties of the Personal Assistant will not require skills to be attained from the training requirement;
- b. The personal assistant named above has adequate knowledge or experience in:
 - CPR and first aid;
 - Medication Administration;
 - Crisis Intervention training, as needed, due to challenging behavior by the individual, the assistant will also be trained in crisis intervention techniques such as NCI (Nonviolent Crisis Intervention), MANDT, or others approved by the Division of DD;
 - Training in communications skills; in understanding and respecting Individual choice and direction; cultural and ethnic diversity, personal property and familial and social relationships; in handling conflict and complaints;
 - Training in assisting with activities of daily living and instrumental activities of daily living, as needed by the individual to be served and identified by the team.

Medical Personal Assistance

To assist in meeting the specialized medical needs for the individual as identified by the team and documented in the ISP, the following must have been met:

- The interdisciplinary team has identified and outlined the need to pursue more intensive support for medically related issues;
- The need must be documented by a physician or advanced practice nurse and maintained on file;
- Prior to approval of funding for medical personal assistance the ISP has gone through the local UR review process to determine the above have been completed.
- Dependent upon the scope of service, a registered professional nurse may be required to provide oversight in accordance with the Missouri Nurse Practice Act.

The medical personal assistance must adhere to the same requirements as outlined for the Individual Provider Employed by Individual or Family.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

When this service is provided to minor children living with their parents or guardians, it shall not supplant the cost and provision of support ordinarily provided by parents to children without disabilities, nor shall it supplant educationally related services and support that is the responsibility of local education authorities. Otherwise, the only limitation on hours provided is the individual's need for the service as an alternative to institutional care and the overall cost effectiveness of his or her service plan. Personal Assistant can occur in the person's home and/or community, including the work place. Personal Assistant shall not be provided concurrently with or as a substitute for facility-based day habilitation services.

Payment is on a 15 minute, fee for service basis, with different rates for individual and small group services, and, when needed, for enhanced staff qualifications.

Personal Assistant services through EPSDT for eligible persons under age 21 shall be provided and utilized first before the waiver Personal Assistant service is provided. Children have access to EPSDT services.

Payment is on a 15 minute, fee for service basis, with different rates for individual and small group services, and, when needed, for enhanced staff qualifications. The same qualifications noted in personal assistance apply for the use of state plan services.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Prevocational Services provide one-to-one learning and group experiences to further develop an individual's general, non-job-task-specific skills which are needed to succeed in paid employment in competitive, integrated community settings. Services are expected to occur over a defined period of time with specific and measurable outcomes to be achieved, as determined by an individualized assessed need through an ongoing person-centered planning process.

Services are intended to develop and teach general skills that lead to competitive and integrated employment including, but not limited to: ability to communicate effectively with supervisors, co-workers and customers; generally accepted community workplace conduct and dress; ability to follow directions; ability to attend to tasks; workplace problem solving skills and strategies; general workplace safety and mobility training.

- Prevocational Services should enable each individual to attain the highest level of independence and autonomy in the most integrated competitive employment setting and with a job matched to the individual's interests, strengths, priorities, abilities, and capabilities.
- Participation in Prevocational Services is not a required pre-requisite for supported employment services provided under the

waiver. Prevocational services should only be authorized when an individual is otherwise unable to directly enter the general workforce as a result of an underdeveloped or undeveloped general, non-job-task-specific skill(s).

- Prevocational Services include activities that are not primarily directed at teaching skills to perform a particular job, but at underlying habilitative goals (e.g., attention span, motor skills, interpersonal relations with co-workers and supervisors) that are associated with building skills necessary to perform competitive work in community integrated employment.
- Services must be provided in a community workplace setting or at a licensed, certified or accredited facility of a qualified employment service provider. The setting for the delivery of services must be aligned with the individualized assessed need and that which is most conducive in developing the specific and measurable outcomes contained within the individual support plan. Services cannot be provided within an individual's residence. Prevocational services can be provided in small groups not exceeding four (4) individuals at a time. The decision to provide services in a group setting must be based on individualized assessed need and be supported in the person centered plan as being the most autonomous setting which facilitates the highest levels of individual learning.
- Vocational services, which are not covered through waivers, are services that teach job task specific skills required by a individual for the primary purpose of completing those tasks for a specific facility based job and are not delivered in an integrated work setting through supported employment. The distinction between vocational and pre-vocational services is that prevocational services, regardless of setting, are delivered for the purpose of furthering habilitation goals that will lead to greater opportunities for competitive and integrated employment and career advancement at or above minimum wage. These goals are described in the individual's person centered services and supports plan and are designed to teach skills that will lead to integrated competitive employment.
- A person receiving prevocational services may pursue employment opportunities at any time to enter the general work force.
- Individuals participating in prevocational services may be compensated in accordance with applicable Federal laws and regulations and the provision of prevocational services is always delivered with the intention of leading to permanent integrated employment at or above the minimum wage in the community.
- All prevocational service options should be reviewed and considered as a component of an individual's person-centered services and supports plan no less than annually, more frequently as necessary or as requested by the individual. These services and supports should be designed to support successful employment outcomes consistent with the individual's goals.
- Personal assistance may be a component of prevocational services, but may not comprise the entirety of the service.
- Transportation costs for Prevocational Services are included in the unit rate, but costs for transporting to and from the residence are not included.
- Individuals who receive prevocational services may also receive supported employment and/or day habilitation services. A participant's person-centered service plan may include two or more types of non-residential habilitation services. However, different types of non-residential habilitation services may not be billed during the same period of the day.
- Prevocational services may include volunteer work, such as volunteer learning and training activities that prepare a person for entry into the paid workforce. Volunteering is an industry specific term with specific rules and regulations governed through the US Department of Labor (DOL) Fair Labor Standards Act and Wage and Hour Laws. Any limitations on location or duration of volunteer work are established through DOL.
- Prevocational Services furnished under the waiver may not include services available under a program funded under section 110 of the Rehabilitation Act of 1973 and its amendments or section 602(16) and (17) of the Individuals with Disabilities Education Act (20 U.S.C. 1401(16 and 17)). Therefore, the case record for any individual receiving this service must document the individual is not eligible for, unable to access, exhausted services or otherwise inapplicable for the aforementioned programs as outlined in an interagency memorandum of understanding between vocational rehabilitation and the division of developmental disabilities.

Prevocational services must comply with 42 CFR §440.180(c) (2) (i).

Upon waiver approval, individuals and support coordinators will revise the individual support plan (ISP) during the annual plan development meeting to be reflective of the new service definitions. ISP will fully implement the revised service definitions within 18 months of waiver approval.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Must be authorized based upon individual need not to exceed 80 quarter-hour units per week. Prevocational Services must not exceed 6 months. Additional units or monthly increments beyond 6 months must be pre-authorized by the Division's Regional Director or designee.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Supported employment is a support service to facilitate competitive work in an integrated work setting. The service must be identified in the individual's service plan based upon an individualized assessed need which promotes the greatest degree of integration, independence and autonomy. Models of supported employment may include individual support or group support such as community business-based work groups and/or mobile crews. Individual and group services are defined separately below.

For those individuals whose individualized assessed need supports self-employment, Supported Employment Individual employment supports may include services and supports that assist the individual in achieving self-employment through the operation of a business; however, Medicaid funds may not be used to defray the expenses associated with starting up or operating a business. Assistance for self-employment may include:

- o Aide to the individuals in identifying potential business opportunities;
- o assistance in the development of a business plan, including potential sources of business financing and other assistance in developing and launching a business; and
- o identification of the supports that are necessary for the individual to operate the business.

Supported Employment- Individual Supported Employment

Individual Supported Employment services are the ongoing supports to individuals and their employers who, because of their disabilities, need intensive on-going support to maintain a job in competitive or customized employment, or self-employment, in an integrated work setting in the general workforce at or above the state's minimum wage, at or above the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities. The outcome of this service is sustained paid employment at or above the minimum wage in an integrated setting in the general workforce, in a job that meets personal and career goals.

Supported Employment - Individual Supported Employment services may include:

- On-the-job training in work and work-related skills; i.e. job coaching to facilitate the acquisition, and ongoing performance, of the essential functions of the job and the facilitation of natural supports (i.e. fading).
- Ongoing supervision and monitoring of the person's performance on the job; i.e. evaluating self-maintenance strategies, work production and the effectiveness of natural supports (i.e. fading) which promote the greatest degree of inclusion, integration and autonomy.
- Training in related skills needed to retain employment; i.e. supporting and facilitating strategies which promote attendance and social inclusion in the workplace based upon individualized assessed need such as using community resources and public transportation.
- For those individuals whose individualized assessed need supports self-employment, Supported Employment Individual employment supports may include services and supports that assist the participant in achieving self-employment through the operation of a business; however, Medicaid funds may not be used to defray the expenses associated with starting up or operating a business. Assistance for self-employment may include ongoing assistance, counseling and guidance once the business has been launched.

Supported Employment -Small Group Employment Support:

Group supported employment are services and training activities provided in regular community business and industry settings for groups of two (2) to four (4) workers with disabilities. Small group employment support does not include services provided in facility based work settings or non-integrated work setting (i.e. settings which physically and socially isolate individuals from other employees). Examples include mobile crews and other community business-based workgroups employing small groups of workers with disabilities in integrated competitive employment in the community. The outcome of this service is sustained paid employment and work experience leading to further career development and individual integrated community-based employment

for which an individual is compensated at or above the minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities. An annual review must occur to determine if the employment setting optimizes, but does not regiment, individual initiative, autonomy and independence in making employment choices.

Supported Employment – Small Group Employment Supports may include:

- On-the-job training in work and work-related skills; i.e. job coaching to facilitate the acquisition, and ongoing performance, of the essential functions of the job and the facilitation of natural supports (i.e. fading).
- Ongoing supervision and monitoring of the person's performance on the job; i.e. evaluating self-maintenance strategies, work production and the effectiveness of natural supports (i.e. fading) which promote the greatest degree of inclusion, integration and autonomy.
- Training in related skills needed to retain individual integrated community-based employment; i.e. supporting and facilitating strategies which promote attendance and social inclusion in the workplace based upon individualized assessed need such as using community resources and public transportation.

Additional Information about Supported Employment services:

- Supported employment services must be provided in a manner that promotes integration into the workplace and interaction between individuals and people without disabilities in those workplaces while maintaining the individual's rights of dignity, privacy and respect.
- All Supported Employment service options should be reviewed and considered as a component of an individual's person-centered services and supports plan no less than annually, more frequently as necessary or as requested by the individual. These services and supports should be designed to support successful employment outcomes consistent with the individual's assessed goals, needs, interests and preferences. Supported Employment Group is not appropriate for individuals who demonstrate the capacity, ability and interest to work independently. An individual's autonomy and independence to perform employment with the least amount of restrictions must be supported through the person centered planning process.
- individual's must be compensated at or above the minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities.
- Supported Employment furnished under the waiver may not include services available under a program funded under section 110 of the Rehabilitation Act of 1973 and its amendments or section 602(16) and (17) of the Individuals with Disabilities Education Act (20 U.S.C. 1401(16 and 17)). Therefore, the case record for any individual receiving this service must document the individual is not eligible for, unable to access, exhausted services or otherwise inapplicable for the aforementioned programs as outlined in an interagency memorandum of understanding between vocational rehabilitation and the division of developmental disabilities.
- Supported Employment supports do not include payment for supervision, training, support and adaptations typically available to other workers without disabilities filling similar positions in the business or otherwise covered under the Americans with Disabilities Act.
- Individuals who receive Supported Employment may also receive other day services. A individual's support plan may include two or more types of non-residential services. However, any combination of non-residential services may not be billed during the same period of the day. Personal Assistance may be a component of an individual's employment retention support plan for assistance with ADL's and IADLS. However, Personal Assistance may not be used in lieu of Supported Employment services as defined above. Transportation costs are not included in the supported employment fee, but specialized transportation is available as a separate service if necessary.

Federal Financial Participation is not claimed for incentive payments, subsidies, or unrelated vocational training expenses such as the following:

- 1) Incentive payments made to an employer to encourage or subsidize the employer's participation in a supported employment program; or
- 2) Payments that are passed through to users of community employment programs.

Upon waiver approval, individuals and support coordinators will revise the individual support plan (ISP) during the annual plan development meeting to be reflective of the new service definitions. ISP will fully implement the revised service definitions within 18 months of waiver approval.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

A Support Broker provides information and assistance to the individual or designated representative for the purpose of directing and managing supports. This includes practical skills training and providing information on recruiting and hiring personal assistant workers, managing workers and providing information on effective communication and problem-solving. The extent of the assistance furnished to the individual or designated representative is specified in the support plan.

A Support Broker provides the individual or their designated representative with information & assistance (I&A) to secure the supports and services identified in the Support Plan.

A Support Broker provides the individual or designated representative with information and assistance to:

- establish work schedules for the individual's employees based upon their Support Plan
- help manage the individual's budget when requested or needed
- seek other supports or resources outlined by the Support Plan
- define goals, needs and preferences, identifying and accessing services, supports and resources as part of the person centered planning process which is then gathered by the support coordinator for the Support Plan
- implement practical skills training (recruiting, hiring, managing, terminating workers, managing and approving timesheets, problem solving, conflict resolution)
- develop an emergency back-up plan
- implement employee training
- promote independent advocacy, to assist in filing grievances and complaints when necessary
- include other areas related to providing information & assistance to individuals/designated representative to managing services and supports

Support brokers must have a background screening per the Division of DD, be at least 18 years of age and possess a high school diploma or GED.

The support broker must have experience or Division of DD approved training in the following areas:

ability, experience and/or education to assist the individual/designated representative in the specific areas of support as described in the Service Plan & competence in knowledge of Division of DD policies and procedures: abuse/neglect; incident reporting; human rights and confidentiality; handling emergencies; prevention of sexual abuse; knowledge of approved and prohibited physical management techniques; understanding of support broker responsibilities, of advocacy, person-centered planning, and community services; and understanding of individual budgets and Division of DD fiscal management policies.

The planning team may specify any additional qualifications and training the support broker will need in order to carry out their duties as specified in the Support Plan.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Support Broker services do not duplicate Support Coordination. Support Brokerage is a direct service.

A Support Broker may not be a parent, guardian or other family member. They cannot serve as a personal assistant or perform any other waived service for that individual. This service can be authorized for up to 8 hours per day (32 quarter hour units).

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (*Scope*):

Applied Behavior Analysis (ABA) services are designed to help individuals demonstrating significant deficits (challenges) in the areas of behavior, social, and communication skills acquire functional skills in their homes and communities and/or to prevent hospitalizations or out-of-home placements. ABA services may be provided to assist a person or persons to learn new behavior directly related to existing challenging behaviors or functionally equivalent replacement behaviors for identified challenging behaviors. Services may also be provided to increase existing behavior, to reduce existing behavior, and to emit behavior under precise environmental conditions. ABA services include the design, implementation and evaluation of systematic environmental modifications for the purposes of producing socially significant improvements in and understanding of human behavior based on the principles of behavior identified through the experimental analysis of behavior.

The Behavior Support Plan (BSP) should describe strategies and procedures to generalize and maintain the effects of the BSP and to collect data to assess the effectiveness of the plan and fidelity of implementation of the plan.

The specific skills and behaviors targeted for each individual should be clearly defined in observable terms and measured carefully by direct observation each session.

The BSP shall include collection of data by the staff, family and or caregivers that are the primary implementers of the plan and the service shall include monitoring of data from continuous assessment of the individual's skills in learning, communication, social competence, and self-care guide to the scope of the individual support plan, which must include separate, measurable goals and objectives with clear definitions of what constitutes mastery.

Reports regarding the service must include data displayed in graphic format with relevant environmental variables that might affect the target behaviors indicated on the graph. The graph should provide indication of analysis via inclusion of environmental variables including medications and changes in medications, baseline or pre- intervention levels of behavior, and strategy changes.

Performance-based training for parents, caregivers and significant others in the person's life is also part of the behavior analysis services if these people are integral to the implementation or monitoring of the plan.

ABA services consist of the following components:

Assessment: ABA services are based on an assessment which identifies functional relationships between behavior and the environment, including contextual factors, establishing operations, antecedent stimuli, contributing and controlling consequences, and possible physiological or medical variables related to challenging behaviors or situations. The assessment is further composed of the following elements:

Behavior identification assessment, by the physician or other qualified health care professional, face-to-face with patient and caregiver(s), includes administration of standardized and non-standardized tests, detailed behavioral history, patient observation and caregiver interview, interpretation of test results, discussion of findings and recommendations with the primary guardian (s)/caregiver(s), and preparation of report.

Observational Follow-up Assessment: Behavioral follow-up assessment(s) may be required to enable the Qualified Health Care Professional (QHCP) to finalize or fine-tune the baseline results and plan of care that were initiated in the identification assessment. This service is performed by a technician under the direction of a QHCP or licensed assistant behavior analyst. The QHCP or licensed assistant behavior analyst may or may not be on-site during the face-to-face assessment process. Observational Follow-up is provided to individuals who present with specific destructive behavior(s) (e.g., self-injurious behavior, aggression, property destruction) or behaviors or deficits in communication or social relatedness. Observational Follow-up includes the use of structured observation and/or standardized and non-standardized tests to determine levels of adaptive behavior. Areas assessed may include cooperation, motivation, visual understanding, receptive and expressive language, imitation, requests, labeling, play and leisure and social interactions. Specific destructive behavior(s) assessments include structured observational testing to examine events, cues, responses, and consequences associated with the behavior(s).

Exposure Follow-up Assessment: Is administered by the QHCP with the assistance of one or more technicians. Exposure behavioral follow-up assessment includes the Qualified Health Care Professional's interpretation of results, discussion of findings and recommendations with primary caregiver(s), and preparation of report. Typical individuals for these services include those with more specific severe destructive behavior(s) (eg, self-injurious behavior, aggression, property destruction). Specific severe destructive behavior(s) are assessed using structured testing to examine events, cues, responses, and consequences associated with the behavior. Exposure Behavioral Follow up Assessment includes exposing the individual to a series of social and environmental conditions associated with the destructive behavior(s). Assessment methods include using testing methods designed to examine triggers, events, cues, responses, and consequences associated with the before mentioned maladaptive behavior(s). This assessment is completed in a structured, safe environment.

Adaptive Behavior Treatment: Addresses the individual's specific target problems and treatment goals as defined in previous assessments. Adaptive behavior treatment is based on principles including analysis and alteration of contextual events and motivating factors, stimulus-consequence strategies and replacement behavior and monitoring of outcomes. Goals of adaptive behavior treatment may include reduction of repetitive and aberrant behavior, and improved communication and social functioning. Adaptive behavior skill tasks are often broken down into small, measurable units, and each skill is practiced repeatedly until the individual masters it. Adaptive behavior treatment may occur in multiple sites and social settings (e.g., controlled treatment programs with individual alone or in a group setting, home, or other natural environment). All ABA services

are considered short term services whose objectives are to provide changes in patterns of interactions, daily activities and lifestyle including provider family/staff/caregivers skills to teach the individuals supported adaptive skills and skills to more appropriately address problem behaviors. The development of skills in the individual and in the family/staff/caregivers is a key component to these services. In addition it is the essential that the strategies developed are adapted to more typical types of support strategies so that the treatment plan called the BSP is replaced with these more typical strategies as the service is successful.

Adaptive behavior treatment is further composed of the following elements:

Adaptive Behavior Treatment by Protocol by Technician: is administered by a single technician or licensed assistant behavior analyst under the direction (on-site or off-site) of the Qualified Health Care Professional by adhering to the protocols that have been designed by the Qualified Health Care Professional. This service is delivered to the individual alone or while attending a group session.

Adaptive behavior treatment by protocol by technician includes skill training delivered to an individual who, for example, has poor emotional responses (eg, rage with foul language and screaming) to deviation in rigid routines. The technician introduces small, incremental changes to the individual's expected routine along one or more stimulus dimension(s), and a reinforce is delivered each time the individuals appropriately tolerates a given stimulus change until the individual tolerates typical variations in daily activities without poor emotional response.

The QHCP directs the treatment by designing the overall sequence of stimulus and response fading procedures, analyzing the technician-recorded progress data to assist the technician in adhering to the protocol, and judging whether the use of the protocol is producing adequate progress.

Adaptive Behavior Treatment by Protocol Modification: Unlike the Adaptive Behavior Treatment by Protocol by Technician, Adaptive Behavior Treatment by Protocol Modification is administered by a QHCP or licensed assistant behavior analyst who is face-to-face with a single individual. The service may include demonstration of the new or modified protocol to a technician, guardian(s), and/or caregiver. For example, Adaptive Behavior Treatment by Protocol Modification will include treatment services provided to a teenager who is recently placed with a foster family for the first time and is experiencing a regression of the behavioral targets which were successfully met the group-home setting related to the individual's atypical sleeping patterns. The clinical social worker modifies the past protocol targeted for desired results to incorporate changes in the context and environment. A modified treatment protocol is administered by the qualified health care provider to demonstrate to the new caregiver how to apply the protocol(s) to facilitate the desired sleeping patterns to prevent sleep deprivation.

Exposure Adaptive Behavior Treatment with Protocol Modification describes services provided to individuals with one or more specific severe destructive behaviors (eg, self-injurious behavior, aggression, property destruction), with direct supervision by a QHCP which requires two or more technicians face-to-face with the individual for safe treatment. Technicians elicit behavioral effects of exposing the individual to specific environmental conditions and treatments. Technicians record all occurrences of targeted behaviors. The QHC Previews and analyzes data and refines the therapy using single-case designs; ineffective components are modified or replaced until discharge goals are achieved (eg, reducing destructive behaviors by at least 90%, generalizing the treatment effects across caregivers and settings, or maintaining the treatment effects over time). The treatment is conducted in a structured, safe environment. Precautions may include environmental modifications and/or protective equipment for the safety of the individual or the technicians. Often these services are provided in intensive out-patient, day treatment, or inpatient facilities, depending on the dangerousness of the behavior.

Family Treatment Guidance: Family/guardian/caregiver adaptive behavior treatment guidance is administered by a QHCP or licensed assistant behavior analyst face-to-face with family/guardian(s)/caregiver(s) and involves teaching family/guardian(s)/caregiver(s) to utilize treatment protocols designed to reduce maladaptive behaviors and/or skill deficits.

Treatment Social Skills Group: Adaptive behavior treatment social skills group is administered by a QHCP or licensed assistant behavior analyst face-to-face with multiple individuals, focusing on social skills training and identifying and targeting individual patient social deficits and problem behaviors. The QHCP or licensed assistant behavior analyst monitors the needs of individuals and adjusts the therapeutic techniques during the group, as needed. Services to increase target social skills may include modeling, rehearsing, corrective feedback, and homework assignments. In contrast to adaptive behavior treatment by protocol techniques, adjustments are made in real time rather than for a subsequent service.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Limitations of the Observation Follow up Assessment: units are the first 30 minute of service and following 30 minutes. The first 30 minute units are limited to 5 per year, 1 per day and a maximum of 5 per week. The additional 30 minute units are limited to 20 per year, 4 per day and 20 per week. These units can be done by the Registered Behavior Technician or licensed assistant behavior analyst under the direction of the QHCP that is a Licensed Behavior Analyst, or under the direction of a Licensed assistant Behavior Analyst; the service can also be done by the QHCP or Licensed assistant Behavior Analyst. Units may be used for the development of the initial treatment protocol at one unit of the first 30 minutes of observational behavioral follow up assessment and one unit of the second 30 minutes of observational behavioral follow up assessment.

Limitations of Adaptive Behavior Treatment by Protocol by Technician are the service must be performed by a Registered Behavioral Technician or Licensed Assistant Behavior Analyst under the direction of a QHCP that is a Licensed Behavior Analyst. Units are the first 30 minute of service and additional 30 minutes. The first 30 minute units are limited to 1 per day, 5 per

week, and 25 per month. The additional 30 minute units are limited to 15 per day, 75 per week, and 275 per month. The service of Adaptive Behavior Treatment Protocol Modification must be provided concurrent to this service by a Licensed Behavior Analyst for at least the equivalent of 5% of the total units provided by the Registered Behavioral Technician.

Limitations for Adaptive Behavior Treatment by Protocol Modification units are first 30 minutes and additional 30 minutes for a service date. First 30 minutes are limited to 1 per day, 5 per week and 25 per month. Additional 30 minute units are limited to 15 per day, 55 per week and 110 per month. Extensions may be approved by Department of Mental Health, Division of Developmental Disabilities' Chief Behavior Analyst, or designee. 10% of units authorized in a plan year for this service would be appropriately utilized for protocol modification and data analysis and that this would require documentation as with all other units in addition to the written modified protocol and graphic display with current data and progress report describing the analysis and effects on intervention strategies related to the analysis.

Limitations of Exposure Adaptive Behavior Treatment with Protocol Modification: this service can only be provided with prior approval by the Department of Mental Health, Division of Developmental Disabilities Chief Behavior Analyst, or designee. The units are first 60 minutes and the additional 30 minute units of a service date. The first 60 minute units are limited to 1 per day, 5 per week and 25 per month and the additional 30 minute units are limited to 15 per day, 55 per week and 110 per month.

Limitations of Family Treatment Guidance: This service can be concurrent to any of the other treatment services. It is a 60 minute unit and is limited to 1 unit per day, 5 per week and 10 per month. Guardians/caregivers of a maximum of 8 authorized individuals (individuals need not be present) can be present for billing purposes.

Limitation of Treatment Social Skills Group: This service can be concurrent to any of the other treatment services. It is a 90 minute unit and is limited to 1 unit per day, 5 per week and 10 per month. A maximum of 8 authorized individuals can present for billing purposes.

Applied Behavior Analysis needs for the eligible person through EPSDT, as applicable, shall be accessed and utilized, in accordance with the requirement that state plan services must be utilized before waiver services can be provided. Applied Behavior Analysis services authorized through the waiver shall not duplicate state plan services.

Upon waiver approval, individuals and support coordinators will revise the individual support plan (ISP) during the annual plan development meeting to be reflective of the new service definitions. ISP will fully implement the revised service definitions within 18 months of waiver approval.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ **Service is included in approved waiver. There is no change in service specifications.**
- ☒ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

Service Definition (Scope):

This service includes Personal Emergency Response Systems (PERS), Medication Reminder Systems (MRS) and other electronic technology that protects the health and welfare of a individual. This service may also include electronic support systems using video, web-cameras, or other technology. However, use of such systems may be subject to due process review. Assistive technology shall not include household appliances or items that are intended for purely diversional or recreational purposes. Assistive technology should be evidenced based, and shall not be experimental.

Electronic support systems using video, web-cameras, or other technology is only available on an individual, case-by-case basis when an individual requests the service and the planning team agrees it is appropriate and meets the health and safety needs of the individual. Remote support technology may only be used with full consent of the individual and his/her guardian and with a completed review by a DMH approved due process committee to ensure the individual's rights are being protected.

Remote support will enable a person to be more independent and less reliant on staff to be physically present with them at all times, in particular for night time supports.

The type of equipment and where placed will depend upon the needs and wishes of the individual and their guardian (if applicable), and will also depend upon the particular company selected by the individual or guardian to provide the equipment. The installation of video equipment in the home will be done at the direction of the individual. If the home is shared with others the equipment will be installed in such a manner that it does not invade others' privacy. The remote device is controlled by the waiver individual and can be turned on or off as needed.

The provider must have safeguards and/or backup system such as battery and generator for the electronic devices in place at the base and the individual's residential living site(s) in the event of electrical outages. The provider must have backup procedures for system failure (e.g., prolonged power outage), fire or weather emergency, individual medical issue or personal emergency in place and detailed in writing for each site utilizing the system as well as in each individuals ISP. The ISP must specify the individuals to be contacted by base staff who will be responsible for responding to these situations and traveling to the individual's living site (s). In situations requiring a person to respond to the individual's residence, the response time should not exceed 20 minutes. In emergency situations staff should call 911.

Waiver individuals interested in electronic support technology must be assessed for risk following the division's risk assessment guidelines posted at <http://dmh.mo.gov/docs/dd/riskguide.pdf> and must be provided information to ensure an informed choice about the use of equipment versus in-home support staff.

Personal Emergency Response System (PERS) is an electronic device that enables an individual at high risk of institutionalization to secure help in an emergency that is connected to a device and programmed to signal a response center once the help button is activated. The response center is staffed with trained professionals. The service is limited to those who live alone, live with others who are unable to summon help, or who are alone for significant portions of the day, have no regular caregiver for extended periods of time and would otherwise require extensive routine supervision.

A medication reminder system (MRS) is an electronic device programmed to provide a reminder to a individual when Medications are to be taken. The reminder may be a phone ring, automated recording or other alarm. This device is for individuals who have been evaluated as able to self administer medications with a reminder. The electronic device may dispense controlled dosages of medication and may include a message back to the center if a medication has not been removed from the dispenser. Medications must be set-up by an RN or professional qualified to set-up medications in the State of Missouri.

All electronic device vendors must provide equipment approved by the Federal Communications Commission and the equipment must meet the Underwriters Laboratories, Inc., (UL) standard for home health care signaling equipment. The UL listing mark on the equipment will be accepted as evidence of the equipment's compliance with such standard.

The emergency response activator must be able to be activated by breath, by touch, or some other means and must be usable by persons who are visually or hearing impaired or physically disabled.

Any assistive technology device must not interfere with normal telephone use.

The PERS and MRS must be capable of operating without external power during a power failure at the recipient's home in accordance with UL requirements for home health care signaling equipment with stand-by capability and must be portable.

An initial installation fee is covered as well as ongoing monthly rental charges and upkeep and maintenance of the devices.

Any assistive technology devices authorized under this service shall not duplicate services otherwise available through state plan.

MRS and PERS are just two of many different types of assistive technology. More examples of assistive technology that can enable people to be less dependent upon direct human assistance include but are not limited to electronic motion sensor devices, door alarms, web-cams, telephones with modifications such as large buttons, telephones with flashing lights, phones equipped with picture buttons programmed with that person's phone number, devices that may be affixed to a wheelchair or walker to send an alert when someone falls (these may be slightly different than a PERS) text-to-speech software, devices that enhance images for people with low vision, intercom systems.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Costs are limited to \$9,000 per year, per individual. The annual limit corresponds to the waiver year, which begins July 1 and ends June 30 each year.

Provider Qualifications

License (*specify*):

Certificate (*specify*):

Other Standard (*specify*):

The monitoring agency must be capable of simultaneously responding to multiple signals for help from clients' PERS equipment. The monitoring agency's equipment must include a primary receiver, a stand-by information retrieval

system and a separate telephone service, a stand-by receiver, a stand-by back up power supply, and a telephone line monitor. The primary receiver and back-up receiver must be independent and interchangeable. The clock printer must print out the time and date of the emergency signal, the PERS client’s Medical identification code (PIC) and the emergency code that indicates whether the signal is active, passive, or a responder test. The telephone line monitor must give visual and audible signals when an incoming telephone line is disconnected for more than 10 seconds. The monitoring agency must maintain detailed technical and operations manuals that describe PERS elements including PERS equipment installation, functioning and testing; emergency response protocols; and record keeping and reporting procedures.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Career planning is a person-centered, comprehensive employment planning and support service that provides consultative, evaluative and assistance for waiver program individual to enter into, or advance, in competitive employment or self-employment. It is a focused, time limited service engaging a individual in self-discovery, identifying a career direction and developing a plan for achieving competitive, integrated employment at or above the state’s minimum wage. The outcome of this service is

documentation of the individual's stated career objective and a career plan used to guide individual employment support.

- Career Planning services includes activities that are primarily directed at assisting an individual with identification of an employment goal and the plan to achieve this goal (e.g., job exploration, job shadowing, informational interviewing, assessment of interests, labor market research) that are associated with performing competitive work in community integrated employment. Providers of this service may coordinate, evaluate and communicate not only with the individual but, also with their caregivers, their support team, employers and others who can assist with discovering an individual's skills, abilities, interests, preferences, conditions and needs. This support and evaluation should be provided in the presence of the individual to the maximum extent possible and should be conducted in the community to the maximum extent possible but completion of activities in the home or without the presence of the individual should not be precluded.

- If a waiver individual is employed, career planning may be used to explore other competitive employment career objectives which are more consistent with the person's skills and interests or to explore advancement opportunities in his or her chosen career.

- Career planning should be reviewed and considered as a component of an individual's person-centered services and supports plan no less than annually, more frequently as necessary or as requested by the individual. These services and supports should be designed to support successful employment outcomes consistent with the individual's goals.

- Career Planning furnished under the waiver may not include services available under a program funded under section 110 of the Rehabilitation Act of 1973 and its amendments or section 602(16) and (17) of the Individuals with Disabilities Education Act (20 U.S.C. 1401(16 and 17)). Therefore, the case record for any individual receiving this service must document the individual is not eligible for, unable to access, exhausted services or otherwise inapplicable for the aforementioned programs as outlined in an interagency memorandum of understanding between vocational rehabilitation and the division of developmental disabilities.

- Career planning may include social security benefits support, training, consultation and planning.

- Individuals who receive career planning services may also receive supported employment, pre-vocational residential and/or day habilitation services. A participant's person-centered services and supports plan may include two or more types of non-residential habilitation services.

- The setting for the delivery of services must be aligned with the individualized need and that which is most conducive in developing a career objective and a career plan.

- Transportation costs for Career Planning services are included in the unit rate, but costs for transporting to and from the residence are not included.

Upon waiver approval, individuals and support coordinators will revise the individual support plan (ISP) during the annual plan development meeting to be reflective of the new service definitions. ISP will fully implement the revised service definitions within 18 months of waiver approval.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Career Planning is intended to be time-limited. Services should be authorized through person centered employment planning based upon individualized assessed need not to exceed 240 quarter hour units of services within an annual support plan. Additional units may be approved by the Division's Regional Director or designee in exceptional circumstances.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Community Integration assists and/or teaches participation in community activities. Community Integration does not include

assistance with activities of daily living, unless it is combined with a community integration activity. These activities and/or skills are needed to be a participating member of a community, which may include, but not limited to, becoming a member of social events/clubs, recreational activities, volunteering, participating in organized worship or spiritual activities. The following are examples of activities of daily living that are not included in community integration: grocery/clothing shopping, haircut, etc. Community Integration expectations are for individuals to interact with the broader community on a regular basis, including community activities that enable individuals to engage directly, throughout the day, with people who are not paid to provide them with services. In addition, community activities should be organized for the benefit of the individuals to foster relationships with the broader community. Transportation costs related to the provision of this service in the community are included in the service rate. This service supports naturalized involvement in order to become a fully participating member of the community. Personal assistance may be a component of community integration services, but may not comprise the entirety of the service.

A waiver individual's ISP may include any combination of services, but service documentation according to 13 CSR 70-3.030(2) (A) 6. requiring a begin and end time for services reimbursed according to time spent in service delivery will clearly show no duplication or overlap in the time of the day the service is provided, and the place of service must match the billing code.

Upon waiver approval, individuals and support coordinators will revise the individual support plan (ISP) during the annual plan development meeting to be reflective of the new service definitions. ISP will fully implement the revised service definitions within 18 months of waiver approval.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

This service is limited to 25 hours a week. Group community integration may no have more than 4 individuals in the group.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

A community specialist is used when specialized supports are needed to assist the individual in achieving outcomes in the service plan.

Community specialist services includes professional observation and assessment, individualized program design and implementation and consultation with caregivers. This service may also, at the choice of the individual designated representative, include advocating for the individual, and assisting the individual in locating and accessing services and supports within their field of expertise.

The services of the community specialist assists the individual and the individual's caregivers to design and implement specialized programs to enhance self direction, independent living skills, community integration, social, leisure and recreational skills.

This service shall not duplicate other waiver services including but not limited to: Behavior Analysis or Personal Assistant services.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Community specialist, a direct waiver service, differs in service definition and in limitations of amount and scope from State plan targeted case management for person with developmental disabilities. In the latter, there are waiver administrative functions performed by a Support coordinator through state plan TCM that fall outside the scope of community specialist, such as level of care determination, free choice of waiver and provider, due process and right to appeal. Additionally, MO Division of DD Support coordinators facilitate services and supports, authorized in the service plan, through the regional office utilization review and authorization process.

A unit of service is 1/4 hour.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☐ Service is included in approved waiver. The service specifications have been modified.
- ☒ Service is not included in the approved waiver.

Service Definition (Scope):

Transition services are one-time, set-up expenses for individuals who transition from an institution (ICF/ID or Title XIX Nursing Home or other congregate living setting) to a less restrictive community living arrangement such as; a home, apartment, or other community-based living arrangement. Community-based living arrangements are not provider owned and controlled. They include homes where waiver participants own or rent, with or without housemates, and receive Individualized Support Living services (ISL).

Congregate living settings shall include any provider-owned residential setting where MO HealthNet reimbursement is available, including the following:

- Intermediate Care Facilities for Individuals with Intellectual Disabilities
- Nursing Facilities
- Residential Care Facilities
- Assisted Living Facilities
- DD Waiver Group Homes

Examples of expenses that may be covered include:

- Expenses to transport furnishings and personal possessions to the new living arrangement;
- Essential furnishing expenses required to occupy and use a community domicile;
- Security deposits that are required to obtain a lease on an apartment or home that does not constitute paying for housing rent;
- Utility set-up fees or deposits for utility or service access (e.g. telephone, water, electricity, heating, trash removal);
- Health and safety assurances, such as pest eradication, allergen control or one-time cleaning prior to occupancy.

Essential furnishings include items for an individual to establish his or her basic living arrangement, such as a bed, a table, chairs, window blinds, eating utensils, and food preparation items. Community transition services shall not include monthly rental or mortgage expenses, food, regular utility charges, and/or household appliances or items that are intended for purely diversional or recreational purposes such as televisions, cable TV access or VCRs or DVD players.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

This service is limited to persons who transition from a congregate living to the waiver. The services must be necessary for the person to move from an institution and the need must be identified in the person's plan. Total transition services are limited to \$3,000 per participant over their lifetime in the process of moving from a congregate living setting to the community. A unit of service is one item or expense.

Community Transition Services may not be used to pay for furnishing living arrangements that are owned or leased by a waiver provider where the provision of these items and services are inherent to the service they are already providing.

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

Service Definition (Scope):

Counseling Services include goal oriented counseling to maximize strengths and reduce behavior problems and/or functional deficits, which interfere with an individual's, personal, familial, and vocational or community adjustment. It can be provided to individuals and families when the consumer is present with the family. This service is not available to children who are eligible for psychology/counseling services reimbursed under the Healthy Children and Youth (EPSDT) program nor adults when State plan psychology services are appropriate to meet the individual's need.

Counseling includes psychological testing, initial assessment, periodic outcome evaluation and coordination with family members, caretakers and other professionals in addition to direct counseling. This service is needed by certain waiver participants whose living arrangement, job placement or day activity is at risk due to maladaptive behavior or lack of adjustment.

The planning team ensures this service does not duplicate, nor is duplicated by, any other services provided to the individual. Counseling is a cost effective alternative to placement in an ICF-ID.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

This service is not available "for eligible persons under age 21" for psychology/counseling services reimbursed under the Healthy Children and Youth (EPSDT) program nor adults when State plan psychology services are appropriate to meet the individual's need.

Service Title:

Crisis Intervention

HCBS Taxonomy:**Category 1:**

10 Other Mental Health and Behavioral Services ▼

Category 2:**Category 3:****Category 4:****Sub-Category 1:**

10030 crisis intervention ▼

Sub-Category 2:**Sub-Category 3:****Sub-Category 4:**

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

Service Definition (Scope):

Crisis Intervention provides immediate therapeutic intervention, available to an individual on a 24-hour basis, to address personal, social, and/or behavioral problems which otherwise are likely to threaten the health and safety of the individual or of others and/or to result in the individual's removal from his current living arrangement.

Crisis intervention may be provided in any setting and includes consultation with family members, providers and other caretakers to design and implement individualized crisis treatment plans and provide additional direct services as needed to stabilize the situation.

Individuals with developmental disabilities are occasionally at risk of being moved from their residences to institutional settings because the person, or his or family members or other caretakers, are unable to cope with short term, intense crisis situations. Crisis intervention can respond intensively to resolve the crisis and prevent the dislocation of the person at risk. The consultation which is provided to caregivers also helps to avoid or lessen future crises. This service is a cost effective alternative to placement in an ICF-ID.

Specific crisis intervention service components may include the following:

- Analyzing the psychological, social and ecological components of extreme dysfunctional behavior or other factors contributing to the crisis;
- Assessing which components are the most effective targets of intervention for the short term amelioration of the crisis;
- Developing and writing an intervention plan;
- Consulting and, in some cases, negotiating with those connected to the crisis in order to implement planned interventions, and following-up to ensure positive outcomes from interventions or to make adjustments to interventions;
- Providing intensive direct supervision when a consumer is physically aggressive or there is concern that the consumer may take actions that threaten the health and safety of self and others;
- Assisting the consumer with self care when the primary caregiver is unable to do so because of the nature of the consumer's crisis situation; and
- Directly counseling or developing alternative positive experiences for consumers who experience severe anxiety and grief when changes occur with job, living arrangement, primary care giver, death of loved one, etc.

Providers of crisis intervention shall consist of a team under the direction and supervision of a psychologist, counselor or social worker licensed by the State of Missouri (RSMo. 1994, Chapter 337). Alternately, the supervisor may be employed by the State of Missouri as a psychologist, clinical social worker or in an equivalent position (such positions are exempt from licensure) and meet the requirements of a QDDP* (as defined at 42 CFR 483.430). All team members shall have at least one year of work experience in serving persons with developmental disabilities, and shall, either within their previous work experience or separately, have a minimum of 40 hours training in crisis intervention techniques prior to providing services.

Crisis teams may be agency based (certified or accredited ISL lead agencies, day habilitation providers, and group homes, or Division of DD regional offices and habilitation centers), or they may stand alone.

The scope of the waiver crisis intervention service is significantly above and beyond the scope of the state plan service and is meant to be provided by a team, not a single individual. It would be extremely rare for a crisis situation involving a DD waiver participant to be resolved within 60 minutes, and by a person without specialized training working with people with developmental disabilities. Many crisis situations in the DD system may be due to an environmental situation where the individual does not have the language skills to communicate their discomfort or distress, and the average provider of traditional "talk therapy" may not have the experience, skills and educational background to appropriately address this need.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Crisis Intervention services are expected to be of brief duration (4 to 8 weeks, maximum). When services of a greater duration are required, the individual should be transitioned to a more appropriate services program such as counseling, or respite.

Crisis intervention needs for the eligible person that can be met through state plan, including EPSDT crisis services for eligible persons under age 21, as applicable, shall first be accessed and utilized, in accordance with the requirement that state plan services must be utilized before waiver services can be provided. Waiver crisis intervention shall be provided above and beyond any state plan, including EPSDT crisis service that can meet the individual's need.

- ☒ Service is included in approved waiver. There is no change in service specifications.
- ☐ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Those physical adaptations, required by the recipient's plan of care, which are necessary to ensure the health, welfare and safety of the individual, or which enable the individual to function with greater independence in the community and without which, the recipient would require institutionalization. Such adaptations may include the installation of ramps and grab-bars, widening of doorways, modification of bathroom facilities, or installation of specialized electric and plumbing systems which are necessary to accommodate the medical equipment and supplies which are necessary for the welfare of the recipient, but shall exclude adaptations or improvements to the home which are not of direct medical or remedial benefit to the waiver individual, such as carpeting, roof repair, central air conditioning, etc. Adaptations that add to the total square footage of the home are excluded from this benefit except when necessary to complete an adaptation. Adaptations may be approved for living arrangements (houses, apartments, etc.) where the individual lives, owned or leased by the individual, their family or legal guardian. These modifications can be to the individual's home or vehicle.

The following vehicle adaptations are specifically excluded in the waiver: adaptations or improvements to the vehicle that are of a general utility, and are not of direct medical or remedial benefit to the individual; purchase or lease of a vehicle; and regularly scheduled upkeep and maintenance of a vehicle except upkeep and maintenance of the modification.

All adaptations must be recommended by an Occupational or Physical Therapist. Plans for installations should be coordinated with the therapist to ensure adaptations will meet the needs of the individual as per the recommendation. All services shall be provided in accordance with applicable State or local building codes.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Costs are limited to \$7,500 per year, per individual. The annual limit corresponds to the waiver year, which begins July 1 and ends June 30 each year.

Category 3:

Sub-Category 1:

04020 day habilitation ▼

Sub-Category 2:

Sub-Category 3:

Category 4:**Sub-Category 4:**

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☐ Service is included in approved waiver. The service specifications have been modified.
- ☒ Service is not included in the approved waiver.

Service Definition (Scope):

Individualized Skill Development focuses on complex skill acquisition/development, to assist the individual in achieving maximum independence in home and community-based settings. This includes but is not limited to cooking, laundry, shopping, budgeting, paying bills, and accessing public transportation. The service assists the individual to acquire life skills necessary for independent living. When applicable, this should be completed in the community. Transportation costs related to the provision of this service in the community are included in the service rate. Individualized Skill Development differs from the Personal Assistant service in that a personal assistant may directly perform activities or may support the individual to perform ADLS and IADLS as part of the service. This service is an outcome based service. The outcome will be clearly identified in the individualized support plan and progress will be updated at each plan meeting and/or revision. The service is utilized for the development of a clearly identified skill or skill set.

ISPs must include outcomes and action steps individualized to what the individual wishes to accomplish, learn and/or change, which includes a task analysis of the identified learning objective. The Utilization Review Committee, authorized under 9 CSR 45-2.017 has the responsibility to ensure all services authorized are necessary based on the needs of the individual.

Upon waiver approval, individuals and support coordinators will revise the individual support plan (ISP) during the annual plan development meeting to be reflective of the new service definitions. ISP will fully implement the revised service definitions within 18 months of waiver approval.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Individuals who receive Group Home, Individualized Supported Living, or Shared Living may not receive this service; because it is encapsulated within these aforementioned services and would cause duplication. A person who receives these services may receive Day Habilitation, but may not receive Individualized Skill Development at the Day Habilitation location.

No more than 20 hours a week shall be authorized annually.

When this service is provided to minor children living with their parents or guardians, it shall not supplant the cost and provision of support ordinarily provided by parents to children without disabilities, nor shall it supplant educationally related services and support that is the responsibility of local education authorities.

This service may not be provided by a family member or guardian.

Group Individualized Skill Development may not have more than 4 individuals in a group.

A national/state credentialed staff trained in skill development will be required.

Payment is on a 15 minute, fee for service basis.

A waiver individual's ISP may include any combination of services, but service documentation according to 13 CSR 70-3.030(2) (A) 6. requiring a begin and end time for services reimbursed according to time spent in service delivery will clearly show no duplication or overlap in the time of the day the service is provided, and the place of service must match the billing code.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☐ Service is included in approved waiver. The service specifications have been modified.
- ☒ Service is not included in the approved waiver.

Service Definition (Scope):

Job Development is a support service to facilitate competitive work in an integrated work setting, through on-going support services for individuals with developmental disabilities. The service must be identified in the individual's service plan based upon an individualized assessed need which promotes the greatest degree of integration, independence and autonomy.

Job Development

Job Development services are the supports to individuals who, because of the disabilities, will need assistance with obtaining competitive or customized employment in an integrated work setting in the general workforce at or above the state's minimum wage, at or above the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities. The outcome of this service is the acceptance of an employment offer in a job that meets personal and career goals.

Job Development services may include:

- Application completion assistance with the individual,
- Job interviewing activities with the individual,
- Completion of task analysis with or without the presence of the individual based upon individualized need,

Negotiation with prospective employers and education of prospective employers of their role in promoting full inclusion with or without the presence of the individual based upon individualized need.

Additional Information about Job Development services:

- Job Development services must be provided in a manner that promotes integration into the workplace and interaction between individuals and people without disabilities in those workplaces while maintaining the individuals rights of dignity, privacy and respect.

- Job Development should be reviewed and considered as a component of an individual's person-centered services and supports plan no less than annually, more frequently as necessary or as requested by the individual. This service and support should be designed to support a successful employment outcome consistent with the individual's assessed goals, needs, interests and preferences. An individual's autonomy and independence to perform employment with the least amount of restrictions must be supported through the person centered planning process.

- Job Development activities are limited to potential employers who would compensate at or above the minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities.
- Job Development furnished under the waiver may not include services available under a program funded under section 110 of the Rehabilitation Act of 1973 and its amendments or section 602(16) and (17) of the Individuals with Disabilities Education Act (20 U.S.C. 1401(16 and 17)). Therefore, the case record for any individual receiving this service must document the individual is not eligible for, unable to access, exhausted services or otherwise inapplicable for the aforementioned programs as outlined in an interagency memorandum of understanding between vocational rehabilitation and the division of developmental disabilities.
- A individual's support plan may include two or more types of non-residential services. Transportation costs are not included in the job development fee, but specialized transportation is available as a separate service if necessary.

Federal Financial Participation is not claimed for incentive payments, subsidies, or unrelated vocational training expenses such as the following:

- 1) Incentive payments made to an employer to encourage or subsidize the employer's participation in a supported employment program; or
- 2) Payments that are passed through to users of community employment programs.

Upon waiver approval, individuals and support coordinators will revise the individual support plan (ISP) during the annual plan development meeting to be reflective of the new service definitions. ISP will fully implement the revised service definitions within 18 months of waiver approval.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Job Development is intended to be time-limited. Services should be authorized through person centered employment planning based upon individualized assessed need not to exceed 240 quarter hour units of services within an annual support plan. Additional units may be approved by the Division's Regional Director or designee in exceptional circumstances.

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

Service Definition (Scope):

Occupational therapy requires prescription by a physician and evaluation by a certified occupational therapist (OT) or certified occupational therapeutic assistant (COTA) under the supervision of an OT. The service includes evaluation, plan development, direct therapy, consultation and training of caretakers and others who work with the individual. It may also include therapeutic activities carried out by others under the direction of an OT or COTA . Examples are using adaptive equipment, proper positioning and therapeutic exercises in a variety of settings.

Occupational therapy is covered under the Medicaid state plan for children and youth under the age of 21, so waiver OT is only for people age 21 and over.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Occupational therapy needs for the eligible person through EPSDT, as applicable, shall be accessed and utilized, in accordance with the requirement that state plan services must be exhausted before waiver services can be provided. Occupational therapy services authorized through the waiver shall not duplicate state plan services.

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Out of home respite is care provided outside the home in a licensed, accredited or certified waiver residential facility, ICF/ID or State Habilitation Center by trained and qualified personnel for a period of no more than 60 days per year. The need for this service has to be an identified need through the planning process which would include the individual, guardian if applicable, the primary caregiver, other family members, support coordinator, and any other parties the individual requests. The purpose of respite care is to provide planned relief to the customary caregiver and is not intended to be permanent placement. If the needs of the individual exceed the Community Support Waiver annual cap or the individual's support plan identifies an ongoing need for out of home services then the planning team would work to transition the individual to the Comprehensive DD waiver to meet their needs. FFP is not claimed for the cost of room and board except when provided as part of respite care furnished in a facility approved by the State that is not a private residence.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Out of home respite is limited to no more than 60 days annually, unless a written exception is granted from the regional office director. The 60 days may be consecutive, unless the service is provided in an ICF/ID or State Habilitation Center. Out of home respite provided in an ICF/ID or State Habilitation Center cannot exceed 30 days.

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

Service Definition (Scope):

This service involves consultation to the individual's support team to improve the quality of life for the individual through the development of and implementation of positive, proactive and preventative, Person Centered Strategies and a modified environment and/or life style for the individual. Person Centered Strategies consultation involves evaluating a person's setting, schedule, typical daily activities, relationships with others that make up the supports for an individual including paid staff/paid family and unpaid natural supports. The evaluation leads to changes in strategies including such things as re-arranging the home to reduce noise and stimulation, adding a personal quiet area to allow the individual to get away from annoying events, teaching skills to promote more positive interactions between the individual and supporting staff or family. Evaluation may involve identifying skills that would help the individual to have a better quality of life and assist the support staff/family to teach these meaningful skills to the individual and identify ways to proactively prevent problem situations and assisting the individual and support staff/family to use these new strategies and problem solving techniques for the individual. Such strategies developed could include: clarifying the expectations for the individual and all members of the support team, and establishing positive expectations or rules for the individual with the support team learning to change their system to support in these more positive ways, improving recognition of desirable actions and reduction of problematic interactions that might evoke undesirable responses from the individual. A large part of the consultation will involve assisting the support system to develop a sustainable implementation plan and to insure a high fidelity of implementation and consistency of use of the strategies to assist and support the individual. This is not a direct therapy type service, for example the consultant's interaction with the individual should be pleasant and positive, but it is not this interaction that improves the quality of the person's life, rather the changes made to the person's support system, especially those focusing on implementation of identified strategies make the difference for the individual.

Person Centered Strategy consultation might work towards improved quality of life for the individual through training of support persons and developing a way for the support system to monitor and evaluate the interactions and systems to establish increased opportunities for teaching and practice of necessary skills by the individual, increasing recognition of desirable actions by the individual and the support team, increased frequency and types of positive interactions by support persons with and by the individual, and assisting the individual and support team to arrange practice opportunities such as social skills training groups or arranging a system of coaching and prompting for desirable actions in situations that commonly are associated with problems. The consultant might establish and lead such practice opportunities while coaching support person to continue the practice when the service is discontinued.

The unit of service is one-fourth hour. This is a short term service that is not meant to be on going, the typical duration of service is to be twelve months or less.

This service is not to be provided for development or implementation of behavior support plans or functional assessment as these services require licensure as a behavior analyst, psychologist, counselor or social worker with specialized training in behavior analysis. However, this service might work in conjunction with a behavior analysis service provider to develop and establish a support system that can implement strategies towards a good quality of life for the individual.

Person Centered Strategies Consultation differs from the Behavior Analysis Service in that PCSC the focus and whole scope of the service is on identifying barriers to a good quality of life and improving proactive, preventative and teaching based strategies to increase desirable, healthy skills and thus reduce problem situations. In addition, the PCSC will require providers with a less involved level of training and experience than BAS.

Outcomes expected for this service are as follows:

1. Written document describing the results of the evaluation of the system to identify problem situations, strategies and practices and relate these to the quality of life for the focus individual.
2. Summary of recommended strategies developed with the support team to address the identified problems and practices based on the evaluation.
3. Training for the individual and support team to implement the strategies with fidelity and collect data to determine effectiveness of the strategies that will assist the individual in achieving a good quality of life.
4. A written document that is incorporated into the Individual Support Plan to insure the implementation of the new strategies with fidelity and consistency by the support team after the PCSC is completed.

Documentation for the service:

1. Identification of the outcome being addressed during the service unit(s) for a particular session.
2. Description of progress towards the outcome.
3. Actions steps and planning for the next service sessions including a timeline and steps necessary to achieve the outcome.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

This is a short term service that is not meant to be on going, the typical duration of service is to be twelve months or less.

Psychology/Counseling services under EPSDT do not include Person Centered Strategies services.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one :

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Physical Therapy treats physical motor dysfunction through various modalities as prescribed by a physician and following a physical motor evaluation. It is provided to individuals who demonstrate developmental, habilitative or rehabilitative needs in acquiring skills for adaptive functioning at the highest possible level of independence.

Physical Therapy requires a prescription by a physician and evaluation by a certified physical therapist (PT) or certified physical therapeutic assistant (CPTA) under the supervision of a PT. The service includes evaluation, planned development, direct therapy, consultations and training of caretakers and others who work with the individual.

This service may include clinical consultation provided to individuals, parents, primary caregivers, other programs or habilitation services providers.

A unit of service is 1/4 hour.

Therapies available to adults under the state plan are for rehabilitation needs only. Therapies in the waiver are above and beyond what the state plan provides. Therapies in the waiver are more habilitative in nature; habilitative therapy is not available under the state plan.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Physical therapy needs for the eligible person through EPSDT, as applicable, shall be accessed and utilized, in accordance with the requirement that state plan services must be utilized before waiver services can be provided. Physical therapy services authorized through the waiver shall not duplicate state plan services. Children have access to EPSDT services.

- ☐ Service is included in approved waiver. There is no change in service specifications.
- ☒ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Professional Assessment and Monitoring (PAM) is intended to promote and support an optimal level of health and wellbeing. PAM is a consultative service by a licensed health care professional that may include assessment, examine, evaluate, and/or treat an individual of identified condition(s) or healthcare needs and planning to include instructions and training for caregivers when indicated. PAM services maintain, restore and / or improve an individual's functional status. PAM may include ancillary, management and / or instructional strategies.

PAM providers are to coordinate and communicate with the individual, their caregivers and the support team. This would include but is not limited to reporting all changes in health status to the physician and the support coordinator and providing written reports of the visit to the support coordinator. All services must be documented in the individual record.

Any changes in health status are to be reported to the physician and Support coordinator as needed. Written reports of the visit are required to be sent to the Support coordinator. This service may be provided by a licensed registered professional nurse, or a licensed practical nurse under the supervision of a registered nurse, or a licensed dietitian to the extent allowed by their respective scope of practice in the State of Missouri.

This service must not supplant Medicaid State plan services or Medicare services for which an individual is eligible. Excluded services include Diabetes Self Management Training available under the state plan and medical nutrition therapy services prescribed by a physician for Medicare eligibles who have diabetes or renal diseases.

Professional Assessment and Monitoring service providers must have a valid DMH contract and/or provide services through an Organized Health Care Delivery system for the provision of Professional Assessment and Monitoring services.

Service Documentation:

Providers of Professional Assessment and Monitoring must maintain a individualized plan of treatment and detailed record of intervention activities by unit of service. The provider is required to follow procedures set forth under The Code of State Regulations 13 CSR 70-3.030, which defines adequate documentation.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The contractor shall not be the consumer's spouse, a parent of a minor child (under 18), no a legal guardian.

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

Service Definition (Scope):

Specialized medical equipment and supplies includes devices, controls, or appliances, specified in the support plan, which enable individuals to increase their abilities to perform activities of daily living, or to perceive, control, or communicate with the environment in which they live.

Includes items necessary for life support, ancillary supplies and equipment necessary to the proper functioning of such items, durable and non-durable medical equipment and supplies, and equipment repairs when the equipment, supplies and repairs are not covered under the Medicaid State DME plan. Includes incontinence supplies.

Items reimbursed with waiver funds, shall be in addition to any medical equipment and supplies furnished under the State plan and shall exclude those items which are not of direct medical or remedial benefit to the recipient. All items shall meet applicable standards of manufacture, design and installation.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Costs are limited to \$7,500 per year, per individual. The annual limit corresponds to the waiver year, which begins July 1 and ends June 30 each year.

Other specialized equipment, supplies and equipment repair needs for the eligible person that can be met through state plan, including EPSDT, as applicable, shall first be accessed and utilized, in accordance with the requirement that state plan services must be exhausted before waiver services can be provided. DD waiver other specialized equipment, supplies and repairs shall be provided above and beyond any state plan, including EPSDT, equipment, supplies, and repair service that can meet the individual's needs. Further, this waiver service may also be authorized for items/repairs not covered under state plan and falls within the waiver service definition described above.

- ☒ **Service is included in approved waiver. There is no change in service specifications.**
- ☐ **Service is included in approved waiver. The service specifications have been modified.**
- ☐ **Service is not included in the approved waiver.**

Service Definition (Scope):

Speech Therapy is for individuals who have speech, language or hearing impairments. Services may be provided by a licensed speech language therapist or by a provisionally licensed speech therapist working with supervision from of a licensed speech language therapist. The individual's need for this therapy must be determined in a speech/language evaluation conducted by a certified audiologist or a state certified speech therapist. The need for services must be identified in the support plan and prescribed by a physician. Speech therapy provides treatment for delayed speech, stuttering, spastic speech, aphasic disorders, and hearing disabilities requiring specialized auditory training, lip reading, signing or use of a hearing aid.

Services may include consultation provided to families, other caretakers, and habilitation services providers. A unit of services is 1/4 hour.

Waiver providers must be licensed by the State of Missouri as a Speech Therapist. The Medicaid Waiver enrolled provider may

employ a person who holds a provisional license from the State of Missouri to practice speech-language pathology or audiology. Persons in their clinical fellowship may be issued a provisional license. Clinical fellowship is defined as the supervised professional employment period following completion of the academic and practicum requirements of an accredited training program. Provisional licenses are issued for one year. Within 12 months of issuance, the applicant must pass an exam promulgated or approved by the board and must complete the master's or doctoral degree from an institution accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association in the area in which licensing is sought. Provisionally licensed speech therapists must receive periodic, routine supervision from their employer, a Medicaid waiver enrolled speech therapy provider.

Therapies available to adults under the state plan are for rehabilitation needs only. Therapies in the waiver are above and beyond what the state plan provides. Therapies in the waiver are more habilitative in nature; habilitative therapy is not available under the state plan.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The individual's need for this therapy must be determined in a speech/language evaluation conducted by a certified audiologist or a state certified speech therapist. Services must be required in the support plan and prescribed by a physician. This service may not be provided by a paraprofessional.

Speech therapy needs for the eligible person through EPSDT, as applicable, shall be accessed and utilized, in accordance with the requirement that state plan services must be utilized before waiver services can be provided. Speech therapy services authorized through the waiver shall not duplicate state plan services. Children have access to EPSDT services.

- ☒ Service is included in approved waiver. There is no change in service specifications.
- ☐ Service is included in approved waiver. The service specifications have been modified.
- ☐ Service is not included in the approved waiver.

Service Definition (Scope):

Transportation is reimbursable when necessary for an individual to access waiver and other community services, activities and resources specified by the service plan. Transportation under the waiver shall not supplant transportation provided to providers of medical services under the state plan as required by 42 CFR 431.53, nor shall it replace emergency medical transportation as defined at 42 CFR 440.170(a) and provided under the state plan. State plan transportation in Missouri is provided to medical services covered under the state plan, but not to waived services, which are not covered under the state plan. Transportation is a cost effective and necessary part of the package of community services, which prevent institutionalization.

A variety of modes of transportation may be provided, depending on the needs of the individual and availability of services. Alternatives to formal paid support will always be used whenever possible. A unit is one per month.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

State plan transportation under this waiver is limited to medical services covered in the state plan. State plan transportation does not cover transporting persons to waiver services, which are not covered under the state plan.

C-1: Summary of Services Covered (2 of 2)

b. **Provision of Case Management Services to Waiver Participants.** Indicate how case management is furnished to waiver participants (select one):

- ☐ **Not applicable** - Case management is not furnished as a distinct activity to waiver participants.
- ☒ **Applicable** - Case management is furnished as a distinct activity to waiver participants.

Check each that applies:

- ☐ **As a waiver service defined in Appendix C-3.** Do not complete item C-1-c.
- ☐ **As a Medicaid State plan service under §1915(i) of the Act (HCBS as a State Plan Option).** Complete item C-1-c.
- ☒ **As a Medicaid State plan service under §1915(g)(1) of the Act (Targeted Case Management).** Complete item C-1-c.
- ☐ **As an administrative activity.** Complete item C-1-c.

c. **Delivery of Case Management Services.** Specify the entity or entities that conduct case management functions on behalf of waiver participants:

Division of DD Regional Offices(State Employees)and approved Targeted Case Management Entities Employees.

Appendix C: Participant Services

C-2: General Service Specifications (1 of 3)

a. **Criminal History and/or Background Investigations.** Specify the State's policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (select one):

- ☐ **No. Criminal history and/or background investigations are not required.**
- ☒ **Yes. Criminal history and/or background investigations are required.**

Specify: (a) the types of positions (e.g., personal assistants, attendants) for which such investigations must be conducted; (b) the scope of such investigations (e.g., state, national); and, (c) the process for ensuring that mandatory investigations have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the

Medicaid or the operating agency (if applicable):

(a) Background screening is required for all provider staff and volunteers who have contact with consumers. Background screenings are required for volunteers who are recruited as part of an agency's formal volunteer program. It does not apply to volunteers who assist individuals as a friend would by providing assistance with shopping, transportation, recreation, etc. Background screenings are also required for members of the provider's household who have contact with residents or consumers, except for minor children. (Title 9 Code of State Regulations 10.5.190 and Department Operating Regulation 6.510).

(b) An inquiry must be made for all new employees and volunteers with the Missouri Department of Health and Senior Services to determine whether the new employee or volunteer is on Department of Social Services or the Department of Health and Senior Services disqualification list. An inquiry is also made with the Department of Mental Health to determine whether the individual is on the DMH disqualification registry. A criminal background check with the Missouri State Highway Patrol is required. The criminal background check and inquiries are initiated prior to the employee or volunteer having contact with residents, clients, or patients. All new applicants for employment or volunteer positions involving contact with residents or clients must: 1) sign a consent form authorizing a criminal record review with the Missouri State Highway Patrol either directly through the patrol or through a private investigatory agency; 2) disclose his/her criminal history including any conviction or a plea of guilty to a misdemeanor or felony charges and any suspended imposition of sentence, any suspended execution of sentence, or any period of probation or parole; and 3) disclose if he/she is listed on the employee disqualification list of the Departments of Social Services, Health and Senior Services, or Mental Health.

(c) Employers are responsible for requesting the background screenings. A single request is used and submitted to the state's Family Care Safety Registry, operated by the Department of Health and Senior Services. The Family Care Safety Registry has access to the criminal record system of the state Highway Patrol as well the abuse/neglect and employee disqualification lists/registries that are required.

(d) Each agency must develop policies and procedures regarding the implementation of this rule and the disposition of information provided by the criminal record review. Review of provider policies and procedures are part of a provider licensure/certification site visit per 9 CSR 40-2.075.

The DMH licensure/certification process, Division of DD Provider Relations review, and Division of DD Fiscal Review process all look for evidence that background investigations are completed as required.

b. Abuse Registry Screening. Specify whether the State requires the screening of individuals who provide waiver services through a State-maintained abuse registry (select one):

- ☐ **No. The State does not conduct abuse registry screening.**
- ☒ **Yes. The State maintains an abuse registry and requires the screening of individuals through this registry.**

Specify: (a) the entity (entities) responsible for maintaining the abuse registry; (b) the types of positions for which abuse registry screenings must be conducted; and, (c) the process for ensuring that mandatory screenings have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

(a) The Department of Mental Health (DMH) maintains the Disqualification Registry which is a list of individuals disqualified from working with consumers receiving services from the department. Statutory authority is contained in RSMo 630.170. The Department of Health and Senior Services also maintains an employee disqualification list.

(b) All new applicants for employment or volunteer positions involving contact with consumers or residents are checked against the Department of Mental Health's Disqualification Register and the Department of Health and Senior Services' Disqualification List.

(c) Surveys for licensing and certifying community residential facilities and day programs ensure these providers have records to support staff and volunteers have been properly screened. Local Regional Office quality enhancement staff or Department audit services staff review records while conducting other reviews or based on reports that screenings are not being completed.

(d) Employers are responsible for requesting the background screenings. A single request is used and submitted to the state's Family Care Safety Registry, operated by the Department of Health and Senior Services. The Family Care Safety Registry has access to the criminal record system of the state Highway Patrol as well the abuse/neglect and employee disqualification lists/registries that are required.

Appendix C: Participant Services

C-2: General Service Specifications (2 of 3)

c. Services in Facilities Subject to §1616(e) of the Social Security Act. Select one:

- ☒ **No. Home and community-based services under this waiver are not provided in facilities subject to §1616(e) of the Act.**

- ☐ **Yes. Home and community-based services are provided in facilities subject to §1616(e) of the Act. The standards that apply to each type of facility where waiver services are provided are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).**

Appendix C: Participant Services

C-2: General Service Specifications (3 of 3)

- d. Provision of Personal Care or Similar Services by Legally Responsible Individuals.** A legally responsible individual is any person who has a duty under State law to care for another person and typically includes: (a) the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child or (b) a spouse of a waiver participant. Except at the option of the State and under extraordinary circumstances specified by the State, payment may not be made to a legally responsible individual for the provision of personal care or similar services that the legally responsible individual would ordinarily perform or be responsible to perform on behalf of a waiver participant. *Select one:*

- ☒ **No. The State does not make payment to legally responsible individuals for furnishing personal care or similar services.**
- ☐ **Yes. The State makes payment to legally responsible individuals for furnishing personal care or similar services when they are qualified to provide the services.**

Specify: (a) the legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) State policies that specify the circumstances when payment may be authorized for the provision of *extraordinary care* by a legally responsible individual and how the State ensures that the provision of services by a legally responsible individual is in the best interest of the participant; and, (c) the controls that are employed to ensure that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the State policies specified here.*

- e. Other State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians.** Specify State policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above the policies addressed in Item C-2-d. *Select one:*

- ☐ **The State does not make payment to relatives/legal guardians for furnishing waiver services.**
- ☒ **The State makes payment to relatives/legal guardians under specific circumstances and only when the relative/guardian is qualified to furnish services.**

Specify the specific circumstances under which payment is made, the types of relatives/legal guardians to whom payment may be made, and the services for which payment may be made. Specify the controls that are employed to ensure that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.*

Personal assistant services shall not be provided by an individual's spouse, if the individual is a minor (under age 18) by a parent, or legal guardian. Personal assistant services may otherwise be provided to a person by a member(s) of his or her family when the person is not opposed to the family member providing the service and the service to be provided does not primarily benefit the family unit, is not a household task family members expect to share or do for one another when they live in the same household, and otherwise is above and beyond typical activities family members provide for another adult family member without a disability.

In case of a paid family member the service plan must reflect:

- The individual is not opposed to the family member providing services;
- The services to be provided are solely for the individual and not task household tasks expected to be shared with people live in family unit;
- The planning team determines the paid family member providing the service best meet the individual's needs;
- A family member will only be paid for the hours authorized in the service plan and at no time can these exceed 40 hours per week. Any support provided above this amount would be considered a natural support or the unpaid care that a family member would typically provide;
- Family members can be hired for personal assistant only.

Family is defined as: A family member is defined as a parent, step parent; sibling; child by blood, adoption, or marriage; spouse; grandparent; or grandchild.

Family members approved to provide personal assistant services may be employed by an agency or employed by the

individual/guardian or designated representative using an approved fiscal management service provider. If the person employs his/her own workers using an approved fiscal management service provider, the family member serving as a paid personal assistant shall not also be the designated representative/common law employer.

- ☐ **Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardian is qualified to provide services as specified in Appendix C-1/C-3.**

Specify the controls that are employed to ensure that payments are made only for services rendered.

- ☐ **Other policy.**

Specify:

- f. Open Enrollment of Providers.** Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR §431.51:

Interested providers contact the Regional Office in the area where they plan to provide services. Regional Office contract staff determines if the provider meets provider qualifications by reviewing documentation that serves as proof of requirements such as licensing, certification, accreditation, training, appropriate staff, etc. If the provider is qualified, the Regional Office initiates a DMH Waiver contract with the provider and assists the provider with enrolling as an DD Medicaid Waiver provider through the Medicaid agency. All qualified, willing providers are assisted in enrolling as a waiver provider as provided in 42 CFR 431.51. The average time to enroll as a waiver provider is estimated to be 90-days.

Division of DD Directive, 5.060, Enrollment of New Providers, was established to ensure consistent standards are followed by the Division's 11 Regional Offices in enrolling new providers.

Appendix C: Participant Services

Quality Improvement: Qualified Providers

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Qualified Providers

The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.

i. Sub-Assurances:

- a. Sub-Assurance: The State verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.**

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

The number and percent of licensed, certified or deemed providers paid through the waiver. (The number of licensed, certified or deemed providers paid through the waiver within the identified time period divided by the number of providers billing through the waiver within the identified time period.)

Data Source (Select one):

Provider performance monitoring

If 'Other' is selected, specify:

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

(a1, a5, c1): New applicants who do not meet the initial provider enrollment qualifications are not enrolled as providers. Upon successful completion of the provider enrollment process, the provider relations staff notifies the DMH Licensure and Certification (L&C) Unit that the provider is ready to pursue their certification or license, if applicable for the services provided. The L&C Unit conducts a survey to determine if standards for those services are met and produces a written report within 30 business days of the site survey; if standards are met, L&C issues a license or a certificate. If the provider does not meet the standards, they must complete a plan of correction within 30 days of receipt of the written report. The L&C Unit then has 10 working days to accept or reject the plan of correction. Necessity for additional site visit(s) is determined by the type, scope and extent of the issues for improvement, and the L&C Unit, as well as the Provider Relations contact at the Regional Office, follows through on the process. Final determination of conformance to standards results in issuance of the license or certificate, or results in denial of license or certificate. If the license or certificate is denied, the contract is terminated. The Regional Office corrects any authorizations made in error as well as filing adjustments for any claims paid in error and reports the action to the Regional Office quality assurance staff in writing, describing how the error was corrected and any remedial training that was provided to staff.

(a3) Provider Relations staff at the Regional Office determine conformance with qualifications for contract purposes. Provider Relations conducts a review on an annual basis to assure the non-licensed/certified/accredited providers are in compliance with contract requirements.

Providers who do not maintain qualifications are dis-enrolled as providers for waiver services. The Regional Office corrects any authorizations made in error as well as filing adjustments for any claims paid in error and reports the action to the Regional Office quality enhancement staff in writing, describing how the error was corrected and any remedial training that was provided to staff. Individuals would be offered other waiver provider options and choices to select a new waiver provider.

(b1) In addition to targeted training all self-directed employees must have background checks completed and be registered with the Family Care Safety Registry (FCSR) before they can be paid for services. If it is determined a worker did not have a background check completed prior to the worker beginning, the Financial Management Service contractor is notified within 10 days of discovery by Regional Office management staff that an error has occurred since the contractor is responsible for background checks. The contractor must respond in writing with 30 days to the Regional Office describing how the error has been corrected. Case management staff will assure the worker does not provide additional services until the check is completed satisfactorily. Administration staff will take action to adjust authorizations made in error and any claims paid in error.

(c1): The L&C Unit conducts a survey to determine if standards are met and produces a written report within 30 business days of the site survey; if standards are met, L&C issues a license or a certificate. If the provider does not meet the standards, they must complete a plan of correction within 30 days of receipt of the written report. The L&C Unit then has 10 working days to accept or reject the plan of correction. Necessity for additional site visit(s) is determined by the type, scope and extent of the issues for improvement, and the L&C Unit, as well as the Provider Relations contact at the Regional Office, follows through on the process. Final determination of conformance to standards results in issuance of the license or certificate, or results in denial of license or certificate. If the license or certificate is denied, the contract is terminated. The Regional Office corrects any authorizations made in error as well as filing adjustments for any claims paid in error and reports the action to the Regional Office quality assurance staff in writing, describing how the error was corrected and any remedial training that was provided to staff.

Providers accredited by CARF International or Council for Quality and Leadership (CQL) are deemed certified, as outlined in Missouri Code of State Regulation. These accredited providers submit a copy of their most recent accreditation survey and the statement of accreditation to the Division of DD, to verify that the accreditation status is current and to determine what areas of

improvement are noted. If an improvement plan is required by the accrediting body, that correspondence is also submitted to the Division. The Division Standards and Accreditation Coordinator tracks to assure that these reports are submitted and reviewed; if the current status is not on file, the Coordinator contacts the Provider Relations staff at the Regional Office to assist in obtaining the required documentation.

ii. **Remediation Data Aggregation**

Remediation-related Data Aggregation and Analysis (including trend identification)

Responsible Party <i>(check each that applies):</i>	Frequency of data aggregation and analysis <i>(check each that applies):</i>
☐ State Medicaid Agency	☐ Weekly
☒ Operating Agency	☐ Monthly
☐ Sub-State Entity	☒ Quarterly
☐ Other Specify: 	☒ Annually
	☐ Continuously and Ongoing
	☐ Other Specify:

c. **Timelines**

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Qualified Providers that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Qualified Providers, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix C: Participant Services

C-3: Waiver Services Specifications

Section C-3 'Service Specifications' is incorporated into Section C-1 'Waiver Services.'

Appendix C: Participant Services

C-4: Additional Limits on Amount of Waiver Services

a. **Additional Limits on Amount of Waiver Services.** Indicate whether the waiver employs any of the following additional limits on the amount of waiver services (*select one*).

☒ **Not applicable-** The State does not impose a limit on the amount of waiver services except as provided in Appendix C-3.

☐ **Applicable -** The State imposes additional limits on the amount of waiver services.

When a limit is employed, specify: (a) the waiver services to which the limit applies; (b) the basis of the limit, including its basis in historical expenditure/utilization patterns and, as applicable, the processes and methodologies that are used to determine the amount of the limit to which a participant's services are subject; (c) how the limit will be adjusted over the course of the waiver period; (d) provisions for adjusting or making exceptions to the limit based on participant health and welfare needs or other factors specified by the state; (e) the safeguards that are in effect when the amount of the limit is insufficient to meet a participant's needs; (f) how participants are notified of the amount of the limit. (*check each that applies*)

☐ **Limit(s) on Set(s) of Services.** There is a limit on the maximum dollar amount of waiver services that is authorized for one or more sets of services offered under the waiver.

Furnish the information specified above.

- ☐ **Prospective Individual Budget Amount.** There is a limit on the maximum dollar amount of waiver services authorized for each specific participant.

Furnish the information specified above.

- ☐ **Budget Limits by Level of Support.** Based on an assessment process and/or other factors, participants are assigned to funding levels that are limits on the maximum dollar amount of waiver services.

Furnish the information specified above.

- ☐ **Other Type of Limit.** The State employs another type of limit.

Describe the limit and furnish the information specified above.

Appendix C: Participant Services

C-5: Home and Community-Based Settings

Explain how residential and non-residential settings in this waiver comply with federal HCB Settings requirements at 42 CFR 441.301(c)(4)-(5) and associated CMS guidance. Include:

1. Description of the settings and how they meet federal HCB Settings requirements, at the time of submission and in the future.
2. Description of the means by which the state Medicaid agency ascertains that all waiver settings meet federal HCB Setting requirements, at the time of this submission and ongoing.

Note instructions at Module 1, Attachment #2, HCB Settings Waiver Transition Plan for description of settings that do not meet requirements at the time of submission. Do not duplicate that information here.

Please see Attachment #2 for the waiver specific transition plan.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (1 of 8)

State Participant-Centered Service Plan Title:

Service Plan

- a. Responsibility for Service Plan Development.** Per 42 CFR §441.301(b)(2), specify who is responsible for the development of the service plan and the qualifications of these individuals (*select each that applies*):

- ☐ **Registered nurse, licensed to practice in the State**
- ☐ **Licensed practical or vocational nurse, acting within the scope of practice under State law**
- ☐ **Licensed physician (M.D. or D.O)**
- ☒ **Case Manager** (qualifications specified in Appendix C-1/C-3)
- ☐ **Case Manager** (qualifications not specified in Appendix C-1/C-3).

Specify qualifications:

- ☐ **Social Worker**

Specify qualifications:

☐ **Other**

Specify the individuals and their qualifications:

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (2 of 8)

b. Service Plan Development Safeguards. *Select one:*

- ☐ **Entities and/or individuals that have responsibility for service plan development may not provide other direct waiver services to the participant.**
- ☒ **Entities and/or individuals that have responsibility for service plan development may provide other direct waiver services to the participant.**

The State has established the following safeguards to ensure that service plan development is conducted in the best interests of the participant. *Specify:*

The Division has procedures for support coordinators to follow to ensure choice in providers, services, institutional care, and service delivery options are reviewed with the participant and legally authorized representative annually. The Division rules for targeted case management entities also require the support coordinator to review choice, plan for services, risks, and one's goals without any undue influence from other providers or parties.

The Targeted Case Management (TCM) entity may provide waiver services, but NOT to an individual for whom the agency provides support coordination. System changes are in transition, and the state will complete the system changes by December 31, 2018, in accordance with the timeline separately submitted to CMS.

During the annual plan meeting, or as the situation arises during support monitoring, the support coordinator will discuss options with the individual to avoid conflicted arrangements. If a TCM entity is providing both TCM and direct services to the same individual, the individual will have to choose that provider for either TCM services or direct services. The support coordinator will educate and inform the individual on choices of TCM entities and waiver providers to prevent conflicted arrangements.

One of the Division's integrated quality functions is the targeted case management reviews conducted by the technical assistance coordinator (TCM TAC) reviews, with a sampling which includes 100% sampling of all Support Coordinators:

- Verification that the conflict of interest statement is included in the service support plan; and
- Interaction/contact with consumers and/or their guardians to verify effectiveness of the procedures

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (3 of 8)

- c. Supporting the Participant in Service Plan Development.** Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the service plan development process and (b) the participant's authority to determine who is included in the process.

The planning team responsible for the development of the individual support plan should be led by the individual and must include the individual and his/her representative, family or guardian, and any other individuals they choose. When individuals are children under the age of 18 living with their family, the parent(s) choose who they want to attend as a member of the planning team, and the parent(s) must participate in the meeting.

All support coordinators must be trained on the Division of DD Person Centered Planning Guidelines prior to facilitating an individual support plan. The guidelines describe person-centered planning as a process that is directed by the individual (waiver participant), with assistance as needed from a representative (support coordinator) and reinforces the responsibility of the support coordinator to ensure that waiver participants are full partners in the planning process.

The guidelines are available to individuals and their families on the Division of DD's web page. The support plan must be finalized and agreed to, with the informed consent of the individual in writing, and signed by all individuals and providers responsible for its implementation.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (4 of 8)

- d. Service Plan Development Process.** In four pages or less, describe the process that is used to develop the participant-centered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b) the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and monitor the plan; and, (g) how and when the plan is updated, including when the participant's needs change. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

(a) The planning team includes the individual and his or her representatives, family or guardian, and other people chosen by the individual. The individual chooses whom he/she wants to attend as a member of the team, unless the individual is a minor or has been judged incompetent, in which case the family or guardian must attend. The team also includes providers selected by the individual. Other professionals involved with the individual may be included as applicable and at the individual's invitation. The individual will lead the planning process where possible. The plan is usually facilitated by a support coordinator employed by a Division of DD Regional Office or an approved Targeted Case Management Entity. If the person so chooses, another facilitator may be used, but the support coordinator will participate in the planning.

No later than 30 days from the date of acceptance into the waiver program the planning team develops a support plan with the individual. Initial plans must contain at least an accurate beginning profile of the person. The profile needs to reflect what the person sees as important in relationships, things to do, places to be, rituals and routines, a description of immediate needs, especially those that are important to the person's quality of life including health and safety and information about what supports and/or services are required to meet the person's needs. The plan facilitator must make sure that each item in the action plan has enough detail and/or examples so that someone new in the person's life understands what is meant and how to support the person. If the initial plan is not comprehensive, it can cover no more than 60 days, during which time a more comprehensive plan must be finalized.

The support plan must be finalized and agreed to, with the informed consent of the individual in writing, and signed by all individuals and providers responsible for its implementation. The plan must be distributed to the individual and other people involved in the plan.

(b) The plan is based on the support coordinator's functional assessment of the individual and all other assessments that are pertinent. Missouri uses the MOCABI (Missouri Critical Adaptive Behaviors Inventory) functional assessment tool for Adults and Vineland or other age appropriate tools for children. Assessments include observations and information gathered from the members of the team.

The functional assessment determines how the individual wants to live, the individual's routines, what works for the individual and what does not. It also assesses what the individual wants to learn and how the individual learns best. It measures how independently the individual functions and what interferes with what the individual wants, and it suggests ways the individual's needs and wants can be met.

(c) Upon being determined eligible for Division of DD services, each individual and/or legal representative, or guardian receives information regarding available services and programs, including information about the waiver. After needs are identified through the planning process, the support coordinator reviews this information once more and together with the individual and the interdisciplinary team specific services and supports are identified to meet the participant's needs.

(d) Individual Support Plans must be written in accordance with Division of DD's Person Centered Planning Guide and Missouri Quality Outcomes. The Person Centered Planning Guide includes a description of mandatory plan components. Mandatory components include: demographics; health and safety, who and what are important to the person; individual's strengths and preferences; what staff need to know and do to provide support; requirements of the family of a minor child or guardian, how the person communicates and issues to be resolved. Setting options are identified and documented in the plan, based on the individual's needs, preferences, and, for residential settings, resources available for room and board. The plan reflects the setting in which the individual resides was chosen by the individual.

The plan specifies all the services and supports that are needed and who is to provide them, to enable the individual to live the way the individual wants to live and learn what the individual wants to learn. These methods may include teaching, which does not have to be behavioral. Learning can be incidental as long as it is planned. Providing supports or making adaptations to the environment may be part of the plan. The plan specifies any limitations the planning team foresees in being able to support the individual in achieving these desires. Such limitations can be financial, temporal and/or can relate to health and safety.

(e) Individual Support Plans address all supports and services an individual is to receive. This includes services provided through the waiver, other state plan services and natural supports. For each need that is expressed, the plan must describe what support or service is being provided to meet that need. Providers selected by the individual are responsible for providing services in accordance with the plan. The support coordinator is responsible for coordinating services provided by other agencies or individuals and monitoring the provision of services during routine monitoring visits.

(f) Each outcome on the plan must be accompanied by information regarding the person(s) responsible for assuring progress. Timelines for completion of each Outcome is specified. Support Coordinators monitor this progress during plan review visits.

(g) Individual Support plans are subject to continuous revision. At a minimum, the entire team performs a formal review at least annually. The support coordinator maintains at least quarterly contact with each individual, their family or guardian with at least an annual face to face contact for the individual who resides in their natural home setting. Monthly face to face contact is required for individuals in residential placement. During quarterly contact, the support coordinator monitors the individual's health and

welfare. Progress notes document the contact and whether the outcomes stated in the plan are occurring.

Support coordinators are responsible for reviewing the provider's notes at least quarterly, and for observing and documenting any problems, discrepancies, dramatic changes or other occurrences which indicate a need for renewed assessment. The support coordinator's review of the provider notes includes making further inquiries and taking appropriate action if there is reason to believe the person's health or welfare is potentially at risk. During monitoring and record reviews, the support coordinator determines if the support plan continues to meet the needs of the individual and with the approval of and input from the individual, their family or guardian, and makes any necessary revisions.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (5 of 8)

- e. **Risk Assessment and Mitigation.** Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.

The Person Centered Planning Guide requires that support plans identify risks to individuals to assure their health and welfare. When the individual will be learning or doing something that involves increased risk, the plan or action plan will describe: 1) Action taken to assure the individual is making an informed choice, including a description of what has been done to assure that the person clearly understands what risks are involved and possible consequences; 2) What the individual needs to know and the skills and supports that are necessary for the individual to achieve his/her goal; 3) How supports will be provided, skills that will be taught and by whom; 4) What others in the community need to know and do to provide support to the individual; and 5) What follow-up and monitoring will occur.

A Health Inventory assessment is completed on an annual basis for all individuals in waiver residential placement. The inventory must also be completed on individuals who experience a significant change in physical or mental health status. The support coordinator completes the electronic health inventory. Once completed, the designated Regional Quality Enhancement (QE) RN is notified and determines based upon the health inventory score whether a QE nurse review is required. When a QE nurse review is conducted, findings are electronically communicated to the support coordinator for remediation. All Health indicators identified on the Health Inventory are considered significant and are to be discussed along with necessary supports in the appropriate section of the support plan. The Support Coordinator is responsible for inclusion of health information in the support plan and consults with the QE RN with any questions.

Providers and lead agencies are responsible for back-up plans and this is part of the service that they provide. There are back-up plans for everyone and the agency should inform individuals about what the back-up plan is and what is contained in the back-up plan.

Individuals who self direct services are required to include a back up plan in their support plan. Back up plans include a description of the risks faced when emergencies, such as lack of staff arises. The back up plan also identifies what must be done to prevent risks to health and safety; how people should respond when an emergency occurs; and who should be contacted and when. Back up plans must list at least 2 individuals who will provide support when regular staff is not available.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (6 of 8)

- f. **Informed Choice of Providers.** Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the waiver services in the service plan.

When more than one provider of service is enrolled as a waiver provider, the individual or legal guardian is given a choice among eligible providers. The support coordinator educates and informs individuals regarding eligible providers of services to the individual or guardian during the annual planning process, and at any other time as needed. The Medicaid Waiver, Provider, and Services Choice Statement is used in conjunction with educating and informing individuals of eligible providers for documentation of provider choice. Documentation of education and choice of providers must be included in the annual plan. Attached to the choice statement is the list of eligible providers for the given service. The Regional Office or Targeted Case Management Entity that is providing support coordination is responsible for ensuring individual choice of provider statements are obtained and maintained in the individual's case record.

The Division of DD makes every effort to build provider capacity in rural areas. Each regional office has Provider Relations staff designated to work with provider development. If there are limited providers available for a chosen service the Division will work closely with the individual to identify other providers that would be willing to provide the needed service in the area of the state where the individual resides.

Appendix D: Participant-Centered Planning and Service Delivery

- g. **Process for Making Service Plan Subject to the Approval of the Medicaid Agency.** Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR §441.301(b)(1)(i):

Annually, MO HealthNet selects a statistically valid sample (95% confidence level and a plus or minus 5% margin of error rate) of waiver support plans for review. This review by staff from the State Medicaid Agency ensures individuals receiving waived services had a support plan in effect for the period of time services were provided. The review process also ensures that the need for services that were provided was documented in the service plan, and that all service needs in the support plan were properly authorized prior to service delivery.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (8 of 8)

- h. **Service Plan Review and Update.** The service plan is subject to at least annual periodic review and update to assess the appropriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the review and update of the service plan:

- ☐ Every three months or more frequently when necessary
- ☐ Every six months or more frequently when necessary
- ☒ Every twelve months or more frequently when necessary
- ☐ Other schedule

Specify the other schedule:

- i. **Maintenance of Service Plan Forms.** Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §92.42. Service plans are maintained by the following (*check each that applies*):

- ☐ Medicaid agency
- ☒ Operating agency
- ☐ Case manager
- ☒ Other

Specify:

Approved Targeted Case Management Entities that provide support coordination, including support plan development, maintain the support plans of participants individuals for whom they coordinate services.

Appendix D: Participant-Centered Planning and Service Delivery

D-2: Service Plan Implementation and Monitoring

- a. **Service Plan Implementation and Monitoring.** Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan and participant health and welfare; (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.

a.) Monitoring the implementation of the support plan and the participant health and welfare is the responsibility of the planning team (Code of State Regulation 9 CSR 45-3.010). This process is facilitated by the Support coordinator employed by a Division of DD Regional Office or an approved Targeted Case Management Entity, and designated management staff from the community provider.

b.) & c.) Support plans and participant health and welfare are monitored and follow-up action is taken through the following processes and frequencies:

1) Support coordinators monitor health, fiscal issues, services and staff, environment and safety, and consumer rights during monitoring visits with the participant, per the Service Monitoring Policy and Implementation Guidelines. At a minimum of quarterly, the Support coordinator monitors the health and welfare of the participant. These quarterly reviews include a review of the service plan to ensure service needs identified in the plan are being met. The review is accomplished by reading provider progress notes, contact with the individual and/or responsible party, and through observation. If non-waiver service needs are identified in the service plan, the Support coordinator determines the person or entity identified in the service plan as responsible for helping the individual access the service(s) and determines if services are being received as planned. Non-waiver services may include health services the individual accesses through State plan Medicaid services. Review of the support plan and the person's health and safety includes a review of the backup plan for participants who self direct. Monitoring considers whether the backup plan has been implemented, and if so, whether the plan sufficiently met the individual's needs and whether all persons and entities named as part of the backup plan are still available to

assist. If changes are needed to the backup plan, the service plan will be updated accordingly. Results are documented in a quarterly review note or a case note when the monitoring was not part of the quarterly review process.

When an issue or concern is discovered around an individual's health, safety/environment, rights, money, services, or back-up plan, the Support Coordinator supervisor, consumer's guardian and/or the provider's designated management staff are notified. If a concern is not an immediate risk to the person's health or welfare and cannot be quickly resolved then the Support coordinator indicates the type of action plan that will be taken to address the issue. Concerns around the sufficiency of the backup plan shall be immediately resolved which will include a revised service plan. All issues/concerns identified from support monitoring and ISP Review processes and action taken are entered in the Division's Action Plan Tracking System (APTS) for trending and tracking purposes. Support coordinators are employed by the state or by Targeted Case Management entities. Both are responsible for reporting information into (APTS) and for maintaining case notes.

If monitoring discovers there is a lack of progress on achieving the outcomes identified in the support plan, the Support Coordinator documents this and works with the individual and the interdisciplinary team to revise and amend the plan as needed. Support plan revisions can only be implemented with the approval of the individual or their guardian.

Visits with consumers participating in on-site day habilitation programs are quarterly. Consumers participating in off-site day habilitation receive quarterly face-to-face visits with at least one annual visit at the off-site location where the service is received.

2) The Support Plan Review process ensures the individual planning process is person-centered and leads to quality outcomes for individuals. The process also evaluates the effectiveness of support services in meeting individual needs, identifies support service strengths, and areas needing improvement. Each person supported by the Division must have a service plan that meets the minimum criteria described in the Division of Developmental Disabilities Individual Service Plan: Guidelines, Training and Review.

Support plans must be reviewed and updated if necessary on at least a quarterly basis. The review and update must also occur when:

- a) the person or the person's guardian requests that information be changed or added;
- b) others invited by the person to participate in his/her support plan provide additional information;
- c) needs for supports and services are not being adequately addressed;
- d) a back-up plan failed or needs to be revised due to a change in the availability of persons named or entities named; or
- e) the need for support and service changes.

3) The MO HealthNet Division reviews a statistically valid random sample (statistically valid sample 95% confidence level and a plus or minus 5% margin of error rate) of waiver participant records annually. The compliance review includes looking at individual service plans. Information reviewed may include the plan of care, level of care evaluation, annual re-determination of the level of care, assessments used to determine the level of care, service reviews completed by Support coordinators, provider monthly reviews of the service plan, provider choice statements completed by the consumer, and waiver choice statements completed by the consumer. The review by MO HealthNet ensures all service needs identified in the service plan are being met regardless of the funding source for support. If there is not evidence that a need in a person's service plan is being met, this is a review finding which will be referred back to the regional office or county entity. Depending on the urgency of ensuring the need is met, a phone call may be placed or the request for corrective action will be provided in writing. Federal Programs Division of DD staff is responsible for ensuring that corrective action is taken and for reporting the action to MO HealthNet.

4) A random review (statistically valid sample of 95% confidence level and a plus or minus 5% margin of error rate) of Individual Support Plans is completed on a quarterly basis. This includes both regional office, as well as contracted TCM agencies which provide case management. The review is conducted by Division of DD staff on a statistically valid sample of waiver participants to ensure adherence to CMS waiver and Division of DD requirements.

5) Issues and remediation identified through monitoring, are entered into the Division of DD's Action Plan Tracking Systems (APTS). Reports are shared with the Medicaid Agency annually, upon request, or when critical events related to health and safety occur.

(d) TCM TAC ISP Review monitoring includes ensuring the individual has free choice of provider for all waiver services. Initially a form is completed to reflect choice of provider. If a new service is initiated, or a new provider is identified, the SC would complete a new form to verify provider choice. Quarterly a random sample of individual service plans and associated documentation are reviewed through the Individual Support Plan review.

b. Monitoring Safeguards. Select one:

- ☐ Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may not provide other direct waiver services to the participant.
- ☒ Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may provide other direct waiver services to the participant.

The State has established the following safeguards to ensure that monitoring is conducted in the best interests of the participant.
Specify:

The state has safeguards in place to assure that the service providers' influence on the planning process (including exercising free

choice of providers, controlling the content of the plan, including assessment of risk, services, frequency and duration, and informing the participant of their rights) is a part of the plan of care verification process before the plan is approved. The Division also has procedures for support coordinators to follow to ensure choice in providers, services, institutional care, and service delivery options are reviewed with the participant and legally authorized representative annually. The Division rules for targeted case management entities also require the support coordinator to review choice, plan for services, risks, and one's goals without any undue influence from other providers or parties.

Effective July 1, 2017, the Targeted Case Management (TCM) entity may provide waiver services, but NOT to an individual for whom the agency provides support coordination, unless the service is transportation or specialized medical equipment. Any TCM entity that is also providing a waiver service to the same individual shall notify that individual during the annual plan development meeting, that the individual can no longer receive support coordination and waiver services from the same entity. The individual shall also be presented with the names of eligible TCM entities, along with alternative waiver service providers, to offer the individual a choice of either another TCM entity or waiver service provider.

The Division of Developmental Disabilities (Division) will be responsible for identifying future support coordination options for individuals who chose to continue to receive waiver services from a TCM entity. If the individual does not make a selection within 6 months, then the TCM entity shall make a referral to all available TCM options that agree to accept the referral of individuals for TCM services. Full transition to a new provider of either waiver services or support coordination should be completed within one year of the annual plan development. .

The existing case management provider shall notify DMH of the individual's choice and DMH shall effect the transfer. This system will be fully implemented by December 31, 2018.

The Division of DD has the following safeguards to ensure monitoring is conducted in the best interests of the participant:

- 1) Individuals have the option to choose a different entity to monitor the plan when more than one case management entity is available in the area. Participants also have the option to request a different Support coordinator from the same case management entity be assigned.
- 2), Service Monitoring Policy and Implementation Guidelines, sets monitoring standards that all service coordinators must follow in reviewing environment/safety, health, services and staff, money and rights.
- 3) Support coordinator entities are included in support coordination and waiver related training conducted by Regional Offices.
- 4) All Support coordinator entities are responsible for reviewing a sample of service coordination log activities each month for their staff and for reporting the results to the Division's Statewide Quality Enhancement Leadership Team. Some of the log notes in the sample would include results of monitoring activities and any corrective action taken.
- 5) Monitoring activities are subject to the review of the Division of DD, the operating agency, and the State Medicaid Agency, MO HealthNet. Annually MO HealthNet randomly selects waiver participants for a compliance review. The review includes reviewing plans of care and quarterly reviews from monitoring. Participants served by entities that provide both waiver services and monitor the services are subject to this review.
- 6) Division of DD Regional Office Quality Enhancement staff review the performance of entities that provide support coordination. The review includes interaction/contact with a sample of individuals and/or their guardians to verify the effectiveness of support coordination they have received. Corrective action is taken if there is evidence a participant has health and welfare issues that have not been met or is dissatisfied with support coordination.

Appendix D: Participant-Centered Planning and Service Delivery

Quality Improvement: Service Plan

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Service Plan Assurance/Sub-assurances

The state demonstrates it has designed and implemented an effective system for reviewing the adequacy of service plans for waiver participants.

i. Sub-Assurances:

- a. *Sub-assurance: Service plans address all participants' assessed needs (including health and safety risk factors) and personal goals, either by the provision of waiver services or through other means.*

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of support plans in which services and supports are aligned with assessed needs (Number of support plans indicating supports and services are aligned with assessed needs reviewed within the identified quarter divided by Total number of support reviewed in the identified quarter)

Data Source (Select one):

Record reviews, off-site

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

(a.1.a, a.1.b., a.1.c., & a.1.e) Support Plan reviews are conducted by Support Coordinator Supervisors and remediation tracked through a web based survey application. At the time of support plan review, the choice statements are verified. If a plan does not meet criteria set forth in the support plan components or the choice statements are not completed, the Support Coordinator Supervisor/designee reviews the finding with the appropriate support coordinator and the error is corrected and noted on the support plan review. General methods for problem correction include revising the plan, providing remedial training for the Support Coordinator, point of discussion during unit meetings and/or change in Division policy or procedure. The Support Coordinator Supervisors/designee and regional office/agency director is responsible for determining if personnel actions are needed for individual support coordinators, including, but not limited to, training or re-training, verbal or written warnings, suspension or termination.

For errors related to service provision, resolution may occur in two different ways. 1) Support coordinator can resolve on site if applicable, or 2) designated Quality Enhancement Staff may be notified for additional follow-up and resolutions. This issue is entered in to the Action Plan Tracking System Database, and the follow-up is documented in provider file or consumer case notes.

ii. Remediation Data Aggregation**Remediation-related Data Aggregation and Analysis (including trend identification)**

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Service Plans that are currently non-operational.

☒ **No**

☐ **Yes**

Please provide a detailed strategy for assuring Service Plans, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix E: Participant Direction of Services

Applicability (from Application Section 3, Components of the Waiver Request):

☒ **Yes. This waiver provides participant direction opportunities.** Complete the remainder of the Appendix.

☐ **No. This waiver does not provide participant direction opportunities.** Do not complete the remainder of the Appendix.

CMS urges states to afford all waiver participants the opportunity to direct their services. Participant direction of services includes the participant exercising decision-making authority over workers who provide services, a participant-managed budget or both. CMS will confer the Independence Plus designation when the waiver evidences a strong commitment to participant direction.

Indicate whether Independence Plus designation is requested (select one):

☐ **Yes. The State requests that this waiver be considered for Independence Plus designation.**

☒ **No. Independence Plus designation is not requested.**

Appendix E: Participant Direction of Services

E-1: Overview (1 of 13)

a. Description of Participant Direction. In no more than two pages, provide an overview of the opportunities for participant direction in the waiver, including: (a) the nature of the opportunities afforded to participants; (b) how participants may take advantage of these opportunities; (c) the entities that support individuals who direct their services and the supports that they provide; and, (d) other relevant information about the waiver's approach to participant direction.

a) Expectations for Person Centered Planning, reflect the values outlined in the Missouri Quality Outcomes. Those outcomes acknowledge principles that people have control of their daily lives, and that plans should reflect how they want to live their life. Person-centered planning is the foundation in which people can determine the direction of their lives, identify the supports they will need, and how those supports should be delivered to assist them to move in their personally identified direction. The planning process is under the direction of the individual or a representative of their choice. The process identifies needs and how those will be met by both paid and unpaid supports, who will provide the supports, and how supports will be provided within agreed upon parameters.

b) Individuals/guardians or designated representatives may choose to self-direct personal assistant services and community specialist, services and be the employer though a VFA FMS Services. All Individuals have a support coordinator trained to facilitate the person centered planning process, but they may also use Community Specialist or Support Broker for information and assistance in defining goals, needs and preference, identifying and accessing services, supports and resources as part of the person centered planning process which is then gathered by the support coordinator for the Support Plan. Individual/guardians or designated representatives direct how their negotiated individualized budget is to be expended to exercise control of their allocated resources. They have the option to have a support broker to provide information and assistance in order to help in recruiting, hiring, and supervising staff. The individual/guardian or designated representative is the common law employer with the assistance of a Vender/Fiscal Agent FMS who will perform payroll, taxes, broker workers compensation, etc.

c) Resources available to support individuals who direct their services include the ability of the participant/guardian or designated representative to facilitate the support plan with the assistance of the support coordinator. The individual/guardian or designated representative recruits, hires and self-directs employees and performs other employer supervisory duties. Individuals/guardians or designated representatives may be authorized for a support broker to provide assistance. Financial management services are available for individuals who self direct. The financial management contractor provides the individual or representative with technical assistance in getting employees set-up for payroll services and in tracking expenditures. Support coordinators are responsible for monitoring: health and safety, ensuring individuals stay within budgeted allocations, and required documentation is created and maintained. Additionally the support coordinator is responsible in informing individuals of the option to Self-Direct. A support broker is an option for individuals who need additional information and assistance in managing and directing their employees. The self-directed supports coordinator is a state employee who is available to provide technical assistance, create system enhancements, track and trend issues, and provide oversight of the option to self direct.

Appendix E: Participant Direction of Services

E-1: Overview (2 of 13)

- b. Participant Direction Opportunities.** Specify the participant direction opportunities that are available in the waiver. *Select one:*
- ☐ **Participant: Employer Authority.** As specified in *Appendix E-2, Item a*, the participant (or the participant's representative) has decision-making authority over workers who provide waiver services. The participant may function as the common law employer or the co-employer of workers. Supports and protections are available for participants who exercise this authority.
 - ☐ **Participant: Budget Authority.** As specified in *Appendix E-2, Item b*, the participant (or the participant's representative) has decision-making authority over a budget for waiver services. Supports and protections are available for participants who have authority over a budget.
 - ☒ **Both Authorities.** The waiver provides for both participant direction opportunities as specified in *Appendix E-2*. Supports and protections are available for participants who exercise these authorities.
- c. Availability of Participant Direction by Type of Living Arrangement.** *Check each that applies:*
- ☒ **Participant direction opportunities are available to participants who live in their own private residence or the home of a family member.**
 - ☐ **Participant direction opportunities are available to individuals who reside in other living arrangements where services (regardless of funding source) are furnished to fewer than four persons unrelated to the proprietor.**
 - ☐ **The participant direction opportunities are available to persons in the following other living arrangements**

Specify these living arrangements:

Appendix E: Participant Direction of Services

E-1: Overview (3 of 13)

- d. Election of Participant Direction.** Election of participant direction is subject to the following policy (*select one*):
- ☐ **Waiver is designed to support only individuals who want to direct their services.**
 - ☐ **The waiver is designed to afford every participant (or the participant's representative) the opportunity to elect to direct waiver services. Alternate service delivery methods are available for participants who decide not to direct their services.**
 - ☒ **The waiver is designed to offer participants (or their representatives) the opportunity to direct some or all of their services, subject to the following criteria specified by the State. Alternate service delivery methods are available for participants who decide not to direct their services or do not meet the criteria.**

Specify the criteria

Only Personal Assistant and Community Specialist may be self-directed. For individuals who do not choose to self-direct, waiver services are available through MO HealthNet enrolled waiver provider agencies. Only individuals who live in their own private residence or the home of a family member may self direct.

Appendix E: Participant Direction of Services

E-1: Overview (4 of 13)

- e. Information Furnished to Participant.** Specify: (a) the information about participant direction opportunities (e.g., the benefits of participant direction, participant responsibilities, and potential liabilities) that is provided to the participant (or the participant's representative) to inform decision-making concerning the election of participant direction; (b) the entity or entities responsible for furnishing this information; and, (c) how and when this information is provided on a timely basis.

a) Individual/guardians or designated representatives learn about self directed support options from the support coordinator during the person centered planning process when needs are identified and ways of supporting the needs are discussed. Self directed supports is listed on the Medicaid Waiver, Provider, and Services Choice Statement. Individual/guardians or designated representatives also often learn about self directed supports from other individuals or families who are directing their own services. Information on self directed services is included in the waiver manual which is available to the public. The waiver manual and the Individual handbook on self directed support is also available on the DMH/Division of DD web-site. The information assists support coordinators in describing the benefits and processes for self-direction and provides written material for individuals and/or legal representatives on the specifics. Regional offices have a Self-Directed Coordinator that is available to provide technical assistance and guidance to support coordinator and other stakeholders. As part of the person centered planning process, the specialized needs of the individual are discussed with the planning team to identify any potential liabilities or risks the individual may face, and to determine a plan for how each potential liability and risk will be addressed.

b) Developmental Disability Targeted Case Management Entities providing support coordination are responsible for furnishing information on self direct supports options.

c) Developmental Disability Targeted Case Management Entity support coordinators are trained on self directed supports options. If the support coordinator hasn't been through the training, regional office self-directed coordinators may be asked to assist in providing information to the individual with the support coordinator. This information is presented during the person centered planning process when individual needs are identified and ways of supporting the needs are discussed, anytime the individual is dissatisfied with provider based services, or upon inquiry by the participant/guardian or designated representative.

Appendix E: Participant Direction of Services

E-1: Overview (5 of 13)

- f. Participant Direction by a Representative.** Specify the State's policy concerning the direction of waiver services by a representative (*select one*):

- ☐ The State does not provide for the direction of waiver services by a representative.
- ☒ The State provides for the direction of waiver services by representatives.

Specify the representatives who may direct waiver services: (*check each that applies*):

- ☒ Waiver services may be directed by a legal representative of the participant.
- ☒ Waiver services may be directed by a non-legal representative freely chosen by an adult participant.

Specify the policies that apply regarding the direction of waiver services by participant-appointed representatives, including safeguards to ensure that the representative functions in the best interest of the participant:

An Individual's Right to Have a Designated Representative

An individual who is 18 years or older has the right to identify a designated representative. The designated representative is responsible for managing employee(s), acting in the best interest of the individual, in accordance with the guiding principles of self-determination. If a representative has been designated by a court, the legal guardian will identify themselves or another person as the representative.

A designated representative must:

1. Direct and control the employees' day to day activities and outcomes.
2. Ensure, as much as possible, that decisions made would be those of the individual in the absence of their disability;
3. Accommodate the individual, to the extent necessary, so that they can participate as fully as possible in all decisions that affect them; accommodations must include, but not be limited to, communication devices, interpreters, and physical assistance;
4. Give due consideration to all information including the recommendations of other interested and involved parties; and
5. Embody the guiding principles of Self-Determination

6. Not be paid to provide any supports to the individual.

The following people can be designated as a representative, as available and willing:

- A spouse (unless a formal legal action for divorce is pending)
- An adult child of the participant
- A parent
- An adult brother or sister
- Another relative of the participant
- Other representative— If the individual wants a representative but is unable to identify one of the above, the participant along with their support coordinator, and planning team, may identify an appropriate representative. The other representative must be an adult who can demonstrate a history of knowledge of the individual's preferences, values, needs, etc. The individual and his or her planning team is responsible to ensure that the selected representative is able to perform all the employer-related responsibilities and complies with requirements associated with representing one individual in directing services and supports.

The planning team and Fiscal Management Service Provider (FMSP) must recognize the participant's representative as a decision-maker and provide the representative with all of the information, training, and support it would typically provide to a participant who is self-directing. The representative must be informed of the rights and responsibilities of being a representative. Once fully informed the representative must sign an agreement which must be given to the representative and maintained in the participant's record. The agreement must list the roles and responsibilities of the representative, the roles and responsibilities of the FMSP, must include that the representative accepts the roles and responsibilities of this function; and state that the representative will abide by the FMSP policies and procedures. The designated representative must function in the best interest of the participant and may not also be paid to provide services to the participant. The Individual can at any time revoke the agreement with the designated representative.

Service Monitoring takes place with each waiver participant as outlined in Appendix D-2. The monitoring process can lead to identifying issues with the representative not acting in the best interest of the waiver participant.

Appendix E: Participant Direction of Services

E-1: Overview (6 of 13)

- g. **Participant-Directed Services.** Specify the participant direction opportunity (or opportunities) available for each waiver service that is specified as participant-directed in Appendix C-1/C-3.

Waiver Service	Employer Authority	Budget Authority
Community Specialist	☒	☒
Personal Assistant	☒	☒

Appendix E: Participant Direction of Services

E-1: Overview (7 of 13)

- h. **Financial Management Services.** Except in certain circumstances, financial management services are mandatory and integral to participant direction. A governmental entity and/or another third-party entity must perform necessary financial transactions on behalf of the waiver participant. *Select one:*

- ☒ **Yes. Financial Management Services are furnished through a third party entity.** (Complete item E-1-i).

Specify whether governmental and/or private entities furnish these services. *Check each that applies:*

- ☐ **Governmental entities**
☒ **Private entities**

- ☐ **No. Financial Management Services are not furnished. Standard Medicaid payment mechanisms are used.** *Do not complete Item E-1-i.*

Appendix E: Participant Direction of Services

E-1: Overview (8 of 13)

- i. **Provision of Financial Management Services.** Financial management services (FMS) may be furnished as a waiver service or as an

administrative activity. *Select one:*

- ☐ FMS are covered as the waiver service specified in Appendix C-1/C-3

The waiver service entitled:

- ☒ FMS are provided as an administrative activity.

Provide the following information

- i. **Types of Entities:** Specify the types of entities that furnish FMS and the method of procuring these services:

The Division of DD has a statewide contract with a Vendor Fiscal/ Employer Agent (VF/EA) Financial Management Service provider for payroll services including, withholding, filing and payment of applicable federal, state and local employment-related taxes and insurance. A single VF/EA Financial Management Services contractor is responsible for payroll functions. This contractor is also responsible for verifying the citizenship status and background screenings of new workers and making available expenditure reports to Individual. Reimbursement for fiscal management services is an administrative service and not fee for service. The provider is not a governmental entity.

Vendor Fiscal/ Employer Agent (VF/EA) is responsible for maintaining a separate account for each participant's budget, tracking and reporting disbursements and balances of participant funds, and processing and paying invoices for goods and services approved in the service plan.”

- ii. **Payment for FMS.** Specify how FMS entities are compensated for the administrative activities that they perform:

The Division pays the Vendor Fiscal/Employer Agent (VF/EA) FMS contractor for services provided with general revenue and seeks reimbursement through the MO HealthNet program as an administrative expense. Fiscal management services are provided through a single statewide contract that is re-bid every 3 years. The contractor is a private company. The contractor has a specific rate for each new worker added, each check written, etc. (by transaction). The contractor is paid for these services with general revenue and records of payments will be submitted for 50% reimbursement as administrative service in compliance with 45 CFR 74. Fiscal management services are not reimbursed based on a percentage of the total dollar volume of transactions it processes. The FMS sends a detailed invoice to the Division of DD monthly for the actual cost.

- iii. **Scope of FMS.** Specify the scope of the supports that FMS entities provide (*check each that applies*):

Supports furnished when the participant is the employer of direct support workers:

- ☒ Assist participant in verifying support worker citizenship status
- ☒ Collect and process timesheets of support workers
- ☒ Process payroll, withholding, filing and payment of applicable federal, state and local employment-related taxes and insurance
- ☒ Other

Specify:

Specify: The Fiscal Management Service contractor is available for technical support to the participant/guardian or designated representative in completing paperwork to set up as an employer, completing paperwork for each new worker/employee, and facilitates background checks for all new workers. The Fiscal Management Service contractor maintains an internet web-portal where worked time can be recorded. The participant/guardian or designated representative, the employees and staff at Regional Offices, and support coordinator have access to the secure web-based system to view payment information. Individual/guardians or designated representatives can view total amounts authorized, payments made to workers, and balances. Workers can view current payroll information as well as YTD. Regional office staff and support coordination staff can also view authorized amounts, payments, and balances.

Supports furnished when the participant exercises budget authority:

- ☒ Maintain a separate account for each participant's participant-directed budget
- ☒ Track and report participant funds, disbursements and the balance of participant funds
- ☒ Process and pay invoices for goods and services approved in the service plan
- ☒ Provide participant with periodic reports of expenditures and the status of the participant-directed budget
- ☐ Other services and supports

Specify:

Additional functions/activities:

- ☐ **Execute and hold Medicaid provider agreements as authorized under a written agreement with the Medicaid agency**
- ☒ **Receive and disburse funds for the payment of participant-directed services under an agreement with the Medicaid agency or operating agency**
- ☒ **Provide other entities specified by the State with periodic reports of expenditures and the status of the participant-directed budget**
- ☐ **Other**

Specify:

- iv. **Oversight of FMS Entities.** Specify the methods that are employed to: (a) monitor and assess the performance of FMS entities, including ensuring the integrity of the financial transactions that they perform; (b) the entity (or entities) responsible for this monitoring; and, (c) how frequently performance is assessed.

Oversight of the Financial Management Service entities:

a) Individual Directed Services are prior-authorized by the local Regional Office on a yearly basis based on the support plan. Dollars authorizations are sent to the financial management service provider (FMSP) by Central Office on a daily basis (M-F) based on the regional office authorizations. Employees input delivered services by entering time through the internet on the FMSP's web-portal or faxing paper timesheets. Regional Office staff has access to review information that is input. Individuals/designated representatives also have access to the system to approve services and to review their account of authorized and delivered services/dollars. The FMS provider pays workers by direct deposit or a manual check, and calculates, files reports and pays taxes that are due. Employee pay stubs reflecting withholdings from gross payroll are available on-line or sent by regular mail, if requested, to the employee each pay period.

The FMS maintains a web portal for the employer. The web portal generates live time reports per payroll expenditures, which itemizes reporting of wages for each employee, total payments, total dollars amounts paid on behalf of each participant. For individuals/designated representatives who do not have internet access reports are sent monthly by mail. These reports are made available to Regional Offices and support coordinators. Additionally the FMSP's processes and systems have quality controls that ensure accurate and appropriate billing. These include system "flags" that identify over-authorizations, duplicate services, duplicate individuals and correct codes/authorizations. This ensures that units billed will not exceed state Medicaid maximums, duplicate billing for same services, and employees only enter billing for authorized services.

b) Participant services are monitored by the Targeted Case Management Entity support coordinator. If concern is noted, the quality enhancement leadership team is asked to conduct a further review.

DMH Central Office also monitors the FMSP to ensure contracted activities in support of self-directed services are completed in an Individual centered, timely, and accurate manner. The FMSP also follows their own internal quality assurance plan to meet accounting controls and performance standards including communications, payroll processing, and reporting. Additionally, the FMSP arranges for an annual external CPA agency audit to insure financial internal controls are followed. This report is shared with Individual for whom the FMSP is providing contracted services.

c) Monitoring by the support coordinator is quarterly, unless there is reason to monitor more frequently. The FMS contractor, as the agent for the participant/guardian or designated representative, receives all correspondence from federal, state and local employment-related tax and insurance entities and continuously monitors for problems. The FMSP shall make available all records, books and other documents related to the contract to DMH, its designee, and/or the Missouri State Auditor in an acceptable format, at all reasonable times during the contract period and for three years after the contract termination. The Missouri's State Auditor's Office routinely reviews all programs for problems when auditing each Division Regional Office and Central Office operations.

Appendix E: Participant Direction of Services

E-1: Overview (9 of 13)

- j. **Information and Assistance in Support of Participant Direction.** In addition to financial management services, participant direction is facilitated when information and assistance are available to support participants in managing their services. These supports may be

furnished by one or more entities, provided that there is no duplication. Specify the payment authority (or authorities) under which these supports are furnished and, where required, provide the additional information requested (*check each that applies*):

- ☐ **Case Management Activity.** Information and assistance in support of participant direction are furnished as an element of Medicaid case management services.

Specify in detail the information and assistance that are furnished through case management for each participant direction opportunity under the waiver:

- ☒ **Waiver Service Coverage.** Information and assistance in support of participant direction are provided through the following waiver service coverage(s) specified in Appendix C-1/C-3 (*check each that applies*):

Participant-Directed Waiver Service	Information and Assistance Provided through this Waiver Service Coverage
Specialized Medical Equipment and Supplies (Adaptive Equipment)	☐
In Home Respite	☐
Occupational Therapy	☐
Prevocational Services	☐
Physical Therapy	☐
Applied Behavior Analysis	☐
Individualized Skill Development	☐
Community Specialist	☐
Community Integration	☐
Environmental Accessibility Adaptations-Home/Vehicle Modification	☐
Professional Assessment and Monitoring	☐
Day Habilitation	☐
Out of Home Respite	☐
Crisis Intervention	☐
Transportation	☐
Support Broker	☒
Personal Assistant	☐
Speech Therapy	☐
Counseling	☐
Job Development	☐
Supported Employment	☐
Career Planning	☐
Community Transition	☐
Assistive Technology	☐
Person Centered Strategies Consultation	☐

- ☐ **Administrative Activity.** Information and assistance in support of participant direction are furnished as an administrative activity.

Specify (a) the types of entities that furnish these supports; (b) how the supports are procured and compensated; (c) describe in detail the supports that are furnished for each participant direction opportunity under the waiver; (d) the methods and frequency of assessing the performance of the entities that furnish these supports; and, (e) the entity or entities responsible for assessing

performance:

Appendix E: Participant Direction of Services

E-1: Overview (10 of 13)

k. Independent Advocacy (*select one*).

- ☒ **No. Arrangements have not been made for independent advocacy.**
- ☐ **Yes. Independent advocacy is available to participants who direct their services.**

Describe the nature of this independent advocacy and how participants may access this advocacy:

Appendix E: Participant Direction of Services

E-1: Overview (11 of 13)

- l. Voluntary Termination of Participant Direction.** Describe how the State accommodates a participant who voluntarily terminates participant direction in order to receive services through an alternate service delivery method, including how the State assures continuity of services and participant health and welfare during the transition from participant direction:

If an individual voluntarily requests to terminate individual direction in order to receive services through an agency, the support coordinator will work with the individual or legal representative to select a provider agency and transition services to the agency model by changing prior authorizations based on the individual's needs. The support coordinator and other staff with the Regional Office will make every effort for the transition to be smooth and to ensure the individual is not without services during the transition. If SDS is terminated, the same level of services will be offered to the individual through a traditional agency model.

Appendix E: Participant Direction of Services

E-1: Overview (12 of 13)

- m. Involuntary Termination of Participant Direction.** Specify the circumstances when the State will involuntarily terminate the use of participant direction and require the participant to receive provider-managed services instead, including how continuity of services and participant health and welfare is assured during the transition.

If the planning team determines the health and safety of the individual is at risk, the option of self-directing may be terminated. The option of self-directing may also be terminated if there are concerns regarding the participant/guardian or designated representative's willingness to ensure employee records are accurately kept, or if the participant/guardian or designated representative is unwilling to supervise employees to receive services according to the plan, or unwilling to use adequate supports or unwilling to stay within the budget allocation. The participant/guardian or designated representative has been the subject of a Medicaid audit resulting in sanctions for false or fraudulent claims under 13 CSR 70-3.030.

Before terminating self-direction options, the support coordinator and other appropriate staff will first counsel the individual or legal representative to assist the participant or legal representative in understanding the issues, let the participant or legal representative know what corrective action is needed, and offer assistance in making changes. If the individual/guardian or designated representative refuses to cooperate, the option of self-directing may be terminated. However, the same level of services would be offered to the individual through an agency model.

Appendix E: Participant Direction of Services

E-1: Overview (13 of 13)

- n. Goals for Participant Direction.** In the following table, provide the State's goals for each year that the waiver is in effect for the unduplicated number of waiver participants who are expected to elect each applicable participant direction opportunity. Annually, the State will report to CMS the number of participants who elect to direct their waiver services.

Table E-1-n

	Employer Authority Only	Budget Authority Only or Budget Authority in Combination with Employer Authority
Waiver Year	Number of Participants	Number of Participants
Year 1		90
Year 2		110
Year 3		120
Year 4		130
Year 5		130

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant Direction (1 of 6)

a. **Participant - Employer Authority** Complete when the waiver offers the employer authority opportunity as indicated in Item E-1-b:

i. **Participant Employer Status.** Specify the participant's employer status under the waiver. *Select one or both:*

- ☐ **Participant/Co-Employer.** The participant (or the participant's representative) functions as the co-employer (managing employer) of workers who provide waiver services. An agency is the common law employer of participant-selected/recruited staff and performs necessary payroll and human resources functions. Supports are available to assist the participant in conducting employer-related functions.

Specify the types of agencies (a.k.a., agencies with choice) that serve as co-employers of participant-selected staff:

- ☒ **Participant/Common Law Employer.** The participant (or the participant's representative) is the common law employer of workers who provide waiver services. An IRS-approved Fiscal/Employer Agent functions as the participant's agent in performing payroll and other employer responsibilities that are required by federal and state law. Supports are available to assist the participant in conducting employer-related functions.

ii. **Participant Decision Making Authority.** The participant (or the participant's representative) has decision making authority over workers who provide waiver services. *Select one or more decision making authorities that participants exercise:*

- ☒ **Recruit staff**
☐ **Refer staff to agency for hiring (co-employer)**
☐ **Select staff from worker registry**
☒ **Hire staff common law employer**
☒ **Verify staff qualifications**
☒ **Obtain criminal history and/or background investigation of staff**

Specify how the costs of such investigations are compensated:

Division of DD Regional Offices pay the costs. The FMSP obtains the background checks.

- ☒ **Specify additional staff qualifications based on participant needs and preferences so long as such qualifications are consistent with the qualifications specified in Appendix C-1/C-3.**
☒ **Determine staff duties consistent with the service specifications in Appendix C-1/C-3.**
☒ **Determine staff wages and benefits subject to State limits**
☒ **Schedule staff**
☒ **Orient and instruct staff in duties**
☒ **Supervise staff**
☒ **Evaluate staff performance**
☒ **Verify time worked by staff and approve time sheets**
☒ **Discharge staff (common law employer)**

- ☐ Discharge staff from providing services (co-employer)
- ☐ Other

Specify:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (2 of 6)

b. Participant - Budget Authority *Complete when the waiver offers the budget authority opportunity as indicated in Item E-1-b:*

i. Participant Decision Making Authority. When the participant has budget authority, indicate the decision-making authority that the participant may exercise over the budget. *Select one or more:*

- ☒ Reallocate funds among services included in the budget
- ☒ Determine the amount paid for services within the State's established limits
- ☒ Substitute service providers
- ☒ Schedule the provision of services
- ☒ Specify additional service provider qualifications consistent with the qualifications specified in Appendix C-1/C-3
- ☒ Specify how services are provided, consistent with the service specifications contained in Appendix C-1/C-3
- ☒ Identify service providers and refer for provider enrollment
- ☐ Authorize payment for waiver goods and services
- ☒ Review and approve provider invoices for services rendered
- ☒ Other

Specify:

The individual and/or designated representative approve self-directed employee electronic timesheets for services rendered by use of the FMSP web portal, or by providing signatures on paper timesheets.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (3 of 6)

b. Participant - Budget Authority

ii. Participant-Directed Budget Describe in detail the method(s) that are used to establish the amount of the participant-directed budget for waiver goods and services over which the participant has authority, including how the method makes use of reliable cost estimating information and is applied consistently to each participant. Information about these method(s) must be made publicly available.

For an individual who is self-directing their services, the planning team determines needs based on gathered assessments, such as the Support Intensity Scale. The participant and their planning team identify how they best meet the assessed needs. The team identifies how these needs can be met through informal supports and other sources. Any needs that cannot be met through these means will constitute the waiver individual budget.

The Utilization Review process reviews the budget along with the support plan to ensure the level of need reflected in the budget is documented in the service plan and that services and amounts of service requested are necessary and consistent with the level of services other individuals who have a similar level of need receive. Historical costs and prior utilization data are also used to project costs and develop the budget. When an annual plan and budget are being renewed, historical costs and prior utilization data become the basis for calculating the new budget.

The individual is notified in writing of the approved budget and plan. The notice includes appeal rights should a individual disagree with the outcome. This process, which is in state regulation, is explained to Individuals by the support coordinator and is available to the public from the State's DMH web-site.

Any time an individual's needs change, the support plan can be amended and a new budget can be prepared. If the new budget results in increased level of funding, the support plan and budget will be reviewed through the Utilization Review process before final approval is granted. If an increase in service are needed immediately an immediate increase can be approved out of the annual budget by the individual or their representative. The team must then meet to determine if an increase in the annual budget is necessary. The person centered planning process including the budgeting process is explained to Individual by the support coordinator. Information on the person centered planning process and the Utilization Review process which is in state regulation, are available to the public from the State's DMH web-site.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (4 of 6)

b. Participant - Budget Authority

- iii. **Informing Participant of Budget Amount.** Describe how the State informs each participant of the amount of the participant-directed budget and the procedures by which the participant may request an adjustment in the budget amount.

The method used to determine the individual budget is as follows. Needs of the individual are identified in the Support Plan. The individual along with the planning team determines how the needs can be best met through natural supports, or paid supports and a budget is drafted to meet the individual's needs.

The budget and support plan is reviewed by the Utilization Review (UR) Committee. UR considers the budget request in comparison with the level of funding that is approved for other Individual with similar needs and either recommends the Regional Office Director approve the budget or approve the budget with changes.

The individual is notified in writing of the approved budget and support plan. The service plan has to be signed by the individual or guardian to be implemented. The notice includes appeal rights should a participant disagree with the support plan and budget.

The written notice includes information on the individuals right to a fair hearing and offers help with the appeal process. They may first appeal to the Regional Director. If they are dissatisfied, they have appeal rights through both the Departments of Mental Health and Social Services. While Individual are encouraged to begin with the Department of Mental Health's hearing system, they may skip this hearing process and go directly to the Department of Social Service, MO HealthNet Division (Single State Medicaid Agency) hearing system.

Individual/guardians or designated representatives may request changes to budgets as needs change. For example, they may authorize more services be provided in one month and less in another month. Or, if needs increase, they may request additional services. When additional services are requested, the budget must be approved through the UR process. If an increase in service are needed immediately an immediate increase can be approved out of the annual budget by the individual or their representative. The team must then meet to determine if an increase in the annual budget is necessary.

All Regional Offices administer the UR process according to state regulation.

Individual/guardians or designated representatives served by the Division of DD and providers are provided information on the UR process.

Appendix E: Participant Direction of Services

b. Participant - Budget Authority

- iv. **Participant Exercise of Budget Flexibility.** *Select one:*

- ☒ **Modifications to the participant directed budget must be preceded by a change in the service plan.**
- ☐ **The participant has the authority to modify the services included in the participant directed budget without prior approval.**

Specify how changes in the participant-directed budget are documented, including updating the service plan. When prior review of changes is required in certain circumstances, describe the circumstances and specify the entity that reviews the proposed change:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (6 of 6)

b. Participant - Budget Authority

- v. **Expenditure Safeguards.** Describe the safeguards that have been established for the timely prevention of the premature depletion of the participant-directed budget or to address potential service delivery problems that may be associated with budget underutilization and the entity (or entities) responsible for implementing these safeguards:

Services are prior authorized on a yearly basis based on the needs and history of the individual. Individuals/guardians and designated representatives are informed of the amount of service that may be provided within that authorized period. During the course of service implementation the individual, or if applicable, the designated representative provides a monthly services summary to the support coordinator.

The support coordinator during service monitoring, on at least a quarterly basis and more frequently as needed, is responsible to ensure that services are being delivered as they are authorized. If services are being underutilized, the support coordinator will seek to determine the reason for under utilization and will ensure the individual's health and safety are not at risk. The support coordinator is responsible for ensuring the individual has the necessary support to recruit, schedule and supervise employees and will assist the individual in accessing help as needed. A support broker assessment used to determine what supports are needed.

If an individual is at risk of exceeded the budget authorization, the support coordinator will counsel the individual and document within the monitoring system. The Regional Office self-directed support coordinator will help create an improvement plan if needed. Also as part of the services approval process, the FMSP has a system that tracks real time service utilization for each individual. This is to ensure that only services authorized are billed.

The FMSP has safeguards and notification built in their system with alerts to the support coordinator and self-directed coordinator if an individual goes over authorizations. The FMSP posts real-time self-directed services allocation and usage on a secure, password protected website for the benefit of individuals who are self-directing so they can keep track of budget utilization to date and amounts remaining in their allocation. This can be viewed by the individual, designated representative, support coordinator and regional office designees. For individuals who self-direct an services and utilize paper timesheets for their staff, the FMSP send out a monthly spending summary. If it is determined that the individual is at risk of exhausting budget allocation a support broker can be added to provide information and assistance to help the individual better manage the day to day activities of self-directing. If the issue cannot be resolved, the team may need to discuss termination of self-directed supports and transitioning to traditional agency provide supports.

Appendix F: Participant Rights

Appendix F-1: Opportunity to Request a Fair Hearing

The State provides an opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E to individuals: (a) who are not given the choice of home and community-based services as an alternative to the institutional care specified in Item 1-F of the request; (b) are denied the service(s) of their choice or the provider(s) of their choice; or, (c) whose services are denied, suspended, reduced or terminated. The State provides notice of action as required in 42 CFR §431.210.

Procedures for Offering Opportunity to Request a Fair Hearing. Describe how the individual (or his/her legal representative) is informed of the opportunity to request a fair hearing under 42 CFR Part 431, Subpart E. Specify the notice(s) that are used to offer individuals the opportunity to request a Fair Hearing. State laws, regulations, policies and notices referenced in the description are available to CMS upon request through the operating or Medicaid agency.

Medicaid rights of due process are extended to individuals who participate in the DD Support Waiver. Individuals have the right to appeal anytime adverse decisions are made or actions are taken.

When adverse action is necessary such as termination, reduction of services, suspension of services the support coordinator employed by the Division of DD Regional Office or Targeted Case Management Entity is responsible for notifying the participant in writing at least 10 days prior to any action being taken. Individuals have appeal rights through the Department of Mental Health and Department of Social Services, MO HealthNet Division. While not required to do so, Individuals are encouraged to begin with the Department of Mental Health's appeal process. The individual may, however, appeal to the MO HealthNet Division, before, during and after exhausting the Department of Mental Health process. However, once the individual begins the appeal process with the Department of Social Services, all appeal rights with the Department of Mental Health end since any decision by the single State Medicaid Agency would supersede a decision by Department of

The individual is informed of the appeal process in the written notice. If the adverse action concerns termination or reduction of services, the individual may request the disputed service(s) be continued until the hearing is held and a decision is made on the appeal. If the result of the agency's decision is upheld, the individual may be required to pay for the continued services. If the agency's decision is overturned, the individual is not responsible for the cost of services. Copies of written notices of adverse action and requests for a Fair Hearing are kept in the individual's record maintained by the regional office or TCM entity.

Individuals are provided information on rights upon entry to the waiver and annually during the person centered planning process. The division has a brochure individuals are given by support coordinators. In addition, information is posted on the division's web-site.

Appendix F: Participant-Rights

Appendix F-2: Additional Dispute Resolution Process

- a. Availability of Additional Dispute Resolution Process.** Indicate whether the State operates another dispute resolution process that offers participants the opportunity to appeal decisions that adversely affect their services while preserving their right to a Fair Hearing. *Select one:*
- ☐ **No. This Appendix does not apply**
- ☒ **Yes. The State operates an additional dispute resolution process**
- b. Description of Additional Dispute Resolution Process.** Describe the additional dispute resolution process, including: (a) the State agency that operates the process; (b) the nature of the process (i.e., procedures and timeframes), including the types of disputes addressed through the process; and, (c) how the right to a Medicaid Fair Hearing is preserved when a participant elects to make use of the process: State laws, regulations, and policies referenced in the description are available to CMS upon request through the operating or Medicaid agency.

(a) The Missouri Department of Mental Health has an appeal process that can be utilized by individuals. Appeals are directed to the DMH Hearings Administrator in the Office of DMH General Counsel.

The Division of Developmental Disabilities also has a Utilization Review Process defined in the Missouri Code of State Regulation (9 CSR 45-2.017) that applies to all Regional Offices. The Utilization Process is used to ensure that access to quality services are fair and consistent statewide, plans reflect individual's needs, levels of services are defined and documented within the outcomes of the plans, and plans meet all requirements. If, through the Utilization Review Process the decision of the Regional Office Director results in the denial, reduction, or termination of a specific service then the individual must be informed in writing at least 10 days in advance of the adverse action, must be given the reason for the action, and must be given information regarding his/her rights to appeal the decision of the Regional Office Director.

(b) If an individual is notified by a Regional Office that they are ineligible for services or ineligible for continued services they may appeal the decision. (See below appeal process) If an individual is eligible for some services but not for a specific service, the appeal steps are the same (as below) except that the individual must first appeal to the case management supervisor before appealing to the regional office director. The individual must appeal to the case management supervisor in writing or orally within 30 days after being notified that they are ineligible for the specific service.

Appeal Process: The individual must appeal to the Regional Office Director within 30 calendar days after receipt of written notice of their ineligibility. The individual will receive the Regional Office Director's decision on the appeal within 10 working days after the request for appeal is received. If the individual does not agree with the Regional Office Director's decision the individual can, within 30 days after receiving that decision, notify the Regional Office intake or support coordination staff and request that an appeals referee hear the case. The individual will receive written notice that the Regional Office received their request for an appeal hearing. The appeals referee then notifies the individual in writing with the date, time, and location of the hearing. The notice is given to the individual at least 30 days before the hearing and no more than 60 days after the individual first requested the hearing.

An individual may receive documents that relate to their appeal without charge. The documents shall be furnished to the individual within five (5) working days after the individual requests the documents. The appeals referee bases his or her decision only on information presented at the hearing. The Regional Office Director must convince the referee that the regional office's denial of services was correct.

During the hearing the individual, the individual's representative, or the Regional Office Director may speak, present witnesses, submit additional information relating to the appeal, and question witnesses. The referee records the hearing and the tape is kept for one (1) year after the hearing and is available for review by the individual or their representative. Within 30 days after the hearing the individual receives written notice of the referee's decision.

If the individual disagrees with the referee's decision he or she may request that the decision be reversed or changed or appealed to the Director of the Department of Mental Health. Within 30 days of the decision, the referee may reverse or change the initial appeal decision at the request of the individual, the individual's representative, or the Regional Office Director.

If the individual appeals to the department director, the individual, the individual's representative, or the Regional Office Director may present new evidence or comment on and object to the hearing decision within ten (10) working days of the individual's notice of appeal. The department director considers evidence contained on the tape recording of the appeals hearing and considers other evidence presented. Within 20 working days after receiving notice of an individual's intent to appeal the department notifies the individual and the Regional Office Director of the department director's decision. That notice is the final decision of the Department of Mental Health.

If the individual disagrees with the decision of the director of the Department of Mental Health he or she may appeal to the Circuit Court, according to Chapter 536 of the Revised Statutes of Missouri (RSMo).

(c) Individuals can at any point in the Department of Mental Health appeal process appeal to the Department of Social Services, MO HealthNet Division. However, once an appeal is filed with the Department of Social Services, all appeal rights with Department of Mental Health cease since Department of Social Services is the single State Medicaid Agency and any decision through that agency would supersede a decision made by the Department of Mental Health. Individuals and/or responsible parties are informed this dispute resolution mechanism is not a pre-requisite for a fair hearing.

Appendix F: Participant-Rights

Appendix F-3: State Grievance/Complaint System

a. Operation of Grievance/Complaint System. *Select one:*

- ☐ **No. This Appendix does not apply**
- ☒ **Yes. The State operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver**

b. Operational Responsibility. Specify the State agency that is responsible for the operation of the grievance/complaint system:

Missouri Department of Mental Health

c. Description of System. Describe the grievance/complaint system, including: (a) the types of grievances/complaints that participants may register; (b) the process and timelines for addressing grievances/complaints; and, (c) the mechanisms that are used to resolve grievances/complaints. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The Office of Constituent Services (OCS) was created in 1997 to serve as an advocate for individuals who receive services from the Department of Mental Health and their families. The office provides support to individuals and family members who have developmental disabilities, substance abuse problems, and mental illnesses. The main goals of the office are to ensure individuals' rights are not being violated; to review reports of abuse or neglect; and to provide useful information to individuals and family members about mental health issues.

(a) Individuals and family members may contact the office about suspected abuse, neglect, violation of rights, or concerns regarding mental health facilities or community providers by calling the toll-free number, completing and mailing a complaint form, sending an email to Office of Constituent Services, or writing to the Department of Mental Health, Office of Constituent Services. Individuals are informed that the DMH complaint resolution mechanism is not a prerequisite or substitute for a fair hearing through the Medicaid Agency.

(b) & (c) When a complaint is received in the Office of Constituent Services the staff notifies the Division of DD's Quality Enhancement Leadership team as soon as the complaint is processed. All complaints received by the Office of Constituent Services are emailed/copied to the Division of DD Quality Enhancement Leadership team. The Office of Constituent Services includes the Consumer Affairs Tracking System (CATS) number on all correspondence for tracking purposes and includes the CATS number in the subject box of the email.

Before the Division of DD is notified of a complaint the Office of Constituent Services checks the Customer Information Management, Outcome and Reporting (CIMOR) System to verify the consumer or service is associated with the Division of DD before forwarding the complaint to the Division of DD.

(1) The designated Division of DD's Quality Enhancement Leadership Team member either emails and/or faxes information regarding the complaint within one working day to designated regional office and habilitation center staff.

(2) The Regional Office Director/Habilitation Center Superintendent or their designee determines and responds in writing to the Quality Enhancement Leadership Team member within 48 hours of receipt of the complaint. The response must specify immediate action that was taken to assure the consumer's health, safety, and rights.

(3) The Regional Office Director or designee determines in 48 hours if: (i) An Abuse/Neglect investigation is warranted, by identifying the Event Management Tracking system (EMT) number assigned, or (ii) An inquiry is warranted, by identifying the EMT number assigned. (An inquiry is initiated when it is determined the complaint fails to provide enough information to determine whether

or not the incident involves or meets the criteria for abuse/neglect). (iii) If there is no suspicion of Abuse or Neglect, the information regarding the complaint is forwarded within 10 working days to the local Quality Enhancement member with information that includes who was contacted, when and how, the response to the contact; any follow-up that was, or is being done; and location of documentation related to the complaint. This information is sent to the local Quality Enhancement member, who reviews the information for completeness. If the local Quality Enhancement member has questions, the response is returned to the Regional Office for clarification. Once the issues are adequately addressed, the complaint is considered resolved. The local Quality Enhancement member forwards the information to the Division of DD central office designated coordinator of telephone complaints, who then forwards the completed information to the Office of Constituent Services within 1 working day.

(iv) If the person is not a DMH consumer or DMH does not have investigative authority and Abuse or Neglect is suspected, the Regional Office /Habilitation Center calls Family Support Division (FSD) if the individual is younger than 18 or Department of Health and Senior Services (DHSS) if the individual is 18 or older. The complaint is considered resolved upon referral to the appropriate investigative authority. (v) A complaint is not considered valid, if there is no apparent violation of a DMH standard, contract provision, rule or statute, or there is no valid concern that a practice or service is below customary business or medical practice. If the complaint is not valid it is considered closed upon receipt of the response.

(4) Follow-up of investigations and inquiries are tracked by the Division of DD through the EMT process. The Quality Enhancement Leadership team member is responsible for assuring that the process for investigations and inquiries is followed, and that the completed information is forwarded to the Division of DD central office designated coordinator of telephone complaints. Once the investigation or inquiry is completed, Office of Constituent Services is notified and the complaint is considered closed.

A complaint is resolved when: a) an investigation or inquiry is completed and descriptive information is entered into EMT; b) all information in (3) above is provided and the issues in the complaint are addressed; c) the complaint is referred to the appropriate investigative authority; or d) the reason the complaint is not a valid concern is explained. Consumers and responsible parties are informed this dispute resolution mechanism is not a pre-requisite for a fair hearing.

Appendix G: Participant Safeguards

Appendix G-1: Response to Critical Events or Incidents

- a. **Critical Event or Incident Reporting and Management Process.** Indicate whether the State operates Critical Event or Incident Reporting and Management Process that enables the State to collect information on sentinel events occurring in the waiver program.*Select one:*

- ☒ **Yes. The State operates a Critical Event or Incident Reporting and Management Process** (complete Items b through e)
☐ **No. This Appendix does not apply** (do not complete Items b through e)

If the State does not operate a Critical Event or Incident Reporting and Management Process, describe the process that the State uses to elicit information on the health and welfare of individuals served through the program.

- b. **State Critical Event or Incident Reporting Requirements.** Specify the types of critical events or incidents (including alleged abuse, neglect and exploitation) that the State requires to be reported for review and follow-up action by an appropriate authority, the individuals and/or entities that are required to report such events and incidents and the timelines for reporting. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

System:

The state has a system for reporting and investigation of critical events or incidents. The system for identifying, reporting, and investigating critical events and incidents is outlined in the Code of State Regulations, the Department of Mental Health Operating Regulations and Division of Developmental Disabilities Directives.

Serious incidents:

In accordance with Department Operating Regulation 4.270 and Code of State Regulation 9 CSR 10-5.200 and 10-5.206, the state requires the reporting and investigation of critical events and incidents by all employees of state facilities and community contracted providers.

Critical events that are required to be reported are;

- (A) Death of a consumer suspected to be other than natural causes;
- (B) Serious injury to a consumer;
- (C) Death or serious injury to a visitor at department state operated facilities;
- (D) Death or serious injury to a department employee or volunteer while on duty;
- (E) Incidents of abuse/neglect, including abuse/neglect involving death, serious injury and sexual abuse;
- (F) Suicide attempt resulting in an injury requiring medical intervention (greater than minor first aid);
- (G) Elopement with law enforcement contacted or involved;
- (H) Criminal activity reported to law enforcement involving consumer as perpetrator or victim when the activity occurs at a facility.

If not at a facility, then the criminal activity is serious (felony, etc.);

- (I) Fire, theft, or natural disaster resulting in extensive property damage, loss or disruption of service and;

(J) Any significant incident the facility head, district administrator, provider administration or designee decides needs to be reported.

In addition to the DOR 4.270 list of critical events, DMH-DD Staff & Contracted Staff are also required to report the following events:

1. All events where there is a report, allegation or suspicion that an individual has been subjected to Misuse of Consumer Funds/Property, Neglect, Physical Abuse, Sexual Abuse or Verbal Abuse. (DOR 2.205)

2. All

- a. Emergency room visits,
- b. Non-scheduled hospitalizations,
- c. Deaths of individuals served by DD,
- d. Med Errors that reach an individual,
- e. Incidents of Falls, The apparent (witnessed, not witnessed or reported) unintentional sudden loss from a normative position for the engaged activity to the ground, floor or object which has not been forcibly instigated by another person.
- f. Uses of Emergency Procedures with an individual.

Emergency Procedures- any restraint/time out used by DMH staff or contracted staff to restrict an individuals' freedom of movement, physical activity, or normal access while in DMH services. If any of the following restraint types or time out occurs as defined they must be reported on an EMT form.

- Chemical Restraint- a medication used to control behavior or to restrict the individual's freedom of movement and is not a standard treatment for the individual's medical or psychiatric condition. A chemical restraint would put an individual to sleep or render them unable to function as a result of the medication. (A pre-med for a dental or medical procedure would not be reported as a chemical restraint.)

- Manual Restraint- any physical hold involving a restriction of an individual's voluntary movement. Physically assisting someone who is unsteady, blocking to prevent injury, etc. is not considered a manual restraint.

- Mechanical Restraints- any device, instrument or physical object used to confine or otherwise limit an individual's freedom of movement that he/she cannot easily remove. (The definition does not include the following: Medical protective equipment, Physical equipment or orthopedic appliances, surgical dressings or bandages, or supportive body bands or other restraints necessary for medical treatment, routine physical examinations, or medical tests; Devices used to support functional body position or proper balance, or to prevent a person from falling out of bed, falling out of a wheelchair; or Equipment used for safety during transportation, such as seatbelts or wheelchair tie-downs; Mechanical supports, supportive devices used in normative situations to achieve proper body position and balance; these are not restraints.)

- Time Out- removing the individual from one location and requiring them to go to any specified area, where that individual is unable to participate or observe other people. Time-out includes but is not limited to requiring the person to go to a separate room, for a specified period of time, the use of verbal directions, blocking attempts of the individual to leave, or physical barriers such as doors or ½ doors, etc. or until specified behaviors are performed by the individual. Locked Rooms (using a key lock or latch system not requiring staff directly holding the mechanism) are prohibited.

3. All events where there is Law Enforcement involvement when the DMH consumer is either the victim, alleged perpetrator, or law enforcement is support in the event.

4. All events that result in disruption of DMH service due to fire, theft or natural disaster; resulting in extensive property damage or loss.

5. All events where there is sexual conduct involving an individual and it is alleged, suspected or reported that one of the parties is not a consenting participant.

6. All events where there is any threat or action, verbal or nonverbal, which conveys a significant risk of immediate harm or injury and results in reasonable concern that such harm will actually be inflicted.

7. All events where the consumer ingests a non food item. Non-food item-an item that is not food, water, medication or other commonly ingestible items.

8. All events that result in a need for an individual to receive life saving intervention or medical/psychiatric emergency intervention.

In addition to the above list State Operated Programs (SOP)/Regional Office staff is required to report the following:

9. All events that involve Employee Misconduct as outlined in DOR 2.220

10. All events that involve a DMH staff with serious injuries as defined by DOR 4.270. Serious injury an injury that results in the hospital admission of the injured person.

The state defines abuse and neglect as:

Neglect- Failure of an employee to provide reasonable or necessary services to maintain the physical and mental health of any consumer when that failure presents either imminent danger to the health, safety or welfare of a consumer, or a substantial probability that death or physical injury would result.

Misuse of funds/property- The misappropriation or conversion for any purpose of a consumer's funds or property by an employee or employees with or without the consent of the consumer or the purchase of property or services from a consumer in which the purchase price substantially varies from the market value.

Physical abuse- An employee purposefully beating, striking, wounding or injuring any consumer; in any manner whatsoever, an employee mistreating or maltreating a consumer in a brutal or inhumane manner; or an employee handling a consumer with any more force than is reasonable for a consumer's proper control, treatment or management.

Verbal abuse- an employee making a threat of physical violence to a consumer, when such threats are made directly to a consumer or about a consumer in the presence of a consumer.

Sexual abuse- Any touching, directly or through clothing, of a consumer by an employee for sexual purpose or in a sexual manner.

Sexual abuse: Any touching, directly or through clothing, of a consumer by an employee for sexual purpose or in a sexual manner. This includes, but is not limited to: 1. Kissing; 2. Touching of the genitals, buttocks, or breasts; 3. Causing a consumer to touch the employee for sexual purposes; 4. Promoting or observing for sexual purpose any activity or performance involving consumers including any play, motion picture, photography, dance, or other visual or written representation; 5. Failing to intervene or attempting to stop inappropriate sexual activity or performance between consumers; and/or 6. Encouraging inappropriate sexual activity or performance between consumers.

Who must report:

- Contracted providers of DD services immediately notify the Department with a written or verbal report of all events of death, abuse, neglect or misuse of consumer funds/property or critical events. If a verbal report either by phone or in person is given, the contracted provider must send a completed event report form to the Department the next working day. All other events meeting the reporting criteria must be reported by the next business day.
- The Code of State Regulations (9CSR 10-5.200) requires that any director, supervisor or employee of any residential facility, day program or specialized service, that is licensed, certified or funded by the Department of Mental Health immediately file a written complaint if that person has reasonable cause to believe that a consumer has been subjected to abuse or neglect while under the care of a residential facility, day program or specialized service.
- For all Department employees, complaints of abuse, neglect, or misuse funds/property shall be reported and investigated as set out in Department Operating Regulation 2.205 and 2.210. These reports shall be entered into the Event Management Tracking System (EMT) database within 24 hours or by the end of the next working day after the incident occurred, was discovered, or the notification was received.

Timeline:

All death, suspicions or complaints of abuse and neglect, and critical events shall be reported immediately. All other events meeting the reporting criteria must be reported by the next business day.

Method of reporting:

These events may be submitted in writing or verbally reported to a DD Responsible State Oversight Organization and Central Office employees. Any verbal report must be followed up with a written report form. There is a standardized Event Report Form.

Processing of reports:

- Event reports are forwarded to the head of the facility, day program or specialized service, and to the DD Responsible State Oversight Organization facility. All reports of events are processed through the DD Responsible State Oversight Organization. The DD Responsible State Oversight Organization assures proper notification of Law Enforcement (when required), Division of Health and Senior Services (when required) and Children Division (when required). If a report of suspected abuse and neglect is received, the DD Responsible State Oversight Organization designated employee is also responsible for notifying the complainant and parent/guardian.
- The DD Responsible State Oversight Organization requests an investigation through the Department of Mental Health centralized Investigations Unit for all allegations of: Physical Abuse, Verbal Abuse, Neglect, Misuse of Consumer Funds/Property, and Sexual Abuse.
- In the case of a death the Department of Mental Health notifies the Executive Director of Missouri Protection & Advocacy Services via e-mail of all consumer deaths that involve any or all of the following:
 - a. Death resulting from a consumer being restrained and/or secluded;
 - b. Death resulting from suicide;
 - c. Death deemed suspicious for abuse or neglect;
 - d. Any unexpected death; or
 - e. Death with unusual circumstances.

Information provided to Missouri Protection & Advocacy Services via e-mail to the Executive Director includes:

- a. Consumer's name;
- b. Consumer's guardian, if one is appointed;

- c. Contact information for guardian;
- d. Consumer's Social Security Number;
- e. Consumer's date of birth;
- f. Consumer's date of death

DD Responsible State Oversight Organization Directors, or designated staff, are required to report such deaths to their Division Directors (for community deaths) or the Director of Facility Operations (state operated) within 24 hours of notification of death.

- c. **Participant Training and Education.** Describe how training and/or information is provided to participants (and/or families or legal representatives, as appropriate) concerning protections from abuse, neglect, and exploitation, including how participants (and/or families or legal representatives, as appropriate) can notify appropriate authorities or entities when the participant may have experienced abuse, neglect or exploitation.

Training and information:

- o Support Coordinators annually provide training and education by reviewing a Client Rights brochure with consumers and guardians. The brochure specifies rights consumers receiving services through the Division of DD have under Missouri state law (Sec. 630.15, RSMo.) The brochure also informs consumers and their parents or guardians, they can contact the DMH Office of Constituent Services if they think they are being abused, neglected, or have had rights violated. Contact information includes e-mail address, a toll-free phone number and a toll phone number, fax number, and mailing address. Support Coordinators also obtain annually a signed Client's Rights Receipt to demonstrate rights information was provided to the consumer or legal guardian.

- o The Missouri DMH has a web site [www.dmh.mo.gov](http://dmh.mo.gov) which provides consumers and families a link to the Office of Constituent Services where information about consumer rights, detecting and reporting abuse & neglect, the abuse/neglect definitions, and the Reporting and Investigation process which includes contact information. The DMH Client Rights brochure and other information regarding consumer rights and abuse/neglect is posted on this web site at <http://dmh.mo.gov/constituentservices/index.htm> The site also has a consumer safety video at this site which discusses abuse and neglect and the reporting and investigation process, as well as the brochure Keeping Mental Health Services Safe which is a written version of the video.

- o The brochure on Individual Rights of Persons Receiving Services from DD is located at <http://dmh.mo.gov/docs/dd/indrights.pdf>

Who is responsible:

- o Assigned Division of DD or Targeted Case Management entity Support Coordinators as discussed above.
- o The Division of DD Consolidated Contract requires that each provider gives participants the name, address, and phone number to the DMH Office of Constituent Services. Each consumer is informed that they have the right to contact this office with any complaints of abuse, neglect, or violation of rights.

Frequency of training:

- o Annually with each consumer.

- d. **Responsibility for Review of and Response to Critical Events or Incidents.** Specify the entity (or entities) that receives reports of critical events or incidents specified in item G-1-a, the methods that are employed to evaluate such reports, and the processes and timeframes for responding to critical events or incidents, including conducting investigations.

Entities Receiving Reports:

Each DD Responsible State Oversight Organization receives all written event report forms.

Report evaluation:

Reports are individually evaluated against set criteria for referral to the appropriate entity. The criteria for referral is as follows:

- o All of abuse and neglect, and misuse of funds which meet the criteria for reasonable cause are submitted to the Department of Mental Health Central Investigations Unit for investigation.
- o If the provider reporting a critical event is responsible for oversight/safety of the consumer, action must be taken to assure the welfare of the consumer. The DD Responsible State Oversight Organization may intervene by placing monitoring processes and staff at the program site, moving individuals from a home and/or terminating contract when appropriate.
- o If there is an allegation of abuse or neglect and the alleged victim is a resident or client of a facility licensed by the Department of Health and Senior Services (DHSS) or receiving services from an entity under contract with DHSS then phone referral is made DHSS,
- o If there is an allegation of abuse or neglect and the alleged victim is under 18 years of age a phone referral is made to Missouri Department of Social Services/Children's Division
- o If there is alleged or suspected sexual abuse; or abuse and neglect that results in physical injury, or abuse/neglect or misuse of funds/property which may result in criminal charge this is reported to local law enforcement.
- o Missouri Protection and Advocacy is notified by e-mail of all consumer deaths that involve any or all of the following:
 - Death resulting from a consumer being restrained and /or secluded
 - Death resulting from suicide
 - Death deemed suspicious for abuse or neglect
 - Any unexpected death; or
 - Death with unusual circumstance.

Entity responsible for conducting investigations & timeframes:

Upon receipt of a report from the head of the DD Responsible State Oversight Organization, or designee, the Central Investigations Unit assigns an investigator immediately. The assigned investigator initiates contact with the provider to arrange for securing evidence and

such other activities as may be necessary.

A final report of the findings is sent to the DD Responsible State Oversight Organization within 30 working days. Upon receipt of the final report the DD Responsible State Oversight Organization Director has 20 calendar days to make a determination. If the determination substantiates abuse or neglect the alleged perpetrator is notified by certified mail. The contracted provider is also notified in writing, required to take appropriate action, and must report an acceptable plan of correction to the DD Responsible State Oversight Organization by a specified date. Further details including the appeals process are described in Department Operating Regulation 2.210 and 2.205.

Informing Participant:

The DD Responsible State Oversight Organization notifies the consumer/guardian and follows up by mail within 10 working days from receipt of an allegation if an investigation has been initiated. Immediately after an investigation is completed and after the effective date of any disciplinary action, the DD Responsible State Oversight Organization provides written notification to the consumer/guardian of the findings of the investigation, a summary of the facts and circumstances and actions taken, except that the names of any employees or other consumers shall not be revealed.

Event data is reported in related performance measures to the Medicaid Agency quarterly

- e. **Responsibility for Oversight of Critical Incidents and Events.** Identify the State agency (or agencies) responsible for overseeing the reporting of and response to critical incidents or events that affect waiver participants, how this oversight is conducted, and how frequently.

Entity for overseeing incident management system:

The Missouri Department of Mental Health, Division of DD is responsible for the oversight of the state's event management system which currently includes one database: Event Management Tracking System (EMT). All critical incidents as defined in G 1-a, investigation findings and timelines are input into the EMT system.

Process of communication:

DD Responsible State Oversight Organization and Support Coordinators are notified of events, including actions taken to protect the health, safety, and rights of the participants and to prevent reoccurrence.

Data collection:

- o Designated DD Quality Enhancement Staff analyze aggregate reports of incidents from the EMT database at least quarterly, identifying trends and patterns. These identified trends are incorporated into provider Quality Management Plans, plans of action, and/or the participant's plan of care as indicated.
- o Event data is reported in related performance measures to the Medicaid Agency quarterly.
- o When there are consistent repetitive concerns or lack of progress on plans, the stakeholders of the provider are notified including the MO HealthNet Division (state Medicaid agency), DMH Licensing and Certification, or the accrediting body (CARF or The Council on Quality and Leadership.)

At least annually the Division of DD Quality Enhancement Leadership Team prepares a statewide report which includes quality assurance and improvement recommendations to prevent reoccurrence of patterns, trends and systemic issues. Findings and recommendations are submitted to the Division Director of DD.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (1 of 3)

- a. **Use of Restraints.** *(Select one): (For waiver actions submitted before March 2014, responses in Appendix G-2-a will display information for both restraints and seclusion. For most waiver actions submitted after March 2014, responses regarding seclusion appear in Appendix G-2-c.)*

- ☐ **The State does not permit or prohibits the use of restraints**

Specify the State agency (or agencies) responsible for detecting the unauthorized use of restraints and how this oversight is conducted and its frequency:

- ☒ **The use of restraints is permitted during the course of the delivery of waiver services.** Complete Items G-2-a-i and G-2-a-ii.
- i. **Safeguards Concerning the Use of Restraints.** Specify the safeguards that the State has established concerning the use of each type of restraint (i.e., personal restraints, drugs used as restraints, mechanical restraints). State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Mechanical restraints are not allowed in community settings. Physical restraint is any manual hold of one person by another which restricts voluntary movement. Physical restraint does not include physically guiding a person during activities such as skill training. Chemical restraint is defined in section 630.005, RSMO, and these medications are only administered with the primary intent of restraining a patient who presents a likelihood of serious physical injury to himself or others, not prescribed to treat a person's medical condition. The administration of medication for chemical restraint must be ordered by a physician and the order must include specific instructions for when it may be used. All administration of medication for chemical restraint must be documented in the participant's record. Chemical restraint is administered only in an emergency situation where all other less restrictive interventions are tried first and found ineffective; there are clear indications of imminent harm to the individual or others; and is included in the person's safety crisis plan. If it is used, the consumer cannot be left alone after administration and the affects must be monitored and documented, including intended and unintended effects, side effects, breathing, consciousness, and allergic or other adverse reactions.

Physical restraint techniques are limited to those that have been approved by the Division and determined unlikely to cause undue physical discomfort, pain or injury to an individual and included in the individual's safety crisis plan. Requests for use of crisis management systems other than Mandt or NCI/CPI must be made to the Chief Behavior Analyst of the division in writing, and quarterly analyses of use of the procedures and strategies to eliminate the need must be completed, documentation and submitted to the Chief Behavior Analyst.

In addition to those general concepts, staff is also required to have knowledge of the individual's personal plan which may include additional specific techniques to employ with the individual to avoid situations escalating to physical restraint use. During the use of physical restraint, staff must monitor for intended and unintended effects, including any adverse reactions, the individual's breathing, consciousness, position of limbs.

Physical restraint is used only in an emergency situation where all other less restrictive interventions are tried first and found ineffective; there are clear indications of imminent harm to the individual or others; and is included in the person's safety crisis plan.

There are prohibited restraint techniques that include physical restraint that interferes with breathing; any technique in which a pillow, blanket or other item is used to cover the face; prone restraint; restraints which involve staff lying or sitting on top of a person; and those that use hyperextension of joints.

The Division of Developmental Disabilities supports the use of Positive Behavior Supports concepts. Staff is required to have an introduction to the concepts upon hire and, again, knowledge of the individual's personal plan which, if indicated for the individual, would include the positive supports to be implemented. Positive Behavior Supports are also designed to mitigate the use of restraint.

The Division of Developmental Disabilities has policies governing the use of restraint, and requires documentation of all uses of restraint. In addition, each contracted provider is required to have a policy for its organization around restraint. During Certification surveys, these policies are reviewed for content and compliance with state requirements. In addition, providers who are accredited by a nationally-recognized body must meet the standards outlined by that accrediting body, including any related to the use of restraint. Accredited providers are required to submit their current accreditation report and thus the Division is informed of conformance to those standards.

The division utilizes an Event Management Tracking (EMT) system to track reportable events in accordance with state regulation 9 CSR 10-5.206. An EMT Event Report form is completed by the persons involved in the physical and/or chemical restraint, and these are sent to the DD State Responsible Oversight Organization for entry into the EMT system. Reporting is governed by Missouri administrative rules, known as Code of State Regulations (CSR). The DD State Responsible Oversight Organization reviews the event report and identifies, any unauthorized use of restraints. The service coordinator could also discover an unauthorized restraint was used through Service Monitoring (i.e. in conversation with the individual/staff, review of progress notes, etc.) A service coordinator could determine that the restraint is unauthorized if it is not implemented as outlined in the individual's safety/crisis plan or it is a restraint that is not approved by the Division.

Data is aggregated by region, by provider and by individual, analyzed and reported quarterly to further identify patterns and trends of use, both for consumer and for provider. Data is reported in related performance measures to the Medicaid Agency quarterly.

When a restraint is reported to the DD State Responsible Oversight Organization a designated staff reviews that event to determine if the restraint was a prohibited procedure or if more force than necessary was used in the restraint procedure. If the restraint is determined to be necessary to support the individual, it must be reviewed by the state responsible oversight organization due process committee.

- ii. **State Oversight Responsibility.** Specify the State agency (or agencies) responsible for overseeing the use of restraints and ensuring that State safeguards concerning their use are followed and how such oversight is conducted and its frequency:

State and regional Quality Enhancement Unit staff aggregate event (EMT) data to further identify patterns and trends. DD State Responsible Oversight Organization will conduct further inquiry if trends or patterns of overuse, unauthorized use and/or ineffective use are noted.

Every two years a review by Licensure and Certification (L&C) staff of personnel records is completed as a component of

the certification process to assure all staff have received the needed training regarding the individual plan, the basic concepts of Positive Behavior Support, and an approved physical crisis management system such as MANDT or CPI, if restraint is used for the individuals supported by the provider. The L&C staff also reviews policies and procedures for compliance with state requirements.

Providers who are placed on conditional certification status are reported to MO HealthNet as it occurs. Any contract termination is reported to MO HealthNet as it occurs.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (2 of 3)

b. Use of Restrictive Interventions. *(Select one):*

- ☐ **The State does not permit or prohibits the use of restrictive interventions**

Specify the State agency (or agencies) responsible for detecting the unauthorized use of restrictive interventions and how this oversight is conducted and its frequency:

- ☒ **The use of restrictive interventions is permitted during the course of the delivery of waiver services** Complete Items G-2-b-i and G-2-b-ii.

- i. **Safeguards Concerning the Use of Restrictive Interventions.** Specify the safeguards that the State has in effect concerning the use of interventions that restrict participant movement, participant access to other individuals, locations or activities, restrict participant rights or employ aversive methods (not including restraints or seclusion) to modify behavior. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency.

Restrictive interventions may be utilized when a need for such a procedure is identified and described in an individual's support plan (ISP) or behavior support plan (BSP) that is a specialized part of the Individual's support plan written by a licensed behavioral provider. Relevant needs are situations in which the individual has frequently engaged in harmful behaviors and less restrictive procedures have not been successful, or as part of a legal arrangement such as when a person with sexual charges has been required to avoid certain public areas.

Through requirements of the waiver service definitions and provider contracts, staff are required to be trained on the individual's service plan, behavior support plan, and safety/crisis plan prior to implementing any individual restrictive interventions. Any staff utilizing restrictive interventions involving physical holds is required to be trained and competency-tested in MANDT or CPI or other Division approved physical crisis management system.

Any limitations or interventions imposed with regard to the restriction of participant movement, participant access to others, locations or activities, and restriction of participant rights must be reviewed by DD State Responsible Oversight Organization or the approved Due Process Review Committee and documented in the individual's plan.

The state does not allow the use of: Physical restraint techniques that interfere with breathing; or any strategy in which a pillow, blanket, or other item is used to cover the individual's face as part of a reactive strategy;

- Prone restraints (on stomach), restraints positioning the person on their back supine, or restraint against a wall or object;
- Restraints which involve staff lying/sitting on top of a person;
- Restraints that use the hyperextension of joints;
- Any technique which has not been approved by the Division, or for which the person implementing has not received Division-approved training;

Any reactive strategy that may exacerbate a known medical or physical condition, or endanger the individual's life, or is otherwise contraindicated for the individual by medical or professional evaluation;

- Containment without continuous monitoring and documentation of vital signs and status with respect to release criteria;
- Use of any reactive strategy on a "PRN" i.e., "as required" basis. Identification of safe procedures for use during a crisis in an individual's safety crisis plan shall not be considered approval for a restraint procedure on an as-needed basis;
- Aversive stimuli;
- Any procedure used as punishment, for staff convenience, or as a substitute for engagement, active treatment or behavior support services;
- Inclusion of a reactive strategy as part of a behavior support plan for the reduction or elimination of a behavior;
- Reactive strategy techniques administered by other persons who are being supported by the agency;
- Corporal punishment or use of aversive conditioning such as, but not limited to applying painful stimuli as a penalty for certain behavior, or as a behavior modification technique;

- Overcorrection by requiring the performance of repetitive behavior. Examples include, but are not limited to: Contingent exercise, writing sentences, over-cleaning an area, repeatedly walking down a hallway after running;
- Placing persons in totally enclosed cribs or barred enclosures other than crib; and
- Any treatment, procedure, technique or process prohibited by federal or state laws.

Less restrictive techniques, such as de-escalation, discussion, re-direction, for example, must be attempted before implementing any restrictions. Missouri State Statute outlines consumer rights and communication of any restrictions of those rights. If necessary for the individual's habilitation or therapeutic care, visitors, phone calls, clothing choices, carrying money on their person, television programming or reading materials and outdoor recreation may be restricted. The participant and guardian must be included and informed; and the criteria for removing any restrictions and timelines for reviewing must be documented in the individual's plan. For each episode in which restrictive interventions as outlined in the plan are implemented the following must be documented in the daily observation note: the circumstances and the situation, the less restrictive measures that were attempted, and the implementation of the restrictive intervention. Any restrictions are required to be reviewed by DD State Responsible Oversight Organization or authorized due process review committee.

The Regional Behavior Support Review Committee will approve or deny restrictive procedures that are presented to the committee. The Behavior Support Review Committee will review the ISP and BSP to determine that least restrictive practices are being followed to ensure best behavior support practice. The review process includes teaching practices to develop alternative skills, fading of restrictive supports, review of data toward progress to work toward elimination of the restriction. Additionally, the ISP and BSP must be reviewed by the Due Process committee in the region to evaluate that due process has been afforded the individual, the guardian or individual must consent to the use of the restrictive intervention, there must be an identified strategy for elimination of the restrictions and regular review of the progress towards this. This review would occur prior to utilizing the restrictive interventions and at least annually thereafter at the time of the annual plan development.

Any participant who has a grievance regarding their rights or a complaint may contact the Department of Mental Health, Office of Constituent Services through the toll-free telephone line, through a dedicated e-mail address or by letter. The Division follows their process as outlined in Division Directive 3.050 for resolution.

Any of the Division's quality management functions may identify unauthorized use of restrictive interventions.

The use of restrictive procedures that have not been identified in the ISP or BSP and have not been evaluated in the Due Process committee might be identified through the Support Coordination monitoring process, Licensure and Certification survey process, the incident report review process in a regional office or through reporting by the individual, guardian, or other person.

- ii. **State Oversight Responsibility.** Specify the State agency (or agencies) responsible for monitoring and overseeing the use of restrictive interventions and how this oversight is conducted and its frequency:

Any of the Division's quality management functions may identify unauthorized use, overuse of inappropriate use of restrictive interventions.

The use of restrictive procedures that have not been identified in the ISP or BSP and have not been evaluated in the Due Process committee might be identified through the Support Coordination monitoring process, Licensure and Certification survey process, the incident report review process in a regional office or through reporting by the individual, guardian, or other person.

The operating agency is responsible for the oversight of the state's DMH event management system CIMOR/EMT. All reported events are entered into the DMH Event management tracking system in CIMOR/EMT.

- Support coordinators conduct quarterly reviews of the support plan.
- Division of DD State Responsible Oversight Organization Quality Enhancement staff reviews reported data for patterns and trends quarterly. If a pattern or a trend is discovered, information is collected to ensure strategies are in place that will reduce the use of restrictive supports. The person's plan is reviewed and, if necessary, revised.
- Division of DD state-level Quality Enhancement staff aggregates data quarterly and reports through related performance measures to MO HealthNet. They also provide an annual summary of the EMT data to the Division.

Any participant who has a grievance regarding their rights or a complaint may contact the Department of Mental Health, Office of Constituent Services through the toll-free telephone line, through a dedicated e-mail address or by letter.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (3 of 3)

- c. **Use of Seclusion.** (Select one): (This section will be blank for waivers submitted before Appendix G-2-c was added to WMS in March 2014, and responses for seclusion will display in Appendix G-2-a combined with information on restraints.)

☐ **The State does not permit or prohibits the use of seclusion**

Specify the State agency (or agencies) responsible for detecting the unauthorized use of seclusion and how this oversight is conducted and its frequency:

☒ **The use of seclusion is permitted during the course of the delivery of waiver services.** Complete Items G-2-c-i and G-2-c-ii.

- i. **Safeguards Concerning the Use of Seclusion.** Specify the safeguards that the State has established concerning the use of each type of seclusion. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Seclusion (time-out) is allowed in community settings only after less restrictive techniques have been attempted and found ineffective. Seclusion (Time-out) must be described in the behavior support plan approved by the division's Chief Behavioral Analyst. A functional assessment must be completed prior to inclusion in the plan; is time-limited; areas utilized must be safe and comfortable; must be continuously observed by staff; and cannot be locked.

Reporting is governed by Missouri administrative rules, known as Code of State Regulations (CSR). The DD State Responsible Oversight Organization reviews the event report and identifies, any unauthorized use of seclusion. The support coordinator could also discover an unauthorized use of seclusion through Service Monitoring (i.e. in conversation with the individual/staff, review of progress notes, etc.

The use of alternative methods to avoid the use of seclusion.

The ISP and BSP are based on Person Centered Strategies and positive supports. When there is a request for use of seclusion (time-out)/(safe room), there is a review process undertaken by the Chief Behavior Analyst to determine if least restrictive strategies have been attempted. Staff are trained in various interaction skills and to use positive supports. For example, schedules could be rearranged and extra positive reinforcements for doing things not preferred to avoid escalation.

There are protocols that must be followed when seclusion is employed including the circumstances when its use is permitted. Utilization of a seclusion time out/(safe room) procedure requires that there be a functional assessment of the target behavior, a behavior support plan, request to the Chief Behavior Analyst in writing specifying the rationale for the use of the procedure, and an approval of the designated time out area or room and time out shall only be included as a part of the behavior support plan after a functional behavioral assessment provides indication that the behaviors targeted for intervention with the time out procedure will not be reinforced by the procedure, that there are high rates of positive reinforcement and engaging activities available for the individual making "time in" an enriched situation. These criteria are specified in the time out room/safe room review process.

Personnel administering seclusion (time-out) must have physical crisis management training and competency based implementation of time out. The Licensed Behavior Analyst provides the training for implementers, monitors, and adjusts the intervention strategies.

When seclusion is administered, the incident is documented in the Event Management Tracking (EMT). The Behavior Support Plan also includes data collection documenting the date, time in/out, and notes on monitoring during seclusion.

The use of seclusion time out is considered a behavioral strategy and must be included in a Behavior support plan that is developed by a licensed behavioral provider (RSMo 337 (300 to 345) and 376 (1224).

- ii. **State Oversight Responsibility.** Specify the State agency (or agencies) responsible for overseeing the use of seclusion and ensuring that State safeguards concerning their use are followed and how such oversight is conducted and its frequency:

Seclusion (time-out) is allowed in community settings within behavior support plans approved by the division's Chief Behavioral Analyst. A CIMOR-EMT Event Report is completed by the persons involved in the event where seclusion was used. The event report is submitted to the DD Responsible State Oversight Organization for entry and review in the CIMOR- EMT System. If the report reaches criteria for an allegation of abuse or neglect an inquiry would be conducted to establish or rule out reasonable cause. If reasonable cause is established a DMH investigation will be requested.

The Event Monitoring data is collected through the CIMOR system and is analyzed by the Quality Enhancement (QE) staff. Thresholds for review have been established and individuals who have met threshold in consecutive quarters receive more intensive review and follow up by regional QE staff. In addition the Regional Behavior Support Review Committees will be reviewing the strategies and supports for individuals who have approved time out strategies incorporated into their behavior support plans.

The Department of Mental Health (Operating Agency) is responsible for methods to detect the unauthorized use of seclusion. Seclusion is considered a prohibited technique unless otherwise in a behavior support plan approved by the division's Chief Behavior Analyst. as outlined in the provider contract, if it occurs it is required to be reported as noted in Missouri administrative rules, known as Code of State Regulations (9 CSR 10-5.206) . The DD State Responsible Oversight Organization will identify the use of seclusion through any of the division's quality management functions.

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (1 of 2)

This Appendix must be completed when waiver services are furnished to participants who are served in licensed or unlicensed living arrangements where a provider has round-the-clock responsibility for the health and welfare of residents. The Appendix does not need to be completed when waiver participants are served exclusively in their own personal residences or in the home of a family member.

a. Applicability. Select one:

- ☐ **No. This Appendix is not applicable** (*do not complete the remaining items*)
- ☒ **Yes. This Appendix applies** (*complete the remaining items*)

b. Medication Management and Follow-Up

- i. Responsibility.** Specify the entity (or entities) that have ongoing responsibility for monitoring participant medication regimens, the methods for conducting monitoring, and the frequency of monitoring.

Entity or entities responsible for ongoing monitoring of participant medication regimens:

The first line of medication monitoring is conducted by the prescribing practitioner. In the event the provider is providing medication monitoring services, the contractor shall provide oversight. Nursing services and oversight are determined based on individualized assessed need. Support Coordinators are notified of all reportable medication errors. A second level of review includes quarterly analysis of reportable event data in relation to medication errors as well as clinical QE RN reviews for all medication errors that meet the criteria of a serious or moderate medication area.

Methods for conducting monitoring:

The entities responsible for monitoring participant medication regimens include the prescribing entities, contracted provider, and the Missouri Division of Developmental Disabilities (DD).

Scope of monitoring medication is a holistic approach incorporating reviews by a medical professional of the medications prescribed, participant response and the delivery of their support service. The scope of monitoring incorporates review beyond the prescribing entity including oversight which is dependent upon individualized assessment and utilization of services.

Nursing services and oversight are determined based on individualized assessed need.

Quarterly analysis of the medication error data by the regional and state QE teams may result in systems improvement strategies at the individual, provider, regional and state level.

In the event the provider is providing medication services, monitoring may be conducted by support coordination and other applicable integrated quality functions that may identify areas requiring remediation in relation to the medication administration process. This information is entered into the APTS system. Quarterly analysis of the APTS data related to the medication administration process is conducted by the regional and state QE teams and may result in systems improvement strategies at the individual, provider, regional and state level.

The Division monitors on a quarterly basis for use of Psychotropic and Antipsychotic medications. The Division monitors for individuals identified through Medicaid claims billing where individuals are in receipt of 5 or more Psychotropic and/or 2 or more Antipsychotic Medications. Individuals identified as meeting this threshold are tracked in a SharePoint database.

Quarterly the State Quality Enhancement Unit review the tracking system to ensure that each individual on the list has follow-up information recorded. If no information for follow-up is noted the Regional QE staff are notified so that follow-up will be completed.

Each reported medication error regardless of medication type, if classified as moderate or serious receives a Clinical/QE RN Review conducted by a DD Regional Quality Enhancement RN. Moderate medication errors are errors which result in treatment and/or interventions in addition to monitoring or observation. Serious medication errors are errors which are life threatening and/or permanent adverse consequences. The state will follow the process of additional inquiry into the event if it is suspected

that the staff responsible for making the error did something or failed to do something which put the individual in imminent danger to the health, safety, or welfare of an individual or substantial probability that death or serious physical injury would result. If following the additional inquiry and the findings meet criteria for reasonable cause for suspicion of abuse or neglect, the event will be referred to the DMH investigation unit.

The Clinical/QE Review evaluates contributing factors to the medication error which may result in a Plan of Action to minimize the potential reoccurrence of future medication errors.

- ii. **Methods of State Oversight and Follow-Up.** Describe: (a) the method(s) that the State uses to ensure that participant medications are managed appropriately, including: (a) the identification of potentially harmful practices (e.g., the concurrent use of contraindicated medications); (b) the method(s) for following up on potentially harmful practices; and, (c) the State agency (or agencies) that is responsible for follow-up and oversight.

The agency responsible for oversight is the MO Department of Mental Health /Division of DD (operating agency). The operating agency monitors medication administration through the Division's Quality Functions for discovery, remediation, and quality improvement.

As part of the Division's Event Management Tracking process, all medication errors that reach the "individual are required to be reported to the DD Responsible State Oversight organization. A clinical review is completed by a QE RN for all medication errors meeting the division definition of moderate or severe. All clinical review findings and actions are recorded in the Event Management Tracking system. The clinical review is a form of risk mitigation, reducing risk factors associated with the event. Medication errors where there is a suspicion of abuse, neglect, and/or misuse of funds meeting the criteria for reasonable cause are submitted to the Department of Mental Health Central Investigations Unit for investigation.

During monitoring visits, support coordinators are expected to review documentation to assure all prescribed medications are administered, discovered errors are reported, and adequate supplies of medications are available.

The Division monitors on a quarterly basis for use of Psychotropic and Antipsychotic medications. The Division monitors for individuals identified through Medicaid claims billing where individuals are in receipt of 5 or more Psychotropic and/or 2 or more Antipsychotic Medications. Individuals identified as meeting this threshold are tracked in a SharePoint database.

Quarterly the State Quality Enhancement Unit review the tracking system to ensure that each individual on the list has follow-up information recorded. If no information for follow-up is noted the Regional QE staff are notified so that follow-up will be completed.

Each reported medication of error regardless medication type, if classified as moderate or severe receives a Clinical/QE Review conducted by the DD facility Quality Enhancement RN. Moderate medication errors are errors which result in treatment and/or interventions in addition to monitoring or observation. Serious classifications are errors which are life threatening and/or have permanent adverse consequences. The state will follow the process of additional inquiry into the event if it is suspected that the staff responsible for making the error did something or failed to do something which put the individual in imminent danger to the health, safety, or welfare of an individual or substantial probability that death or serious physical injury would result. If following the additional inquiry and the findings meet criteria for reasonable cause for suspicion of abuse or neglect, the event will be referred to the DMH investigation unit.

The Clinical/QE Review evaluates contributing factors to the medication error which may result in a Plan of Action to minimize the potential reoccurrence of future medication errors.

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (2 of 2)

c. Medication Administration by Waiver Providers

i. Provider Administration of Medications. *Select one:*

- ☐ **Not applicable.** *(do not complete the remaining items)*
- ☒ **Waiver providers are responsible for the administration of medications to waiver participants who cannot self-administer and/or have responsibility to oversee participant self-administration of medications.** *(complete the remaining items)*

- ii. **State Policy.** Summarize the State policies that apply to the administration of medications by waiver providers or waiver provider responsibilities when participants self-administer medications, including (if applicable) policies concerning medication administration by non-medical waiver provider personnel. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

In accordance with 9 CSR45-3.070, staff who administer medication or supervise self-administration of medication to

participants must be either a licensed physician; licensed nurse; or must be delegated the task of medication administration and supervised by a licensed medical professional. Persons who administer or supervise self- administration of medication to participants must be certified as a Medication Aide through Department of Mental Health or Department of Health and Senior Services (DHSS) before being delegated and performing medication administration tasks.

iii. Medication Error Reporting. *Select one of the following:*

- ☒ **Providers that are responsible for medication administration are required to both record and report medication errors to a State agency (or agencies).**

Complete the following three items:

(a) Specify State agency (or agencies) to which errors are reported:

In addition to appropriate follow up with medical professionals in response to medication errors, providers are responsible for documenting and reporting medication errors to their designated State Division of DD Regional Office in accordance with Event Reporting regulation 9 CSR10-5.206. In addition, any action taken should be reported.

(b) Specify the types of medication errors that providers are required to *record*:

In accordance with 9 CSR 10-5.206 Report of Events, providers are required to record any of the following medication error

- Failure to administer;
- Wrong Dose;
- Wrong Medication;
- Wrong Route;
- Wrong Person;
- Wrong Time;

(c) Specify the types of medication errors that providers must *report* to the State:

In accordance with 9 CSR 10-5.206 Report of Events, providers are required to report medication errors meeting the policy definitions of: In accordance with 9 CSR 10-5.206 Report of Events, providers are required to report any of the following medication error types that reach and individual;

- Failure to administer;
- Wrong Dose;
- Wrong Medication;
- Wrong Route;
- Wrong Person;
- Wrong Time;

- ☐ **Providers responsible for medication administration are required to record medication errors but make information about medication errors available only when requested by the State.**

Specify the types of medication errors that providers are required to record:

iv. State Oversight Responsibility. Specify the State agency (or agencies) responsible for monitoring the performance of waiver providers in the administration of medications to waiver participants and how monitoring is performed and its frequency.

Oversight is conducted by the operating agency, Division of DD. In accordance with 9 CSR 10-5.206, medication errors are reported to the DD Responsible State Oversight organization using the standardized Event Report form. These reports are entered into the statewide event database (EMT) and are tracked for analysis of trends and patterns at the provider, consumer, regional, and state level. Division of DD QE RNs also review medication error reports to identify patterns or trends for consumers and/or providers. The reports are also reviewed to ensure appropriate safeguard measures were taken.

If medication errors are noted in the records, the support coordinator may investigate further to ensure the errors were properly reported to the state in accordance with 9 CSR 10-5.206 and that all necessary corrective action was taken. Quarterly the Division of DD's State Quality Enhancement Unit analyzes data to identify trends or patterns that may require additional actions for the provider, the region, or statewide.

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

a. **Methods for Discovery: Health and Welfare**

The state demonstrates it has designed and implemented an effective system for assuring waiver participant health and welfare. (For waiver actions submitted before June 1, 2014, this assurance read "The State, on an ongoing basis, identifies, addresses, and seeks to prevent the occurrence of abuse, neglect and exploitation.")

i. **Sub-Assurances:**

- a. **Sub-assurance:** *The state demonstrates on an ongoing basis that it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexplained death. (Performance measures in this sub-assurance include all Appendix G performance measures for waiver actions submitted before June 1, 2014.)*

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of waiver participants who were informed of how to report suspected abuse/neglect/misuse of funds (Number of participants informed of how to report suspected abuse/neglect/misuse of funds divided by Number of records reviewed within the identified timeframe)

Data Source (Select one):

Analyzed collected data (including surveys, focus group, interviews, etc)

If 'Other' is selected, specify:

Responsible Party for data collection/generation(check each that applies):	Frequency of data collection/generation(check each that applies):	Sampling Approach(check each that applies):

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

Individual problems are referred to the Regional Office Assistant Director as they are received or substantiated by staff in the Office of Consumer Safety. All reported incidents, deaths, or complaints are tracked and reported to the Regional Office

immediately. A response to the report must be included in the tracking system. More serious reports Reports found suspicious for abuse/neglect are investigated by staff from the Department of Mental Health. Remediation is a coordinated effort by Central Office staff, Regional Office staff, and other concerned parties that could include law enforcement or other state Departments. Less serious reports Other types of complaints and incidents are resolved by the Regional Office with the assistance of the service coordinator and other staff that could include Central Office management staff. The state routinely monitors and evaluates tracking systems to ensure all reported incidents/complaints have been remediated through quarterly reporting to Division management and Regional Office Directors.

Quarterly data for all incidents entered into the statewide tracking system are reviewed to identify outliers for follow up and response by the Regional Office. Responses are monitored at the state level to ensure action has been taken.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Health and Welfare that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Health and Welfare, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix H: Quality Improvement Strategy (1 of 2)

Under §1915(c) of the Social Security Act and 42 CFR §441.302, the approval of an HCBS waiver requires that CMS determine that the State has made satisfactory assurances concerning the protection of participant health and welfare, financial accountability and other elements of waiver operations. Renewal of an existing waiver is contingent upon review by CMS and a finding by CMS that the assurances have been met. By completing the HCBS waiver application, the State specifies how it has designed the waiver's critical processes, structures and operational features in order to meet these assurances.

- Quality Improvement is a critical operational feature that an organization employs to continually determine whether it operates in accordance with the approved design of its program, meets statutory and regulatory assurances and requirements, achieves desired outcomes, and identifies opportunities for improvement.

CMS recognizes that a state's waiver Quality Improvement Strategy may vary depending on the nature of the waiver target population, the services offered, and the waiver's relationship to other public programs, and will extend beyond regulatory requirements. However, for the purpose of this application, the State is expected to have, at the minimum, systems in place to measure and improve its own performance in meeting six specific waiver assurances and requirements.

It may be more efficient and effective for a Quality Improvement Strategy to span multiple waivers and other long-term care services. CMS recognizes the value of this approach and will ask the state to identify other waiver programs and long-term care services that are addressed in the Quality Improvement Strategy.

Quality Improvement Strategy: Minimum Components

The Quality Improvement Strategy that will be in effect during the period of the approved waiver is described throughout the waiver in the appendices corresponding to the statutory assurances and sub-assurances. Other documents cited must be available to CMS upon request through the Medicaid agency or the operating agency (if appropriate).

In the QIS discovery and remediation sections throughout the application (located in Appendices A, B, C, D, G, and I) , a state spells out:

- The evidence based discovery activities that will be conducted for each of the six major waiver assurances;
- The *remediation* activities followed to correct individual problems identified in the implementation of each of the assurances;

In Appendix H of the application, a State describes (1) the *system improvement* activities followed in response to aggregated, analyzed discovery and remediation information collected on each of the assurances; (2) the correspondent *roles/responsibilities* of those conducting assessing and prioritizing improving system corrections and improvements; and (3) the processes the state will follow to continuously *assess the effectiveness of the OIS* and revise it as necessary and appropriate.

If the State's Quality Improvement Strategy is not fully developed at the time the waiver application is submitted, the state may provide a work plan to fully develop its Quality Improvement Strategy, including the specific tasks the State plans to undertake during the period the waiver is in effect, the major milestones associated with these tasks, and the entity (or entities) responsible for the completion of these tasks.

When the Quality Improvement Strategy spans more than one waiver and/or other types of long-term care services under the Medicaid State plan, specify the control numbers for the other waiver programs and/or identify the other long-term services that are addressed in the Quality Improvement Strategy. In instances when the QIS spans more than one waiver, the State must be able to stratify information that is related to each approved waiver program. Unless the State has requested and received approval from CMS for the consolidation of multiple waivers for the purpose of reporting, then the State must stratify information that is related to each approved waiver program, i.e., employ a representative sample for each waiver.

Appendix H: Quality Improvement Strategy (2 of 2)

H-1: Systems Improvement

a. System Improvements

- i. Describe the process(es) for trending, prioritizing, and implementing system improvements (i.e., design changes) prompted as a result of an analysis of discovery and remediation information.

Overview

The Division's quality management strategy includes multiple real-time methods of feedback and information gathering in addition to periodic inspection processes. Individuals (program participants) and community members are in active roles. The system utilizes quality improvement processes such as data analysis, tracking, and trending. Data bases are in place for gathering information and subsequent analysis and trending.

In addition to the statewide quality management functions completed by the Division of Developmental Disabilities (DD), there are functions completed by the Department of Mental Health and other state agencies including Department of Social Services/MO HealthNet Division, the Medicaid administrative agency. Each quality management function has its own guidelines, designated implementation staff, and process of identification, communication, and remediation. This allows for timely evaluation of information and development of an appropriate action plan for the individual issue(s) identified. Systems improvement efforts are based upon the consolidation and analysis of data from all functions, as well as other information.

The following are the identified quality functions performed by the DD.

- service monitoring: the process in which service coordinators review appropriate service provision, consumer well-being and, for participants in residential services, environment and safety, findings requiring action of this process are entered into the Action Planning Tracking System (APTS) database;
- incident response: reporting, tracking and trending of identified incident/injury/med error/restraint data, all information data based in the statewide Event Management Tracking System (EMT);
- mortality review: the organized method of reporting and review of the circumstances of a consumer death while receiving funded services, requires local (regional office) review as well as a central office review, now completed in a web-based database;

- health identification and planning system (HIPS) and nurse review: the process in which service coordinators document potential health needs for consumers in residential services; when needs meet an identified threshold, an in-depth review by a QE RN is conducted and recommendations made for planning, risk mitigation and provider supports
- fiscal review for purchase of service system or medicaid waiver programs or services: designated fiscal staff;
- service plan review: regional office staff review samples of plans for all waivers, samples are drawn by state-level QE staff with sample sizes using RAO-Soft, and findings requiring action of review are entered into APTS;
- the licensure and certification (L&C) process: certification survey process for providers of residential, day services and employment services, conducted every other year, findings requiring action entered into APTS data base.
- provider relations review: a review of provider business activities and contractual conformance done by regional provider relations staff at designated intervals and based upon trending of other quality function data reported to provider relations;
- quality enhancement review: regional office quality enhancement staff conduct one-one interviews and observations with participants. The Sample size is the same as required for the National Core Indicators participation. Findings requiring action are entered into APTS;

- Data for trending, prioritizing, remediating and implementing system improvements is continually collected through the identified quality functions, entered into databases, and analyzed/reported at designated intervals. Reports are provided to Division management, regional level management and staff, providers, stakeholders, and the Medicaid agency at designated intervals, dependent upon the specified function and need. The state-wide Quality Enhancement (QE) Leadership Team provides the oversight, management and evaluation of the quality improvement processes/strategy for the Division of DD.

The Division reports quarterly to the Mental Health Commission on performance measures that the Commission identified; these performance measures incorporate data used from a selection of the waiver assurances and also includes information regarding abuse/neglect investigations, medication errors, deaths, consumer injuries, and use of restraints.

The Mental Health Commission consists of community representatives in the field of behavioral health and intellectual and developmental disabilities appointed by the governor. This public forum is attended by providers, self-advocates and family members.

Reports are also shared with the Quality Advisory Council, a group of self-advocates and family members or guardians. The Quality Advisory Council represents a cross-section of advocacy groups, family members, consumers and public guardians. The Council reviews a wide variety of information from waiver performance, National Core Indicators (NCI), all quality integrated functions, current grants and Division initiatives.

In addition to the quality functions used by the state, DD participates in the NCI initiative. With 40 other states participating in this initiative, DD can compare results with a national average as well as the other participating states, using the information as benchmarks.

The process for trending is grounded in the CMS waiver quality assurances. Data is aggregated and reported state-wide, by individual region, and, at the regional level, by provider and consumer. The state Quality Enhancement Leadership Team tracks and evaluates remediation at the regional or state level for identified trends.

Process for Trending

The state QE Leadership team analyzes and reports information to senior Division management and regional directors from service monitoring, service reviews, level of care, incident/injury, and abuse/neglect quarterly. These reports include summarizing performance in the identified areas, describing any patterns/trends, and discussing actions needed. These reports aggregate data state-wide and also aggregate by region. If trends are noted to occur within specific regions or with certain contracted providers, the Division of DD Statewide Quality Enhancement Team notifies Regional Office QE staff of the concerns to be addressed locally.

Regional QE staff review all integrated function databases for trends in service monitoring, incident/injury/abuse/neglect, remediation for service plan reviews, provider relations reviews, and QE reviews in their specific region to identify any significant patterns, trends, or concerns. These reports summarize regional trends for waiver and non-waiver services, specific provider issues and specific consumer issues. Each region develops reports on identified trends to be addressed locally with community providers and the Regional Offices.

Performance measures as outlined in each of the waiver quality assurances are analyzed and reported by state QE staff to the state Medicaid agency (MO HealthNet) quarterly. In addition to the written reports, the DD Federal Programs Unit, DD QE staff and MO HealthNet meet quarterly to review the data reports/trends specific to each waiver and discuss other issues pertinent to the performance measures and the operation of the waivers. When the QIS spans more than one waiver information is stratified for each waiver. The sampling methodology is based upon a representative sample for each waiver and the QIS is reported in Appendix H for each waiver. QIS may span more than one waiver and is dependent upon the quarterly analysis of the data related to each specific performance measure. The majority of the performance measures for the five division operational HCBS waivers (MO.0178, MO.0404, MO.0698, MO.0841 and MO.40185) are consistent in what is being measured to meet a specific assurance and therefore QIS may impact all applicable waivers. There may be instances where a specific QIS is targeted to a particular waiver if performance is at or below 87%. No other long-term care services are addressed in the

QIS.

The QE Leadership Team generates an annual report which includes aggregate information from all the quality functions, comparing data year to year, identifying improvements and opportunities for improvement.

Implementation of system improvements

When patterns or trends are identified from the data and the reviews mentioned above, further analysis is conducted by the Quality Enhancement Leadership Team along with stakeholders who are involved in the identified trends. Work groups may then be developed to determine what systems improvement strategies could be developed to impact the areas identified. Sometimes this process results in policy/procedure changes, technical assistance with providers or private TCM entities, training with state staff, or it could be in the form of an awareness campaign to bring a more heightened attention to the identified situation.

Changes in rules, policy, and contracts are drafted and distributed to allow feedback from stakeholders. Once finalized, changes are distributed to Division DD's staff and contracted providers. Discussions are held at local provider meetings, as well as statewide coalitions of providers to assure that changes are understood and implementation dates are communicated. Any training required to assist with the implementation of these changes are initially planned and coordinated by state Quality Enhancement Leadership Team and then assumed by regional office staff. The implementation of system improvements is analyzed for effectiveness of remediation through periodic reviews, and through ongoing analysis of related data.

b. System Design Changes

- Describe the process for monitoring and analyzing the effectiveness of system design changes. Include a description of the various roles and responsibilities involved in the processes for monitoring & assessing system design changes. If applicable, include the State's targeted standards for systems improvement.

Following implementation of revisions to rules, policy, practices, contracts, or training techniques, data is continually reviewed and analyzed as discussed above in system improvements, to assess effectiveness and appropriateness of the changes. The Quality Enhancement Leadership Team provides feedback and recommendations for system design changes to administration based on identification of trends.

Examples of system improvements:

Regular reviews of the abuse/neglect reporting data resulted in examination of the training components for this topic. Workgroups analyzed the abuse & neglect online training scores as well as comments from those who took the courses which then lead to changes which included examples that better described situations of abuse, neglect, and misuse of consumer funds. The training was revised and tests were re-designed. There has been a decline in abuse and neglect substantiations.

The process for development and revisions of Division Directives (policy and procedural requirements) has been altered to include public comments, identified trends and changes in programs. If a directive affects a broader base than just an internal work process, work groups are identified with representatives from the Division, Regions, providers and/or consumers of services for input. A draft of the Directive is posted on the Division's public web site for a comment period prior to finalizing and issuing the Directive. Anyone accessing the web site can register to have an automatic e-mail notification when changes to the site are made, documents posted and so forth.

A minimum set of incident data sets have been identified to assist in consistency of reporting and allows for comparisons state-wide and across regions.

A web-based survey has been designed that is filled out by all Regional QE staff upon completion of Quality Enhancement

reviews related to Health and Safety to help evaluate the review process. This was successful in evaluating the survey process and the Provider Relations staff also implemented this for the Provider Relations Review. In addition, a web-based survey was established to allow providers to evaluate any contact/visit from regional staff.

Statewide training was implemented for service coordinators on how to use data to help identify areas of potential risk for consumers so that risk planning for the consumer would be addressed.

The Action Plan Tracking System had two additional fields added: 1) Resolution Date- This allows us to identify issues that are unresolved for follow-up. 2) Remediation and comments were added to each record so we can determine what measures are being taken to prevent the issue from occurring in the future.

We are currently in the process of redesigning the incident data collections system (EMT) department-wide. This was a result of data integrity reviews and data analysis. Changes to the system will ensure more consistency with data entry, a more user-friendly data entry, as well as providing additional information related to incident types. Input for changes to the system came from a variety of stakeholders including data entry staff, quality enhancement staff, providers, DD QA Advisory Council, habilitation center staff, and information technology staff.

The Division has tracked Medication Aide training and periodic updates for many years. The old data base was difficult to use, manage and was region-based, so did not “communicate” state-wide and thus was difficult to use for checking credentials. In fall 2010, a new web-based design was implemented that is much more user-friendly for data entry and also is available state-wide to check credentials. So, if a medication aide would move from the Joplin area, for instance, to St. Louis and began working for a provider, someone in St. Louis could check the data base to verify current Medication Aide certification.

ii. Describe the process to periodically evaluate, as appropriate, the Quality Improvement Strategy.

There are several points at which the quality improvement strategy is evaluated. As data is reported at the identified intervals, data integrity and fidelity of the review processes are also evaluated. This allows an opportunity to impact design of the quality strategy, discovery processes, remediation effectiveness and methods, and prioritizing for systems improvement.

Each quarter at both the regional and state level, the results of the discovery processes are reported. This is also an opportunity to note changes, trends, and to identify if those trends indicate a need for updating the quality improvement strategy.

The results of the QI strategy is also combined with information from a variety of activities and stakeholder input that occurs within the Division and the Department of Mental Health. For example, the Department participated in a personal planning grant which spanned both the Division of DD and Division of Comprehensive Services. The DD data related to the service planning assurances, gathered by the service plan review process, in addition to stakeholder meetings for the grant identified an opportunity to improve the planning process. Changes to the person-centered planning guidelines were achieved and also supported a risk assessment and mitigation component. This then circled back into revising some of the information asked in the discovery process for the service planning assurance – service plan review.

The state Quality Enhancement Leadership Team reviews trends every quarter and is responsible for identifying patterns or trends that would indicate need for changing of the strategy and/or activities supporting the implementation of the quality improvement strategy. Another example to illustrate this is the use of the EMT and classifying incidents accurately. Through the quarterly reporting process, the overuse of the category of “other” for incident type was identified. Since this system is an integral component of the quality improvement strategy, accurate data is crucial for identifying needed action. A two year project of intense review of how incidents were classified and technical assistance with regional QE staff and data entry personnel resulted in reducing the use of the category of “other” by 83%, and this category now is used for only about 2% of all reported incidents/injuries.

Another example of impacting the quality improvement strategy is the regional office review of level of care, where they are now able to pull reports at the regional level to internally monitor and correct inaccuracies in data entry errors. The remediation is completed prior to the quarterly data extraction. This is a more proactive strategy rather than reactive.

On an annual basis, the quality improvement strategy is evaluated and summarized in the annual report. When changes are needed, objectives are outlined and strategies to meet those objectives are identified and assigned. The information is presented to Division of DD management.

Appendix I: Financial Accountability

I-1: Financial Integrity and Accountability

Financial Integrity. Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

a) Requirements concerning the independent audit of provider agencies:

Contract providers that provide services to individuals who participate in 1915(c) waivers administered by the Division of Developmental Disabilities are not considered sub-recipients as defined in United States Office of Management and Budget (OMB) Circular A-133 Section 210(b) since they do not have responsibility for determining program and service eligibility and they do not make programmatic decisions.

Division of Developmental Disability contract providers that expend \$500,000 or more in federal grant funds received from the Department are required by the Department of Mental Health (DMH) contract to have an annual audit conducted in accordance with United States Office of Management and Budget (OMB) Circular A-133. The reporting package specified in OMB A-133 must be filed with the DMH. Division of Developmental Disabilities (Division of DD) rate setting staff receives and reviews this information. All other providers are encouraged to voluntarily submit independent audit reports to the Division of Developmental Disabilities rate setting staff for review for any deficiencies and are maintained for future reference. All providers are required to submit an annual Uniform Cost Report to the Division. The reports are maintained and referenced when rate adjustments are requested.

Expenditures for this waiver are subject to the State of Missouri Single Audit conducted by the Missouri State Auditor's Office. Audits may be conducted by the Audit Services Unit of the Department of Mental Health upon request. Audits may be requested by the Director of the Department of Mental Health or the Director of the Division of Developmental Disabilities based upon monitoring results, recommendations from Regional Offices, reports from provider staff, reports from the general public, etc.

b) As per the memorandum of understanding (MOU) between the Department of Mental Health (DMH) and the Department of Social Services (DSS) effective September 2011 there is a Medicaid Audit and Compliance Unit (MMAC) within DSS which directly manages and administers Medicaid program integrity, audit and compliance, and Medicaid provider contracts. The Division of DD is the division within DMH responsible for provision of services to individuals with developmental disabilities. Division of DD provides Targeted Case Management and waiver services as part of their service delivery. MMAC and Division of DD work in conjunction with regard to assuring program integrity, audit and compliance for Medicaid services. More specifically MMAC conducts provider reviews to ensure provider qualifications and services rendered in accordance and compliance with the Medicaid Program, the service plan, waiver services program, and all applicable federal and state laws and regulations. MMAC will also conduct internal audits of Division of DD enrolled Medicaid waiver providers to ensure payments comply with home and community based waiver assurances.

c) Agency (or agencies) responsible for conducting the financial audit program:

1. MO HealthNet and MMAC review a sample of waiver provider billings annually and conducts compliance audits, at least every two years, in which documentation of services provided is reviewed to ensure services billed to MHD were provided and documented as required (13 CSR 70.3); the MMIS includes edits to ensure appropriate payments.

2. Department of Mental Health, Office of Audit Services, conducts financial audits upon referral from Division of DD Administrative staff or Regional Office staff, based on information from routine fiscal reviews, complaints from stakeholders or misuse of funds allegations. This entity does not conduct routine financial reviews.

3. State Auditor's Office conducts financial audits under the Single State Audit or based on information from stakeholders.

As part of the Medicaid provider enrollment process, all waived service providers are required to have a Department of Mental Health Purchase of Service contract. The Department of Mental Health serves as the billing agent on behalf of all waiver service providers since the Department maintains the prior authorization system. This process pertains to all waiver services which are all prior authorized.

The Division of DD's automated network allows case managers to request services identified in the individual's service plan. Before services are authorized, all new plans and plans requesting increased services must go through the Regional Office's Utilization Review process for approval. Approved services are input in the prior authorization system.

The automated prior authorization system creates an invoice for the provider from authorized/approved services. Using a personal computer and modem, the provider can access the invoice electronically and bill for authorized services that have been delivered. Division of DD regional office staff print and review an edit report of services providers have input as delivered to determine if any adjustments are necessary. After determining services input appear accurate, the claim data is submitted to the Medicaid Agency's fiscal agent for processing.

Claims are submitted electronically to the MO HealthNet fiscal agent and are subjected to appropriate edits in the MMIS system to ensure that payment is made only on behalf of those clients who are Medicaid eligible, and to providers who are enrolled, on the date a service was delivered. The provider subsequently receives payment directly from the Medicaid Agency as reimbursement for services rendered. A remittance advice indicating the disposition of billed services accompanies the provider's reimbursement.

The audit trail consists of documents located in the Department of Mental Health, Division of DD regional offices, MO HealthNet Division, and with the provider of service. The Division of DD regional offices maintain the individual service plan. Corresponding plans of care are maintained in the automated systems at regional offices, along with invoices for authorized services. The Division of DD also maintains billed claim data for all claims submitted to MO HealthNet, Medicaid remittance advices, and a history of authorized and paid

services by fiscal year. The information collected and maintained by the Medicaid agency's MMIS system includes: copies of all paid and denied claims; Medicaid remittance advices; and eligibility information on each individual served.

Providers are required to maintain financial records and service documentation on each person served in the waiver including the name of the recipient, the recipient's Medicaid identification number, the name of the individual provider who delivered the service, the date that the service was rendered, the units of service provided, the place of service, attendance and census data collection, progress notes and monthly summaries.

Appendix I: Financial Accountability

Quality Improvement: Financial Accountability

As a distinct component of the State's quality improvement strategy, provide information in the following fields to detail the State's methods for discovery and remediation.

a. Methods for Discovery: Financial Accountability

State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver. (For waiver actions submitted before June 1, 2014, this assurance read "State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver.")

i. Sub-Assurances:

- a. ***Sub-assurance: The State provides evidence that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver and only for services rendered. (Performance measures in this sub-assurance include all Appendix I performance measures for waiver actions submitted before June 1, 2014.)***

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of paid claims properly coded for the given waiver (Number of paid claims properly coded for the given waiver divided Number of paid claims for the given waiver)

Data Source (Select one):

Other

If 'Other' is selected, specify:

Medicaid Paid Claims

- ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.
1. All waiver services are prior authorized. All approved waiver services for waiver-enrolled persons are input into the prior authorization system in CIMOR. DMH serves as the billing agent on behalf of all waiver service providers since DMH maintains the prior authorization system. The automated prior authorization system creates an invoice for the provider from authorized/approved services. The provider can securely access the invoice to enter the approved services delivered. Claims are submitted electronically to MO HealthNet fiscal agent and subject to the appropriate edits in MMIS to include persons were Medicaid eligible and providers were actively enrolled with MO HealthNet on date of service.
 2. Prior authorized services include the rate that is authorized. Only the amount authorized can be paid.
 3. Payment is not made through the MMIS unless a valid waiver procedure code has been authorized and billed.

b. Methods for Remediation/Fixing Individual Problems

- i. Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

1) For performance measure I.i.a.i.1, any claims billed to MO HealthNet that are not covered waiver services will be adjusted so that reimbursement is returned to MO HealthNet.

2) Performance measure I.i.a.i.2 involves tracking on a quarterly basis to ensure paid claims for an individual service recipient are applied to the waiver with which he or she is enrolled on each date of service. This is verified by comparing the date of service and eligible dates for the individual in receipt of the waiver. Any service claims paid for the individual outside of the eligibility dates will be returned to MO HealthNet.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

Responsible Party <i>(check each that applies):</i>	Frequency of data aggregation and analysis <i>(check each that applies):</i>
☐ State Medicaid Agency	☐ Weekly
☒ Operating Agency	☐ Monthly
☐ Sub-State Entity	☐ Quarterly
☐ Other Specify: 	☐ Annually
	☒ Continuously and Ongoing
	☐ Other Specify:

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Financial Accountability that are currently non-operational.

☒ No

☐ Yes

Please provide a detailed strategy for assuring Financial Accountability, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (1 of 3)

- a. Rate Determination Methods.** In two pages or less, describe the methods that are employed to establish provider payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).

Each Division of DD Regional Office has Provider Relations staff assigned to work with Division of DD Waiver Providers. The rate methodology for each group of services is described below. All services may be adjusted for inflation, cost and/or utilization. A maximum allowable for each service is calculated and is applied across all areas of the State. If a maximum allowable is not sufficient in one part of the state, it is adjusted for the entire state.

Day Services: This includes Community Integration, Day Habilitation, Individual Skills Development and agency-based Personal Assistance. Division provider relations staff work with interested providers on completing their current or projected costs detail. The forms in the packet allow the potential provider to report its cost to provide a specific waiver service. The reported costs are reviewed by staff. Each provider's rate is set based on reported costs with the condition the rate must not exceed the maximum allowable set by the state for that particular service code.

Personal Assistance - Self Directed: This includes individual personal assistance, medical/behavioral personal assistance, team conference and self-directed support broker. Employers (families, individuals, guardians) are given a budget that is based on the determined hours needed of the individual at the average agency personal assistance rate by region of the state. The employer sets the actual rate of the direct care staff based on local wages and other factors so long as they stay within their budget. The per-unit cost

cannot exceed the maximum allowable set by the state.

Respite Care In Home rates are set by Division provider relations staff who work with interested providers on completing their current or projected costs detail. The forms in the packet allow the potential provider to report its cost to provide a specific respite service. The reported costs are reviewed by staff. Each provider's rate is set based on reported costs with the condition the rate must not exceed the maximum allowable set by the state for that particular service code.

Out of home respite: Division provider relations staff work with interested providers on completing their current or projected costs. The forms in the packet allow the potential provider to report its cost to provide a specific waiver service. The reported costs are reviewed by staff. Each provider's rate is set based on reported costs with the condition the rate must not exceed the maximum allowable set by the state for that particular service code. The maximum allowable rate is based on previous experience and existing waiver residential provider rates where the services are delivered most frequently.

Day Habilitation Behavioral is paid a flat rate to all providers statewide. The methodology to establish this rate is as follows: The hourly rate is calculated by using an average salary for a licensed behavior technician plus an amount for fringe to cover health exchange Gold plan, 7.65% FICA and 10 leave days. Agency overhead equal to 15% of base salary is added to the total salary to cover the physical plant and administration. An additional amount is added to the direct staff cost for Licensed Behavior Analyst oversight. The total compensation package is divided by a number of hours for a full time equivalent adjusted by a utilization factor to account for non-billable hours.

Day Habilitation Medical is paid a flat rate to all providers statewide. The methodology to establish this rate is as follows: The hourly rate is calculated by using the US median salary for an LPN adjusted slightly for Missouri. Fringe of approximately 29% is added to the base salary to cover health exchange Gold plan, 7.65% FICA, 10 leave days, and CNA certification expenses. Agency overhead equal to 15% of base salary is added to the total salary to cover the physical plant and administration. The total compensation package is divided by 2,080 hours to develop the hourly cost of the CNA/LPN. An additional per hour cost for RN oversight is added to the CNA/LPN rate and the new total is divided by the annual average per person units of day habilitation based on actual utilization. The hourly rate is divided into four 15 minute increments for billing purposes.

Transportation rates are set based on cost-based bids submitted by providers who for specific routes and regions. Provider Relations staff use these costs to establish a rate per unit. The unit may be computed as per mile, per trip or some other unit but are billed as a monthly total based on actual utilization so long as the total monthly amount does not exceed the maximum allowable set by the state.

Behavior Services: Includes Behavior Identification Assessment, Observational Behavioral Follow-Up Assessment, Exposure Behavioral Assessment, Exposure Behavior Follow-Up Assessment, Adaptive Behavior Treatment with Protocol Modification, Exposure Adaptive Behavior Treatment with Protocol Modification, Adaptive Behavior Treatment by Protocol by Technician, Family Behavior Treatment Guidance, and Behavior Treatment Social Skills.

The unit rate for services provided by a licensed behavior analyst (LBA), a psychologist, or other Qualified Health Care Professional was calculated at an amount for 30 minutes of service.

This calculation is based on a combined highest range of salary of Licensed Behavior Analysts per MO Office of Administration Merit Classification) and the highest range of salary for Psychologists II MO Office of Administration Merit Classification), adding an administrative fee rate used by the University of MO for fringe benefits, calculated 50 billable hours for psychologists and 44% billable hours for Licensed Behavior Analysts (6% difference from psychologist's billable hours attributed to travel) using a full time equivalent work year of 2080 hours.

The unit rate for services provided by a licensed assistant behavior analyst or a registered behavior technician was calculated at an amount for 30 minutes of service.

This calculation is commensurate with a rate set for behavioral personal assistance (discontinued with this waiver renewal). The education and experience required for behavioral personal assistance is similar to that required for the registered behavior technician.

Supported Employment reimbursement rates are a flat rate paid to all providers statewide. The rate was established based on the costs associated with increased staff training.

Prevocational Services, Job Development and Career Planning reimbursement rates are a flat rate paid to all providers statewide. These rates were established based on the costs associated with increased staff training. The state included costs associated with employment service professional salaries from other state agencies, adding an administrative fee rate used by the University of MO for fringe benefits, training fees and training hours, billable hours including travel time.

Professional Services such as Professional Assessment and Monitoring, Physical Therapy, Occupational Therapy, Speech Therapy, Support Broker, Community Specialist, and Counseling reimbursement rates are set at the Medicaid Waiver cap. These rates were established based on the expertise required of the professional/semi-professional and comparable to rates of existing similar state plan counseling services.

Crisis Intervention rates are set by Division provider relations who work with interested providers on completing their current or projected costs detail. The forms in the packet allow the potential provider to report its cost to provide the service. The reported costs are reviewed by staff. Each provider's rate is set based on reported costs with the condition the rate must not exceed the maximum

allowable set by the state for that particular service code.

Community Transition is the actual cost of one-time services that meet the service definition presented by the provider of residential services and approved by the regional office.

Special Equipment, Supplies and Services: For environmental accessibility adaptations, specialized medical equipment and supplies and Assistive Technology a flat rate is not used. Bids or estimates of cost for a job, equipment, or supplies are obtained from two or more providers the individual chooses. A dollar amount is authorized for the provider with the lowest and best price if the price is reasonable based on the purchase experience of the regional office of similar jobs, equipment or supplies and does not exceed the annual maximum allowed for the service.

Individuals, providers, and other stakeholders have an opportunity to make public comments to the Division of DD, MO Healthnet, and elected officials on rates and methodology for rate setting during annual legislative hearings in preparation for the appropriation process. Providers and other stakeholders may provide comment to the Division of DD Director or Department of Mental Health Director at any time regarding rates by writing a letter or during public meetings.

During the person centered planning process when service providers are selected, the participant is informed of provider rates. Also, participants are given a copy of their approved budget which contains the rate for each service they are approved to receive.

For non-residential services, if an individual requests a provider that has a higher rate, a new budget is prepared for the individual. The new budget is sent to the UR Committee.

All maximum allowable rates are approved by MO Healthnet.

- b. Flow of Billings.** Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the State's claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

The Division of DD's automated consumer information system allows staff to request prior authorization of services identified in the plan of care. Before services are prior authorized by the Regional Office, the service plan must go through the regional office's utilization review process if the plan is new or requests an increase in service.

Since the prior authorization system resides in the Department of Mental Health's information system, waiver providers are required to submit claims for services they provide through the operating agency's billing system and may not bill claims directly to MO HealthNet fiscal agent.

The operating agency's automated system creates an invoice for the provider from authorized/approved services. Using a personal computer and internet connection, the provider can access the invoice electronically and bill for authorized services that have been delivered. Division of DD Regional Office staff review edit reports of services providers have input as delivered to determine if any adjustments are necessary. After determining services input appear accurate, staff with the regional office submit the claims to the Department's billing system for transfer to MO HealthNet's fiscal agent.

The ASC X12N 837 Health Care Claim format is used for billing waiver services. Claims submitted electronically are subjected to appropriate edits in the MMIS system to ensure that payment is made only on behalf of participants who are MO HealthNet eligible, and to providers who are enrolled, on the date a service was delivered. The provider receives a remittance advice indicating the disposition of billed services and any reimbursement due, directly from MO HealthNet. The Division of DD also receives copies of remittance advices since the state share paid to providers is the Department's responsibility. The Division of DD is appropriated funds for the state share of waiver service programs it administers. As claims are adjudicated in the MMIS, Division of DD administratively transfers authority to MO HealthNet to access the state share portion of the payment made for waiver services from this appropriation.

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (2 of 3)

- c. Certifying Public Expenditures** (*select one*):

- ☒ **No. State or local government agencies do not certify expenditures for waiver services.**
- ☐ **Yes. State or local government agencies directly expend funds for part or all of the cost of waiver services and certify their State government expenditures (CPE) in lieu of billing that amount to Medicaid.**

Select at least one:

- ☐ **Certified Public Expenditures (CPE) of State Public Agencies.**

Specify: (a) the State government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). *(Indicate source of revenue for CPEs in Item I-4-a.)*

☐ **Certified Public Expenditures (CPE) of Local Government Agencies.**

Specify: (a) the local government agencies that incur certified public expenditures for waiver services; (b) how it is assured that the CPE is based on total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). *(Indicate source of revenue for CPEs in Item I-4-b.)*

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (3 of 3)

- d. Billing Validation Process.** Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant's approved service plan; and, (c) the services were provided:

(a) Waiver providers must submit bills through the Department of Mental Health where the Division of DD's prior authorization system resides. Claims must successfully process through the prior authorization system before the Department sends the claims to the MO HealthNet fiscal agent for processing through the MMIS claims processing system. There are edits within the MMIS to verify eligibility for each date of service before the system approves payment to the provider. If an individual is not eligible for any date of service, the MMIS claims processing system does not allow payment to the provider for periods of ineligibility.

(b)&(c) Billing validation to determine if services are provided is done once a year as part of MO HealthNet's review of a sample of waiver participants. Part of the process is to review the plan and ensure all service needs have been provided and that all services provided were included in the plan. Further, providers who received payment for services to participants selected for the review are contacted by Missouri Medicaid Audit and Compliance and must provide documentation that services were delivered. The Division of DD conducts a financial review of provider payments annually to ensure the provider has evidence/documentation that a sample of services were provided. Only authorized services are paid. Payment is made directly to the provider of services.

- e. Billing and Claims Record Maintenance Requirement.** Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR §92.42.

Appendix I: Financial Accountability

I-3: Payment (1 of 7)

- a. Method of payments -- MMIS (select one):**

- ☒ **Payments for all waiver services are made through an approved Medicaid Management Information System (MMIS).**
☐ **Payments for some, but not all, waiver services are made through an approved MMIS.**

Specify: (a) the waiver services that are not paid through an approved MMIS; (b) the process for making such payments and the entity that processes payments; (c) and how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- ☐ **Payments for waiver services are not made through an approved MMIS.**

Specify: (a) the process by which payments are made and the entity that processes payments; (b) how and through which system(s) the payments are processed; (c) how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d)

the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- ☐ **Payments for waiver services are made by a managed care entity or entities. The managed care entity is paid a monthly capitated payment per eligible enrollee through an approved MMIS.**

Describe how payments are made to the managed care entity or entities:

Appendix I: Financial Accountability

I-3: Payment (2 of 7)

- b. Direct payment.** In addition to providing that the Medicaid agency makes payments directly to providers of waiver services, payments for waiver services are made utilizing one or more of the following arrangements (*select at least one*):

- ☐ **The Medicaid agency makes payments directly and does not use a fiscal agent (comprehensive or limited) or a managed care entity or entities.**
- ☒ **The Medicaid agency pays providers through the same fiscal agent used for the rest of the Medicaid program.**
- ☐ **The Medicaid agency pays providers of some or all waiver services through the use of a limited fiscal agent.**

Specify the limited fiscal agent, the waiver services for which the limited fiscal agent makes payment, the functions that the limited fiscal agent performs in paying waiver claims, and the methods by which the Medicaid agency oversees the operations of the limited fiscal agent:

- ☐ **Providers are paid by a managed care entity or entities for services that are included in the State's contract with the entity.**

Specify how providers are paid for the services (if any) not included in the State's contract with managed care entities.

Appendix I: Financial Accountability

I-3: Payment (3 of 7)

- c. Supplemental or Enhanced Payments.** Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to States for expenditures for services under an approved State plan/waiver. Specify whether supplemental or enhanced payments are made. *Select one:*

- ☒ **No. The State does not make supplemental or enhanced payments for waiver services.**
- ☐ **Yes. The State makes supplemental or enhanced payments for waiver services.**

Describe: (a) the nature of the supplemental or enhanced payments that are made and the waiver services for which these payments are made; (b) the types of providers to which such payments are made; (c) the source of the non-Federal share of the supplemental or enhanced payment; and, (d) whether providers eligible to receive the supplemental or enhanced payment retain 100% of the total computable expenditure claimed by the State to CMS. Upon request, the State will furnish CMS with detailed information about the total amount of supplemental or enhanced payments to each provider type in the waiver.

Appendix I: Financial Accountability

I-3: Payment (4 of 7)

d. Payments to State or Local Government Providers. *Specify whether State or local government providers receive payment for the provision of waiver services.*

- ☐ **No. State or local government providers do not receive payment for waiver services.** Do not complete Item I-3-e.
- ☒ **Yes. State or local government providers receive payment for waiver services.** Complete Item I-3-e.

Specify the types of State or local government providers that receive payment for waiver services and the services that the State or local government providers furnish:

Some County Entities are reimbursed as waiver service providers, as well as Division of DD Regional Offices and habilitation centers. Out of Home Respite services may be provided as a direct service by a County Entity, or a habilitation center. County Entities and Regional Offices may also provide the following services as a direct service: residential habilitation, ISL, day habilitation, in-home respite, personal assistant, support broker, community professional, supported employment, prevocational services, job discovery, crisis intervention, counseling, behavior analysis services, speech therapy, occupational therapy, physical therapy, professional assessment and monitoring, , environmental accessibility adaptations, specialized medical equipment and supplies, assistive technology, agency with choice fiscal management service, or transportation. The County Entity or Regional Office must have staff qualified to provide the service and must have been chosen by the participant to provide the service.

Both County Entities and Regional Offices are more likely to provide waiver services under the OHCDs option, sub-contracting for waiver services from otherwise qualified providers that have chosen not to enroll as a MO HealthNet (Medicaid) provider.

Appendix I: Financial Accountability

I-3: Payment (5 of 7)

e. Amount of Payment to State or Local Government Providers.

Specify whether any State or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed its reasonable costs of providing waiver services and, if so, whether and how the State recoups the excess and returns the Federal share of the excess to CMS on the quarterly expenditure report. *Select one:*

- ☒ **The amount paid to State or local government providers is the same as the amount paid to private providers of the same service.**
- ☐ **The amount paid to State or local government providers differs from the amount paid to private providers of the same service. No public provider receives payments that in the aggregate exceed its reasonable costs of providing waiver services.**
- ☐ **The amount paid to State or local government providers differs from the amount paid to private providers of the same service. When a State or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the State recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.**

Describe the recoupment process:

Appendix I: Financial Accountability

I-3: Payment (6 of 7)

f. Provider Retention of Payments. Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by states for services under the approved waiver. *Select one:*

- ☒ **Providers receive and retain 100 percent of the amount claimed to CMS for waiver services.**
- ☐ **Providers are paid by a managed care entity (or entities) that is paid a monthly capitated payment.**

Specify whether the monthly capitated payment to managed care entities is reduced or returned in part to the State.

Appendix I: Financial Accountability

I-3: Payment (7 of 7)

g. Additional Payment Arrangements

i. Voluntary Reassignment of Payments to a Governmental Agency. *Select one:*

- ☒ **No. The State does not provide that providers may voluntarily reassign their right to direct payments to a governmental agency.**
- ☐ **Yes. Providers may voluntarily reassign their right to direct payments to a governmental agency as provided in 42 CFR §447.10(e).**

Specify the governmental agency (or agencies) to which reassignment may be made.

ii. Organized Health Care Delivery System. *Select one:*

- ☐ **No. The State does not employ Organized Health Care Delivery System (OHCDS) arrangements under the provisions of 42 CFR §447.10.**
- ☒ **Yes. The waiver provides for the use of Organized Health Care Delivery System arrangements under the provisions of 42 CFR §447.10.**

Specify the following: (a) the entities that are designated as an OHCDS and how these entities qualify for designation as an OHCDS; (b) the procedures for direct provider enrollment when a provider does not voluntarily agree to contract with a designated OHCDS; (c) the method(s) for assuring that participants have free choice of qualified providers when an OHCDS arrangement is employed, including the selection of providers not affiliated with the OHCDS; (d) the method(s) for assuring that providers that furnish services under contract with an OHCDS meet applicable provider qualifications under the waiver; (e) how it is assured that OHCDS contracts with providers meet applicable requirements; and, (f) how financial accountability is assured when an OHCDS arrangement is used:

a) Entities that may be designated as an OHCDS are Division of DD Regional Offices and other MO HealthNet service providers that meet the requirements set forth in 42 CFR 447.10, and desire to serve as an OHCDS. There are no restrictions as to waiver services that may be provided under this option as long as all applicable provider standards are met for that service. State operated DD Regional Offices, County Boards, and designated not-for-profit entities provide Medicaid State Plan targeted case management. They have systems capable of contracting and paying other providers directly. Other waiver providers of MO HealthNet services may also elect to become an OHCDS provider if they are approved by the local Regional Office and have systems capable of contracting with and paying waiver service providers directly and meet the assurances. The ability to contract directly with providers allows consumers and families to select and develop or train individuals they want to deliver services and care, thereby increasing the consumer's self determination. The OHCDS option also enhances the availability and responsiveness of the service delivery system for consumers and their families.

(b) Any qualified provider of a waiver service may enroll directly with MO HealthNet as a Division of DD waiver provider. Providers are not required to provide services through an OHCDS arrangement. The OHCDS option allows consumers and families the ability to select and develop or train individuals they want to deliver services and care, thereby increasing the consumer's self determination. The OHCDS option also enhances the availability and responsiveness of the service delivery system for consumers and their families. Completing the enrollment process through the MO HealthNet program can take time. Contracting with an OHCDS qualified entity may be an expedient way to get services started. The option expands provider choice for consumers and families.

(c) Participants have free choice of qualified providers and are not required to access services through an OHCDS entity/arrangement. Providers are not required to contract with OHCDS entities, but may do so by choice. Qualified providers may enroll with MO HealthNet as a Waiver provider.

(d) Provider agencies that have OHCDS designation have a specialized contract with the Department of Mental Health and with MO HealthNet. The agreement specifies the following:

- Individual providers and agency providers are not required to contract with an OHCDs under the waiver.
- All persons or agencies which do contract with an OHCDs to provide waiver services must meet the same requirements and qualifications as apply to providers enrolled directly with the Medicaid agency.
- No OHCDs or contractor will be allowed to limit a recipient's free choice of provider.
- Any state entity wishing to be designated an OHCDs must agree to bill the Medicaid program no more than its cost.
- All contracts executed by an OHCDs, and all subcontracts executed by its contractors, to provide waiver services, must meet the applicable requirements of 42 CFR 434.6 and 45 CFR Part 74, appendix G.

(e) MO HealthNet is responsible for enrolling all waiver providers as Missouri Medicaid providers. A standard provider qualification for each waiver provider is that the provider have an active contract to provide waiver services for the Division of DD. This contract is required along with other MO HealthNet provider enrollment forms and any other proof of license or other credential in order for the provider to enroll as a Missouri Medicaid provider of waiver services.

In addition, Service Coordinators inform individuals of qualified providers and assist individuals in exercising choice. Regional Offices use the OHCDs option to expand choice by contracting or until the provider enrollment process is completed.

(f) Regional Offices bill the same amount to MO HealthNet as the Regional Office paid the contract provider. Missouri Medicaid Audit and Compliance (MMAC) has the responsibility for reviewing paid claims. MMAC reviews paid claims by provider type or by specialty type if the provider type is too broad in scope. They randomly select a sample within a set timeframe. Providers must maintain sufficient documentation to prove they provided services for which they were paid by MO HealthNet. In addition, all services are prior authorized to qualified providers, by Regional Offices. Service Coordinators monitor services to determine if the services authorized in the plan are being received and if the services are meeting the individual's needs.

iii. **Contracts with MCOs, PIHPs or PAHPs.** *Select one:*

- ☒ **The State does not contract with MCOs, PIHPs or PAHPs for the provision of waiver services.**
- ☐ **The State contracts with a Managed Care Organization(s) (MCOs) and/or prepaid inpatient health plan(s) (PIHP) or prepaid ambulatory health plan(s) (PAHP) under the provisions of §1915(a)(1) of the Act for the delivery of waiver and other services. Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the State Medicaid agency.**

Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

- ☐ **This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.**

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (1 of 3)

a. **State Level Source(s) of the Non-Federal Share of Computable Waiver Costs.** Specify the State source or sources of the non-federal share of computable waiver costs. *Select at least one:*

- ☐ **Appropriation of State Tax Revenues to the State Medicaid agency**
- ☒ **Appropriation of State Tax Revenues to a State Agency other than the Medicaid Agency.**

If the source of the non-federal share is appropriations to another state agency (or agencies), specify: (a) the State entity or agency receiving appropriated funds and (b) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if the funds are directly expended by State agencies as CPEs, as indicated in Item I-2-c:

a) The non-federal share is appropriated to Department of Mental Health, Division of DD from General Revenue and Mental Health Local Tax Fund.

b) The State utilizes Intergovernmental Transfers (IGT). Funds from any local government (County Boards) are deposited into the

Mental Health Local Tax Fund with Division of DD, and expenditures for the State share for services in their county are made through Division of DD appropriations. MO HealthNet through the use of IGT directly accesses the Division of DD appropriations when making payments to providers. In addition, funds used for the state share for services delivered by private providers are also made through an IGT process from DMH general revenue appropriations.

☐ **Other State Level Source(s) of Funds.**

Specify: (a) the source and nature of funds; (b) the entity or agency that receives the funds; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by State agencies as CPEs, as indicated in Item I-2-c:

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (2 of 3)

- b. Local Government or Other Source(s) of the Non-Federal Share of Computable Waiver Costs.** Specify the source or sources of the non-federal share of computable waiver costs that are not from state sources. *Select One:*

☐ **Not Applicable.** There are no local government level sources of funds utilized as the non-federal share.

☒ **Applicable**

Check each that applies:

☒ **Appropriation of Local Government Revenues.**

Specify: (a) the local government entity or entities that have the authority to levy taxes or other revenues; (b) the source(s) of revenue; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement (indicate any intervening entities in the transfer process), and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

a) Some Missouri Counties have passed laws that give them authority to levy taxes for residents who have developmental disabilities. Legislation which allows an individual county to create a local DD authority and through a vote of the citizens of the County collect a special tax levied on property up to 40 cents per hundred dollars valuation on property. RSMo 205.968-205.973 is the statutory reference.

b) The source of their revenue is the special tax on property.

c) Funds from any local government (County Boards) are deposited into the Mental Health Local Tax Fund with Division of DD, and expenditures for the State share for services in their county are made through Division of DD appropriations. MO HealthNet through the use of IGT directly accesses the Division of DD appropriations when making payments to providers.

☐ **Other Local Government Level Source(s) of Funds.**

Specify: (a) the source of funds; (b) the local government entity or agency receiving funds; and, (c) the mechanism that is used to transfer the funds to the State Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (3 of 3)

- c. Information Concerning Certain Sources of Funds.** Indicate whether any of the funds listed in Items I-4-a or I-4-b that make up the non-federal share of computable waiver costs come from the following sources: (a) health care-related taxes or fees; (b) provider-related donations; and/or, (c) federal funds. *Select one:*

☒ **None of the specified sources of funds contribute to the non-federal share of computable waiver costs**

☐ **The following source(s) are used**

Check each that applies:

- ☐ **Health care-related taxes or fees**
- ☐ **Provider-related donations**
- ☐ **Federal funds**

For each source of funds indicated above, describe the source of the funds in detail:

Appendix I: Financial Accountability

I-5: Exclusion of Medicaid Payment for Room and Board

a. Services Furnished in Residential Settings. *Select one:*

- ☐ No services under this waiver are furnished in residential settings other than the private residence of the individual.
- ☒ As specified in Appendix C, the State furnishes waiver services in residential settings other than the personal home of the individual.

b. Method for Excluding the Cost of Room and Board Furnished in Residential Settings. The following describes the methodology that the State uses to exclude Medicaid payment for room and board in residential settings:

The only service that is provided in a residential setting is Out of Home Respite. Federal Financial Participation may be claimed for the cost of room and board when it is provided in a facility approved by the State that is not a private residence for temporary residential care.

Appendix I: Financial Accountability

I-6: Payment for Rent and Food Expenses of an Unrelated Live-In Caregiver

Reimbursement for the Rent and Food Expenses of an Unrelated Live-In Personal Caregiver. *Select one:*

- ☒ No. The State does not reimburse for the rent and food expenses of an unrelated live-in personal caregiver who resides in the same household as the participant.
- ☐ Yes. Per 42 CFR §441.310(a)(2)(ii), the State will claim FFP for the additional costs of rent and food that can be reasonably attributed to an unrelated live-in personal caregiver who resides in the same household as the waiver participant. The State describes its coverage of live-in caregiver in Appendix C-3 and the costs attributable to rent and food for the live-in caregiver are reflected separately in the computation of factor D (cost of waiver services) in Appendix J. FFP for rent and food for a live-in caregiver will not be claimed when the participant lives in the caregiver's home or in a residence that is owned or leased by the provider of Medicaid services.

The following is an explanation of: (a) the method used to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver and (b) the method used to reimburse these costs:

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (1 of 5)

a. Co-Payment Requirements. Specify whether the State imposes a co-payment or similar charge upon waiver participants for waiver services. These charges are calculated per service and have the effect of reducing the total computable claim for federal financial participation. *Select one:*

- ☒ No. The State does not impose a co-payment or similar charge upon participants for waiver services.
- ☐ Yes. The State imposes a co-payment or similar charge upon participants for one or more waiver services.
 - i. Co-Pay Arrangement.**

Specify the types of co-pay arrangements that are imposed on waiver participants (*check each that applies*):

Charges Associated with the Provision of Waiver Services (if any are checked, complete Items I-7-a-ii through I-7-a-iv):

- ☐ **Nominal deductible**
- ☐ **Coinsurance**
- ☐ **Co-Payment**
- ☐ **Other charge**

Specify:

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (2 of 5)

- a. Co-Payment Requirements.**
 - ii. Participants Subject to Co-pay Charges for Waiver Services.**

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (3 of 5)

- a. Co-Payment Requirements.**
 - iii. Amount of Co-Pay Charges for Waiver Services.**

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (4 of 5)

- a. Co-Payment Requirements.**
 - iv. Cumulative Maximum Charges.**

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (5 of 5)

- b. Other State Requirement for Cost Sharing.** Specify whether the State imposes a premium, enrollment fee or similar cost sharing on waiver participants. *Select one:*

- ☒ **No. The State does not impose a premium, enrollment fee, or similar cost-sharing arrangement on waiver participants.**
- ☐ **Yes. The State imposes a premium, enrollment fee or similar cost-sharing arrangement.**

Describe in detail the cost sharing arrangement, including: (a) the type of cost sharing (e.g., premium, enrollment fee); (b) the amount of charge and how the amount of the charge is related to total gross family income; (c) the groups of participants subject to cost-sharing and the groups who are excluded; and, (d) the mechanisms for the collection of cost-sharing and reporting the amount collected on the CMS 64:

Appendix J: Cost Neutrality Demonstration

J-1: Composite Overview and Demonstration of Cost-Neutrality Formula

Composite Overview. Complete the fields in Cols. 3, 5 and 6 in the following table for each waiver year. The fields in Cols. 4, 7 and 8 are auto-calculated based on entries in Cols 3, 5, and 6. The fields in Col. 2 are auto-calculated using the Factor D data from the J-2-d Estimate of Factor D tables. Col. 2 fields will be populated ONLY when the Estimate of Factor D tables in J-2-d have been completed.

Level(s) of Care: ICF/IID

Col. 1	Col. 2	Col. 3	Col. 4	Col. 5	Col. 6	Col. 7	Col. 8
Year	Factor D	Factor D'	Total: D+D'	Factor G	Factor G'	Total: G+G'	Difference (Col 7 less Column4)
1	15969.45	13527.67	29497.12	203975.62	4896.55	208872.17	179375.05

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (1 of 9)

- a. **Number Of Unduplicated Participants Served.** Enter the total number of unduplicated participants from Item B-3-a who will be served each year that the waiver is in operation. When the waiver serves individuals under more than one level of care, specify the number of unduplicated participants for each level of care:

Table: J-2-a: Unduplicated Participants

Waiver Year	Total Unduplicated Number of Participants (from Item B-3-a)	Distribution of Unduplicated Participants by Level of Care (if applicable)	
		Level of Care:	
		ICF/IID	
Year 1	2854		2854
Year 2	3254		3254
Year 3	3654		3654
Year 4	4054		4054
Year 5	4454		4454

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (2 of 9)

- b. **Average Length of Stay.** Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.

Most recent FY14 372 report was used to estimate the average length of stay which was 150.9 days.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (3 of 9)

- c. **Derivation of Estimates for Each Factor.** Provide a narrative description for the derivation of the estimates of the following factors.

- i. **Factor D Derivation.** The estimates of Factor D for each waiver year are located in Item J-2-d. The basis for these estimates is as follows:

Factor D projections are based on actual service utilization data from the FY 14 CMS 372 report. This information was applied to the total slots available in the waiver renewal. The unit costs for each waiver service were projected forward using a 1% projected rate increase for years 1 – 5 of the waiver application based on historical COLA funding appropriated from the General Assembly. The total projected expenditure was then divided by the unduplicated number of slots available.

- ii. **Factor D' Derivation.** The estimates of Factor D' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

The basis for determining Factor D', waiver participants' acute care costs, is based on the average cost of acute care services accessed by individuals who participate in the Missouri DD Waiver 0404.R0103 during FY'2014.

Due to the anomaly seen in FY12-14 trends of the 372 reports, the state ran actual state plan medical claims data for FY13-15. The state utilized the trend from the actual state plan medical claims data rather than projecting a decreased trend as shown in the 372 reports. Actual state plan medical paid claims data for FY13-15 shows 4.1% increase between FY 2013-2014 and 1.4% decrease between FY2014 – 2015. The average between the two years is 1.4%

There were no Medicare Part D figures in this data. When the claims are run to aggregate the data for D', claims for Medicare/Medicaid dual eligible Part D are excluded.

- iii. **Factor G Derivation.** The estimates of Factor G for each waiver year are included in Item J-1. The basis of these estimates is as follows:

The basis for determining Factor G for institutional costs was based on ICF/ID. Factor G was trended annually by 1.7% based on actual growth experience from FY 13 through FY 15.

- iv. **Factor G' Derivation.** The estimates of Factor G' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

The basis for determining Factor G' for acute care costs for institutionalized participants was based on actual state plan claims data from FY 15 for the four state habilitation centers. Factor G' was trended annually by 8% based on annual growth experience from FY 13 through FY 15.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (4 of 9)

Component management for waiver services. If the service(s) below includes two or more discrete services that are reimbursed separately, or is a bundled service, each component of the service must be listed. Select “*manage components*” to add these components.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (9 of 9)

d. Estimate of Factor D.

i. Non-Concurrent Waiver. Complete the following table for each waiver year. Enter data into the Unit, # Users, Avg. Units Per User, and Avg. Cost/Unit fields for all the Waiver Service/Component items. Select Save and Calculate to automatically calculate and populate the Component Costs and Total Costs fields. All fields in this table must be completed in order to populate the Factor D fields in the J-1 Composite Overview table.

Waiver Year: Year 5
