Targeted Inmate/Resident/Detainee Interviews

58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	1
--	---

As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".

59. Enter the total number of interviews conducted with youthful inmates or youthful/juvenile detainees using the "Youthful Inmates" protocol:	1
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0

b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees). SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: discussions related to testing critical functions are expected to be included in the relevant Standard-specific overall determination narratives.

84. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

Was the site review an active, inquiring process that included the following:

85. Reviewing/examining all areas of the facility in accordance with the site review component of the audit instrument?	<input checked="" type="radio"/> Yes <input type="radio"/> No
86. Testing and/or observing all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., intake process, risk screening process, PREA education)?	<input checked="" type="radio"/> Yes <input type="radio"/> No

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	<input checked="" type="radio"/> Yes <input type="radio"/> No
91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	No text provided.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

The facility provided a Direct Care Staffing Pattern. This pattern demonstrates staff to youth ratios to be 1:6 during waking hours and 1:12 during sleeping hours.

(b) The Robert L. Perry Juvenile Justice Center PAQ states each time the staffing plan is not complied with, the facility documents and justifies deviations. The facility did not have any deviations from the required ratios of their staffing plan.

(c) The Robert L. Perry Juvenile Justice Center PAQ states the facility is mandated by regulation to maintain 1:8 waking hour and 1:16 sleeping hour ratios.

(d) The Robert L. Perry Juvenile Justice Center PAQ states the staffing plan is reviewed annually, in collaboration with the Detention Superintendent/PREA Coordinator.

The Detention Superintendent/PREA Coordinator stated annual review of the Staffing Plan will take place each November of each subsequent year.

(e) The Robert L. Perry Juvenile Justice Center PAQ states unannounced rounds are conducted by intermediate or higher level staff to identify and deter staff sexual abuse and sexual harassment.

Robert L. Perry Juvenile Justice Center Policies and Procedures, Superintendent Reviews, page 2, section F., states, "The Superintendent or designee will perform unannounced visits to the facility for both the day shift and overnight shift at least twice a year. The facility provided Unannounced Program Visit documentation. Each visit appears to occur quarterly from 2.16.2018 - through 8.17.2021. Each round includes observation of:

1. Youth routines are being followed.
2. Groups are in appropriate locations based on the group routine and time of day.

10. Appropriate staff/youth relationships and healthy boundaries are evident.
11. Are there sudden changes in youth mood or behavior?
12. Summary of visit.
13. Follow up needed.

Cross-gender viewing could occur in the wings where residents could be showering or using the restrooms. There are several ways that this can be accomplished. If a resident request to speak with you, the Pod can inform the resident that staff will respond to their room. This puts the resident on notice that staff will be approaching their room. Staff can also verbally announce their presence upon entering the living areas. ("Mr. James is present." "Female on the Floor." "Male passing meds." "Female making rounds." Etc.) Please also remember that the blue tape on the floors is a reminder to staff of what areas of the wing are in view of the Pod and cameras. No staff shall alert facility staff of the unannounced visits.</p>

Please be aware that I maintain and review the completed unannounced visit forms. They are also used to provide documentation of PREA 115.313."

Staff interviewed reported although each had been trained in cross gender searches, none had conducted those searches. Staff interviewed reported if an intake came in and the facility did not have a male and female staff on shift, they would rely on law enforcement to conduct the pat search or intakes would be kept in the holding cell until a same sex staff could perform the search.

Site Review Observation:

1. Intake area
2. Search area

During the tour of the facility the Auditor observed the Intake and search areas of the facility. Both areas were conducive to ensuring searches were conducted in a private secured area, outside of camera view. Training files revealed 100% of staff had been trained in cross gender strip searches. The Auditor was able to observe intakes during the audit. The intake area consists of a small holding cell where intakes are kept if more than one youth is received at the same time. If one youth is received at time a chair is available outside the Control Desk where intake documentation is completed, to include brief information on PREA to include an introduction of PREA, how to report allegations. Next intakes are placed inside a shower room where the staff stand in the door frame and have the youth disrobe to one layer of clothes before the pat search is conducted. Once the pat search is conducted the intake is allowed to shower and change into clothing provided by the facility. Intakes are then placed in a room for two to four hours and are then brought out to receive comprehensive PREA education known to the facility as the Safety First Packet.

(a) Robert L. Perry Juvenile Justice Center PAQ states the facility does not conduct cross-gender strip or cross-gender visual body cavity searches of their residents. In the past 12 months the facility has conducted zero cross-gender strip or cross-gender visual body cavity searches of residents.

Robert L. Perry Juvenile Justice Center Policies and Procedures, Prevention Planning, page 1, section C., states, "Limits to cross-gender viewing and searches—Robert L. Perry Juvenile Justice Center shall ensure that cross-gender viewing and searches comply with those requirements established in Section 11 which are in accordance with PREA standard 115.315."

Robert L. Perry Juvenile Justice Center Policies and Procedures, Person and Room Searches, page 2, section B. 4-5, state, "Searching Juveniles: The search of a juvenile by staff requires training in the appropriate manner to conduct the search, and a humane attitude on the part of the staff. A juvenile should be informed, quietly and simply, of what is about to take place. The juvenile should not be touched any more than is necessary to conduct a comprehensive search. Staff shall document the search in the log.

7. A strip search shall be conducted by two staff members who are the same sex as the juvenile, and shall take place in the admission area restroom.

5. A body cavity search of the anal or genital area shall only be completed by a licensed medical professional and pursuant to a court order."

(b) Robert L. Perry Juvenile Justice Center PAQ states the facility does not conduct cross-gender strip or cross-gender visual body cavity searches absent exigent circumstances. Policy compliance can be found in provision (a) of this standard.

(c) Robert L. Perry Juvenile Justice Center PAQ states the facility policy requires that all cross-gender strip searches, cross-gender visual body cavity searches, and cross-gender pat-down searches be documented and justified. Documentation of cross-gender searches will be documented in shift notes as is stated in provision (a) of this standard.

(d) Robert L. Perry Juvenile Justice Center PAQ states the facility has implemented policies and procedures that enable residents to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks (this includes viewing via video camera). Policy compliance can be found in provision (a) of this standard.

Robert L. Perry Juvenile Justice Center Policies and Procedures, Prevention Planning, page 3, section 7., states, "Residents shall have the ability to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine room checks."

(e) The Robert L. Perry Juvenile Justice Center PAQ states the facility has a policy prohibiting staff from searching or physically examining a transgender or intersex resident for the sole purpose of determining the resident's genital status. There have zero such searches in the last 12 months.

Robert L. Perry Juvenile Justice Center Policies and Procedures, Person and Room Searches, page 2, section B. 6, states, "Staff shall not search or physically examine a transgender or intersex resident for the sole purpose of determining the resident's genital status. Staff may verbally interview the resident, reviewing medical data, or contact the resident's parent/custodian."

(f) The Robert L. Perry Juvenile Justice Center PAQ states 100% of security staff receive training on conducting cross-gender pat-down searches and searches of transgender and intersex residents in a professional and respectful manner. Policy compliance can be found in provision (a) of this standard.

Through such reviews, the facility meets standard requirements.
