Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Lewis and Clark Hall is located in the Ft. Bellefontaine County Park in St. Louis, Missouri. This facility is one of six programs located on the grounds of the Missouri Hills Campus. The facility's first PREA audit was conducted in June 2015. The current audit was assigned to the Auditor by Correctional Management and Communications Group, LLC of Minneola, Florida.

The current on-site audit was conducted March 7, 2018. In preparation for the on-site audit, an introductory call was conducted with the DYS Statewide PREA Coordinator, the Assistant Regional Administrator, and the Facility Manager, who also serves as the PREA Compliance Manager. During the call, introductions were made, an overview of the audit process was discussed and requested documentation was reviewed. The notifications of the on-site audit were posted six weeks prior to the audit and provided Auditor contact information. The posting of the notices was verified by photographs received electronically from the Facility Manager. The photographs indicated notices were posted in various locations throughout the facility including the housing area, classrooms, and the administrative area.

The Pre-Audit Questionnaire, policies and supporting documentation were received on February 7, 2018, uploaded to a USB flash drive.

Following the entrance meeting with the Facility Manager and the Assistant Regional Administrator, the Auditor conducted a tour of the facility.

During the tour, observations revealed the following: ample PREA signage throughout the facility; youth were under constant supervision of the staff while involved in school and other activities; and the facility was clean and well maintained. Staff announced themselves prior to entering the housing area of the opposite gender. There was signage on entrance doors to rooms/areas where youth are not allowed access. Observation of community bathrooms revealed shower stall openings have shower curtains and toilet stalls have doors to allow residents privacy.

During the on-site visit, 12 random direct care staff from three shifts and seven specialized staff were interviewed. Overall, the interviews revealed staff are knowledgeable of PREA standards and were able to articulate their responsibilities. Ten residents were also interviewed. The interviews revealed the residents were informed of their right to be free

from sexual abuse and sexual harassment and how to report sexual abuse and sexual harassment. The interview selections were randomly made from rosters provided by the facility. The training records of staff interviewed, and the files of residents interviewed were reviewed along with policies and other secondary documentation.

The Auditor reviewed staff, contractor and volunteer training records to ensure all required training had been completed. The Auditor also reviewed staff personnel files related to completed investigations and disciplinary actions taken regarding PREA related allegations.

The victims' advocacy service, Bridgeway Behavioral Health, was contacted to determine the scope of services provided. A live person responded to the call and indicated that there were no calls received from Lewis and Clark Hall residents over the past 12 months.

A close-out meeting was held at the conclusion of the on-site audit with the Facility Manager and the Assistant Regional Administrator to provide opportunity for questions and a review of the on-site audit process.

The facility was found to be in compliance with all applicable standards as indicated below and detailed throughout this report.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Lewis and Clark Hall is a 12-bed, moderate level care facility that serves male juvenile offenders between the ages of 14 and 17. Residents have been committed to the care and custody of the Division of Youth Services (DYS) through the juvenile court system. The average length of stay is approximately 168 days. The designed facility's capacity is 12. Seventeen residents have been admitted to the Lewis and Clark Hall in the past 12 months.

The Lewis and Clark Hall has two floors and a basement. The top floor has two large open bay bedrooms. There are twelve bunks to house the youth and a bathroom with one toilet and a sink. There is a second bedroom and bathroom identical to the first one. There are staff offices as well on the top floor. The main floor has a foyer to greet guests at the entrance. There are also two dayrooms, a computer room, and a kitchen. The basement has a laundry room, a dayroom, and showers where the youth shower each day. There are no cameras at this facility.

There is an outside recreation area on the grounds of the Missouri Hills Campus, used by all of the programs, where youth can play soccer, softball, and volleyball. There is also, co-

located on the grounds of the Missouri Hills Campus, a gymnasium, an administration building, cafeteria and maintenance; a building for food and maintenance storage; a vocational building; and a building that contains the generator; which are used by all of the programs.

The facility provides supervision of youth in a safe, secure and humane environment. Services for youth are provided by DYS Family Specialists, Treatment Coordinators, a Regional Clinical Coordinator, and Community Mentors. All youth are assigned an individual Service Coordinator to assist them in their progress from their commitment into DYS up until their eventual discharge. Youth have access to psychiatric services through contracted providers.

The Lewis and Clark Hall employs nine full-time Youth Specialists, a Group Leader, an Academic Teacher, an Office Support Assistant and a Facility Manager. Medical services are coordinated by the Regional Nurse, Facility Manager and/or the Assistant Regional Administrator.

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Lewis and Clark Hall meets the requirements of this standard based upon the following evidence:

DYS Policy 9.18 and Lewis and Clark Hall FOP-PREA requires the facility to develop, implement and document an approved staffing plan. Facility Manager and Compliance Manager interviews verified the development of the facility's staffing plan and the continual assessment of adequate staffing levels.

The Facility Manager's interview confirmed there is no law, regulation or judicial decree to maintain staffing ratios of 1:8 staff to resident ratio during waking hours or a 1:16 staff to resident ratio during sleeping hours however the facility's staffing plan does reflect the required ratios. Observation during the tour revealed the staff to residents' ratio exceeds requirements.

The staffing plan is based upon the facility's capacity of 12 residents. Lewis and Clark Hall FOP- PREA requires the facility to document deviations from the staffing plan on the Shift Report however due to the facility's rover policy, there were no deviations from the plan to review.

Documentation of the annual assessment of the staffing plan dated March 24, 2017 was reviewed and found to be in compliance with all elements contained in (d)-1 of this standard.

Lewis and Clark Hall utilizes direct staff supervision to protect residents from sexual abuse and sexual harassment. DYS 9.18 and Lewis and Clark Hall FOP PREA requires intermediate or higher-level staff to conduct unannounced rounds to deter and identify staff sexual abuse and sexual harassment. An interview with a higher-level staff member and a review of unannounced rounds documentation revealed over time unannounced rounds are conducted on all three shifts in all areas of the facility.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Lewis and Clark Hall meets the requirements of this standard based upon the following evidence:

DYS 9.18 and Lewis and Clark Hall FOP PREA prohibit cross-gender strip searches, or pat down searches of youth, except in exigent circumstances and there have been no such searches conducted by direct care staff in the past 12 months as verified by random staff and random resident interviews.

Lewis and Clark Hall FOP Searches states body cavity searches require the Facility Manager's authorization and must be conducted by licensed medical personnel in a medical establishment. There were no body cavity searches of residents in the past 12 months.

Lewis and Clark Hall FOP PREA states the facility must be configured to allow residents to shower, perform bodily functions and change clothing without staff of the opposite sex viewing their bodies. Staff and resident interviews confirm there is no cross-gender viewing. Observation of the bathrooms revealed all shower stalls have shower curtains to allow privacy while taking showers.

DYS 9.18 PREA and Lewis and Clark Hall FOP PREA require opposite sex staff, volunteers and contractors entering housing units to announce themselves. Resident interviews verified this is done on consistent bases.

DYS 9.18 and Lewis and Clark Hall FOP PREA prohibit the search of a transgender or intersex resident solely for the purpose of determining the resident's genital status and staff interviews verified compliance.

One hundred percent of direct care staff have received training on cross-gender pat down searches and searches of transgender and intersex residents as verified during interviews of random staff. Training curriculum and training logs were reviewed and confirmed compliance.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Lewis and Clark Hall meets the requirements of this standard based upon the following evidence:

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Lewis and Clark Hall meets the requirements of this standard based upon the following evidence:

DSS Policy 2-107 Section: Background Checks, DYS 9.18 PREA and Lewis and Clark Hall FOP Hiring and Promotions address hiring and promotion processes and decisions, including the requirement for background checks for new hires. The collective policies and interview with the Human Resource staff member revealed information regarding the hiring process, completion of background checks, and the grounds for termination. The policies are aligned with the requirements of the standard and provide that background checks are conducted every five years. A review of a sample of personnel files confirmed compliance.

A pre-hire form requires applicants to provide information regarding previously related sexual misconduct allegations and convictions. The policies prohibit hiring or promoting anyone who may have contact with residents and prohibit enlisting the services of any contractor who may have contact with residents who engaged in previous sexual misconduct.

According to the Human Resource staff, the facility considers any incidents of sexual abuse or sexual harassment in determining whether to hire a person, contract for services, or whether to promote an employee. Policies DYS 9.18 and an interview with the Human Resource staff provide that staff has a continuing duty to report misconduct and provide that omissions of misconduct or providing false information will be grounds for termination.

The PREA Coordinator provided documentation that Missouri State law does not allow DYS or other agencies to contact the abuse registry for the purpose of screening applicants.

A review of personnel files for a sample of staff hired in the past 12 months revealed that all had criminal records checks and a sample review of personnel files of current staff employed for more than 5 years revealed that all have had criminal background checks conducted every five years.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Lewis and Clark Hall meets the requirements of this standard based upon the following evidence:

Lewis and Clark Hall FOP PREA and DYS Policies 9.05 and 9.18 require staff to screen each youth for risk of victimization upon arrival at the facility and DYS Policy 6.7 requires staff to reassess youth every six months thereafter. They also establish limited staff access to this information on a "need to know basis". The facility utilizes the Assessment, Checklist and Protocol for Behavior and Risk for Victimization and Abusiveness (PVIR) assessment and screening instrument, which meets all PREA requirements in this regard. The Comprehensive Treatment Team starts the assessment for risk of sexual victimization or risk of sexually abusing others. The team consists of the youth, parent/guardian, Service Coordinator (SC), and youth treatment staff. There is also a screening completed by the youth's Service Coordinator and the Residential Facility Manager before the youth enters the facility. This screening form is called the PREA Vulnerability Information Review Form, (PVIR). The facility documents that they review each Assessment/Screening to make a decision on room assignments, educational placement, programming, and work assignments, in order to focus on the safety and security of the youth. The screenings consist of both youth interview questions and staff review of collateral information. This PVIR screening is conducted for all youth who enter the facility within 72 hours, and most commonly, on the day of intake. All of the youth files checked were completed on the day of intake. Youth are assessed every six months, except in the case of a youth making an allegation of sexual abuse or harassment, the entire screening is then re-conducted.

A review of PVIR forms in residents' files and resident interviews revealed risk screenings are being conducted or reviewed by Intake staff upon arrival. The PVIR form includes each component contained in section (c) of this standard.

Resident interviews indicated they were asked whether they identify with being gay, bi-sexual, transgender or intersex, if they think they are in danger of sexual abuse and if they have any disabilities. Random resident interviews verified they were asked the same questions by mental health staff during their initial interview.

Completed PVIR forms are maintained in residents' medical and Intake files and are available to staff only on a need to know bases.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Lewis and Clark Hall meets the requirements of this standard based upon the following evidence:

Lewis and Clark Hall FOP PREA requires victimization screening information to be used to determine a resident's bed assignment and bed's proximity to direct care staff to ensure resident's safety. The PREA Compliance Manager interview and Staff interviews confirmed the facility's compliance with this standard. Each youth's safety is paramount in making these assignments, regardless of other issues. The facility does not utilize isolation in any form.

Lewis and Clark Hall FOP PREA and DYS Policy 9.18 precludes lesbian, gay, bi-sexual, transgender and intersex residents from being placed in a housing unit and states LGBTI identification or status is not an indicator of likelihood of being sexually abusive. Transgender or intersex resident's own view with respect to his/her safety will be given serious consideration. Transgender and intersex residents are given the opportunity to shower separately from other youth. The PREA Compliance Manager's interview also verified compliance with this standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Lewis and Clark Hall meets the requirements of this standard based upon the following evidence:

Lewis and Clark Hall FOP PREA, DYS Policies 6.01 and 9.18, DSS Policy 2-101, Employee Conduct 3.08, Missouri RSMo 210.115.1 Mandated Reporter Law, and the Parent-Student Handbook provides multiple internal ways for residents to privately report sexual abuse, sexual harassment, retaliation and staff neglect including telling a trusted staff member or filling out a PREA/Grievance Reporting form and placing it in a secure drop box. Random resident interviews confirmed their knowledge of this procedure.

PREA information including posters and brochures was observed in the administrative area. Upon inquiring about how youth can call the hotline or victims advocate, youth explained that they have to seek permission from staff to call the hotline or the victims advocate. The facility provides youth with the address for The Child Center, Inc. so they can also write to them. Youth and staff interviews along with the youth handbook and posted signs verified compliance with this standard. The interviews also confirmed that staff can privately report sexual abuse or harassment of youth, using the Children's Division Hotline.

A youth may also call or write his/her parent(s) or guardian or call or write his/her attorney or legal representative.

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.352 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address resident grievances regarding sexual abuse. This does not mean the agency is exempt simply because a resident does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse. Yes No NA

115.352 (b)

- Does the agency permit residents to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.) Yes No NA

(Computation of the 90-day time period does not include time consumed by residents in preparing any administrative appeal.) (N/A if agency is exempt from this standard.) Yes No NA
- If the agency determines that the 90-day timeframe is insufficient to make an appropriate decision and claims an extension of time [the maximum allowable extension of time to respond is 70 days per 115.352(d)(3)], does the agency notify the resident in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) Yes No NA
- At any level of the administrative process, including the final level, if the resident does not

receive a response within the time allotted for reply, including any properly noticed extension, may a resident consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.) Yes No NA

115.352 (e)

- Are third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, permitted to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.)
 Yes No NA
- Are those third parties also permitted to file such requests on behalf of residents? (If a third party, other than a parent or legal guardian, files such a request on behalf of a resident, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.) (N/A if agency is exempt from this standard.) Yes No NA

115.352 (f)

- Has the agency established procedures for the filing of an emergency grievance alleging that a resident is subject to a substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA
- After receiving an emergency grievance alleging a resident is subject to a substantial risk of imminent sexual abuse, does the agency immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken? Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Lewis and Clark Hall meets the requirements of this standard based upon the following evidence:

Lewis and Clark Hall FOP PREA states the facility is exempt from this standard because it does not have administrative procedures in place for residents to report allegations of sexual abuse and sexual harassment through the grievance procedure. Youth may put a written complaint in the designated PREA box. There have been no complaints relating to sexual abuse or sexual harassment received in the past 12 months. Staff and youth interviews confirmed their knowledge of how to use the PREA box to report sexual abuse or sexual harassment. The interview with the Facility Manager pointed out that if a PREA allegation is found in the PREA box, then it is treated as a first responder incident.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Lewis and Clark Hall FOP PREA and DYS Policies 9.18, 6.02, 6.05 and the PREA Parent-Student Handbook ensures residents are provided access to outside confidential support services. Documentation was provided that identifies the Bridgeway Behavioral Health Center as the community victims advocate to provide emotional support. Youth education rosters indicate youth have been provided information about the victim advocacy service including how to access this service.

Posters containing the Children’s Division, (OHI) abuse number are prominently posted in the hallways and lobby area. Youth interviews confirmed that residents are aware of these posters and their right to call and make reports. Each youth has a primary Service Coordinator who can access outside support services upon request of the youth. Staff and youth interviews confirmed that staff provide youth with the limitations of confidentiality, regarding mandatory reporting laws. Youth communications are not monitored.

Youth interviews confirmed that those youth who currently have attorneys can communicate with them confidentially. None reported being denied access to their attorneys. All youth reported that they have family visitation and that they have never been denied access to their families. All youth are allowed phone calls each week to family members.

Random resident interviews assisted in verifying this standard.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

health staff members maintain secondary materials that document services to residents and these staff are knowledgeable of what must occur in an incident of sexual abuse. It is documented through policies and understood by the medical and mental health staff treatment services will be provided at no cost to the victim, whether or not the victim cooperates with the investigation.

There have been no resident victims of sexual abuse in the past 12 months.
