Facility AUDIT FINDINGS

Summary of Audit Findings

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Number of standards exceeded:

0

Number of standards met:

43

Number of standards not met:

Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	4
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0
a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:	<input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees. <input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.

<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>Observed population; reviewed sample of resident files; informal conversations with residents and staff.</p>
<p>61. Enter the total number of interviews conducted with inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>1</p>
<p>62. Enter the total number of interviews conducted with inmates/residents/detainees who are Blind or have low vision (i.e., visually impaired) using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>0</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
Was the site review an active, inquiring process that included the following:	
85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
88. Informal conversations with staff during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No

<p>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</p>	<p>No text provided.</p>
--	--------------------------

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

<p>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>
--	--

<p>91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</p>	<p>No text provided.</p>

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	1	1	1	1
Staff-on-inmate sexual abuse	1	0	1	0
Total	2	1	2	1

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual harassment	0	0	0	0
Staff-on-inmate sexual harassment	0	0	0	0
Total	0	0	0	0

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted
Inmate-on-inmate sexual abuse	0	1	0	0	0
Staff-on-inmate sexual abuse	0	0	0	0	0
Total	0	1	0	0	0

95. Administrative SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Unfounded	Unsubstantiated	Substantiated
Inmate-on-inmate sexual abuse	0	0	0	0
Staff-on-inmate sexual abuse	0	0	1	0
Total	0	0	1	0

Sexual Harassment Investigation Outcomes

Note: these counts should reflect where the investigation is currently. Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual harassment investigation files, as applicable to the facility type being audited.

96. Criminal SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted
Inmate-on-inmate sexual harassment	0	0	0	0	0
Staff-on-inmate sexual harassment	0	0	0	0	0
Total	0	0	0	0	0

97. Administrative SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

	Ongoing	Unfounded	Unsubstantiated	Substantiated
Inmate-on-inmate sexual harassment	0	0	0	0
Staff-on-inmate sexual harassment	0	0	0	0
Total	0	0	0	0

Provision (a):

An agency shall have a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment and outlining the agency's approach to preventing, detecting, and responding to such conduct.

The Division of Youth Services' (DYS) PREA and related policies outline the strategies for addressing the components of the PREA Standards and include the following components: prevention and responsive planning; training and education; risk screening; reporting; official response following a youth's a report; investigations; discipline; medical and mental care; and data collection and review. The PREA policy contains definitions of the prohibited behaviors and address sanctions to be used when the PREA related policies are violated. The DYS has policies which address the methods demonstrating zero-tolerance regarding all forms of sexual abuse and sexual harassment and outline the approach for preventing, detecting, and responding to such allegations.

Provision (b):

An agency shall employ or designate an upper-level, agency-wide PREA Coordinator with sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its facilities.

The Division of Youth Services has identified a PREA Coordinator who has unfettered access to all State and contract facilities regarding the implementation of the PREA Standards. All facilities must comply fully with the PREA Standards. The PREA Coordinator reports to the Human Resources Manager who reports directly to the Division Director. The PREA Coordinator is involved with PREA related decisions and implementation at all levels of the agency. The interview with the PREA Coordinator revealed sufficient time and authority to develop, implement and oversee the agency's PREA initiatives.

Provision (c):

Where an agency operates more than one facility, each facility shall designate a PREA Compliance Manager with sufficient time and authority to coordinate the facility's efforts to comply with the PREA standards.

The PREA Compliance Manager was interviewed and indicated there is the time and authority required to fulfill the PREA related duties. A review of the PREA Policy and organization charts, observations, and staff interviews confirmed the role of the PREA Compliance Manager. The Youth Facility Manager (Superintendent) serves as the facility's PREA Compliance Manager. The interview with the Superintendent/ PREA Compliance Manager revealed the compliance with the Standards are attributed to invaluable assistance by the Assistant Facility Manager and other staff; communication among staff; the performance of unannounced rounds; staff training; and monitoring.

Conclusion:

	Based upon the review and analysis of the available evidence, observations, and interviews, the Auditor determined the facility meets the provisions of the standard.

Staffing Plan

Staffing Plan Assessment

Unannounced Rounds

Interviews:

Superintendent/PREA Compliance Manager

PREA Coordinator

Provision (a):

The agency shall ensure that each facility it operates shall develop, implement, and document a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect residents against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration:

(1) Generally accepted juvenile detention and correctional/secure residential practices;

(2) Any judicial findings of inadequacy;

(3) Any findings of inadequacy from Federal investigative agencies;

(4) Any findings of inadequacy from internal or external oversight bodies;

(5) All components of the facility's physical plant (including "blind spots" or areas where staff or residents may be isolated);

(6) The composition of the resident population;

(7) The number and placement of supervisory staff;

(8) Institution programs occurring on a particular shift;

(9) Any applicable State or local laws, regulations, or standards;

(10) The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and

(11) Any other relevant factors.

Policy 9.6 outlines the considerations for staffing and provides guidance to staff in adhering to the staffing ratios. The staffing plan, staff interviews and observations during the comprehensive review revealed the adherence to the PREA staffing ratios. Management staff ensures the review of population needs and adherence to

the staffing plan. The Superintendent reviews the work schedules regarding staffing ratios and the roving staff sheet ensuring there is a mixture of newer staff with more seasoned staff. The interview with the Superintendent revealed the importance of the consideration of the population make-up, previous PREA incidents, trends, staff positioning, group dynamics, and other related elements for ensuring adherence to the required staff coverage. The camera system was not fully functional during the onsite audit phase and received partial repairs/update during the post onsite audit phase. Replacement of the monitoring system is a priority for the agency. Additionally, it was recommended that signs be posted on the doors to areas where residents are not allowed entry.

Provision (b):

The agency shall comply with the staffing plan except during limited and discrete exigent circumstances, and shall fully document deviations from the plan during such circumstances.

The Staffing Plan Annual Evaluation includes the participation of the Superintendent, Assistant Facility Manager (Assistant Superintendent), Regional Administrator and Assistant Regional Administrator. The Staffing Plan Annual Evaluation includes but is not limited to a review of the following: staffing plan and any need for changes; safety and security problems; and resources needed to ensure adherence to the staffing plan. Policy provides for compliance to the staffing plan except during limited and exigent circumstances and the deviations are to be documented. No deviations from the established staffing plan have been reported during this audit period. The staffing plan and policy provide for the documentation of any deviations. The average daily number of residents since the last PREA audit is 26; the number of residents on which the staffing plan is predicated is 36.

Provision (c):

Each secure juvenile facility shall maintain staff ratios of a minimum of 1:8 during resident waking hours and 1:16 during resident sleeping hours, except during limited and discrete exigent circumstances, which shall be fully documented. Only security staff shall be included in these ratios. Any facility that, as of the date of publication of this final rule, is not already obligated by law, regulation, or judicial consent decree to maintain the staffing ratios set forth in this paragraph shall have until October 1, 2017, to achieve compliance.

The PREA ratios were observed for and met during the comprehensive site review during the first and second day. Direct care staff members provide direct observation of residents. The practice is that residents remain in the line of sight of a staff member. Since the last PREA audit the average daily number of residents is 26. Since the last PREA audit, the average daily number of residents on which the staffing plan is predicated is 36. The facility is not involved in any lawsuits or a consent decree.

Provision (d):

Whenever necessary, but no less frequently than once each year, for each facility the agency operates, in consultation with the PREA Compliance Manager required by § 115.311, the agency shall assess, determine, and document whether adjustments are needed to: (1) The staffing plan established pursuant to paragraph (a) of this section; (2) Prevailing staffing patterns; (3) The facility's deployment of video monitoring systems and other monitoring technologies; and (4) The resources the facility has available to commit to ensure adherence to the staffing plan.

The review of the annual staffing plan assessment is conducted as described in the standard and at least annually. The facility has formally documented the assessment data utilizing the agency form. The document indicates completion by the Superintendent/PREA Compliance Manager and a copy provided to the PREA Coordinator. The document reviews but is not limited to the following areas: prevailing staffing patterns; review of staffing plan; electronic monitoring system; and occurrence of unannounced rounds. The PREA Coordinator is consulted and corroborates with facility and/or regional staff annually regarding facility staffing unless there is a need to confer more often.

Provision (e):

Each secure facility shall implement a policy and practice of having intermediate-level or higher level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. Such policy and practice shall be implemented for night shifts as well as day shifts. Each secure facility shall have a policy to prohibit staff from alerting other staff members that these supervisory rounds are occurring, unless such announcement is related to the legitimate operational functions of the facility.

Policy provides for the occurrence of unannounced rounds that are conducted by identified staff and documented on a dedicated form. A review of a sample of documented unannounced rounds and the agency Policy 9.6 provide that unannounced rounds are conducted by intermediate and higher level staff. The unannounced rounds are conducted to identify and deter sexual abuse and sexual harassment and are documented on a customized form. The rounds may be conducted by the Facility Manager (Superintendent), Assistant Facility Manager (Assistant Superintendent), Assistant Regional Administrator, and Regional Administrator. Group Leaders also conduct unannounced rounds to ensure the program schedule is being followed.

The Assistant Superintendent was interviewed regarding completion of unannounced rounds. Unannounced rounds are conducted after her regular work hours and on different shifts; the times are not scheduled. A dedicated form is used to document the rounds which details observations made regarding whether groups are in appropriate locations; appropriate relationships occurring; physical plant condition; staff supervision; results of visit; if follow-up is needed; and other information. According to the interview, the Assistant Superintendent just shows up and is not aware of any staff member sharing her presence during completion of the unannounced rounds. Policy 9.6 provides staff members are not to alert other staff

of the rounds and violations shall be grounds for disciplinary actions, up to and including dismissal.

During the site review there were issues with the camera system such as inconsistent recordings or no recordings and all cameras were not working; the viewing of footage regarding unannounced rounds was not possible. It was determined that the camera system could not handle the video needs of the facility, once the system was checked out by a technician. The system was already scheduled for an upgrade but during the site review the status for the planned upgrade was moved to "as soon as possible." Policy, an investigation report, and the interviews provide that video recording monitoring is required to be conducted by the Superintendent regarding critical incidents and random reviews conducted at least weekly. The Video Recording Monitoring Form is used to document the random review of camera footage by the Superintendent and Assistant Superintendent.

A corrective action was implemented by the agency to immediately address the current and immediate problems with the camera system and replacement of the camera system is now a priority for the agency. Currently, repairs and updates have been made to the system, the cameras are functional, and bids have been received to replace the camera system, as confirmed by documentation from the PREA Coordinator and correspondence involving the Assistant Regional Administrator, Skilled Trades Supervisor, Capital Improvements Coordinator, and the Deputy Director of the agency.

Conclusion:

Based upon the review and analysis of the available evidence and the interviews, the Auditor determined the facility is compliant.

Random Staff

Residents

Superintendent/PREA Compliance Manager

Provision (a):

The facility shall not conduct cross-gender strip searches or cross-gender visual body cavity searches (meaning a search of the anal or genital opening) except in exigent circumstances or when performed by medical practitioners.

Cross-gender strip, visual body cavity and pat-down searches are prohibited and the regular searches must be documented. Policy and training provide guidance to staff on how the searches are to be conducted. There is no evidence of cross-gender searches of any type occurring at the facility in the last 12 months. Strip and body cavity searches are prohibited at the facility in accordance with Policy 5.8. Cross-gender pat-down searches are not permitted, except in exigent circumstances as indicated by the staff interviews. Exigent circumstances primarily means no male staff present, according to the related random staff interviews.

Provision (b):

The agency shall not conduct cross-gender pat-down searches except in exigent circumstances.

The facility is an all male facility; a consensus is that there would be no trained males in the facility for a cross-gender search to occur. Based on the review of the Pre-audit questionnaire and according to the interviews, no type of cross-gender search has been conducted at the facility during the past 12 months. The training materials and interviews support that staff receive training on how to conduct searches, including cross gender pat-down searches. Staff interviews and demonstrations confirmed awareness of how to conduct searches. No residents or staff interviewed reported the occurrence of any cross-gender searches. The evidence shows cross-gender pat-down searches have not occurred at the facility during the last 12 months.

Provision (c):

The facility shall document and justify all cross-gender strip searches, cross-gender visual body cavity searches, and cross-gender pat-down searches.

Cross-gender strip and cross-gender visual body cavity searches are prohibited. Policy provides for documenting the occurrence of searches. All staff and resident interviews confirmed that no cross-gender searches have occurred at the facility during this audit period. Staff members are aware of the requirement to document searches. The training supports conducting all searches in a humane and respectful manner. At least two staff will be involved when a pat-down search is conducted,

including if a cross-gender pat-down search. There must be approval by the appropriate supervisor for a cross-gender pat-down search and it must be documented. Documentation for a cross-gender pat-down search must be maintained by the PREA Compliance Manager. There was no evidence documenting any type cross-gender searches.

Provision (d):

The facility shall implement policies and procedures that enable residents to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Such policies and procedures shall require staff of the opposite gender to announce their presence when entering a resident housing unit. In facilities (such as group homes) that do not contain discrete housing units, staff of the opposite gender shall be required to announce their presence when entering an area where residents are likely to be showering, performing bodily functions, or changing clothing.

Shower and use of bathroom protocols exist. Residents are able to shower, perform bodily functions, and change clothes without staff of the opposite gender viewing them, supported by policy and interviews. This practice was confirmed through formal and informal interviews with residents and staff. No residents interviewed reported ever having been naked in full view of the opposite gender staff while showering, changing clothes, and performing bodily functions. During the comprehensive site review, conducted by the Superintendent/PREA Compliance Manager and Assistant Regional Administrator, the hygiene practices and bathroom procedures were explained. The opposite gender staff announce their presence upon entering the dorm.

It was observed that residents have a reasonable amount of privacy during use of the bathroom. Shower curtains exist and the toilets are enclosed. The evidence shows residents shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their buttocks or genitalia. Hygiene practices are performed with the expectations of reasonable privacy for each resident. A resident enters a shower stall dressed and is dressed when exiting the shower.

Provision (e):

The facility shall not search or physically examine a transgender or intersex resident for the sole purpose of determining the resident's genital status. If the resident's genital status is unknown, it may be determined during conversations with the resident, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner.

Policy and staff training prohibits the search of transgender or intersex residents solely for the purpose of determining the residents' genital status. Staff interviews verified no such searches have occurred or would occur at the facility. The facility

	<p>reports and documents and interviews confirm staff received the training on conducting searches and searches of transgender and intersex youth. Staff interviews confirmed they are aware that policy prohibits staff from conducting a physical examination of transgender or intersex youth solely for the purpose of determining the resident's genital status. When the genital status of a resident is unknown, learning this information would be part of a broader medical examination conducted by a medical practitioner in private. Training provides that residents are provided the opportunity to indicate the gender of the staff preferred to conduct the search.</p> <p>Provision (f):</p> <p>The agency shall train security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex residents, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.</p> <p>The training curricula for conducting cross-gender pat-down searches and searches of transgender and intersex youth include agency training and training through outside resources. Training records, interviews and training materials indicate the provision of search techniques consistent with security needs and that all security staff have been trained. Residents are provided the opportunity to identify the sexual preference of the staff they would prefer to conduct the searches. The Training Transcripts, training guide, and interviews document staff receive the prescribed training. There have not been any transgender or intersex youth in the facility during the past year.</p> <p>Conclusion:</p> <p>Based on the reviewed documentation, observations and interviews, the Auditor determined compliance with this standard.</p>

Provision (a):

The agency shall take appropriate steps to ensure that residents with disabilities (including, for example, residents who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Such steps shall include, when necessary to ensure effective communication with residents who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with residents with disabilities, including residents who have intellectual disabilities, limited reading skills, or who are blind or have low vision. An agency is not required to take actions that it can demonstrate would result in a fundamental alteration in the nature of a service, program, or activity, or in undue financial and administrative burdens, as those terms are used in regulations promulgated under title II of the Americans With Disabilities Act, 28 CFR 35.164.

The review of documentation, including policies and procedures, address the rights of residents and access to services. The provision of PREA education and ongoing information is to be provided to residents in a manner sensitive to limited English proficiency and disabilities. The facility staff has access to resources for interpreters and other support services, including services for the hearing impaired, intellectual disabilities, and based on the individual needs of each resident. The targeted interviewees and Intake Staff revealed the PREA education is provided in understanding formats including but not limited to PREA education handbook, verbal presentation, and a video. The targeted interviews also revealed that the residents have staff to explain information to them and assist with their understanding. There has not been a need for an interpreter during this audit period.

The education, counseling and other staff may assist in providing PREA education

sessions with a youth who has a disability. The Group Leader, Assistant Superintendent and Superintendent will assist in securing accommodations needed to address the needs of the residents to ensure equal opportunity to the access of information regarding PREA. The Intake Staff ensures access to interpreters and effective professional communicators for residents who may be limited English proficient, hard of hearing, deaf, can't read well, or other disabilities. Written materials will be provided in formats or through materials that ensure effective communication in accordance with Policy 8.3. Professional interpreting services are also available to parents and guardians through the facility, as needed. The Intake staff and other treatment staff have access to the telephone numbers easily accessible to contact interpreters; the facility also has bilingual staff.

Provision (b):

The agency shall take reasonable steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to residents who are limited English proficient, including steps to provide interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary.

Residents with disabilities and who are limited English proficient will be provided with the accommodations that would enable the identified youth to participate in or benefit from all aspects of the PREA education sessions with the goal of preventing, detecting, and responding to sexual abuse and sexual harassment. Contracts exist between the State agency and vendors for language and documenting services and sign language interpreter services. The review of the contracts and interviews confirm the provision of professional interpreting services as needed to ensure the residents' understanding of PREA and other information.

Each resident has an equal opportunity to participate in or benefit from all aspects of the facility's efforts to prevent, detect and respond to sexual abuse and sexual harassment. PREA information is accessible to residents in English, Spanish and other languages are obtainable where indicated. The facility is capable of providing access to support services for preventing, detecting, and responding to sexual abuse and sexual harassment to residents who are Limited English Proficient, including taking steps to provide interpreters who can interpret effectively, accurately, and impartially. The accommodations for residents may also include providing a copy of the PREA information in Spanish. The grievance form, also used for reporting allegations of sexual abuse or sexual harassment, is available in Spanish.

Provision (c):

The agency shall not rely on resident interpreters, resident readers, or other types of resident assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the resident's safety, the performance of first-response duties under §115.364, or the investigation of the resident's allegations.

	<p>Policy and interviews support that the use of resident readers and interpreters is not permitted except in limited circumstances where an extended delay in obtaining an interpreter could compromise a resident’s safety; performance of first responder duties; or investigation of allegations of sexual abuse or sexual harassment. The facility documents there is access to services and the staff interviews confirm the accessibility of services. The education and mental health staff members have the capabilities to provide support services to residents to assist with the residents' understanding. Reporting information is also posted on the dorms and in various areas of the facility.</p> <p>Information regarding reporting allegations of sexual abuse and sexual harassment is posted and accessible in both English and Spanish. The facility has the resources available to get the PREA information translated and printed in additional languages as needed. All random staff interviewed stated they were not aware of any residents used to translate any information for another resident. The Safety 1st Manual, also available in Spanish, contains information regarding reporting allegations of sexual abuse and sexual harassment and provides for discussions and work activities that are age appropriate and conducive to adolescent learning.</p> <p>Conclusion:</p> <p>Based upon the review and analysis of the evidence, the Auditor determined the facility is compliant with this standard.</p>

with residents, and shall not enlist the services of any contractor who may have contact with residents, who—

(1) Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C. 1997);

(2) Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or

(3) Has been civilly or administratively adjudicated to have engaged in the activity described in paragraph (a)(2) of this section.

Provision (f): The agency shall also ask all applicants and employees who may have contact with residents directly about previous misconduct described in paragraph (a) of this section in written applications or interviews for hiring or promotions and in any interviews or written self-evaluations conducted as part of reviews of current employees. The agency shall also impose upon employees a continuing affirmative duty to disclose any such misconduct.

PREA Policy 9.18 and Missouri Department of Social Services (DSS) Policy 2-107 Background Checks address hiring and promotion processes and decisions and background checks. The policies and interview with the human resources staff responsible for personnel matters revealed details about the hiring process and completion of background checks. Policies address hiring and other personnel matters, including and not limited to promotion processes including child abuse registries. The background checks occur initially and annually thereafter, aligned with policy. The personnel files include the completed background checks and hiring documents.

Through the employment application process, prior to hire and promotion, applicants are asked to verify, in writing, the following information which is a part of the job application:

- Any engagement in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C. 1997);
- Convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse;
- Been civilly or administratively adjudicated to have engaged in the activity described above.

The interview and a review of policies provided details about the hiring process, completion of background checks, and grounds for termination. The forms completed and included in the personnel files are responsive to the provisions of this standard. All applicants are asked about any prior misconduct involving any sexual activity. The documentation, interview and Policies support the facility does

not hire anyone who has engaged in sexual abuse or anyone who has used or attempted to use force in the community to engage in sexual abuse. This documentation is a part of the background information packet, required for conducting the background checks.

Provision (b):

The agency shall consider any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents.

A review of the Application for Employment and DYS Addendum determined information is gleaned from applicants regarding previously related sexual misconduct allegations and convictions as also explained during the interview. The facility considers whether to hire or promote anyone or enlist contract services of anyone who may have contact with youth, who have engaged in previous incidents of sexual abuse or sexual harassment. The interview and documentation confirmed the facility adheres to the policies.

Provisions (c) and (d):

Provision (c): Before hiring new employees who may have contact with residents, the agency shall:

- (1) Perform a criminal background records check;
- (2) Consult any child abuse registry maintained by the State or locality in which the employee would work; and
- (3) Consistent with Federal, State, and local law, make its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse.

Provision (d): The agency shall also perform a criminal background records check, and consult applicable child abuse registries, before enlisting the services of any contractor who may have contact with residents.

The background check process includes consulting a child abuse registry as confirmed during the interview. The prospective employee or contractor has to be cleared through the background checks that include State and Federal checks. Best efforts would be made to identify information of incidents or allegations of sexual abuse by a prospective employee.

Provision (e):

The agency shall either conduct criminal background records checks at least every five years of current employees and contractors who may have contact with residents or have in place a system for otherwise capturing such information for current employees.

Initial background checks are conducted and are conducted every year thereafter. The interview, review of documentation and a review of the policy provide details about the hiring process, completion of background checks, and the grounds for termination in accordance with the PREA standard.

Policies and practices are aligned with the requirements of the standard however they provide background checks occur prior to employment and every year thereafter. The interview, supported by policy, revealed staff has a continuing duty to report related misconduct. Omission of such conduct and providing false information are grounds for termination. All staff members have access to policies electronically and/or access to printed materials.

Provision (g):

Material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination.

The omission of sexual misconduct information or providing false information is grounds for termination in accordance with policy. This information is also covered in the new employee orientation training. Staff members have a continuing duty to report related misconduct; employees are informed during new employee orientation that they have a continuing affirmative duty to disclose any such misconduct. Additionally, the facility gets electronic notification within five days if an employee is arrested.

Provision (h):

Unless prohibited by law, the agency shall provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work.

The interview revealed that when a former employee applies for work at another institution, upon the request from that institution, information will be provided regarding substantiated allegations of sexual abuse or sexual harassment involving a former employee.

Conclusion:

Based upon the review and analysis of the available evidence, the Auditor has determined the facility meets the provisions of the standard.

Memorandum, Re: PREA Investigations

Critical Incident Reports

SAFE-Care Provider List

Agency Staff Members' Qualifications

Interviews:

Superintendent/PREA Compliance Manager

Advocacy Agency Representative

Regional Administrator

Provisions (a) and (b):

Provision (a): To the extent the agency is responsible for investigating allegations of sexual abuse, the agency shall follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions. Provision (b): The protocol shall be developmentally appropriate for youth and, as appropriate, shall be adapted from or otherwise based on the most recent edition of the U.S. Department of Justice's Office on Violence Against Women publication, "A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents," or similarly comprehensive and authoritative protocols developed after 2011.

Policy 9.18 and staff interviews confirmed facility and agency staff members are not responsible for conducting administrative or criminal investigations. Allegations of sexual abuse and sexual harassment regarding residents under 18 years old are investigated by the Missouri Children's Division, Out of Home Investigation Unit (CD-OHI). If local law enforcement is not already involved, CD-OHI will make contact for a co-investigation. Allegations regarding residents 18 years and older will be investigated by the Division of Legal Services (DLS) Investigation Unit. DLS will contact local law enforcement for a co-investigation if they are not already involved due to being called directly by facility staff.

Both agencies utilize a uniform protocol regarding PREA investigations. The statewide PREA Coordinator communicates with and has provided CD-OHI and DLS representatives with the related PREA Standards and information regarding PREA investigations. There were two allegations of sexual abuse during this audit period and no allegations of sexual harassment. One allegation was youth-on-youth and the other was staff-on-youth. The youth-on-youth allegation was determined to be substantiated and the other one was unsubstantiated.

Provision (c):

The agency shall offer all residents who experience sexual abuse access to forensic

medical examinations whether on-site or at an outside facility, without financial cost, where evidentiarily or medically appropriate. Such examinations shall be performed by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs) where possible. If SAFEs or SANEs cannot be made available, the examination can be performed by other qualified medical practitioners. The agency shall document its efforts to provide SAFEs or SANEs.

Forensic medical examinations are conducted by providers through Sexual Assault Forensic Examination-Child Abuse Resource and Education (SAFE-Care). The providers are physicians, nurse practitioners, or physician assistants, who are specially trained to provide medical evaluations of youth when abuse or neglect is suspected. The SAFE-CARE team provides services to youth affiliated with Child Safe of Central Missouri, Inc. There was one forensic medical examination conducted in the last 12 months. The victim was taken to the hospital by facility staff and the forensic medical examination was conducted by a Sexual Assault Forensic Examiner.

Provisions (d) and (e):

Provision (d): The agency shall attempt to make available to the victim a victim advocate from a rape crisis center. If a rape crisis center is not available to provide victim advocate services, the agency shall make available to provide these services a qualified staff member from a community-based organization or a qualified agency staff member. Agencies shall document efforts to secure services from rape crisis centers. For the purpose of this standard, a rape crisis center refers to an entity that provides intervention and related assistance, such as the services specified in 42 U.S.C. 14043g(b)(2)(C), to victims of sexual assault of all ages. The agency may utilize a rape crisis center that is part of a governmental unit as long as the center is not part of the criminal justice system (such as a law enforcement agency) and offers a comparable level of confidentiality as a nongovernmental entity that provides similar victim services. Provision (e): As requested by the victim, the victim advocate, qualified agency staff member, or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interviews and shall provide emotional support, crisis intervention, information, and referrals.

A memorandum was reviewed containing communication of the attempt to provide victim advocacy services with Synergy Services. The agencies have not entered into a formal MOU; however, according to the advocacy agency representative and written correspondence, the agency may assist with advocacy services. Both agencies are clear that victim advocacy services will be provided at no cost to the victim. The facility/agency also has qualified staff members such as mental health, counseling, and medical staff that may provide support services to a victim until a more permanent solution is confirmed.

The facility's medical staff provided accompaniment services for the victim regarding the youth-on-youth sexual abuse incident. Upon return to the hospital, the victim was transferred to another facility and the perpetrator was placed in the juvenile detention center. The Regional Administrator is in the process of

determining the most appropriate provider for the provision of services through a community agency or internally with agency staff. The alternative to a community agency will be an identified staff member that will serve as the formal victim advocate if a formal agreement cannot be reached with a community agency which would provide all components of the standard. Information regarding the advocacy agency is provided to the residents and the address is posted during the interim until more permanent services are agreed upon or arranged. The advocacy agency information will be updated or changed based on the completed arrangements.

Provisions (f) and (g):

Provision (f): To the extent the agency itself is not responsible for investigating allegations of sexual abuse, the agency shall request that the investigating agency follow the requirements of paragraphs (a) through (f) of this section. Provision (g): The requirements of paragraphs (a) through (f) of this section shall also apply to :(1) Any State entity outside of the agency that is responsible for investigating allegations of sexual abuse in juvenile facilities; and (2) Any Department of Justice component that is responsible for investigating allegations of sexual abuse in juvenile facilities.

Investigations of allegations of sexual abuse or sexual harassment that are criminal in nature are investigated by law enforcement. Allegations of sexual abuse and sexual harassment regarding residents under 18 years old will be investigated by the Missouri Children's Division, Out of Home Investigation Unit (CD-OHI). If local law enforcement is not already involved, CD-OHI will make contact for a co-investigation. Allegations regarding residents 18 years and older will be investigated by the Division of Legal Services (DLS) Investigation Unit. DLS will contact local law enforcement for a co-investigation if they are not already involved due to being called directly by facility staff. Both agencies utilize a uniform protocol regarding PREA investigations. The memorandum from the Chief of Investigations, Division of Legal Services, Investigations Unit, provides the required information regarding PREA investigations. The three investigative entities (CD-OHI, DLS, law enforcement) investigated the youth-on-youth allegation of sexual abuse. The investigative findings by DLS was referred for prosecution regarding two staff members.

Provision (h):

For the purposes of this standard, a qualified agency staff member or a qualified community-based staff member shall be an individual who has been screened for appropriateness to serve in this role and has received education concerning sexual assault and forensic examination issues in general.

The Regional Administrator is seeking arrangements for victim advocacy services as confirmed through interviews and written correspondence. The background and training of some treatment staff provide them with familiarity of general sexual assault and forensic examination issues and they may provide services to a resident as an advocate or support a community advocate if needed prior to formal arrangements with a community agency or agency staff. The facility's medical staff

	<p>provided accompaniment services for the victim regarding the youth-on-youth sexual abuse incident.</p> <p>Conclusion:</p> <p>Based upon the review and analysis of the available evidence, the Auditor determined the facility is in compliance with the provisions of this standard.</p>

Staff members are aware of the requirements as verified through interviews. During the past 12 months there were two allegations of sexual abuse; staff-on-youth and youth-on-youth. There were no allegations of sexual harassment. The agency's website provides the information and policy for reporting allegations of sexual abuse and sexual harassment. PREA information, including how to report allegations, is posted in various areas of the facility. The information is posted in areas accessible to youth, staff, contractors, and visitors. Allegations of sexual abuse and sexual harassment regarding residents may be investigated by the Missouri Children's Division, Out of Home Investigation Unit (CD-</p>

OHI), Division of Legal Services (DLS) Investigation Unit, and/or law enforcement.

Provisions (b) and (c):

Provision (b): The agency shall have in place a policy to ensure that allegations of sexual abuse or sexual harassment are referred for investigation to an agency with the legal authority to conduct criminal investigations, unless the allegation does not involve potentially criminal behavior. The agency shall publish such policy on its website or, if it does not have one, make the policy available through other means. The agency shall document all such referrals. Provision (c): If a separate entity is responsible for conducting criminal investigations, such publication shall describe the responsibilities of both the agency and the investigating entity.

Policies 3.8 Employee Conduct, 6.1 Programmatic Rights of Youth and Grievance Process, and 9.18, PREA; interviews with the Superintendent, random staff, Investigative Staff, and PREA Coordinator, ensure allegations of sexual abuse and sexual harassment are investigated by the CD-OHI, DLS, and/or law enforcement where indicated. The Superintendent, Assistant Regional Administrator, Regional Administrator, PREA Coordinator ensure allegations of sexual abuse and sexual harassment are investigated. Allegations regarding residents 18 years and older will be investigated by the DLS Investigation Unit. The Missouri Department of Social Services' investigative unit will contact local law enforcement for a co-investigation if they are not already involved due to being called directly by facility staff. When residents under 18 are involved in an allegation and DLS is involved in the investigation, the investigative unit will contact the CD-OHI. The investigative entities utilize a uniform protocol regarding PREA investigations.

Provision (d):

Any State entity responsible for conducting administrative or criminal investigations of sexual abuse or sexual harassment in juvenile facilities shall have in place a policy governing the conduct of such investigations.

The State agencies, Missouri Children's Division and Division of Legal Services have policies governing administrative investigations. Trained investigators are used by both agencies. Allegations that are criminal in nature are referred to law enforcement and may be investigated in cooperation with the Division of Legal Services.

Provision (e):

Any Department of Justice component responsible for conducting administrative or criminal investigations of sexual abuse or sexual harassment in juvenile facilities shall have in place a policy governing the conduct of such investigations.

The Department of Justice is not responsible for conducting administrative or criminal investigations of sexual abuse or sexual harassment in this facility.

Conclusion:

Based upon the review and analysis of the available evidence, the Auditor

determined the facility is compliant with this standard.

Documents:

Agency Policy 9.18, PREA

Agency Policy 3.18, Training

Training Curriculum

Interviews:

Random Staff

Provisions (a) and (c):

Provision (a): The agency shall train all employees who may have contact with residents on:

- (1) Its zero-tolerance policy for sexual abuse and sexual harassment;
- (2) How to fulfill their responsibilities under agency sexual abuse and sexual harassment prevention, detection, reporting, and response policies and procedures;
- (3) Residents' right to be free from sexual abuse and sexual harassment;
- (4) The right of residents and employees to be free from retaliation for reporting sexual abuse and sexual harassment;
- (5) The dynamics of sexual abuse and sexual harassment in juvenile facilities;
- (6) The common reactions of juvenile victims of sexual abuse and sexual harassment;
- (7) How to detect and respond to signs of threatened and actual sexual abuse and how to distinguish between consensual sexual contact and sexual abuse between residents;
- (8) How to avoid inappropriate relationships with residents;
- (9) How to communicate effectively and professionally with residents, including lesbian, gay, bisexual, transgender, intersex, or gender nonconforming residents; and

(10) How to comply with relevant laws related to mandatory reporting of sexual abuse to outside authorities;

(11) Relevant laws regarding the applicable age of consent.

Provision (c): All current employees who have not received such training shall be trained within one year of the effective date of the PREA standards, and the agency shall provide each employee with refresher training every two years to ensure that all employees know the agency's current sexual abuse and sexual harassment policies and procedures. In years in which an employee does not receive refresher training, the agency shall provide refresher information on current sexual abuse and sexual harassment policies.

Interviewed staff members were generally familiar with the PREA information as contained in policy and the PREA training module for staff. Training refreshers are provided annually. PREA training is provided to staff, as indicated by a review of policies and training documents and interviews. The training is provided as prescribed in the standard provision.

Provision (b):

Such training shall be tailored to the unique needs and attributes of residents of juvenile facilities and to the gender of the residents at the employee's facility. The employee shall receive additional training if the employee is reassigned from a facility that houses only male residents to a facility that houses only female residents, or vice versa.

The facility houses males and the training considers the needs of the population served as well as the training being adaptable to all populations. Policies and interviews support training being tailored to the needs and attributes of the population served. All staff within the facility are provided PREA training.

Provision (d):

The agency shall document, through employee signature or electronic verification that employees understand the training they have received.

The PREA training reviewed was documented electronically and through sign-in sheets and verified through staff interviews. Training certificates and acknowledgement statements also document staff training.

Conclusion:

Based upon the review and analysis of the available evidence, the Auditor determined the facility is in compliance with the provisions of this standard.

Contractor

Provision (a):

The agency shall ensure that all volunteers and contractors who have contact with residents have been trained on their responsibilities under the agency's sexual abuse and sexual harassment prevention, detection, and response policies and procedures.

Policy requires volunteers and contractors who have contact with residents to be trained regarding PREA and their responsibilities regarding sexual assault prevention, detection, and response to allegations of sexual abuse and sexual harassment. Training includes but is not limited to reporting allegations of sexual abuse and sexual harassment, related definitions, zero-tolerance policy, and maintaining professional relationships with residents. The contractor provides medical services to residents in the facility. There are no volunteers providing services in the facility at this time. Policy 9.18 and review of training records and the interview document the training occurs. The interview with the contractor confirmed their understanding of the facility's zero-tolerance of sexual abuse and sexual harassment.

Provision (b):

The level and type of training provided to volunteers and contractors shall be based on the services they provide and level of contact they have with residents, but all volunteers and contractors who have contact with residents shall be notified of the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents.

The interview confirmed the participants' notification of the zero-tolerance policy and receipt of information on how to report incidents or allegations of sexual abuse and sexual harassment. Based on the interview, participants are informed of their responsibilities regarding sexual abuse prevention, detection, and response to a PREA allegation. The training for volunteers and contractors is based on the services provided.

	<p>Provision (c):</p> <p>The agency shall maintain documentation confirming that volunteers and contractors understand the training they have received.</p> <p>Training is documented and the interview confirmed the receipt and awareness of the PREA training. Provision (b): Within 10 days of intake, the agency shall provide comprehensive age-appropriate education to</p>

residents either in person or through video regarding their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents, and regarding agency policies and procedures for responding to such incidents.

Policies 8.3 Individual Education Program Special Education-Section 504 and 9.5 Residential Care allow for all youth admitted to the facility receive information about the facility, including PREA education. Directions are provided on how to report allegations of sexual abuse and sexual harassment. They are also informed of the right to be free from retaliation for reporting. The Safety 1st Manual provides information on how to report allegations of sexual abuse and sexual harassment. A sample of signed acknowledgement statements and rosters were reviewed which supported the youths' involvement in PREA education sessions. The Safety 1st Manual is attached to the Student/Parent Handbook which is provided to both youth and parents as indicated. The PREA related information is provided to staff in policies and procedures, training, staff meetings, and posted information.

Provision (c):

Current residents who have not received such education shall be educated within one year of the effective date of the PREA standards, and shall receive education upon transfer to a different facility to the extent that the policies and procedures of the resident's new facility differ from those of the previous facility.

Each youth admitted to the facility receive PREA education. The process for ensuring youth receive the information, including the youth signing a form designated to acknowledge the training, was discussed in the interview. The intake staff and resident interviews and documentation confirmed the PREA education sessions occur. The residents interviewed were aware of their rights regarding PREA and how to report allegations and that they will not be punished for reporting.

Provision (d):

The agency shall provide resident education in formats accessible to all residents, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to residents who have limited reading skills.

The facility has the capability of providing the PREA education in formats accessible to all residents including those who may be limited English proficient; Deaf; visually impaired, or otherwise disabled, and to residents who have limited reading skills.

The residents have the opportunity to read the Safety 1st Manual and it is also read to them by staff. The facility has the PREA related information posted in the dorms and other areas at various eye levels accessible to residents, staff and visitors. The facility has access to interpretive, translation and other support services as needed. Staff interviews confirmed residents are not used as translators or readers for other residents. Staff from this facility and other agency staff members may be used to provide support and interpreter services to youths as needed and to ensure access to services that will provide disabled residents the opportunity to participate in PREA education sessions. The facility has access to PREA brochures in various

languages and the facility has bilingual staff.

The review of documentation, including policies and procedures, address the rights of residents and access to services. The provision of PREA education and ongoing information is to be provided to residents in a manner sensitive to limited English proficiency and disabilities. The facility staff has access to resources for interpreters and other support services, including services for the hearing impaired, intellectual disabilities, and based on the individual needs of each resident. The targeted interviewees revealed the PREA education is provided in understanding formats such as the PREA education handbook, video, staff's verbal presentation, and refresher information. The targeted interview revealed that the residents have staff to explain information to them and assist with their understanding.

The education, counseling and other staff may assist in providing PREA education sessions with residents that may have a disability. The Group Leader, Assistant Superintendent and Superintendent will assist in securing accommodations needed to address the needs of the residents to ensure equal opportunity to the access of information regarding PREA. The Superintendent ensures access to interpreters and effective professional communicators for residents who may be limited English proficient, hard of hearing, deaf, can't read well, or other disabilities. Written materials will be provided in formats or through materials that ensure effective communication in accordance with Policy 8.3.

Residents with disabilities and who are limited English proficient will be provided with the accommodations that would enable the identified youth to participate in or benefit from all aspects of the PREA education sessions with the goal of preventing, detecting, and responding to sexual abuse and sexual harassment. Contracts exist between the State agency and vendors for language and documenting interpreter services and sign language interpreter services. The contracts and interview with the Superintendent confirm the provision of professional interpreting services as needed to ensure the residents' understanding of PREA and other information. Each resident has an equal opportunity to participate in or benefit from all aspects of the facility's efforts to prevent, detect and respond to sexual abuse and sexual harassment.

PREA information is accessible to residents in English, Spanish and other languages are obtainable where indicated. The facility is capable of providing access to support services for preventing, detecting, and responding to sexual abuse and sexual harassment to residents who are Limited English Proficient, including taking steps to provide interpreters who can interpret effectively, accurately, and impartially. The accommodations for residents may also include providing a copy of the PREA information in Spanish. The grievance form, used for reporting allegations of sexual abuse or sexual harassment in writing, is also available in Spanish.

Provision (e):

The agency shall maintain documentation of resident participation in these education sessions.

Signed acknowledgement statements support the residents' involvement in PREA education sessions. The interviews with the residents and intake staff and documentation confirm PREA education sessions occur. The residents were aware of how to report allegations of sexual abuse and sexual harassment and that they would not be punished for reporting such.

Provision (f):

In addition to providing such education, the agency shall ensure that key information is continuously and readily available or visible to residents through posters, resident handbooks, or other written formats.

The interviews and observations confirmed PREA information is continuously and readily available and visible to residents during their stay in the facility in all parts of the facility. The PREA education materials provide residents information on how to report allegations of sexual abuse and sexual harassment. PREA information is easy to read and is posted in varying eye levels, provided to residents to assist in eliminating incidents of sexual abuse and sexual harassment. Much of the posted information also contains pictures. The printed materials collectively provide information on sexual abuse and sexual harassment; steps victims may take; safety tips; resource information; and reporting information. Each resident is provided a Safety 1st Manual which contains PREA information. The printed materials and posted information were consistent.

Conclusion:

Based upon the review and analysis of the available evidence, interviews, and observations, the Auditor determined the facility is compliant with this standard.

Within 72 hours of the resident's arrival at the facility and periodically throughout a resident's confinement, the agency shall obtain and use information about each resident's personal history and behavior to reduce the risk of sexual abuse by or upon a resident.

Policies and identified staff ensure all youth admitted to the facility are properly screened to reduce the risk of sexual abuse by or upon a resident. Staff and resident interviews and a review of documentation confirmed residents are screened for risk of victimization and abusiveness. The PREA Vulnerability Information Review (PVIR) screening instrument is to be completed within 72 hours of intake, in accordance with policy. The practice is that the instrument is completed on the first day of admission or within 24 hours, based on the interviews with the Risk Screener and residents and the review of documentation. The PVIR is used to obtain the information required by the standard.

The Risk Screener explained the process of completing the PVIR. First she builds a rapport with the resident and then asks the questions from the PVIR in a conversational style. Additional information or cross-reference verification of information is obtained through a review of the court packet and paperwork from the community Service Coordinator assigned to the resident. Policy 6.7 requires an Administrative Case Review be conducted for each resident every six months from date of commitment; this function serves to reassess the risk level of the resident.

Provision (b):

Such assessments shall be conducted using an objective screening instrument.

An objective screening instrument is used to obtain the information required by the standard, including but not limited to prior sexual victimization or abusiveness; self-identification; current charges and offense history; disabilities; and a resident's concern regarding their own safety. The screening instrument allows the risk screener to review and compare the data based on the information received where identified responses can identify any special needs and safety concerns.

Assessments are conducted through the use of the objective primary instrument, PVIR, which contains items that collectively provide a presumptive determination of risk for victimization or abusiveness. Additional assessment tools are used in the facility by staff to collectively measure various risks, including sexual safety.

Provision (c):

At a minimum, the agency shall attempt to ascertain information about:

(1) Prior sexual victimization or abusiveness;

(2) Any gender nonconforming appearance or manner or identification as lesbian, gay, bisexual, transgender, or intersex, and whether the resident may therefore be

- vulnerable to sexual abuse;
- (3) Current charges and offense history;
 - (4) Age;
 - (5) Level of emotional and cognitive development;
 - (6) Physical size and stature;
 - (7) Mental illness or mental disabilities;
 - (8) Intellectual or developmental disabilities;
 - (9) Physical disabilities;
 - (10) The residents' own perception of vulnerability; and
 - (11) Any other specific information about individual residents that may indicate heightened needs for supervision, additional safety precautions, or separation from certain other residents.

The Auditor reviewed the screening instruments and processes and determined the items required by this provision of the standard are included within the instruments used and was also verified by the interviews. The interview with the Risk Screener confirmed awareness of the elements of the risk screening instrument and the use of the instrument was explained. The interviews and review of documentation revealed the practice is that the instrument is generally administered the first day or within 24 hours of admission.

Provision (d):

This information shall be ascertained through conversations with the resident during the intake process and medical and mental health screenings; during classification assessments; and by reviewing court records, case files, facility behavioral records, and other relevant documentation from the resident's files.

The information to complete the risk screening instrument is gleaned from various sources. Information in determining the risk for victimization or abusiveness is obtained through interviewing the youth, review of the court records, any additional paperwork or information from the Service Coordinator, and other assessments conducted prior to and after arrival to the facility. The staff in the facility are aware of the youth's pending arrival and treatment staff and supervisors have the opportunity to review the resident's records in an effort to prepare for the needs prior to arrival. Additional assessments and screenings are completed as the resident moves through the intake process to obtain supportive information for treatment planning and keeping the resident safe.

Provision (e):

The agency shall implement appropriate controls on the dissemination within the

	<p>facility of responses to questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the resident’s detriment by staff or other residents.</p> <p>Staff take appropriate controls to ensure that sensitive information is protected and not exploited by maintaining the files in a locked and secure manner, in locked cabinets behind lockable doors. The agency files are maintained in a confidential manner. The online information on computers is password protected and is only accessible to identified staff. Strong safeguards of confidentiality are practiced by the agency. Staff training includes information regarding confidentiality of information concerning residents.</p> <p>Conclusion:</p> <p>Based upon the review and analysis of the available evidence, the Auditor determined the facility is compliant with this standard.</p>

The information obtained through the administration of the PVIR assists in determining housing, bed, education and other program assignments with the goal of keeping all residents safe and meeting needs of each. The PREA policy</p>

and other agency policies support the requirements of this Standard. Policies collectively provide guidance to staff regarding the use of the information obtained from the screening instrument and any indication for special services.

Provision (b):

Residents may be isolated from others only as a last resort when less restrictive measures are inadequate to keep them and other residents safe, and then only until an alternative means of keeping all residents safe can be arranged. During any period of isolation, agencies shall not deny residents daily large-muscle exercise and any legally required educational programming or special education services.

Residents in isolation shall receive daily visits from a medical or mental health care clinician. Residents shall also have access to other programs and work opportunities to the extent possible.

The agency has policy 9.8, Separation, which governs the process of the resident being removed from the general population; employees must be physically located in the same room with the resident. The resident may be separated for up to 12 hours, at which time, education and treatment services are continued. According to the interviews, no resident has been placed on separation status due to the risk of being sexually abused.

Provision (c):

Lesbian, gay, bisexual, transgender, or intersex residents shall not be placed in particular housing, bed, or other assignments solely on the basis of such identification or status, nor shall agencies consider lesbian, gay, bisexual, transgender, or intersex identification or status as an indicator of likelihood of being sexually abusive.

Gay, bisexual, transgender, or intersex residents are not placed in specific housing solely based on how the residents identify or their status, in accordance with the policy. Staff members are prohibited from considering the identification as an indicator that these residents may be more likely to be sexually abusive. During the site review, there were no rooms or units observed or identified to be reserved for LGBTI youth. Housing assignments for LGBTI youth will be made on a case-by-case basis as supported by policies and interviews.

Provision (d):

In deciding whether to assign a transgender or intersex resident to a facility for male or female residents, and in making other housing and programming assignments, the agency shall consider on a case-by-case basis whether a placement would ensure residents' health and safety, and whether the placement would present management or security problems.

Policy and interviews support that housing and program assignments for transgender or intersex residents will be made on a case-by-case basis which was evident from staff interviews and observations. Staff considers on a case-by-case

basis whether a placement would ensure a resident's health and safety, and whether the placement would present management or security problems. Both interviews indicate awareness and the importance of efforts to keep transgender and intersex youth safe.

Provision (e):

Placement and programming assignments for each transgender or intersex resident shall be reassessed at least twice each year to review any threats to safety experienced by the resident.

The interview with the Risk Screener and policy provide placement and programming assignments for each transgender or intersex resident be reassessed twice per year to determine any threats to safety experienced by the resident. The interview confirmed awareness of policy. There were no transgender or intersex youth identified in the facility during the onsite audit phase.

Provision (f):

A transgender or intersex resident's own views with respect to his or her own safety shall be given serious consideration.

The resident's concern for their own safety is taken into account through the administration of the PVIR and other screening instruments, treatment team meetings, individual sessions and informal interactions with mental health, case management and other staffs. The aforementioned will be the methods used to garner a transgender or intersex resident's views regarding their personal safety. There were no identified transgender or intersex youth in the facility during the onsite audit phase.

Provision (g):

Transgender and intersex residents shall be given the opportunity to shower separately from other residents.

Transgender or intersex youth will be given the opportunity to shower separately from other residents which is supported by interviews and policy.

Provision (h):

If a resident is isolated pursuant to paragraph (b) of this section, the facility shall clearly document:

- (1) The basis for the facility's concern for the resident's safety; and
- (2) The reason why no alternative means of separation can be arranged.

Policy supports that a resident will only be placed on separation status as a last resort for protection and it would only be until other arrangements could be made to keep the resident safe. The provisions of this standard would be provided if such occurs. There weren't any residents determined at risk of sexual victimization that

	<p>were placed in isolation in the 12 months preceding the audit. Interviews revealed familiarity regarding the policy and use of isolation as protective custody.</p> <p>Provision (i):</p> <p>Every 30 days, the facility shall afford each resident described in paragraph (h) of this section a review to determine whether there is a continuing need for separation from the general population.</p> <p>The interview with the Risk Screener revealed awareness of policy, procedures and aligned practices to be implemented when there are residents who identify as transgender or intersex within the population. Each resident’s concern for their own safety is taken into account through the administration of the PVIR and other assessments and, according to resident interviews, various encounters with staff.</p> <p>Policy 9.8 provides guidance to staff when a resident may be separated from others when other crisis intervention strategies are not effective. The facility does not have a separation or isolation room.</p> <p>Conclusion:</p> <p>Based upon the review and analysis of the available evidence, the Auditor determined the facility is compliant with this standard.</p>

Residents

Provision (a):

The agency shall provide multiple internal ways for residents to privately report sexual abuse and sexual harassment, retaliation by other residents or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents.

The Student/Parent Handbook outlines the internal methods for a resident to report allegations of sexual abuse and sexual harassment, including how to privately report sexual abuse and sexual harassment; retaliation for reporting; and staff neglect or violations of responsibilities that may have contributed to such. Residents may report allegations of sexual abuse and sexual harassment through the abuse reporting telephone hotline which is not a part of the facility. The Safety 1st manual, supplement to the Student/Parent Handbook, contains information for reporting allegations of sexual abuse and sexual harassment of residents. Reporting information is also posted in various areas of the facility at varying eye levels and is easily readable.

The residents interviewed identified someone who did not work at the facility that they could report to about sexual abuse or sexual harassment. The random staff and resident interviews collectively revealed residents may use the telephone to access the abuse reporting hotline, submit a complaint in writing, or talk to staff to privately report allegations of sexual abuse and sexual harassment. The resident is provided the hotline number through posted information and other printed information. Residents and random staff reported that reporting an allegation of sexual abuse may also be done in writing, anonymously, and by telling a staff member.

Staff members revealed they are required to immediately report and document all verbal reports received, alleging sexual abuse or sexual harassment. Staff members receive information on how to report allegations of sexual abuse and sexual harassment through policies and procedures, training, staff meetings, and posted information.

Provision (b):

The agency shall also provide at least one way for residents to report abuse or harassment to a public or private entity or office that is not part of the agency and that is able to receive and immediately forward resident reports of sexual abuse and sexual harassment to agency officials, allowing the resident to remain anonymous upon request. Residents detained solely for civil immigration purposes shall be provided information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

The random staff and resident interviews collectively revealed residents may use the telephone to access the abuse reporting hotline, submit a complaint in writing, or talk to staff to privately report allegations of sexual abuse and sexual

harassment. The resident is provided the hotline number through posted and other printed information. The hotline is managed by the Missouri Department of Social Services, independent of the facility. The hotline number was tested at a sister facility; the operator picked up the telephone promptly and explained how the call would be routed if it was not a test call. The caller is given the opportunity to make a report of an allegation and remain anonymous upon request. A designated telephone for residents reporting allegations to the hotline is contained in a private area. Residents are not detained solely for civil immigration purposes. Hotline information for reporting allegations of sexual abuse and sexual harassment is posted throughout the facility including toll free numbers for callers that may be speech or hearing impaired and a number for a text is also provided.

Provision (c):

Staff shall accept reports made verbally, in writing, anonymously, and from third-parties and shall promptly document any verbal reports.

Random staff interviews revealed residents may use the abuse reporting hotline to privately report sexual abuse and sexual harassment. Internal ways a resident may report include completing a grievance form to make the report in writing; talking to a trusted staff member; and third parties may report allegations to the facility staff and through the hotline. The residents and staff were aware third-party reports may be made and that reports may also be made anonymously. The grievance form may be completed and placed in the locked box which is accessible to all residents on a daily basis in each dorm. A recommendation was made that each grievance box be checked daily. Access to writing tools is provided for residents so they are able to complete forms available to them. The residents and staff members are aware of the methods for reporting allegations of sexual abuse and sexual harassment, according to interviews.

Provision (d):

The facility shall provide residents with access to tools necessary to make a written report.

Observations during the site review and interviews revealed writing materials are available for residents to complete forms or write notes regarding an allegation of sexual abuse or sexual harassment. Each resident is provided a handbook which contains information regarding reporting allegations and the residents are informed of the reporting methods during PREA education sessions. The interviews and observations revealed residents are provided the tools to make written allegations of sexual abuse and sexual harassment.

Provision (e):

The agency shall provide a method for staff to privately report sexual abuse and sexual harassment of residents.

The staff interviews collectively revealed staff may privately report allegations of

	<p>sexual abuse and sexual harassment through a call to the abuse reporting hotline, private meeting with supervisor/management; or put the allegation in writing.</p> <p>Conclusion:</p> <p>Based upon the review and analysis of the available evidence and interviews, the Auditor determined the facility is compliant with this standard.</p>

Residents

Regional Administrator

Advocacy Agency Representative

Provision (a):

The facility shall provide residents with access to outside victim advocates for emotional support services related to sexual abuse, by providing, posting, or otherwise making accessible mailing addresses and telephone numbers, including toll free hotline numbers where available, of local, State, or national victim advocacy or rape crisis organizations, and, for persons detained solely for civil immigration purposes, immigrant services agencies. The facility shall enable reasonable communication between residents and these organizations and agencies, in as confidential a manner as possible.

The Student-Parent Handbook references where the information is posted in the facility. There has been two allegations of sexual abuse during this audit period. Advocacy agency services were not requested regarding the youth-on-youth allegation; the role of victim advocate was served by medical staff. The facility and regional staff servicing the facility also have qualified staff members such as medical and mental health providers that may provide support services to a victim as needed. The Regional Administrator is in the process of determining the best course to take for the provision of advocacy services whether through a community agency or internally with agency staff. Victim advocacy services will be provided at no cost to the victim, whether by agency staff or a community provider.

The interviews revealed the majority of the residents knew that victim advocacy services are available outside of the facility. The contact information for the advocacy agency is posted and accessible to all residents and staff. The agency will provide services to the residents through contact from the residents, staff and/or law enforcement. The posted information contains the address and telephone number of the advocacy agency. Currently, written communication exists between regional staff and the Clinical Director from Synergy Services, in lieu of a formal MOU, regarding victim advocacy services. The provision of services was discussed by a telephone conversation with the Clinical Director of Synergy Services. The professional outpatient advocacy services will include but are not limited to accompaniment, telehealth, and support services through Zoom.

Provision (b):

The facility shall inform residents, prior to giving them access, of the extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws.

Policy, interviews and the PREA education sessions provide there will be adherence to confidentiality measures. The agency ensures safeguards regarding confidentiality of information regarding residents and services provided. Information

regarding advocacy services is provided to residents during PREA education. The interviews with residents reveal that PREA education includes information regarding confidentiality of advocacy services.

Provision (c):

The agency shall maintain or attempt to enter into memoranda of understanding or other agreements with community service providers that are able to provide residents with confidential emotional support services related to sexual abuse. The agency shall maintain copies of agreements or documentation showing attempts to enter into such agreements.

The interviews document the provision of advocacy services including but not limited to emotional support which may be provided via Zoom or telehealth sessions, accompaniment, and referrals. Written communication between the agencies and the telephone interview with the advocacy agency representative confirm the availability of advocacy services to an alleged victim. Policy and practice support confidentiality regarding advocacy services to victims of sexual abuse. The Regional Administrator is in the process of determining the best course of action for the provision of advocacy services through continuing with a community agency or internally with agency staff to provide victim advocacy services. Once the services are finalized, the contact information, including telephone number and address for the agency or advocate must be updated or posted for the residents' access, based on the arrangements.

Provision (d):

The facility shall also provide residents with reasonable and confidential access to their attorneys or other legal representation and reasonable access to parents or legal guardians.

The residents have reasonable and confidential access to attorneys and court workers and reasonable access to their parents/legal guardians which is supported by policy, interviews and the Student-Parent Handbook. Residents are provided the opportunity to communicate with guardians, attorneys, court workers, and other approved visitors. All residents interviewed confirmed communication opportunities occur through telephone calls, written communication, and visitation. The residents interviewed stated family may visit and provided the days and times of visitation and telephone calls. Residents confirmed they have someone on the outside to report allegations of sexual abuse and sexual harassment to if needed. During the comprehensive site review the Auditor walked through visitation areas and the use of the telephone for approved telephone calls was reviewed.

Conclusion:

Based upon the review and analysis of the available evidence, the Auditor determined the facility is in compliance with the provisions of this standard.

Policies collectively address confidentiality of information and the conditions for providing information. In accordance with policy, once allegations are reported, staff keep the information confidential regarding what was reported except when necessary for the investigation and treatment and management decisions. The agency practice is strict confidentiality regarding the sharing of sensitive information involving residents and staff.

Provision (d):

(1) Medical and mental health practitioners shall be required to report sexual abuse to designated supervisors and officials pursuant to paragraph (a) of this section, as well as to the designated State or local services agency where required by mandatory reporting laws. (2) Such practitioners shall be required to inform residents at the initiation of services of their duty to report and the limitations of confidentiality.

The clinical staff interviewed indicated residents are informed at the initiation of services of the limitations of confidentiality and the duty of the staff member to report. A dedicated form will be used for this purpose and the interviews revealed that indication may also be documented in the Nurses Notes or case notes. The clinical staff members are also mandated reporters and required by the State to report allegations received regarding sexual abuse and sexual harassment, in accordance with State law.

Provision (e):

(1) Upon receiving any allegation of sexual abuse, the facility head or his or her designee shall promptly report the allegation to the appropriate agency office and to the alleged victim's parents or legal guardians, unless the facility has official documentation showing the parents or legal guardians should not be notified. (2) If the alleged victim is under the guardianship of the child welfare system, the report shall be made to the alleged victim's caseworker instead of the parents or legal guardians. (3) If a juvenile court retains jurisdiction over the alleged victim, the facility head or designee shall also report the allegation to the juvenile's attorney or other legal representative of record within 14 days of receiving the allegation.

Staff interviews revealed awareness of the requirements regarding reporting duties. During interviews, staff members acknowledged they are mandated reporters and a written report must immediately follow a report of allegations or incidents. Staff members also indicated they are required to report allegations made anonymously or by a third-party. Interviews with the medical staff and the regional mental health staff indicated residents are informed at the initiation of services of the limitations of confidentiality and their duty to report allegations of sexual abuse. does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating.

Policy, training and interviews provide that upon learning of an allegation that a resident was sexually abused, the general staff response collectively include the elements of the Standard. The coordinated response plan, First Responder Protocols for Sexual Abuse, require any staff acting as a first responder to summarily separate the alleged victim from the alleged abuser; call for help; and take the appropriate steps for the preservation and collection of any evidence. The First Responder Protocols, in addition to other instructions, direct the first responder to request the alleged victim does not wash; brush their teeth; change clothes; wash; eat; use the toilet; or do anything that may destroy evidence. Documentation indicate that staff members are aware of their duties and responsibilities as first responders, including protecting the scene and evidence collection..

Provision (b):

If the first staff responder is not a security staff member, the responder shall be required to request that the alleged victim not take any actions that could destroy physical evidence, and then notify security staff.

The non-security staff who may act as a first responder will request that physical evidence be preserved and contact direct care staff for assistance. There were no allegations or incidents where a non-security staff member had to act as a first responder in the last 12 months.

Conclusion:

Based upon the review and analysis of the available evidence and interviews, the Auditor determined the facility is compliant with this standard.

Retaliation Monitoring Form

Interviews:

Superintendent/Retaliation Monitor

Agency Head Designee

Provision (a):

The agency shall establish a policy to protect all residents and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other residents or staff and shall designate which staff members or departments are charged with monitoring retaliation.

Policy provides for protecting residents and staff who report sexual abuse or sexual harassment, or cooperate with sexual abuse or sexual harassment investigations from retaliation by other residents, or staff. The Superintendent is responsible for conducting and ensuring retaliation monitoring occurs. The retaliation monitoring activities are documented on the dedicated form and include any actions taken during monitoring activities. Policies 9.18 and 2-101 and the interviews collectively provide protection to residents and staff from retaliation. No retaliation monitoring occurred due to one allegation, youth-on-youth, provided that both residents were moved to other facilities. Regarding the allegation of staff-on-youth, the alleged perpetrator had already resigned when the allegation was made by another staff (third-party).

Provision (b):

The agency shall employ multiple protection measures, such as housing changes or transfers for resident victims or abusers, removal of alleged staff or resident abusers from contact with victims, and emotional support services for residents or staff that fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations.

Protective measures identified include but are not limited to housing changes for resident victims or abusers; coaching; moving a resident from the program; termination of staff; and discipline. The retaliation monitoring will be documented on the dedicated form. According to the Retaliation Monitor, the monitoring activities will include but not limited to face-to-face checks; observations of interactions and group dynamics; review of logbooks for any helpful information; review of school performance; and review of changes in employee work habits.

Provision (c):

For at least 90 days following a report of sexual abuse, the agency shall monitor the conduct or treatment of residents or staff who reported the sexual abuse and of residents who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by residents or staff, and shall act

promptly to remedy any such retaliation. Items the agency should monitor include any resident disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. The agency shall continue such monitoring beyond 90 days if the initial monitoring indicates a continuing need.

Policy provides that the monitoring will occur for at least 90 days to see if there are any changes that may suggest possible retaliation is occurring. The monitoring period may last longer or indefinitely as collectively provided for by policy and the interviews.

Provision (d):

In the case of residents, such monitoring shall also include periodic status checks.

Policy and the interviews indicate that status checks will occur as a part of retaliation monitoring and in the form of face-to-face. The interview with the Retaliation Monitor revealed that initial contact will be made and regular follow-up contact thereafter. Observations revealed the Superintendent/Retaliation Monitor interacts with staff and residents and maintains a rapport with residents and staff.

Provision (e):

If any other individual who cooperates with an investigation expresses a fear of retaliation, the agency shall take appropriate measures to protect that individual against retaliation.

Policy application for retaliation monitoring is extended to those who cooperate with an investigation if there is a concern regarding retaliation. The interview and policies indicate the appropriate measures will be taken to protect any related individuals against retaliation.

Provision (f):

An agency's obligation to monitor shall terminate if the agency determines that the allegation is unfounded.

The obligation to monitor for retaliation terminates if it is determined that the allegation is unfounded. The interviews determined familiarity with the policy requirements regarding retaliation monitoring.

Conclusion:

Based upon the review and analysis of the available evidence, the Auditor determined the facility is compliant with this standard.

	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Documents:

Agency Policy 9.18, PREA

Agency Policy 3.8, Employee Conduct

Agency Record Disposition Schedule

Investigation Report

Interviews:

Investigative Staff

Superintendent/PREA Compliance Manager

PREA Coordinator

Provision (a):

When the agency conducts its own investigations into allegations of sexual abuse and sexual harassment, it shall do so promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports.

There are no facility-based investigators to conduct administrative or criminal investigations. Policies 3.8 Employee Conduct and 9.18, PREA, investigation report, and the interviews ensure allegations of sexual abuse and sexual harassment are investigated by the Missouri Children's Division, Out of Home Investigation Unit (CD-OHI) and law enforcement where indicated. The Superintendent, Assistant Regional Administrator, Regional Administrator, PREA Coordinator ensure allegations of sexual abuse and sexual harassment are investigated by the CD-OHI, Division of Legal Services, and/or local law enforcement where indicated. Allegations of abuse regarding residents 18 years and older will be investigated by the Division of Legal Services (DLS) Investigation Unit. DLS will contact local law enforcement for a co-investigation if they are not already involved due to being called directly by facility staff. When residents under 18 are involved in an allegation of abuse, DLS will also contact the Missouri Children's Division. The investigative entities utilize a uniform protocol regarding PREA investigations.

Provisions (b) and (c):

Provision (b): Where sexual abuse is alleged, the agency shall use investigators who have received special training in sexual abuse investigations involving juvenile victims pursuant to §115.334. Provision (c): Investigators shall gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; shall interview alleged victims, suspected perpetrators, and witnesses; and shall review prior complaints and reports of sexual abuse involving the suspected perpetrator.

The investigative staff members are trained through their agencies, Children's Division and Division of Legal Services. The investigators with the Division of Legal Services may conduct administrative investigations and assist law enforcement with investigations that are criminal in nature. Investigators gather and preserve direct

and circumstantial evidence such as any DNA, logs, text messages, clothing, and statements. Among other activities, the investigator may review video footage and gather witness statements.

Provision (d):

The agency shall not terminate an investigation solely because the source of the allegation recants the allegation.

The interview with the investigative staff confirmed the provision that an investigation is not terminated if the source recants an allegation of sexual abuse or sexual harassment. The review of the investigation reports confirm the practice.

Provision (e):

When the quality of evidence appears to support criminal prosecution, the agency shall conduct compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution.

The law enforcement agency will conduct any compelled interviews.

Provision (f):

The credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and shall not be determined by the person's status as resident or staff. No agency shall require a resident who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation.

The credibility of an alleged victim, suspect, or witness is assessed on an individual basis and nothing is discounted according to the interview with the investigative staff. Credibility is not determined by the person's status as a resident or staff. No resident who alleges sexual abuse will be subjected to a polygraph examination or other truth telling device as a condition for proceeding with the investigation of the allegation, confirmed by the interview and policy.

Provisions (g) and (h):

Provision (g): Administrative investigations: (1) Shall include an effort to determine whether staff actions or failures to act contributed to the abuse. (2) Shall be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. Provision (h): Criminal investigations shall be documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible.

Policies 3.8 Employee Conduct, 6.1 Programmatic Rights of Youth and Grievance Process, and 9.18, PREA; interviews with the Superintendent and other staff ensure

allegations of sexual abuse and sexual harassment are investigated by the Missouri Children's Division, Division of Legal Services and/or law enforcement. The primary responsibility of the Division of Legal Services is to determine whether staff actions or failures to act contributed to the sexual abuse.

The investigative staff described a wholistic approach, used for making the determination and whether opportunities for improvement exist but are not limited to policy and procedures changes, enhanced training, and the need for any re-training for staff. The investigative entities utilize a uniform protocol regarding PREA investigations. All investigations are completed with written reports that include a description of the evidence and investigative facts and findings. The written report contains details regarding the investigation including but not limited to the initial call or allegation; list of interviews; attached exhibits; any police reports; and review of any video.

Provision (i):

Substantiated allegations of conduct that appears to be criminal shall be referred for prosecution.

It is the responsibility of law enforcement personnel to refer cases for prosecution. The youth-on-youth allegation of sexual assault resulted in investigations by the Division of Legal Services and law enforcement. Two staff members were referred for prosecution by the law enforcement agency.

Provision (j):

The agency shall retain all written reports referenced in paragraphs (g) and (h) of this section for as long as the alleged abuser is incarcerated or employed by the agency, plus five years, unless the abuse was committed by a juvenile resident and applicable law requires a shorter period of retention.

The written investigative reports are maintained in accordance with the agency's records retention schedule.

Provision (k):

The departure of the alleged abuser or victim from the employment or control of the facility or agency shall not provide a basis for terminating an investigation.

The interview with investigative staff and review of the investigation report confirmed that upon the start of an investigation, it will not end until the investigation has been completed. The departure of the alleged abuser or victim from the employment or control of the facility will not terminate the investigation.

Provision (l):

Any State entity or Department of Justice component that conducts such investigations shall do so pursuant to the above requirements.

The investigative agencies are aware of the PREA standards requirements through

	<p>the initial sharing of PREA information by the statewide PREA Coordinator.</p> <p>Provision (m):</p> <p>When outside agencies investigate sexual abuse, the facility shall cooperate with outside investigators and shall endeavor to remain informed about the progress of the investigation.</p> <p>Staff is to cooperate with investigators and the facility is kept informed of the progress of an investigation through the Regional Administrator due to communication with the statewide PREA Coordinator. The investigative staff maintains contact with the agency's human resources office and the statewide PREA Coordinator.</p> <p>Conclusion:</p> <p>Based upon the review and analysis of the available evidence and interviews, the Auditor determined the facility is compliant with this standard.</p>

The Superintendent/designee remains abreast of an investigation conducted by the investigative entities by serving as a contact person with the Human Resources Manager and the regional staff. There were two allegations of sexual abuse; in one case the residents were transferred to other facilities prior to the end of the investigation. In the other case, the resident did not report the allegation and disagreed with it.</p> <p>Provision (b):</p> <p>If the agency did not conduct the investigation, it shall request the relevant information from the investigative agency in order to inform the resident.</p> <p>The facility/agency does not conduct administrative or criminal investigations regarding sexual abuse or sexual harassment. The Superintendent remains abreast of an investigation through the agency's human resources office and/or Regional Administrator. The results of the investigation will be provided to the resident by the Superintendent and documented on the dedicated form.</p> <p>Provision (c):</p>

Following a resident's allegation that a staff member has committed sexual abuse against the resident, the agency shall subsequently inform the resident (unless the agency has determined that the allegation is unfounded) whenever: (1) The staff member is no longer posted within the resident's unit; (2) The staff member is no longer employed at the facility; (3) The agency learns that the staff member has been indicted on a charge related to sexual abuse within the facility; or (4) The agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility.

Policy requires that following a resident's allegation that a staff member committed sexual abuse against the resident, the resident will be informed of the following, unless it has been determined that the allegation is unfounded, whenever:

- a. The staff member is no longer posted within the resident's housing unit;
- b. The staff member is no longer employed at the facility;
- c. The staff member has been indicted on a charge related to sexual abuse in the facility; and/or
- d. The staff member has been convicted on a charge related to sexual abuse in the facility.

Provision (d):

Following a resident's allegation that he or she has been sexually abused by another resident, the agency shall subsequently inform the alleged victim whenever: (1) The agency learns that the alleged abuser has been indicted on a charge related to sexual abuse within the facility; or (2) The agency learns that the alleged abuser has been convicted on a charge related to sexual abuse within the facility.

Policy provides that following a resident's allegation of being sexually abused by another resident the alleged victim shall be informed whenever:

- a. The alleged abuser is criminally charged related to the sexual abuse.
- b. The alleged abuser is adjudicated on a charge related to sexual abuse within the facility.

Provision (e):

All such notifications or attempted notifications shall be documented.

Policy provides for the notification to the resident be documented and be made by the PREA Compliance Manager. There is familiarity with the requirements by the Superintendent/PREA Compliance Manager. Notifications required to be made in accordance with this standard are the responsibility of the Superintendent/PREA Compliance Manager.

Provision (f):

Mental Health Staff

Provision (a):

A resident may be subject to disciplinary sanctions only pursuant to a formal disciplinary process following an administrative finding that the resident engaged in resident-on-resident sexual abuse or following a criminal finding of guilt for resident-on-resident sexual abuse.

Agency Policy 9.18 addresses this standard and provides that residents found to have sexually harmed others will be offered therapy, counseling, or other interventions designed to address and correct the underlying reasons for the behavior. The resident's treatment plan may be adjusted as a result of an administration investigation. A resident may also be removed from the facility as a result of administrative or criminal findings of an investigation, as demonstrated during this audit period.

Provision (b):

Any disciplinary sanctions shall be commensurate with the nature and circumstances of the abuse committed, the resident's disciplinary history, and the sanctions imposed for comparable offenses by other residents with similar histories. In the event a disciplinary sanction results in the isolation of a resident, agencies shall not deny the resident daily large-muscle exercise or access to any legally required educational programming or special education services. Residents in isolation shall receive daily visits from a medical or mental health care clinician. Residents shall also have access to other programs and work opportunities to the extent possible.

Reportedly, the facility does not issue disciplinary sanctions. Supportive counseling or other interventions will be offered to address and correct the underlying reasons or motivations for abuse when the resident remains in or returns to the facility after an incident. Any type interventions or treatment services provided are not as a condition for the resident to access education or other programs. Residents who may be separated from the general population will continue to receive education and treatment services, in accordance with policy.

Provision (c):

The disciplinary process shall consider whether a resident's mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed.

Treatment modalities consider whether a resident's mental disabilities or mental illness contributed to a resident's behavior. Disciplinary sanctions are not issued; adverse behavior is dealt with therapeutically if the resident remains in the facility.

Provision (d):

If the facility offers therapy, counseling, or other interventions designed to address

and correct underlying reasons or motivations for the abuse, the facility shall consider whether to offer the offending resident participation in such interventions. The agency may require participation in such interventions as a condition of access to any rewards-based behavior management system or other behavior-based incentives, but not as a condition to access to general programming or education.

The facility offers intervention services to address underlying reasons or motivations for a victim's abuse. The interviews with the facility and regional medical and mental health staff revealed that it would be considered whether to offer the offending resident intervention services designed to address and correct underlying reasons or motivations for the abuse participation. The facility would not require participation in such interventions as a condition for participation in the behavior management system or to access general programming or education as determined from the interviews. Staff members are equipped to develop treatment planning and interventions to address underlying reasons or motivations for the abuse with alleged victims and offending residents. Mental health services are also provided to the facility by a contractor through telehealth medicine.

Provision (e):

The agency may discipline a resident for sexual contact with staff only upon a finding that the staff member did not consent to such contact.

Policy provides that actions be taken regarding contact with staff only upon a finding that the staff member did not consent to such contact.

Provision (f):

For the purpose of disciplinary action, a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation.

Any resident reporting in good faith shall be immune from any civil or criminal liability. A report of sexual abuse made in good faith based on the belief that the alleged incident occurred does not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation.

Provision (g):

An agency may, in its discretion, prohibit all sexual activity between residents and may discipline residents for such activity. An agency may not, however, deem such activity to constitute sexual abuse if it determines that the activity is not coerced.

Policy and practice prohibit any sexual conduct between residents. The act constitutes a rule violation when it is not coerced. Referrals are made to the investigative entities and court processes occur after determination the sexual activity was coerced.

	<p>Conclusion:</p> <p>Based on the available evidence and interviews, the Auditor concluded the facility is compliant with the standard.</p>

offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening.

Policies 7.2 and 9.18 address medical and mental health screenings and a follow-up meeting with a medical or mental health practitioner when a youth discloses prior incidents of sexual abuse as a victim or perpetrator. Policy 9.18 provides the follow-up meeting must be held within 14 days of the risk screening; the youth are generally seen the same or next day. The interviews with clinical staff and targeted interviewee, and review of documentation confirmed their understanding of the practice implemented in the facility.

Provision (c):

Any information related to sexual victimization or abusiveness that occurred in an institutional setting shall be strictly limited to medical and mental health practitioners and other staff, as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by Federal, State, or local law.

Medical and mental health information is to be shared with other staff if it is required for security and management decisions regarding sexual abuse history. Information related to sexual victimization or abusiveness that occurred in an institutional setting is limited to clinical and treatment staff and to other staff, based on their need to know, to make effective management decisions. During the comprehensive site review, the files were observed to be maintained in a secure manner in a secure area.

Provision (d):

Medical and mental health practitioners shall obtain informed consent from residents before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the resident is under the age of 18.

Policy addresses informed consent being obtained for residents 18 years or over prior to clinical personnel reporting information disclosed about prior sexual victimization that did not occur in an institutional setting. An agency consent form for youth 18 years and older exists and is to be explained to and signed by the resident prior to medical or mental health staff reporting information disclosed about prior sexual victimization not occurring in an institutional setting. The notation may also be documented in the Nurse's or case notes.

Conclusion:

Based upon the review and analysis of the available evidence, the Auditor determined the facility is compliant with this standard.

Provision (a):

Resident victims of sexual abuse shall receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by medical and mental health practitioners according to their professional judgment.

Policy 9.18 provides for emergency medical care and crisis intervention services. Processes and services are in place for a victim to receive timely access to sexually transmitted infection prophylaxis, where medically appropriate. Residents have unimpeded access to emergency services. Medical and mental health services are determined according to the professional judgment of the medical or mental health practitioner. Policy and written coordinated response plan provide guidance to staff in protecting youth and contacting the appropriate staff regarding allegations or incidents of sexual abuse. The facility and regional clinical staff are knowledgeable of actions to take regarding an incident of sexual abuse. Based on both interviews, follow-up services are provided at the facility and include but are not limit to medication management; health education; trauma treatment; and relaxation techniques (how to quiet your mind).

Provision (b):

If no qualified medical or mental health practitioners are on duty at the time a report of recent abuse is made, staff first responders shall take preliminary steps to protect the victim pursuant to §115.362 and shall immediately notify the appropriate medical and mental health practitioners.

The coordinated response plan and policy provide guidance to staff in protecting residents and for contacting the appropriate staff and agencies regarding

allegations or incidents of sexual abuse, including contacting treatment staff and investigative entities. A review of the documentation and observations of the interactions among residents and staff during the onsite audit phase, and the interviews indicated unimpeded medical and crisis intervention services are available to an alleged victim of sexual abuse. Staff training also prepares staff members to properly report sexual abuse, protect the alleged victim and notify the appropriate staff and investigative entities. The medical and mental health staff's interviews and documentation revealed a cooperative working relationship and that immediate medical care and crisis intervention services are provided to a victim of sexual abuse. There was one allegation of sexual abuse occurring in the facility and clinical intervention was required. The victim was subsequently transferred to another facility and the perpetrator was taken to the juvenile detention center.

Provision (c):

Resident victims of sexual abuse while incarcerated shall be offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate.

Policy, review of documentation and interviews confirmed processes and services are in place for a victim to receive timely access to sexually transmitted infection prophylaxis at the hospital, where medically appropriate. Follow-up services may be provided by the facility's medical and mental health staff members, supported by regional staff, to provide support services coordinated by facility staff as needed and services not available within the facility will be contracted. The standard of care within the facility ensures the appropriate medical and mental health follow-up services as needed. Follow-up services will include but not be limited to: trauma treatment; relaxation techniques; follow-up with physician and/or psychiatrist; medication management if needed; and health education.

Provision (d):

Treatment services shall be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

It is documented by policy and understood by medical and mental health staff that treatment services will be provided at no cost to the victim, whether or not the victim names the abuser, or whether or not the victim cooperates with the investigation. According to the interviews, follow-up services will be provided at the facility and mental health services may be arranged for after release from the facility.

Conclusion:

Based on the evidence reviewed and interviews, the Auditor determined the facility is compliant with this standard.

The interviews and documented actions of staff revealed that follow-up services are provided that include but are not limited to monitoring; physician/psychiatric follow-up; medication management; trauma and other treatment services; and referral services as needed. One resident was transferred to the hospital after an allegation of sexual assault and was given a forensic medical examination.</p> <p>Provision (b):</p> <p>The evaluation and treatment of such victims shall include, as appropriate, follow-up services, treatment plans, and, when necessary, referrals for continued care following their transfer to, or placement in, other facilities, or their release from custody.</p> <p>Interviews and documentation of encounters confirm on-going medical and mental health care will be provided as appropriate and will include but not be limited to treatment planning; evaluations, clinical follow-up and referrals as needed. Specialized treatment may also be provided by clinicians on site and through contract, referral and/or telehealth services. Any directions contained in the discharge summary will be followed.</p> <p>Provision (c):</p>

The facility shall provide such victims with medical and mental health services consistent with the community level of care.

Review of policies, interviews and observations during the comprehensive site review indicated medical and mental health services are consistent with the community level of care. Treatment services may be provided by facility staff and contract services if needed. The interviews and observations support that treatment services at the facility are consistent with the community level of care. Policies ensure ongoing medical and mental health treatment to residents. The interview with the medical and mental health staff and policies confirmed on-going medical and mental health care will be provided for sexual abuse victims and abusers, as appropriate.

Provision (d):

Resident victims of sexually abusive vaginal penetration while incarcerated shall be offered pregnancy tests.

This is a facility for male juvenile offenders.

Provision (e):

If pregnancy results from conduct specified in paragraph (d) of this section, such victims shall receive timely and comprehensive information about and timely access to all lawful pregnancy-related medical services.

The current population is male.

Provision (f):

Resident victims of sexual abuse while incarcerated shall be offered tests for sexually transmitted infections as medically appropriate.

The interviews and policy provide that victims of sexual abuse are provided tests for sexually transmitted infections as medically appropriate at the hospital and as confirmed by the medical and mental health staff. Testing conducted at the hospital may be followed-up on at the facility and treatment provided.

Provision (g):

Treatment services shall be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

All treatment services are provided at no cost to the victim and whether or not the victim names the abuser or cooperates with the investigation, according to policy and interviews.

Provision (h):

The facility shall attempt to conduct a mental health evaluation of all known

	<p>resident-on-resident abusers within 60 days of learning of such abuse history and offer treatment when deemed appropriate by mental health practitioners.</p> <p>The interview with mental health staff and policy confirmed the resident will get a mental health evaluation in accordance with the Standard upon knowing of resident-on-resident sexual abuse history and offer appropriate treatment. Medical and mental health evaluations and treatment will be offered to resident victims of sexual abuse. Policy provides for interventions designed to address the underlying reasons for residents who have harmed others. Telehealth services are also provided based on a resident's identified needs.</p> <p>Conclusion:</p> <p>Based upon the review and analysis of the documentation, the Auditor determined the facility is compliant with this standard.</p>

Both allegations were</p>

investigated by the investigative entities; the staff-on-youth allegation was determined to be unsubstantiated and the youth-on-youth allegation was substantiated. Policies and procedures 9.18-PREA and 9.17-Critical Incidents provide for an incident review to be conducted within 30 days of the completion of an investigation of sexual abuse where the findings were substantiated or unsubstantiated. Policy and the interview with the incident review team member provide the requirements of the standard for the areas to be assessed by the incident review team which are aligned with the provision of the Standard. The interview, policy and Critical Incident Review Form collectively provide significant considerations, including but not limited to: motivation for the incident; review of area of occurrence; staffing ratio and deployment of staff; potential impact of incident; and actions taken.

Provision (b):

Such review shall ordinarily occur within 30 days of the conclusion of the investigation.

Policy requires that the review occurs within 30 days of the conclusion of the investigation. The interviews and Critical Incident Review Forms, used to document the incident review team meetings, confirmed incident reviews occur within 30 days of completion of the investigation. The interviews revealed knowledge of the purpose of the incident review process. The incident review team member stated the purpose of the review team meeting includes discussions and review of actions that should have been taken and what could have been done better.

Provision (c):

The incident review team shall include upper-level management officials, with input from line supervisors, investigators, and medical or mental health practitioners.

The required positions of the team members, including regional staff, are identified by policy and was identified during the interview of the incident review team member. The interviews revealed knowledge of the purpose of the incident review team and its role in preventing subsequent incidents of sexual abuse. According to the interviews, the team considers measures to take to prevent the incident from happening again. The incident review team consists of the Deputy Director, Regional Administrator, Assistant Regional Administrator, Facility Manager, Youth Group Leaders, with input from investigators and medical or mental health providers. The make-up of the incident review team is stated in policy and is recorded on the Critical Incident Review Form.

Provision (d):

The review team shall:

- (1) Consider whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse;
- (2) Consider whether the incident or allegation was motivated by race; ethnicity;

gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or, gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility;

(3) Examine the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse.

(4) Assess the adequacy of staffing levels in that area during different shifts;

(5) Assess whether monitoring technology should be deployed or augmented to supplement supervision by staff; and

(6) Prepare a report of its findings, including but not necessarily limited to determinations made pursuant to paragraphs (d)(1)-(d)(5) of this section, and any recommendations for improvement and submit such report to the facility head and PREA compliance manager.

Policy, procedures and interviews collectively outline the requirements of the standard for the areas to be assessed by the incident review team. The interviews, completed Critical Incident Review Form, and review of policy confirmed the incident review team is charged with considering the factors identified in this standard provision regarding the results of the investigation. The incident review process is required to be documented and the agency's dedicated form is used which provides the outline for the critical information requested by the agency.

The process and subsequent written report as a result of the incident review team meeting also include learning points obtained through the consideration to strengths, needs, gaps, and discrepancies; potential impact of the incident; and any recommendations for improvement, in accordance with policy and the interviews. Recommendations of actions to be taken from the meeting are to be implemented and they are provided on the form along with the person responsible for implementation and date to be implemented. The review of the meeting minutes recorded on the Critical Incident Review Forms collectively include but are not limited to directives regarding staff supervision and adverse actions against staff or the recording of adverse actions already taken against staff. The reasons for not following the recommendations must be documented in accordance with policy.

Provision (e):

The facility shall implement the recommendations for improvement, or shall document its reasons for not doing so.

Policy indicates the reasons for not following recommendations are documented. The interviews revealed familiarity with the policy requirements. The incident review process allows for the assessment of the circumstances surrounding the incident. A dedicated agency form is used to document the incident review process and includes the addition of recommendations where indicated. The Superintendent is responsible to ensure recommendations are implemented. The form provides for the identification of the immediate person responsible for the action to be taken, the

	<p>date to be implemented, and policy provides for documenting the reason why the recommendation may not be implemented. Interviews with the Superintendent, Regional Administrator and PREA Coordinator confirm the recommendations were implemented as well as additional safeguards regarding the prevention of sexual abuse.</p> <p>Conclusion:</p> <p>Based upon the review of policy, procedures, other documentation, and interviews, the Auditor determined the facility is compliant with this standard.</p>

Provision (c): The incident-based data collected shall include, at a minimum, the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the Department of Justice.</p> <p>Policy 9.18 and supporting documentation confirm the agency collects incident-based, uniform data regarding allegations of sexual abuse at facilities under its direct control, including contractual residential facilities, using a standardized instrument and specific guidelines. The format used for the facilities captures the information required to complete the most recent version of the Survey of Sexual Victimization, formerly known as the Survey of Sexual Violence, facilitated by the U. S. Department of Justice. Data is collected, aggregated and culminated into an annual report.</p> <p>Provision (b):</p> <p>The agency shall aggregate the incident-based sexual abuse data at least annually.</p>

The agency aggregates the incident-based, uniform data regarding allegations of sexual abuse and sexual harassment. The aggregated data contributes to the development of the annual report for the agency which is supported by the reviewed data and policy.

Provision (d):

The agency shall maintain, review, and collect data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews.

The data is collected and various types of data are identified and related documents regarding PREA information as applicable. Policy and procedures require that statistical information is maintained for various service areas and occurrences, including major incidents and medical and mental health emergencies. The agency collects and maintains data for state-run and contract facilities and aggregates the data which culminates into the agency's annual report.

Provision (e):

The agency also shall obtain incident-based and aggregated data from every private facility with which it contracts for the confinement of its residents.

The agency collects and maintains data for state-run and contract facilities and aggregates the data which culminates into the annual report. The data is collected from the contract facilities and is included in the agency's annual reports. The data is aggregated at the agency's central office level.

Provision (f):

Upon request, the agency shall provide all such data from the previous calendar year to the Department of Justice no later than June 30.

Upon request, the facility completes all such data from the previous calendar year and submits to the Department of Justice in a timely manner based on the year of the most recent version of the Survey of Sexual Victimization, formerly known as the Survey of Sexual Violence.

Conclusion:

Based upon the review and analysis of the documentation and the interviews, the Auditor determined the facility is compliant with this standard.

PREA Compliance Manager

PREA Coordinator/Agency Head Designee

Provision (a):

The agency shall review data collected and aggregated pursuant to §115.387 in order to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices, and training, including:

- (1) Identifying problem areas;
- (2) Taking corrective action on an ongoing basis; and
- (3) Preparing an annual report of its findings and corrective actions for each facility, as well as this agency as a whole.

The interviews support the review of data and its use to improve the agency's PREA efforts. The interviews and review of documentation revealed the collection of PREA related information. Data is reviewed to assess and improve the effectiveness of prevention, detection and response within the agency as well as individual facilities. The data is also primary to preparing annual reports which also include the review of corrective actions taken regarding PREA related incidents. The annual reports contain specific corrective actions that addressed issues identified along the way.

Provisions (b)-(d):

Provision (b): Such report shall include a comparison of the current year's data and corrective actions with those from prior years and shall provide an assessment of the agency's progress in addressing sexual abuse. Provision (c): The agency's report shall be approved by the agency head and made readily available to the public through its website or, if it does not have one, through other means. Provision (d): The agency may redact specific material from the reports when publication would present a clear and specific threat to the safety and security of a facility, but must indicate the nature of the material redacted.

The annual report is prepared through for the agency's central office and includes data from all State-run and contract facilities within the agency. The annual reports are approved by the agency head/designee. There are no personal identifiers in the reports. The annual reports contain PREA related data that represents previous calendar years allowing for the comparison of data. The overarching annual report for the agency is posted on the agency's website, accessible to the public.

The agency shall ensure that the auditor's final report is published on the agency's website if it has one, or is otherwise made readily available to the public.

This facility was previously audited in 2021 and the Auditor confirmed the audit report was posted on the agency's website. This report does not contain any personal identifying information other than required names and job titles. There were no conflicts of interest regarding the completion of this audit. The agency and department policies and procedures; additional documentation; facility practices; and interviews were reviewed regarding compliance with the PREA Standards and are identified in the posted reports and this current report.

The interviews and Auditor's observation confirm the final audit reports are posted on the agency's website as required. This report demonstrates that the audit findings are based on the following: review of policies and procedures, completed forms and other supporting documentation; interviews with facility and agency staff, residents, volunteers, contractor and victim advocacy agency representative; and observations. The Auditor determined the facility is compliant with this Standard.

	Does the agency provide multiple internal ways for residents to privately report: Sexual abuse and sexual harassment?	yes
	Does the agency provide multiple internal ways for residents to privately report: 2. Retaliation by other residents or staff for reporting sexual abuse and sexual harassment?	yes
	Does the agency provide multiple internal ways for residents to privately report: Staff neglect or violation of responsibilities that may have contributed to such incidents?	yes
115.351 (b)	Resident reporting	
	Does the agency also provide at least one way for residents to report sexual abuse or sexual harassment to a public or private	yes

	entity or office that is not part of the agency?	
	Is that private entity or office able to receive and immediately forward resident reports of sexual abuse and sexual harassment to agency officials?	yes
	Does that private entity or office allow the resident to remain anonymous upon request?	yes
	Are residents detained solely for civil immigration purposes provided information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security to report sexual abuse or harassment?	no
115.351 (c)	Resident reporting	
	Do staff members accept reports of sexual abuse and sexual harassment made verbally, in writing, anonymously, and from third parties?	yes
	Do staff members promptly document any verbal reports of sexual abuse and sexual harassment?	yes
115.351 (d)	Resident reporting	
	Does the facility provide residents with access to tools necessary to make a written report?	yes
115.351 (e)	Resident reporting	
	Does the agency provide a method for staff to privately report sexual abuse and sexual harassment of residents?	yes
115.352 (a)	Exhaustion of administrative remedies	
	Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address resident grievances regarding sexual abuse. This does not mean the agency is exempt simply because a resident does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse.	yes
115.352 (b)	Exhaustion of administrative remedies	

	Does the agency permit residents to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.)	na
	Does the agency always refrain from requiring an resident to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse? (N/A if agency is exempt from this standard.)	na
115.352 (c)	Exhaustion of administrative remedies	
	Does the agency ensure that: A resident who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.)	na
	Does the agency ensure that: Such grievance is not referred to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.)	na
115.352 (d)	Exhaustion of administrative remedies	
	Does the agency issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance? (Computation of the 90-day time period does not include time consumed by residents in preparing any administrative appeal.) (N/A if agency is exempt from this standard.)	na
	If the agency determines that the 90 day timeframe is insufficient to make an appropriate decision and claims an extension of time (the maximum allowable extension of time to respond is 70 days per 115.352(d)(3)) , does the agency notify the resident in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.)	na
	At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension, may a resident consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.)	na
115.352 (e)	Exhaustion of administrative remedies	

	Are third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, permitted to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.)	na
	Are those third parties also permitted to file such requests on behalf of residents? (If a third party, other than a parent or legal guardian, files such a request on behalf of a resident, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.) (N/A if agency is exempt from this standard.)	na
	If the resident declines to have the request processed on his or her behalf, does the agency document the resident's decision? (N/A if agency is exempt from this standard.)	na
	Is a parent or legal guardian of a juvenile allowed to file a grievance regarding allegations of sexual abuse, including appeals, on behalf of such juvenile? (N/A if agency is exempt from this standard.)	na
	If a parent or legal guardian of a juvenile files a grievance (or an appeal) on behalf of a juvenile regarding allegations of sexual abuse, is it the case that those grievances are not conditioned upon the juvenile agreeing to have the request filed on his or her behalf? (N/A if agency is exempt from this standard.)	na
115.352 (f)	Exhaustion of administrative remedies	
	Has the agency established procedures for the filing of an emergency grievance alleging that a resident is subject to a substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.)	na
	After receiving an emergency grievance alleging a resident is subject to a substantial risk of imminent sexual abuse, does the agency immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken? (N/A if agency is exempt from this standard.)	na
	After receiving an emergency grievance described above, does the agency provide an initial response within 48 hours? (N/A if agency is exempt from this standard.)	na

	After receiving an emergency grievance described above, does the agency issue a final agency decision within 5 calendar days? (N/A if agency is exempt from this standard.)	na
	Does the initial response and final agency decision document the agency's determination whether the resident is in substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.)	na
	Does the initial response document the agency's action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.)	na
	Does the agency's final decision document the agency's action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.)	na
115.352 (g)	Exhaustion of administrative remedies	
	If the agency disciplines a resident for filing a grievance related to alleged sexual abuse, does it do so ONLY where the agency demonstrates that the resident filed the grievance in bad faith? (N/A if agency is exempt from this standard.)	na
115.353 (a)	Resident access to outside confidential support services and legal representation
