

Digital Pre-Apprenticeship Program IT Fundamentals and Computer Basics

Program Overview:

Franklin Apprenticeships' Digital Pre-Apprenticeship Program is designed as a bridge to career opportunities for students, new workers and underemployed or unemployed individuals. It is especially appropriate for recently unemployed workers that are seeking a career shift - for example from hospitality or retail into a technology career path.

Additionally, this program is a powerful tool to level the playing field, expanding the talent pool to those populations that are often underrepresented in the tech field. Participants in the program "try before they buy" in terms of entering an IT career. The ability of Pre-Apprentices to perform on the program will be a great indicator to employers that they are serious about working in IT.

The Franklin Apprenticeships Digital Pre-Apprenticeship Program is designed to provide participants with foundational IT knowledge and skills and help candidates determine if they have the aptitude and mindset for a technology career. It is also a direct feeder into a full-time job with an employer as a Franklin Apprenticeships Help Desk Technician Apprentice.

Training Highlights:

- 5-week program, 80 hours (4 hours/day Monday-Thursday)
- Exam voucher and opportunity to sit for the CompTIA IT Fundamentals+ certification provided
- Personal coach assigned to each participant to support soft skill and personal development
- Training delivered Live Online

IT Fundamentals: IT Concepts & Terminology, Infrastructure, Applications and Software, Software Development, Database Fundamentals, Security

Computer Networking Basics: Hardware, Architecture, Operating Systems, Trouble Shooting, TCP/IP & Networking Fundamentals

UMBC Training Centers, a premier provider of professional and technical training for individuals, businesses, non-profit organizations and government agencies. www.umbctraining.com

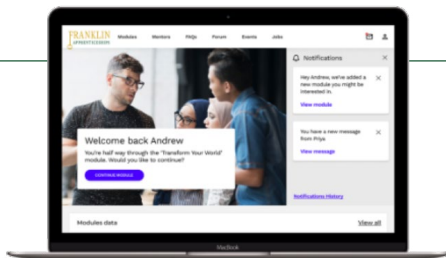

Direct Link to Registered Apprenticeship Program

This Digital Pre-Apprenticeship Program is directly linked to Franklin's existing Help Desk Technician registered apprenticeship program. Upon successful completion, pre-apprentice graduates will be matched with employer openings for interview. Other advantages for pre-apprentice graduates:

- Provides an opportunity to show employers in a concrete and meaningful way an apprentice candidate's work ethic, aptitude and passion to pursue an IT career
- Facilitates the provision of advanced standing where the curriculum of the pre-apprenticeship program overlaps with the apprenticeship program
- Connects program graduates who have determined they do not want to be a Help Desk Technician apprenticeship to an alternative postsecondary education or training option

Success Coach Services and Tools:

- Dedicated Success Coach assigned to each participant as a support resource
- Opportunity to engage with subject matter experts and build peer network through chat platform
- Access additional bite size soft skill content to learn Time Management, Interview Prep, Communication and more!
