SFY 20XX TANF Budget Narrative

Provide a narrative description of the proposed costs associated with the provision of services and the administration of the TANF contract. Break down each cost category by line item as entered on the "Budget Form". Provide specific information regarding how the expense was calculated and ensure that the total of the break down equals the cost category on the Budget Form.

The Department of Social Services has an established policy that provides uniform procedures for allowance of contractor administrative rates. Administrative costs are those associated with the management and oversight of an organization's activities and are a result of all activities of the contractor, such as utilities, rent, administrative salaries, financial staff salaries, and building maintenance, etc. Agencies with Federally Negotiated Indirect Cost Rates (FNICR) will use these rates in determining the Indirect Administrative Contract Cost. Agencies without FNICR will use one of the following: State Negotiated Indirect Cost Rates (SNICR), Cost Allocation Plan (CAP), or the De Minimus rate of 10% of the Modified Total Direct Administrative Cost. Modified Total Direct Administrative cost is equal to the Total Direct Administrative cost less equipment, rent (including WIOA Infrastructure costs) and the amount of each contract over \$25,000. Modified Total Direct Administrative costs are to be calculated at the bottom of the budget form.
