- **Objectives present for each goal, outline steps to achieve the goal and not the same as the goal**
What to look for: Objectives and comments are not the same. The comments entered should support how the objective is achieved and the objective should be the actual step to be taken to reach the goal as determined by the OAS and the conversation with the participant.
Example:
 O1: Complete required program orientation on xx/xx/xx
 C: Participant provided a printout of the orientation dates and a list of what to bring
 O2: Attend classes as scheduled and meet required attendance standard
 C: Reviewed attendance policy of xyz school with Participant
- **Minimum of one short-term and one long-term goal and goals are not the same**

- **Assessment/skills/barriers reflected in objectives and/or goals**

What to look for: SkillUP is rapid attachment. The goal should be to obtain employment to improve self-sufficiency, regardless of what path is chosen to get there.
